COL. WOOD LEAVES

The News tenders its chastened congratulations to Col. W. S. Wood and to the City of Jeffersonville on the information contained in the news columns of Col. Wood's promotion to be an assistant in the office of the Quartermaster General at Washington.

Congratulatiois to Col. Wood because his size and capacity are being given further recognition at Washington.

Congratulations to the City of Jeffersonville because it has had the benefit of Col. Wood's presence here as a citizen and as a worker for fifteen months.

Congratulations also to the country because one of the best men in the Quartermaster's Corps is to take a step up higher where his administrative ability and driving force will count even more than they have done while here.

The City of Jeffersonville will regret, from the selfish point of view, the departure of Col. Wood while rejoicing in his promotion but it is satisfactory to know that Col. Wood is firmly committed to the primacy of the Jeffersonville depot in the lines of supplies handled and that the interests of this depot will be a matter of interest at Washington.

The new officer who take's Col. Wood's place has already proved himself an admirable officer. He will continue along the lines of development already begun and will carry them to further measures of success and development.

Without any comparison with former officers here either express or implied mention may be made of one or two features of Col. Wood's tenancy of the office of depot quartermaster that have made him loom big here. He has in the first place been at least the peer of any of his predecessors in ability, in knowledge of his department, in driving force in capacity to plan and to execute. He has rendered himself especially acceptable by making this city his home and taking a keen interest in the city's welfare. While he has been here it has been his city. He has served valiantly in the Red Cross and Red Triangle drives; he has cared for the welfare of his employes and he has, as a man been democratic and approachable.

We hate to see him go, but we knew from the first day he arrived that he would only tarry here a short time on his way up to higher duties and a wider sphere of [illegible]

COL. WOOD ELEVATED TO WASHINGTON

"Little Giant" Of Quartermaster's Corps Given Promotion

LEAVES NEXT WEEK

Lieut. Col. Robert B. Powers, First Assistant, Succeeds Him

Col. Winthrop S. Wood, United States depot quartermaster at the supply depot in Jeffersonville, received a telegram Wednesday from Washington ordering him to report for duty as early as possible at the office of the quartermaster-general and to turn over the property at Jeffersonville to Lieut. Col. Robert B. Powers, his second in command, who came to Jeffersonville three or four weeks ago from Atlanta, Ga., where he has been depot quartermaster. Col. Wood stated that he expected to leave about the last of next week, as soon as he could make arrangements for the transfer. His family will accompany him.

The transfer will be generally regretted in Jeffersonville because of what Col. Wood has done for the place. The depot under his direction has grown from a place employing less than five hundred to a great plant employing 3,500 men and women while the sewing operatives who are doing work sent out from this station have grown from some eight or ten hundred to about fifteen thousand. Col. Wood has stated that the depot is intended to be and will be the greatest supply depot in the country for the class of supplies handed and that the growth will not be limited by the duration of the war. The transfer is no great surprise to Jeffersonville where it was believed his executive ability and driving force were bound to take him soon to Washington. He will be assistant there to Major General George W. Goethals, acting quartermaster general, in place of General H. D. Sharpe, quartermaster general, who has been made a member of the new war Council.

The growth at the quartermaster's depot, during the fifteen months of Col. Wood's rule there has been phenomenal. The area of ground devoted to the uses of the depot has been quadrupled. Buildings to the value of a million dollars have been erected, are now going up or are projected for the early future. The supplies on hand have increased in value to five million dollars and the quantities are growing daily. The number of employes will be doubled again within the next few months. The commissioned officers have been increased in number from two or three to more than one hundred and the pace has become one of the big industries of Indiana, putting Jeffersonville "on the map," if the public would but realize it, to an extent and in a manner not only never realized but hardly, even dreamed of before.

Col. Wood has been a resident of Jeffersonville and keenly interested in the city's welfare ever since he came here. He is at present only 52, a native of the District of Columbia, graduated from West Point in 1885, a man of wide experience, twice wounded at the battle of San Juan in the Spanish war. Hea was depot quartermaster at Boston when ordered here fifteen months ago.

Col. Robert Powers who succeeds Col. Wood, is an officer held in high regard in military circles. He is a native of Kentucky, will be 47 next month, and was appointed from that state to West Point where he was graduated in 1896 and became second lieutenant in the Tenth United States Cavalry. He was promoted to the rank of captain March 23, 1903, and to that of major July 1, 1916. His elevation to his present rank of lieutenant colonel was during 1917 and since war was declared. The Atlanta depot was established by Col. Powers during the troubles with Mexico.

There is one other lieutenant colonel at the quartermaster's depot here, Lieut. Col. Rufus B. Clark, who will be second in command but is at present absent on sick leave. Col Clark was a captain when he came to the depot eighteen months ago.

GERMAN IS INTERNED

Carl Horst Of This City Is Arrested By U. S. Marshal Storen

United States Marshal Mark Storen came to Jeffersonville Tuesday and arrested Carl Horst 35 years old, who conducts an automobile repair estabishment and who has been ordered interned by the Department of Justice Word reached the Federal authorities that Horst had made insulting remarks against the United States, and it is alleged that he advised a young man of draft age at Jeffersonville to go to Mexico to escape the draft. It was said that Horst agreed to supply the regisrant with maps or other conveniences that would enable him to reach Mexico.

A few weeks ago Horst asked permission to put up a notice stating he was a German and requesting people not to discuss the war with him. He has lived in this country several years.

PLENTY OF 'TATERS; LETS EAT 'EM

Huge Surplus Says Minnesota Food Administrator

St. Paul, Jan. 3—A. D. Wilson, State Food Administrator, speaking before the memebers of the Minnesota Farm Bureau Association, declared there was a surplus of from 40,000,000 to 100,000,000 bushels of potatoes in the United States.

"Eat more potatoes" Mr. Wilson urged. "Farmers must realize a loss on their potatoes this year even below the cost of production. They are persishable and as war food fall below corn, beans and wheat."

EX-SHERIFF LONG IS GIVEN UMBRELLA

Will Long, who retired from the office of sheriff on Monday night was presented Wednesday with a handsome umbrella by his five deputies: John W. Allen, Dan Scheller, Barney Egan, Harry Ratts and John B. Carr, "in appreciation of our outgoing sheriff". The umbrella was taken to his residence by John Allen reepresenting the others and himsef.

RECRUITING CAMPAIGN AT WESLEY SUNDAY SCHOOL

On account of special services at Wesley chapel, Ohio Falls, the Sunday preaching service at Harrison avenue M. E. church will be held in the morning next Sunday instead of the evening, it is announced by the Rev. L. D. Youngblood, pastor of the two churches. A Sunday School Recruiting Campaign is being held at Wesley with well attended services every night this week in spite of the weather.

AWAITING REPORTS FROM CHAIRMAN

Final Result Of Red Cross Drive Not Yet Determined Exactly

NOW, KNITTING DRIVE

Opportunity For More Workers In Knitting and Surgical Bandages

JJudge James W. Fortune, chairman of the local chapter of the American Red Cross; Miss Margaret Hines, his assistant and C. M. Marble, secretary, are still unabe to make a report to national headquarters on the result of the membesrship drive in this county because of delay on the part of loca chairmen in making their reports. These are practically complets for the city and will show a slight gain over the figures previously tabulated. The Indiana Reformatory finally reported eighty members but official returns have not yet been received from the carworks, estimated at 381, nor from the quartermaster's depot, estimated at 3,000. Country chairmen are also slow in reporting but an effort is being made to get the figures.

Apparently Clark county will run at least one thousand ahead of Floyd which was given the same quota and the membership here in proportion to population will be somewhere about three times as good as in Louisville and Jefferson county Ky.

* * * *

KNITTING DRIVE

Planned By JuJdge Fortune; Women To Instruct Others Are Being Sought

Judge James W. Fortune chairman of the Jeffersonville Chapter of the American Red Cross has now turned his attention to a "knitting drive". It is the belief of Judge Fortune that there are enough willing workers to increase greatly the output of knitting in Clark county, especiallly among the many new members of the organization. A number have expressed their willingness to work if they can be taught the art and Judge Fortune is trying to find a chairman for each ward who is skilled in knitting and willing to impart the knowledge.

Mrs. Newton H. Myers is in charge of the knitting being done by many women for the soldier boys of Clark county and Mrs. Elinor Campbell has direction of a force of knitters who are working for the Navy League.

* * * *

Work On Surgical Bandages

There were ten ladies present to assist in making surgical bandages Wednesday afternoon which ise about an average attendance. It is believed that there are many others who could help at this work which is most important but can be done by any woman who will give the time to learn. Miss Sue May Whiteside is the capable instructor. More helpers are needed.

FOOD ADMINISTRATION

Don Williams Named Assistant; Grocers Meet Thursday

A. F. Helmkamp, of Charlestown, federal food administrator for Clark county, has at the request of Dr. H. E. Barnard, state food administrator called a meeting of the grocers of Clark county to be held at the courthouse in Jeffersonville Thursday afternoon, January 3, at 3 o'clock At this meeting a representative will be appointed to attend a conference of he grocers of Indiana to be held at Indianapolis about January 15. The purpose of the latter meeting, it is understood, is to bring about co-operation among the grocers with a view to the more thorough regulation of prices and supplies and to smooth the way of the entire food administration of the state.

Mr. Helmkamp has appointed Don Williams, of Jeffersonville, a well known business man as assistant food administrator for Clark county. Mr. Williams will assume office at once and Mr. Helmkamp, in announcing the appointment, expressed himself as well pleased with the selection and confident that Mr. Wiliams will prove a very able man in the office.

NATIONAL GUARD OFF TO FRANCE

Regular Movement Until Entire 420,000 Men Are Across Ocean

WILL START AT ONCE

Second Draft Of National Army Will Occupy Vacated Camps

Washington, January 3— Movement of the national guard in the United States toward Europe may be expxected at any time. On the last few weeks every national guard division has been thoroughly inspected and the order in which these divisions will go to France has been determined by the war department, the most proficient to go first and the less proficient to remain until they have had more training.

When the divisions will go to France can not be revealed but it may be said that the movement of national guard troops will be steady from this time. It is expected that the entire movement will have been compleed by early summer and that approximately 420,000 men, the total strength of the national guard organizations will be added to the American expeditionary force to France.

The call for men in the second draft including that per cent of the first draft which has not been sent to camp will depend on the movement on the national guard troops. Men from the second draft call will occupy the cantonments to be vacated by the national guard troops. Whether the drafted men of ndiana will occupy the camp at Hattiesburg, Miss., that has been occupied by the Indiana national guard cannot be learned.

Assuming that the second draft call will not be made until practically all of the national guard camps have been vacated, it woud appear that the second call will not come until some time in the late spring. The war department is casting about to find some means of taking care of the men of the second call.

NO BIDS RECEIVED FOR RAUTH ROAD

No bids were received Thursday for the issue of $30,000 four and one-half per cent free gravtl road bonds or the construction of the Rauth road in the neighborhood of the quartermaster's depot.

ROUNDING UP DELINQUENTS

Several Who Failed To Answer Questionnaires Are In Service

Capt. Dennis Donovan, chief of police, competed serving notice on the first ist of six men who faied to return propery answered their questionnaires under the selective draft law. James H. Wilt, 211 Spring street, was taken before the exemption board. He showed that he was separated from his wife and had sought in vain to obtain a waiver from her for claim of exemption. On this showing he was permitted to make his personal waiver and will be placed in class 1 subject to early call. Harry Ever[illegible]on, of Jeffersonville township is in the National Guard forces at Camp Shelby. Albert Cow[illegible]rd, of Claysburg, is in the Reformatory for killing a mna. Herman Popp, of Sellersburg, reported. He has enlisted in the navy but has not yet been called for duty. The other two, William Bo[illegible]erman of Sellersburg and [illegible]llie Brentinger, of Bethlehem, reported to the Board.

Of an additional list of four names given to Capt. Donovan, George E. Milhollan, 208 State street, is in service at Camp Shelby. Another, Irwin Perry is said to be in Louisville. James Brooks, colored, was in police court on another charge Thursday and was taken down to the exemption board forthwith. James West, Seventh and Wall, is the fourth man who will be notified to report at once.

COLLISION OF AUTO AND BUGGY

Basis Of Suit For Damages By Joseph Hall

Joseph Hall sued Samuel [illegible] Bolly in the Clark Circuit court for $2,500 damages for personal injuries and $225 for damages to his horse, buggy and harness, caused it was alleged by a collision between defendant's automobile and the paintiff's rig on October 28, 1917, on the Utica — Charlestown road, Utica township. It is charged that the auto was being run at the rate of 3[illegible] miles an hour in the opposite direction from the plaintiff and collided with the buggy that his body, back arms and legs were injured, his horse hurt and his buggy smashed.

NEW CITY CLERK LEARNING THE ROPES AT CITY HALL

John J. Snyder who will retire Monday after a service of four years as City Clerk is preparing his annual report which will be submitted at the monthly meeting of the City Council. William B. Thornley who is to succeed him, has begun familiarizing himself with the duties.

TAX STATEMENT FILED BY STATE AUDITOR

A tatment issued by the state auditor shows that the semi-annual settlement with the counties there was paid in to the state a total of $4,319,852 in taxes of which $1,800,000 will return to the counties for schoos. Clark county paid in $31,553 for state taxes.

GREEN AND BLACK AUTOMOBILE TAGS

The first of the 1918 automobile tags has made its appearance. It has a green ground with black figures and the numbers will run in serial as far as necessary instead of using a combination of figures and letters. License has been issued during 116 to 651 automobiles in Clark county and to 192,192 in the state.

GET READY FOR JANUARY 14TH AND 15TH

Minstrel To Be Given By Officers Of Quartermaster Corps

BURLESQUE ON PLAY

To Be Amusing Feature; Officers Will Take Feminine Roles

The Minstrel, being given by the Officers on duty at the Quartermaster's Depot, will bring many prominent men in the Military service to Jeffersonville on the evenings of January 14th and 15th.

While complimentary tickets will not be offered, numbers of Officers have asked for tickets, that they may be present and do their bit for the Red Cross.

Each day the prospects for a better performance are assured, and by a special request from Col. Wood that all Officers participate the chorus has greatly increased in numbers, as well as adding several excellent specialties.

One of the amusing features of the performance will be the afterpiece, a burlesque on a recent play offered in this city by home talent. In burlesquing this play it was not the intent to ridicule or slander the efforts of others, but owing to the military nature of the play and the apportunity afforded to dwell and enlarge on several amusing incidents, it was that those attending, would see the connection and appreciate the manner in which it has been revised.

While feminine roles will hold a prominent part, the entire company will be made up of Officers.

Several who have had professional training in minstrel work, are originating special sketches for the Olio numbers, and from curtain to curtain there will not be a dull moment.

Tickets for the two performances have been placed on sale, by members of the Red Cross, social leaders in this city, and by many of the young ladies employed at this Depot.

The tickets now being sold, can be exchanged at Doherty's Drug Store on January 10th for reserved seat coupons without extra charge, and those having the general admission tickets will have preference when making reservations.

FOUR CASES IN POLICE COURT THURSDAY MORNING

The following was the police docket Thursday morning: Ma[illegible]lda Stanton, keeping disorderly house, fined $10 and costs; Viola [illegible]myser, visiting house of ill fame held to juvenile court; James Brooks and Grover Harold, similar charge, fined $5 and costs.

NEARLY ONE THOUSAND HUNTING LICENSES ISSUED

In the office of Circuit Clerk Ernest E. Jacobs during 1917 there were 829 resident hunting and fishing licenses combined and 1[illegible] nonresident fishing licenses issued the cost for each being $1. All of the money except 10 per cent for issuing, went to the State Fish and Game Commissioner.

Earth Grows Slowly Now.

In the early days of its history the earth grew rapidly by the addition of meteoric matter. It is still growing in the same manner, scientists say, though scarcely to an appreciable extent, for the mass of meteoric matter added yearly is reckoned to be only 20,000 tons. In the course of ages the larger planets have swept up practically all the fragments of the original disruption, and the only available source of supply of meteoric matter seems to be brought by comets.

HOW TO REDUCE

High Cost of Living During These War Times—What Every Woman Can Do.

Look over your old clothes. You can never appreciate how much you can brighten and freshen up your wardrobe until you use Dy-O-La Dye.

Take some of your discarded blouses and dresses, dye them with some of the sixteen different colors of Dy-O-La, change the trimmings a bit and you will be astonished at the result.

Dy-O-La is the modern dye made by skilled chemists who have removed all the difficulty from home dyeing in order that you may get perfect results. Old style dyes require a separate dye for each kind of goods. That makes trouble (as you probably know) for if you get a package for the wrong kind of material the goods are spoiled. You can't make such a mistake with Dy-O-La Dye.

Take some garment that you have grown tired of or that you desire to color the fashionable shade of the moment, look over Dy-O-La Dye color chart at your nearest druggist or storekeeper, select the one that pleases, and follow the printed directions. They will look as if they had just come from the dressmaker.

And remember—the colors will be just as fast and durable as they are beautiful. They won't rub off or bleach out.

Buy it of your nearest druggist or storekeeper, but if they have not the color you want we will send it to you on receipt of ten cents and at the same time include direction book and color chart.

Dy-O-La Dye is made in **Black, Blue, Navy Blue, Brown, Seal Brown, Light Green, Dark Green Scarlet, Yellow, Orange, Cardinal Red, Pink, Purple, Dark Wine Old Gold, Turkey Red** and from these sixteen colors a great variety of other shades and colors can be made.

Dy-O-La Dye Company,
700 Sixth Ave., Des Moines, Iowa

"The Telephone Rang."

"And the telephone rang!" is the burden of some verses read lately, describing all the things that happened and didn't happen in consequence. The way one woman escaped wearisome trips up and downstairs in response to phone calls was by using a desk telephone with a very long cord. Then she took the telephone upstairs, downstairs, or on the gallery, wherever she happened to be. When the bell rang the interruption was at least close at hand.

LADIES

When irregular or delayed use Triumph Pills. Safe and always dependable. Not sold at drug stores. Do not experiment with others, save disappointment. Write for "Relief" and particulars, its free. Address: NATIONAL MEDICAL INSTITUTE, Milwaukee, Wis.

Lost the Pill.

The little daughter of a homeopathic physician received a ring with a pearl in it on the Christmas tree. Two days later she poked her head tearfully in at the door of her father's office. "Papa," she wept, "I've lost my little pill out of my ring."

Dr. Humphreys' Admirers

The followers and admirers of Dr. Frederick Humphreys, will be deeply interested in the New Edition of his Medical Manual just off the press. Telling how to care for and treat the sick and ailing—mailed absolutely free on request, address: Humphreys' Homeopathic Medicine Co., 156 William St., New York.

Agricultural Education.

Agricultural education is one of the essentials to the betterment of country life. The pervading thought in this movement is to add dignity to farming by placing it on the high plane to which of right it has ever belonged.—Exchange.

Perhaps It Was Necessary.

Scene—City Restaurant.—Two elderly ladies, with adopted child, take their place at the table. Order, according to menu, served. First lady (to Child)—"Now, Minnie, dear, remember your blessing." Second lady—"Yes, say your grace, dear. Always do that when away from home as well as at home." Child (looking most obedient)—"Lord have mercy upon this food." Waiter runs.

ESCAPED FROM GERMANY

© International Film Service

Gengo, a young French boy who escaped from Germany, where he was held prisoner, and drifted into an American camp in France. He was officially adopted as mascot of the force in training there.

WOMAN GUARDS A CROSSING

Takes Man's Job as Watchman for Railway Company and Likes the Work.

South Bend.—Women are filling men's positions in Europe and some are already doing it in the United States. Among the women here who are doing men's work is Mrs. Helen Stackman, watchman at the Vernon street crossing of the New York Central railroad. Mrs. Stackman is enthusiastic over her new job and says, while she believes woman's place is in the home, she feels perfectly at home in her little watch house. She has two small children who spend most of the day in school and the rest of the time with their mother at the crossing.

Many persons who live in the neighborhood of the crossing believe that Mrs. Stackman earns her monthly salary every day in heart ease for the mother, whose children must cross the railroad to and from school. The little watch house provides the children with a sort of half-way place between home and school, and already this year they have taken advantage of the opportunity to stop and warm themselves.

"There really is not much work to it even if it is supposed to be a man's job," said Mrs. Stackman; "everyone is so nice in obeying signals that it is really no trouble whatever. The real object of my being here is to look out for the schoolchildren and see that they get across the tracks all right. I spend much of my time knitting."

His Hair Was Valuable.

A Chicago contractor who says his hair came out as the result of treatment at a hospital sues for $10,000. It is as much as to say to the court, "Before a hair of my head was harmed I was a $10,000 beauty."—Louisville Courier-Journal.

JUDGE UPHOLDS UNJUST WILL

Rules Law Does Not Require Equity in Testaments in Case in New York Court.

New York.—While admitting that the will of George A. Williams of the firm of George A. Williams & Sons is unjust, because he cuts off two sons who are heads of families and have slender incomes, and adding that the "natural character" of Mr. Williams was unjust, Justice Blackmar of the appellate division in Brooklyn upheld the testament on the ground that the law does not force a man to will his property justly.

Accordingly, the entire estate, amounting to $90,000, will go to a daughter, Mrs. Laura A. Buchanan, Brooklyn.

The testimony showed that the elder Williams was eighty-two years old when the will was executed and was addicted to excessive and continuous use of alcohol.

DOG DIDN'T LIKE ARMY LIFE

Returns to Old Haunts After Three Weeks' Career as Mascot in Canadian Army.

Los Angeles, Cal.—Ginger, a Boston bull, is back home in Los Angeles. After a three weeks' career as mascot in the Canadian army, he has returned to his old haunts around "T-bone" Riley's place at No. 742 South Hill street, and is happy again.

The dog is owned by John Hamilton, a Los Angeles resident of 15 years' standing, who recently enlisted in the Canadian forces. He took Ginger along, but the dog did not take to the military life.

In fact, he was wasting away, until Hamilton decided to send him back to Los Angeles. On his arrival he ate six meals in three hours and now has a joyous bark for all his old friends.

Do you get up at night? Sanol is surely the best for all kidney or bladder troubles. Sanol gives relief in 24 hours from all backache and bladder troubles. Sanol is a guaranteed remedy. 35c and $1.00 a bottle at the drug store. The Sanol Chemical Company, St. Louis, Mo. daily tf

RAILWAY COMPANY SUED

Acid Scattered in the Grass Along Line Killed the Cattle.

The Southern railway has been made defendant in an action at law at Chattanooga which charges the company with cruelty to animals.

The railway company recently operated a "tank train," carrying acid from a sulphuric acid plant. The "tanks" leaked and the acid flowed to the ground and spread out in the grass. Cattle along the right of way ate the grass and died in large numbers.

The railroad company made settlement with the owners of the stock, but the Chattanooga Humane society has brought suit.

Banker Gives Whole Income to U. S.

The entire income of Otto H. Kahn, New York banker, will be used for war service. Mr. Kahn recently announced that he would continue to make legitimate profits, but that every cent, after the deduction of household expenses, would be used for charity, Red Cross and war work.

Will Not Help.

Staying awake nights contemplating the wonderful things that you are going to do doesn't pay the taxes on your household goods.

AMERICAN ARMY NOW 1,360,000

Grows in Few Short Months From Force Numbering Only 110,000 Men.

OVER 300,000 ARE REGULARS

Officer Personnel Numbers More Than 80,000—Equipment of Men Much More Diverse Than in Any Previous War.

Washington.—The latest official figures put the number of enlisted men in the armies of the United States at 1,360,000. This is the force that has grown in eight months out of an army which on April 1 numbered only 110,000 men.

Most of them are still in the training camps. Many of them are not yet disciplined troops, fully equipped and armed for battle. But there they are 1,360,000 of them, already one of the biggest factors Hindenburg is reckoning with for the campaign of 1918. To lead them there are over 80,000 officers. When the graduates of the second training camp get their first orders the number will be over 100,000—as many officers as there were privates nine months ago.

Over 300,000 Regulars.

Of the new American force over 300,000 men are regulars. In all the world only two regular armies remain—the American and the Japanese. The others have all been swept away in the flood of war. When the first American onslaught takes place German Landwehr and Landsturm troops will find themselves opposed to an army of professional soldiers.

Behind the regulars are the 400,000 soldiers of the National Guard, regulars in experience, many of them, thanks to our neighbor of the South. After the Guard come the 600,000 men of the new National army.

The whole military establishment, with the marines and the auxiliary forces thrown in, numbers a million and a half. The expansion that has taken place is as if Grand Rapids had grown in eight months to be virtually as big as Philadelphia.

Diversity of Equipment.

The first thing to be done for the new army was to provide them with shelter and clothing, food and warmth. That large undertaking is all but accomplished. Equally great is the task of providing arms. To arm an infantry division in the Civil war meant to provide as many muskets and as many bayonets as there were men in the command. In the present war the job is more complicated. There are rifles and bayonets to be furnished now as formerly, but there are also grenades and gasmasks and helmets and trench mortars to be seen to. Each of the four infantry regiments in a division must have 480 trench knives, 192 automatic rifles and three one-pounder cannon.

The 768 men of the machine gun battalion and the 5,068 men of the field artillery brigade must have machine guns and three-inch guns in numbers that would stagger an artillerist even of so recent a period as the war with Spain.

Two hundred and seventy-five thousand troops were made ready to fight Spain in 1898, though only 60,000 of them were actually engaged.

LOGS KEPT FOR A CENTURY

House Torn Down in Indiana Shows Timbers to Be in Perfect Condition.

Aurora, Ind.—Newton J. McKim has had an old loghouse that was constructed by his wife's grandparents, Mr. and Mrs. Preston J. Conaway, more than 100 years ago on the bank of South Fork torn down and has sold most of the large logs. The house was constructed of large black walnut logs and they were almost as sound as when they were cut from trees. Mr. and Mrs. Preston J. Conaway were early settlers in southwestern Indiana, and the wealthiest farmers and stock raisers in the Laugherty Creek valley. The old house, which stood sentinel-like for more than a century, was given the name of Gray Gables, and a number of years it was used as a dance hall, conducted by Deloss J. Elker and had an orchestra of old-fashioned fiddlers.

HUMBLE PRUNE TAKES THE PLACE OF SUGAR

Derby, Conn.—The sometimes despised and often ridiculed prune has come into its own here. When the sugar famine struck the town someone discovered that the sugar in a dried prune was sufficient to give a semblance of sweetening to a cupful of tea or coffee. The prune dropped in a cupful of coffee is soon rendered soft by the heat and the sugar and sweet is extracted in a short time. It is claimed that the caffeine in the coffee offsets the taste of the prune so that the process is not objectionable in any way. It is being extensively tried here by many persons.

After such splendid results with "Seventy-seven" send for a free copy of Dr. Humphreys' Manual of all diseases and dip in to its wealth of information on domestic practice, describing in simple language the maladies proper for a layman to treat. Picking Apples on Shares.

Picking apples on shares is the way one Kansas university fraternity is fighting the high cost of living and at the same time storing up a winter supply of fruit. One farmer bargained with the Acacia Chapter to pick his apples. The fraternity men picked 200 bushels one morning on shares, storing twenty bushels in their fraternity house as payment. This same chapter last year needed quilts, so they held a quilting bee and made thirty quilts.

FRENCH WOMEN THINK PERSHING 'HANDSOME'

Commander of the American Army Is Popular With People in France.

General Pershing, with his military bearing, his manly air and his deferential courtesy toward women, is a never-ending source of interest to the French people. Especially his last-mentioned trait has impressed itself upon the French writers. One of the important Paris dailies has devoted a series of articles to the American commander's life history with sidelights as to how he is looked upon in France, and a personal description of the general.

It is as follows: "Tall, erect self-confident, he wears his uniform with an air of genuine 'coquetterie' that attracts the admiration of the entire feminine populace of Paris. 'What a handsome man!' the women cry as he passes by surrounded by his staff officers.

"And, if we mistake not, nothing could be more flattering to this honored soldier. In the official receptions, the banquets that are tendered him, it is the noble courtesy of his manners, the succinctness of his words, the spirit of the man that one remarks in General Pershing. He is not one who talks a great deal, but what he says, he says well.

"When the first American troops disembarked on our shores we cannot forget the words with which the general received them: 'For the first time in history American soldiers find themselves on the soil of Europe. The good name of the United States demands that our conduct be irreproachable. We must, every one of us, show toward the Frenchmen, and more particularly the Frenchwomen, the most perfect courtesy and our respectful deference. The least reprehensible act would be doubly so here, because it would be a breach of hospitality.'

"Nothing more! No promises of epic glory! No laurel wreaths distributed in advance! No flags waving over rose-crowned heads! But his soldiers understood these few brief words and showed a tactful discipline. That is Pershing!"

HORSE CLIMBS STAIRS

Gets Up Into a Haymow and Helps Himself.

William Fulton, a farmer living northwest of Noblesville, Ind., has a horse that performed an unusual feat recently. When Mr. Fulton went to do his feeding he missed one of his horses and could not find it until his attention was attracted by a noise in the haymow. He went up there and found the horse eating hay and perfectly contented. There is only one opening in the mow, and in order to get up there the animal had to climb a narrow stairway 25 feet long. Two veterinaries were called and they let the horse down to the lower floor with blocks and tackles.

What Was His Nationality?

When a building laborer in New York was injured, the policeman who went with the ambulance reported: "It's nothing; a man lost his balance and fell over a Limerick limousine." The lieutenant at the station wondered all the afternoon, until the policeman came in off his post and explained that the man fell over a wheelbarrow. Maybe you can guess the policeman's ancestry.

Eighth of Hebrew Prophets.

Habakkuk was eighth in order of the minor Hebrew prophets. The strophical arrangement of the denunciation of the Chaldeans is a remarkable feature of his prophecy. The whole concludes with a magnificent psalm in chapter 3, a composition that has been considered unrivaled for boldness of conception, sublimity of thought and majesty of diction.

UNIMPEACHABLE

If you were to see the unequalled volume of unimpeachable testimony in favor of Hood's Sarsaparilla, you would upbraid yourself for so long delaying to take this effective aletrative and tonic medicine for that blood disease from which you are suffering.

It eradicates scrofula and all other humors and cures all their inward and outward effects.

Take Hood's.

The National Capital.

The site of Washington city as the national capital was selected in 1791, the corner stone of the capitol was laid in 1793 and congress met there for the first time in November, 1800. Prior to that congress had met at Philadelphia, New York, Baltimore, Lancaster, York, Princeton, Annapolis and Trenton.

When you have Backache the liver or kidneys are sure to be out of gear. Try Sanol it does wonders for the liver, kidneys and bladder. A trial 35c bottle of Sanol will convince you. Get it at the drug store. The Sanol Chemical Co., St. Louis, Mo.

Advertising Pays.

A woman of uncertain age required the services of a page-boy, and inserted in the local paper an advertisement headed: "Youth wanted." One of her friends, with little humor and less taste, sent her a bottle of a celebrated wrinkle-remover, a pot of fairy bloom, a set of false teeth, and a flaxen wig!—London Tit-Bits.

Thousands of Mothers Tell the Story

The story of Eskay's Food is one of actual happenings. There is no question of what it will do—what it *has done* is proven by thousands of sturdy little lads and lassies the country over.

Notice Of Application For A Renewal Of Liquor License

Notice is hereby given to the voters and citizens of the City of Jeffersonville, Jeffersonville Township, Clark County, Indiana, that I will apply to the Board of County Commissioners of Clark County Indiana at their

FEBRUARY TERM, 1918

for a license to sell spirituous, vinous, malt and other intoxicating liquors in less quantity than a quart at a time with the privilege of the same to be drunk on the premises, for a term of one year or for a period of time to be determined by the above Board of County Commissioners in compliance with the Indiana Statute of granting liquor license.

My place of business wherein said liquors are to be sold is in the front room on the ground floor of the two-story frame house at the southeast corner of Court avenue and Wall street, situated on Lot 1, Block 30, in the City of Jeffersonville, Clark County, Indiana, said room fronting on Court avenue and being 16 feet wide and 17 feet long in size.

I will also ask the privilege of selling cigars and tobacco in the said room.

I am a male inhabitant over 21 years of age, a citizen of the United States and have resided in Jeffersonville Township, Clark County, State of Indiana, over one year, and in Jeffersonville, wherein I desire to sell intoxicating liquors six months, and am a qualified voter thereof.

John B. James and Mary V. Soudry James, of Floyd county, have conveyed to Thomas E. Wilson, 28 acres of land in survey 30 and several lots and 26 acres of land in Clarksville, for a consideration of $10,000.

Luther M. Collins has conveyed to Fred W. Snider of Spencer county, by deed filed in the office of Clifford Allhands, county recorder, forty acres of land in survey 210, near Otisco, for a consideration of $2,660.

Frank Martin conveyed to Charles L. Hartman 69 1 4 acres of and in survey 226, for a consideration of $8001.

FISH BITES BACK

Turns on Man Preparing It for Table and Nibbles Wrist.

A fresh water fish which was about to be prepared for the table by Nicholas Koll of Wilmington, Del., recently rebelled and before the astonished man knew what had happened he had been bitten on the wrist by the fish.

He rushed wildly into the Delaware hospital for treatment and was reassured only when the physicians there explained to him that the fish was not related to the snake family and that there was no danger of him dying from its bite.

To the best of their knowledge, the physicians stated, it was the first time they ever had a patient suffering from a bite from a fish.

LIVE WEEK FOR FORTY-EIGHT CENTS

Low Cost Of Maintenance Established At County Infirmary

Joseph L. Carr, superintendent of the County Infiramry filed his quarterly report in the office of County Auditor George W. Stoner, showed that the inmates had been cared for at a net cost to he taxpayers of 48 cents each per week. This was accomplished through revenue from products of the farm. The report shows the number of inmates at the beginning of the quarter was twenty, twelve were received, eight eft or died and there were 24 at the cose of the quarter. The average was 23.

The report shows that the total cost of mainenance for the three months including salaries was $664. gainst this he asks credits for $518 as follows: Two head of cattle sold, $100; thirteen hogs sold, $400; boarding Emma McDonald, a pay inmate $18; net cost to the taxpeyers $146.

In addition to this Mr. Carr has a large amount of meat on hand rfom hogs killed recently. It is understood County Commissioners R. E. Kirk and Marion Martin have decided to appoint Joseph Willinger superintendent.

OPERATOR FOILS GERMAN RAIDERS

Kaleidoscopic History of Vessel Which Flew Two Flags.

FOOLS GERMAN RADIO MAN

Youth Shortened Length of Sound Waves So That No Vessel Could Pick Up Messages He Made Pretense of Sending—His Life Is Threatened by Officers of Enemy Ship.

A dramatic incident of the sea, in which a young wireless operator fooled the enemy, was related in the prize court in London recently, when the crown was asked to condemn the steamship Edna on the ground of unneutral service and enemy ownership.

The attorney general, Sir Frederick E. Smith, described the kaleidoscopic history of a vessel which flew two flags. The plucky operator was "one Smith, an Englishman," who since has received a commission in the R. N. A. S.

Frederick Jebson, a German, said Sir Frederick, was a prominent man in San Francisco shipping circles. He chartered the vessel and was believed to have perished afterward in a German submarine. The vessel was built at Bergen in 1902 and in those days sailed the seas as the Jason. Jebson used the vessel for his Mexican business. He had been in the German navy and was in the naval reserve.

Jebson purchased the vessel, the ownership of which was vested in the Lloyd Mexican Societe Anonyme, in which he held the bulk of the shares. Finally he managed to get back to Ger-

[illegible]

The Edna took on board wireless and gun-sight apparatus and tried to communicate to the German cruiser Leipzig the dates when British vessels left port—an attempt which was frustrated by the resourcefulness, ingenuity and courage of Smith.

In an affidavit read by the attorney general, Guy Duncan Smith, the wireless operator, said that he was on board the vessel when the war broke out. He awoke one night at midnight and heard the steamship Aztec announce that war had been declared between Russia and Germany.

At this time the vessel had "Hamburg" painted on the stern. After the announcement that war had begun "Hamburg" was removed from the vessel, "La Paz" was painted in and the Mexican flag was run up.

Before leaving San Francisco he had heard that the coal taken on board was intended for the Leipzig. Information was sent to the British consul, and the authorities at San Francisco demanded that the coal should not be delivered to the cruiser.

Deceived German Operator.

A German wireless operator was taken on board and Smith was told that if he refused to do his duty the German would take his place. The German operator, however, did not understand the Marconi system. Smith shortened the length of the sound waves, and though he appeared to be sending out calls for the Leipzig no vessel could pick up the message.

The German operator spent three nights and three days trying to call up the Leipzig. Smith returned later, and then occasionally called up the German cruiser, putting the wireless in order to allay suspicions, but the wireless was always out of gear when the German operator tried to use it. At La Paz, Smith forwarded a message to the admiral on the American cruiser California.

Some of the officers threatened to shoot Smith and throw him overboard if he did not send a code message to the German cruiser, and he then pretended to send it.

The only thing that Smith sent to the Leipzig was an inquiry as to where she was, which brought forth the reply that she was hanging around waiting for the Edna. Finally the Edna was commandeered by the Mexican government, which put an officer on board, and Smith said that "after that things were more comfortable."

EXAMINATION TO BE HELD FOR CARPENTERS

Notice has been given by the Civil Service Commission of non-educational examination for carpenters to fill twenty-seven vacancies at the U. S. quartermaster's depot. The rate of pay is $3 per diem and applications may be fied up to February 2.

WE WHO STAY AT HOME

By Robert Grant
of The Vigilantes

We shall conquer the ruthless Hun
Only by self-denial.
Of our millions there is not one
Not now on trial.
So let us serve, we,—we who stay at home
That those who die in the dank trench or
ocean foam
Can hold us not to blame;
Else ours the endless shame.

Let each forego his pleasure,
Let each bestow his leisure,
There hangs on our behavior
The greatest issue that ever faced a land.
Either we prove the savior
Of freedom or we fall beneath the heel
Of a perfidious tyrant girt with fire and
steel,
And we be numbered with the unstable
sand.

Pay heed ye slackers, aliens who presume
Upon the safety of these peaceful shores
Where cracks no whip and no gun roars,
Where wages mount and there is boundless room;
Give of your plenty lest you live to see
Enlightening liberty go crashing down
Before the invading Teuton cannonade,
And you become the serfs you would not
be.
Awake and serve the cause that made
you free.
We must be victors if we have your aid.

SAVING MONEY

Everytime thrift or saving money is mentioned some people get the idea that it means cutting down expenses to the very lowest notch to save every possible cent. at the expense of self-respect, comfort and health.

Not for an instant should you think it means anything like that.

Thrift means the elimination of UNNECESSARY WASTE — in food cothing, pleasure, business and everything that makes you spend more than is necessary for your convenience, comfort and happiness.

What you can save and put away for future emergencies or opportunities is deposited to advantage in a savings Account.

AMERICA'S GREAT SERVICE

For the first time in more than 50 years American is at war. In this chaos of civilization the power of America was needed to tip the scales in favor of freedom and democracy as against the enslavement of the world which would inevitably follow the triumph of military despotism. Terrible as war is, and fearful as are the sacrifices it entails, nothing is comparable to freedom and liberty. For thousands of years suffering humanity has been striving for the goal of freedom and democracy. Today that goal has been only partially won. It never can be secured until the last remaining stronghold of military despotism in the world is destroyed.

Germany, under the Kaiser, not content with threatening the civilization of Europe, finaliy sought to destroy America. For more than two years, while we were scrupously observing our treaty obligations with Germany, the Kaiser was secretly plotting against our security and subtly undermining America's vital rights. Not alone was the safety of democratic institutions in America challenged by the Kaiser's aggressions, but the very life of our people and the ideals for which we have always stood were imperiled. We had to fight to save ourselves and to secure the national integrity. To accomplish that we are bound to destroy Kaiserism. When we shall have performed this great service to humanity and the world we shall have liberated it from the fear of future wars, and we shall have brought immeasurably nearer th day when Christ's divine message of "Peace on earth, good will toward men" will be realized.

Grim and terrible as is the task before us, let us thank God that noble America, faithful to her traditions, the undaunted champion of democracy, has been called to perform this great and glorious service to mankind.

TWO PAROLE VIOLATORS ARE PICKED UP

Capt. Dennis Donovan received word from the Louisville detecives that they had under arres as vagrants J. R. Whitson and O. L. Wheeler, each about 21, possessed of a railroad Switch key. Capt. Donovan ascertained that they were wanted at the Reformatory as parole violators and they will be returned there.

HEARING ON STREET CAR SERVICE

To Be Held By Public Service Commission At Q. M. Depot Saturday

NOTICE IS RECEIVED

Hearing At 11 A. M. On Petition Of Col. Wood And Schefold Et Al.

Under date of December 31st, 1917, a petition was filed before the Public Service Commission of Indiana by Carl E. Schefold et al vs. The Louisville & Southern Indiana Traction Company, complaining about inadequate and improper service between Jeffersonville, and New Albany and between both towns and the Quartermaster's Depot of the U. S. Army.

The Public Service Commission of Indiana will hold a hearing on this petition on Saturday, January 5th, 1918, at 11:00 a. m. at the Quartermaster's Depot, Jeffersonville, Indiana. The hearing will be conducted by Commissioner Paul P. Haynes and Secretary Carl H. Mote.

In addition to the complaint filed by Mr. Schefold the Commission has also received a complaint from Colonel Wood of the Quartermaster Corps. An effort will be made to determine the character of the present service and to do whatever is possible to improve the service.

Chester P. Wilson, President of the Company, at the suggestion of the Public Service Commission, has already made an effort to imprrve the service. Mr. Wilson visited Jeffersonville and New Albany on Monday and went over the ground with Colonel Wood and others interested in improving this service.

MRS. CHAS. CLARK DIED AT BORDEN

Was Seventy One; Leaves Several Children

Mrs. Anna Clark, wife of Charles Cark died Thursday at her home at Borden. The funeral was hed at 11 o'cock Friday morning at Chapel Hill church in Floyd county.

Mrs. Clark was 71 years old. Besides her husband she is survived by four sons Robert, Clarence Frederick and John Clark and two daughters Mrs. Emma Leuthart and Mrs. Emma Wells, all of Borden.

MAYOR-ELECT SERVES NOTICE

Policy Shops Must Go; Saloons Must Toe Line; Resorts Must Quit

In referring to his inaugural address Mayor-elect Myers said it would not be of great length, but every word in it will mean just what it says. "There is to be a cleaning up in Jeffersonvlile," said Mayor-elect Myers. "Policy shops and other forms of gambling must go. There is to be better behavior upon the streets and the saloons will have to obey the law. There is a class of resorts in Jeffersonville that just might as well begin moving now, as they will have to go next week. This country needs man power and it is my belief that every male who is able to do something should be enlisted."

GET YOUR SEATS FOR MINSTREL

Help The Red Cross —Help Do Your Bit By Our Boys

Hark! A voice in the distance is calling. Yes—it is drawing nearer, you can now determine the words, a augh interrupts then a loud resonant voice calls:

Well Mr. Bones, why are you so sad this evening?

Mr. Bones: Boss, I sure done had some hard luck.

Int: Is that so, what has been the trouble?

Mr. Bones: Well Boss, you see somebody had done gone an stole my mule.

Int: Stole your mule— you mean that old white mule that you drove?

Mr. Bones: Yes sir, Boss, dats de mule and he neber come back.

Int: Well why don't you advertise in the paper for him.

Mr. Bones: Go on wid you white man, don't you know dat old mule can't read.

You hear the sound of laughter and handclapping. The general atmosphere has the tone of gaiety.

Everyone is happy. They are all intent on one thing and that is in getting a good seat for the Officers Minsrel.

Get your seats early, help the Red Cross that they in turn may help Our Boys—Over There.

The Officers know the meaning of the Red Cross and are willing to sacrifice their time and energy that they may do their share for Red Cross now.

COME JEFFERSONVILLE — do your bit by OUR BOYS —and the RED CROSS.

CARD OF THANKS

We avail this means of expressing to all our neighbors and friends our sincere thanks for all the kindness and assistance rendered us in the last illness, and the deep sympathy manifested in their condolement for us in the demise of our beloved father, and for the many beautiful floral designs, and especially do we wish to thank the Rev. Dr. Clippinger for his sympathetic and comforting words before and after our dear father's death.

Also do we especially thank those who conducted the beautiful song service, the pall bearers and all who attended the last sad rites of our kind and loving father.

Sincerely,
THE MISSES COOPER
and MRS. CHAS. R. BOWMAN

LIQUOR LICENSE FEES TO CITY

Commissioners Consider Permission To Pay A Pro Rata Basis

The Board of County Commissioners at a special meeting called this week for another purpose gave consideration to the question of permitting saloon keepers in renewing their city liquor licenses to pay only the pro rata part required to carry them to April 2, 1918 when prohibition is due to become effective. After the prohibition act had been passed by the legislature last spring another law was enacted authorizing boards of county commissioners to issue licenses for a fractional part of a year and to charge the pro rata part of the license fee for the term extending to April 2, 1918 but nothing was said in this law regarding the ees payable to cities Saloons in Jeffersonville pay $200 to the county and also $200 to the city and it is the latter which is in doubt. Afer considering the matter the board of commissioner.

THE FERRYBOAT will resume its Regular Trips at 6:00 in the Morning.

YOUNG MEN WHO BECOME TWENTY-ONE

To Be Added Each Year To Registrants; 700,000 Per Annum

CROWDER'S PROPOSAL

Class One Will Provide Sufficient Men For Army He Believes

Washington, January 4 —Immediate registration for miitary service of all men who have become twenty-one years of age since the first draft registration was urged by Provost Marchal-General Crowder in his annual report oo he secrtary of wa.

If this is done and similar registration held each year, 700,000 physically fit men of Class 1, the provost marshal-general said, would be available for service every twelve months and this would not require taking men from the deferred exemption classes.

"The policy and belief of this office is that in all probability it will be possible to fill all our military needs from Class 1,' the report stated.

Skilled labor and farmers will be drafted from the deferred classes, Crowder indicated, "should the situation demand."

"The situation in these respects is serious now, particularly in the shipbuilding industry and in factories working on war munitions," he added.

The report was placed before the congress with the request for an amendment to the selective service act which would change the plan of allocating quotas of the States or districts oo be determined hereafter on the basis of he number of men in Class 1 and not upon population.

Available figures indicate the report says, that there are 1,000,000 physically and otherwise qqualified men under the present registration who would be found in Class 1 when all questionnaires have been returned and the classification period ends February 15. To this the extension of registration to men turning 21 since June 5 of last year and thereafter will add 700,000 effective men a year.

Class 1 comprises single men without dependent relatives, married men who have habitually failed to support their families, who are dependent upon wives for support or not usefully engaged and whose families are supported by incomes independent of their labor; unskilied industrial laborers, registrants by or in respect of whom no deferred classification is claimed or made and all registrants not included in any other division of the schedule.

Gen. Crowder finds that the firs draft surpassed the highest expectations of the friends of the selective service idea. He pays high tribute, not ony to the thousands of civiians who gave ungrudging service to making the plan a success, but also to the high patriotism of the American people as a whole.

CLAUDE ALLHANDS FILES NEW BOND OF $5,000

Caude V. Allhands filed a bond for $5,000 to qualify as County Highway Superintendent under a recent appointment of the Board of County Commissioners, the sureties being John Gienger and Thomas F. O'Neil.

Regret At Col. Wood's Departure May Be Called Unanimous

EMPLOYES ALL SORRY

Sees More In Jeff Than Many Of Our Native Sons; We Need His Spirit

A chorus of regret has been heard on account of the impending departure of Col. W. S. Wood depot quartermaster here during the past fifteen months, but all his numerous friends are glad of the promotion and are also pleased in recognition of the fact that the new position will mean for him a wider sphere of acivity, greater service to the country and incidentally the opportunity to promote still further the scope and activities of "his" depot, which is to say the depot at Jeffersonville. This is to such a degree the creature of his brain and energy as to remain forever dear to him.

Elmer M. Frank, president of the Chamber of Commerce was among those who expressed his regret and appreciation of the work done by Col. Wood located here but everybody is joining in the chorus, including men of most diverse occupations, habits of mind, politics and social or religious affiliations. There is no doubt that Col. Wood has won the goodwill of the city without making any special effort except that which lay in the line of his duties at the depot.

A word or wo concerning his relations with the hugs number of employes should not be omitted for this officer's broad humaneness has been one of his characteristics. No officer ever stationed here and no employer of labor on scale large or small has given more solicitous care than Col. Wood to the welfare of the host of government employes at the depot. An employe at the institution on Thursday remarked that recently certain class of indoor workers, in the clothing department, had comparatively litte to do on account of s hortage of material but Col. Wood refused to transfer them, during that rigorous weather, to outside work because he realized that for those accustomed to working inside this would be possibly harmful to their health. The promotion of a hospital, first aid, rest rooms for sewing women, sanitary inspection, proposed clubrooms for women and girls and many other things might be adduced as illustrations of the solicitous care Col. Wood has shown for those for whm he is in a measure respnsible.

Previous mention has been made of the great work he has done on the material side, in building up the quartermaster's depot, but The News would like to be able to drive home to its readers the fact that this work is to be permanent and stable, not to be blown away hastily, as though it had not been, as soon as peace returns: The need of a great supply depot will remain and Jeffersonville will be its home.

Col. Wood has lived here only fifteen months but he has had a clearer vision of the natural advantages of Jeffersonvile, keener insight into the opportunities that offer, a broader outook upon the larger future that is knocking at our doors, a more intelligent appreciation of the line of advance that lies open before us, a firmer grasp of the conditions for the full realization of the possibilities of the occasion than most of the citizens of Jeffersonville who have lived here all their lives. If in departing from our midst Col. Wood may but leave us a goodly portion of his spirit his sojourn will be even more productive of good than it has already proved. Faith in the future and the will to make the future vision present fact are the qualities that are necessary for Jeffersonville today.

* * * *

UP AND DOWN GOES MERCURY

Mostly Down, But Hope Still Lives; Ferry Boat Is Running

The temperature in Jeffersonville during this week has seesawed like a chart of U-boat sinkings but it is at present on the upward grade again and there is hope it may continue that way for a time and possiby climb to heights not recently experienced.

On Monday night there was a temperature of 3 degrees above zero; on Tuesday night it was 25 degrees higher, not falling below 28 at which it stood most of Wedneday until evening when the downfall began and it went down that night to zero again. Thursday night the minimum was 15 degrees above zero and at 7 a. m. it had risen to 17 degrees and continued to rise. The prospects are said to be for somewhat warmer weather.

Although there is a good deal of ice in the river it is not preventing the operation of the ferry boat, "George Rogers Cark". Further up, the river is still icebound and no traffic is moving. The Exporter brought down another barge of coal from the water works for the Ewald Iron Company in Louisville.

COST OF BREAD TALKED OVER

Grocers Meet And Elect Delegate To Stae Gathering

A meeting of more than thirty grocers of Jeffersonville and Clark county was held Thursday afternoon at the courthouse upon call of A. F. Helmkamp, federal food administrator for Clark county. Henry Hendrickson of Ohio Falls, was elected delegate from this county to a meeting of similar delegates from the grocers of the state to be held at Indianapolis about January 15. Mr. Helmkamp is not definitely posted on the exact purpose of that meeting but surmises it is designed to take steps toward price fixing.

The meeting also discussed other points, especially the price of the standard loaf which has been fixed at seven cents wholesale in this state but at half a cent higher in Louisville. This throws a burden on Jeffersonville grocers handling Louisville bread, it is stated, but nothing was suggested by way of remedy.

$ LIEUT. COL. POWERS

New Depot Quartermaster Son Of Louisville Insurance Man

Lieut. Col. R. B. Powers who has been appointed to succeed Gen. Wood, at the Quartermasters' Depot at Jeffersonville, Ind., is a son of Col. J. D. Powers, president of the Commonwealth Life nsurance Company. He has been in the service of the United States Army about twenty-one years, and is a cavalryman having served in the Philippine Islands and also in Cuba. At the outbreak of the trouble with Mexica, he was ordered there and was assigned to the Depot Quartermaster Division. He later established the depot at Atlanta, Ga., from which he came here.

CONSIDER MAIN MARKET HIGHWAY

Chairman Of State Highway Commission Pays Visit To City

BRICK OR CONCRETE,

State Pays Half Construction And Entire Cost Of Upkeep

A meeting was held Thursday afternoon at the courthouse of L. H. Wright, chairman of the State Highway Commission, with two members of the Board of County Commissioners —R. E. Kirk and W. D. Hobbs—Claude Allhands, county highway superintendent; George Stoner, county auditor, and others relative to the proposed main market highway. It is planned to build an eighteen-foot highway north and south, of brick or concrete to cost $18,,000 to $20,000 a mile the state paying one-half and the counties one-half but maintenance is thereafter solely a state charge. It is planned to build a part each year and $42,000 is the appropriation for this county if provision is made to raise an equal amount. This is equal to a levy of thirty cents on each $100 of taxables but the improvement would be permanent. The money would probably be raised by a sinking fund by levy to be spread over a number of years. Mr. Wright estimated the entire cost to the county at $165,000. Ta raise this in ten years, including interest charges would take a levy of about 15 cents to start with, decreasing as redemption proceeded. The county is at this time free of debt.

The entire question is to be thrashed out a joint meeting of the Board of County Commissioners and County Council to be held JJanuary 12. If the Commissioners favor action the Council will be asked to make the necessary appropriation and provide for a bond issue. It is hoped that leading citizens and taxpayers will attend this meeting, the question being an important one.

The proposed road will run from the Ohio river through Indianapolis to Lake Michigan and four other roads running east and west are projected. The matter has to be decided by March 1 in order that the county may receive its share of state aid.

INDIANA STATE FAIR SEPT. 2

Date Announced By Indiana Board Of Agriculture

The 1918 state fair will be held the week of September 2, it was announced today by the Indiana board of agriculture. The premium list will be made up by the state board in February. The fair this year will be devoted to furthering food conservation and other movements in connection with the war.

TWELVE NEW DRY KILNS PLANNED AT CARWORKS

The erection of twelve additional large dry kilns is to be begun at once by the local plant of the American Car & Foundry Company on the east side of the cabinet shop. The kilns are needed on account of the arge amount of Government work on hand.

Sold by all druggists, 75c.
Hall's Family Pills for constipation.

"The Telephone Rang."

"And the telephone rang!" is the burden of some verses read lately, describing all the things that happened and didn't happen in consequence. The way one woman escaped wearisome trips up and downstairs in response to 'phone calls was by using a desk telephone with a very long cord. Then she took the telephone upstairs, downstairs, or on the gallery, wherever she happened to be. When the bell rang the interruption was at least close at hand.

If Mothers Only Knew

Mother Gray's Sweet Powders for Children relieve Feverishness, Headache, Bad Stomach, Teething Disorders, move and regulate the Bowels and destroy worms. They break up colds in 24 hours. Used by mothers for 30 years. All Druggists, 25c. Sample Free. Address, Mother Gray Co., Le Roy, N. Y.

A House Guest.

"She's a house guest of her mother." "That's a queer expression. She lives at home all the time." "Well, she sits around while her mother does the work."

Telling how to care for and treat the sick and ailing—mailed absolutely free on request, address: Humphreys' Homeopathic Medicine Co., 156 William St., New York.

HOW TO REDUCE

High Cost of Living During These War Times—What Every Woman Can Do.

Look over your old clothes. You can never appreciate how much you can brighten and freshen up your wardrobe until you use Dy-O-La Dye.

Take some of your discarded blouses and dresses, dye them with some of the sixteen different colors of Dy-O-La, change the trimmings a bit and you will be astonished at the result.

Dy-O-La is the modern dye made by skilled chemists who have removed all the difficulty from home dyeing in order that you may get perfect results. Old style dyes require a separate dye for each kind of goods. That makes trouble (as you probably know) for if you get a package for the wrong kind of material the goods are spoiled. You can't make such a mistake with Dy-O-La Dye.

Take some garment that you have grown tired of or that you desire to color the fashionable shade of the moment, look over Dy-O-La Dye color chart at your nearest druggist or storekeeper, select the one that pleases, and follow the printed directions. They will look as if they had just come from the dressmaker.

And remember—the colors will be just as fast and durable as they are beautiful. They won't rub off or bleach out.

Buy it of your nearest druggist or storekeeper, but if they have not the color you want we will send it to you on receipt of ten cents and at the same time include direction book and color chart.

Dy-O-La Dye is made in Black, Blue, Navy Blue, Brown, Seal Brown, Light Green, Dark Green Scarlet, Yellow, Orange, Cardinal Red, Pink, Purple, Dark Wine Old Gold, Turkey Red and from these sixteen colors a great variety of other shades and colors can be made.

Dy-O-La Dye Company,
700 Sixth Ave., Des Moines, Iowa

Origin of the Word "Lady."

Why we call a woman a lady is known, probably, to few women. It came from a practice that obtained in the manor houses of England where, once a week, the lady of the manor distributed to her poor neighbors, with her own hands, loaves of bread. She came to be called "Leef day," the Saxon words for bread giver. These two words became one: "Lady."

The National Capital.

The site of Washington city as the national capital was selected in 1791, the corner stone of the capitol was laid in 1793 and congress met there for the first time in November, 1800. Prior to that congress had met at Philadelphia, New York, Baltimore, Lancaster, York, Princeton, Annapolis and Trenton.

IRELAND'S VICEREINE POPULAR SOCIAL LEADER

While political affairs in Ireland are somewhat troubled, the social side of life in Dublin proceeds under favorable auspices under the leadership of the beautiful and popular hostess at the Viceregal lodge. As the wife of the lord lieutenant, Lady Wimborne is, of course the moving spirit of official hospitalities, and is deeply interested in the welfare of the country.

She is the younger daughter of Lord Ebury and before her marriage to Lord Wimborne, in 1902 was known as the Hon. Alice Katherine Sibell Grosvenor. Her son Ivor Guest, was born in 1903 and her daughters Rosemary and Cynthia, in 1905 and 1908 respectively. Lord Wimborne served with the imperial Yeomanry in the South African war. He became lord lieutenant of Ireland in 1915.

RUSS OFFICER PRIVATE HERE

Warsaw Academy Graduate Enlists in American Army.

Anthony J. Boyarsky, graduate of the Warsaw Military academy, the West Point of Russia, is serving as a private in the National army at Camp Upton, New York, it became known recently. After receiving his commission as a Russian army officer he was assigned to the One Hundred and Seventy-fifth fusiliers and had gone to the front not long before the revolution. His sympathies were against the emperor, and he was warned the secret police knew he favored an uprising. He fled to Archangel with other subalterns and escaped to Philadelphia. He came to New York and was drafted, not claiming exemption as an alien. He previously had tried to enlist in the regular army.

LEFT $120,000 TO NURSE

Wealthy Atlanta Banker Remembers Her in His Will.

Announcement was made recently that Charles E. Currier, for many years president of the Atlanta National bank of Atlanta, Ga., left in his will approximately $120,000 to Miss W. M. Ballenger, who nursed him for a year and a half and was with him at the time of his death.

This part of the estate had originally been left to his "next of kin," but this was changed by a codicil. Another nurse, Miss Cecilia Valentine, was left $10,000. She had nursed Mr. Currier for some time, but recently married and is now Mrs. Robert Wynne.

The rest of his estate, valued at $130,000, is left to friends, distant relatives and to charitable institutions.

MORE MARRIAGES IN GREAT BRITAIN

Statistics Show Big Increase as Result of War.

NOT SO WITH THE ENEMY

Germany and Austria Show Marked Decrease in Births and Weddings—Proportion of Male Births in England Noticeably Increases—Population of Great Britain Increases, While Decrease Is Shown by Enemy.

Crudely stated, said Sir Bernard Mallet, in his presidential address to the Statistical society, according to the London Daily Chronicle, the war had resulted in 200,000 persons in the United Kingdom being married between August, 1914, and June, 1917, who in the ordinary course would not have married. The marriage rate for 1915 was the highest recorded—19.4—the previous maximum being in 1853, which was 17.9.

Referring to the marriage statistics in enemy countries, in Hungary the effect of the war had been that more than 600,000 persons who in the ordinary course would have married had not done so. In Prussia, Bavaria, Saxony, Hesse, Hamburg and Bremen, six states containing more than 80 per cent of the German population, the total number of marriages in 1913 was 434,103 and in 1914 392,453, a decrease of 41,650, or nearly 10 per cent, in spite of a great outburst of war marriages during the first month of the war.

The Birth Rate.

The loss of potential lives to the belligerent countries by the decrease in the number of children born was, perhaps, the most important effect produced by the war on vital statistics. In birth the United Kingdom had suffered far less than Germany and Hungary, the United Kingdom having lost 10,000 per million of the population, Germany 40,000 per million and Hungary 70,000 per million. As regards infant mortality, the rate during 1914-1916 had been lower both in the United Kingdom and in Germany than in any previous period of like duration, but the summer mortality in 1917 appeared to have been extraordinarily high in several German cities, and the German rate all through remained at some 50 per cent higher than in this country.

More Boy Babies.

Some curious results were noted. An alteration in the sex ratio of birth appeared to be established by the figures of the United Kingdom, especially by those of England, the proportion of male births having noticeably increased. Contrary to expectation the war had produced no effect upon the figures of illegitimate births. Decline in suicides was another interesting feature.

Comparison between the natural increase or decrease of the populations showed that whereas the population of the United Kingdom was now somewhat greater than at the beginning of the war, in spite of all losses of life in the army and navy Austria-Hungary and Germany had each suffered a decrease of some 600,000, in addition to losses in the field outside of these countries—perhaps a total decrease of at least four millions.

May Keep U. S. Prisoners in France.

Germans captured by United States troops may be kept in France to do farming and other necessary work in that nation. France has made this request of America, and, as the expense of transporting prisoners will be great, the request doubtless will be granted.

Mrs. Elizabeth Boyce of Spring Hill, who is past seventy years of age, is seriously ill.

SPY OUTWITTED BY OLD WOMAN

Curiosity Aroused by Actions of Foreign Gentleman on Aberdeen Express.

DOES SOME SWIFT THINKING

Looking Stupid Is Her Specialty, and When Officers Grab the Spy He Looks at Old Lady and Sighs.

London.—The best spy story in a long time comes from a medical officer, one of the big guns of his corps and profession. It is all about the Aberdeen Express, one of the world's quickest long-distance runs. You leave London after the theater, go to bed in the train, have a cup of tea in bed at Edinburgh, and breakfast in Aberdeen, 600 miles from town. Northward from Edinburgh there are stops a while on the Forth bridge, from whence you look down onto the decks of first-class battleships, and at Dundee, and Montrose.

The old lady boarded the train at Edinburgh and the porter shoved her into a non-smoking compartment of the day coach. The other passenger was a foreign gentleman—of what nationality it would be hard to say, but foreign. As to the lady, she seemed a harmless old thing some fifty-three years of age. The point is that one of the two was really a German spy, and anyone's first suspicion would point to the old lady. She owned up frankly that she enjoyed a gossip, and found the foreign gentleman quite a good fellow. As to his nationality, the accent gave no clue. She pumped him perseveringly.

A few stops from Edinburgh the train stopped on the Forth bridge. From the trains one looks down upon a naval base of first-rate consequence. A spy, making rapid summary of the capital ships in full view, might pick up important information.

The foreign gentleman stood up, filling the window, shutting out the view, and annoyed the old lady, who also wanted to have a look. Moreover, she saw him go through a long fumbling procedure which puzzled her extremely. What on earth was he up to? The only thing she saw was the last swift movement which emptied the bulgy part of his overcoat. And she caught the glimpse of a wing. Now the whole thing was clear; there must have been a message scribbled rapidly, folded and made fast and then sudden release of a carrier pigeon.

The Old Lady's Specialty.

And then the foreigner flashed round to see if the lady had noticed anything. No, evidently not. She looked vacant, nodding and half asleep.

"I looked stupid," she said afterward, "but that's my specialty."

She must have done some very swift thinking before he had time to turn round. Her first impulse was to run along the corridor and find the guard or rouse the first soldier she saw. But then the foreigner would see by her first movement he was in danger, and she did not want to be strangled, thrown out of the window, and drowned in the Forth estuary. She became affable, wondering what had delayed the train so long. He expressed noble sentiments concerning the allies and contempt for Germany.

But as the train pulled into Dundee the old lady expressed her conviction that the morning papers would be for sale by this time at the bookstalls. She felt that a little run on the platform would ease her limbs after the cramped compartment. She would buy a paper for the foreign gentleman also.

Half-way to the bookstall she met a porter. It would be natural to ask him how long the train stopped.

"Don't be seen speaking," she said, as she passed the porter. "There's a spy in my carriage. Send the station master to me at the bookstall."

When the station master came behind the lady spoke into an open newspaper just as though she were reading aloud. "Don't be seen speaking with me," she said. "There's a spy in my carriage. The train stops at Montrose next, eh? Well, wire Montrose!"

She paid for her bundle of papers and walked back to the carriage.

The spy seemed unsuspicious, sitting where she had left him, much obliged for the newspaper. The plucky old lady sat opposite to her spy and entertained him until they reached Montrose.

No Stranger.

Then came to their compartment a British officer with an armed guard and a detective, who greeted the spy at once like a long-lost brother.

"Why," said he, "I've been searching for you for months."

The spy looked out through the window eastward and saw an armed sentry waiting on the metals in case he attempted escape. Then he looked at the lady—the artful old lady—and sighed.

Later the old lady received an official communication of warm congratulation on her patriotism, courage and high intelligence, begging her to accept the inclosure, memento of a fine deed done for her country.

It is believed that, to an enormous extent, the bed of the ocean is covered with lava and pumice stone.

After such splendid results with "Seventy-seven" send for a free copy of Dr. Humphreys' Manual of all diseases and dip into its wealth of information on domestic practice, describing in simple language the maladies proper for a layman to treat. Picking Apples on Shares.

Picking apples on shares is the way one Kansas university fraternity is fighting the high cost of living and at the same time storing up a winter supply of fruit. One farmer bargained with the Acacia Chapter to pick his apples. The fraternity men picked 200 bushels one morning on shares, storing twenty bushels in their fraternity house as payment. This same chapter last year needed quilts, so they held a quilting bee and made thirty quilts.

Miss Nellie Lewis of Ohio avenue is on the sick list.

Ralph Bruner has returned from Grand Rapids, Mich., where he and Mrs. Bruner went to spend the holidays with relatives. Mrs. Bruner will remain for a two weeks' visit.

Homer Covert has returned to Indianapolis after a few days visit with his parents Mr. and Mrs. J. W. Covert on the Middle road.

Mrs. Peter Wall who has been the guest of her daughter, Mrs. Charles J. Schimpff on Pearl street returned this week to her home at Elwood, Ind.

LIVING LAWN MOWERS

Sheep to Cut Grass in Rocky Mountain National Park.

Little Bo-Peep may be seen in various sections of the Rocky Mountain National Park system next summer, if a plan being advocated by those interested in "conservation" programs is accepted. It is pointed out that sheep can be used to good advantage in the vicinity of Estes Park, as well as in the numerous municipal parks of Denver, for "mowing lawns."

Great expense is involved in keeping the grass cut in Denver's beautiful parks and sheep are said to be excellent "lawn mowers." The city fathers of Denver have also been much impressed with the suggestion that snow-white sheep attended by dainty misses dressed as Dresden shepherdesses would greatly enhance the picturesque landscape.

PLEASURE MOTORS STOPPED

British Petrol Regulations Stop Nonessential Driving.

The complete suppression of pleasure riding by automobile and the restriction of gasoline consumption to strictly necessary purposes is aimed at in a series of new petrol regulations just issued in England. It is now illegal for any automobile owner to drive his car merely for his private convenience.

If a policeman sees an automobile standing outside a hotel or theater it will be his duty to find the owner and investigate the use he is making of his car. If the car is being used for any purpose other than those provided in the new regulations the owner will be prosecuted.

Question of Authority.

"You can't tell 'bout a display of authority," said Uncle Eben. "Many a man thinks he's doin' a fine job of mule drivin' when de mule is jes' hurryin' to git home on his own account."

Earth Grows Slowly Now.

In the early days of its history the earth grew rapidly by the addition of meteoric matter. It is still growing in the same manner, scientists say, though scarcely to an appreciable extent, for the mass of meteoric matter added yearly is reckoned to be only 20,000 tons. In the course of ages the larger planets have swept up practically all the fragments of the original disruption, and the only available source of supply of meteoric matter seems to be brought by comets.

Perfecting Fireproof Paper.

Documents written on paper made from asbestos fiber, with inks prepared from the nitrates o. iron and cobalt, have withstood a red heat for two hours without being damaged in any way. No damage resulted until the intensity of the heat was increased considerably and the document was exposed in it for ten hours. It is expected that further experimentation and study will result in the perfection of a paper and ink practically indestructible by fire.

Corn Needs Little Cultivation.

In Illinois farmers found that once the corn roots were fully established in the soil, their attraction for the moisture was so great that very little moisture escaped. The only cultivation they found valuable was to keep down the weeds, which used up the moisture. Three-fourths of the corn roots do not go deep, but establish themselves in the cultivated soil, and the less they are disturbed at their means the better crop results are attained.

SAVE THE POTATO BY MAKING USE OF IT

To Eat Them as Often as Possible Is Duty of Every Man, Woman and Child.

The estimated surplus of the 1917 potato yield is about 90,000,000 bushels. In patriotic response to the war emergency appeal there was over 700,000 more acres in potatoes in 1917 than in 1916.

To take care of this banner crop so that not one bushel goes to waste should be the patriotic duty of both farmer and business man. To serve them in as many different ways as possible should be the war-time tactics of every housewife. And to eat them as often as is wholesome is the duty of every man, woman and child who has volunteered in the work of the United States food administration.

For by just that much will products equal in food value, but more easily transported, be released to the army and allies.

Potatoes are highly nutritious, but take up too much room to be shipped abroad, and are likely to spoil in transit. The housewives of the country must study how far and in [illegible] ways the potato can be used as a substitute of those concentrated foods that are needed in Europe.

Potatoes are easy to cook, and there are more than one hundred ways of cooking them. Besides furnishing energy-producing material, they counteract the acid condition which the highly protein foods often create. Because of their lack of protein value, they may not be used to the exclusion of meat; but they can be served in a much larger proportion than has been customary.

HE HAS IRON IN HIS BLOOD

That is why he is such a great winner, accomplishes so much, why he overcomes obstacles and knows no such thing as failure.

Iron in the successful formula for Peptiron, which also includes pepsin, nux, celery and other tonics, sedatives and digestives, helps to give strength, color and body to the blood; reddens pale cheeks, steadies the nerves, nourishes and gives stamina to the whole body.

Peptiron is in pill form, chocolate coated, pleasant to take, easily assimilated — the most successful combination of iron that its makers, C. I. [illegible], Mass., know of. [illegible] for you. It will put iron into your blood.

CLOTHES DON'T FIT EAT TOO MUCH

Among many abused rumors at Camp Zachary Taylor given wider circulation than they deserve, officers were able to pin down at least one report which concerned a private who had written home that he was improperly clothed. Investigation developed the information that the man had gained thirty pounds in the few weeks he has been in camp. It was true that he had outgrown some of his clothes.

SIX ARRESTS EACH EVERY MONTH

City Poice Captured 418 During Year 1917

The number of arrests by the Jeffersonville police department of six men during December was twenty-five which was much below the average of thirty-five a month for the year. An annual report, given out by Chief Dennis Donovan, showed that 418 arrests were made during the year which is an average of six arrests each officer per month. Of the most serious offenses charged were the following:

Murder 5; burglary 5; forgery 1; assault and battery with intent to kill 10; assault and battery with criminal intent 1; bigamy 1; grand larceny 6; receiving stolen property 1; petit larceny 25; fugitive from justice 5; deserter from the United States army 1; child desertion 5; wife desertion 1; insanity 4. There were 158 arrests for intoxication and four for habitual intoxication. The remainder of the arrests were for the following causes; assault and battery 54; associating 9; adultery 2; beating board bill 5; carrying concealed weapon 13; common prostitute 6; exposure 1; keeping house of ill fame 2; malicious destruction of property 2; overloading 1; paternity 2; profanity 2; provoke 13; riot 17; surety of the peace 2; trespass 4; violating city ordinance 2; vagrancy 39; visiting house of ill fame 7; violating auto license law 2.

DOCTORS SAVE GIRL WITH VIN HEPATICA

Strange Case Of Three Year Old Goodlettsville Girl Had Baffled Skill of the Best Physicians.

"While the physicians did everything in their power to save our little girl" said Mr. S. J. Watkins, of Goodlettsville, Tenn., they could do her no good as she was so weak and finally said she could not get well.

"As a last resort one physician advised me to give her Vin Hepatica. I did and she took five bottles. She is now entirely well sleeps well and is growing in strength every day. No one knows how grateful we feel to this physician for suggesing the use of Vin Hepatica. It is simply wonderful what it has done for her. It saved her life."

Physicians are prescribing Vin Hepatica for the reason that it is a real medicine and not a patent nostrum. They know what it is. They know it is composed of eight of the finest herbal remedies known to the medical profession.

We strongy recommend Vin Hepatica. Come in, get a bottle and try it. It will do you good.

THRIFT STAMP SALES SMALL BUT CONSTANT

A limited number of thrift stamps are being sold daily at the local postoffice but at present they are not on sale except there and at other postoffices in the county. John D. Driscoll named as county chairman to direct the sales, said that a concerted effort would be made later to push the stamps, starting perhaps about the first of February.

WILL LEAVE FOR LOUISIANA

Edward McPherson who was in charge of the construction work at the American Car & Foundry Company, this city for 10 or 12 years but resigned that position some time ago, later went with the Struck Company at Quartermaster Depot, will in a few days leave for Morgan City, La., to take a position with the Government Shipbuilding Company at a nice salary.

REAL ESTATE

Samuel Williams and Lela Williams have conveyed to George P. Moore, by deed filed in the office of Clifford Allhands, county recorder 70 acres of land in survey 175, Charlestown township, for a consideration of $600 the grantor retaining a lien for balance of $300.

SAVING MONEY

Everytime thrift or saving money is mentioned some people get the idea that it means cutting down expenses to the very lowest notch to save every possible cent. at the expense of self-respect, comfort and health.

Not for an instant should you think it means anything like that.

Thrift means the elimination of UNNECESSARY WASTE — in food cothing, pleasure, business and everything that makes you spend more than is necessary for your convenience, comfort and happiness.

What you can save and put away for future emergencies or opportunities is deposited to advantage in a savings Account.

MAKING BIBLES FOR BOYS IN THE SERVICE

© International Film Service

The Bible is the most "popular" book with the boys in camp, in the field and on the high seas. Thousands of these little volumes have spread strength and comfort among the hosts of army and navy boys fighting the good fight for Uncle Sam. Great numbers of these books are being turned out weekly from the great presses and binderies of the Bible House, New York city, for distribution among the men in the services. Hundreds of them are also sent to all parts of the world, spreading the light to both educated and ignorant, to good and bad, to poor and rich. The mechanical production of these Bibles proves most interesting to those not familiar with the birth of these treasure houses of happiness. From the setting of the type to the final wrapping of the book, all is done in orderly fashion, greatest attention being paid to the perfecting of the gilt-edged volumes.

Women Like Work.

Woman engine wipers at Spokane, Wash., and at other division points on the Great Northern and the Northern Pacific railroads in this state like their work and prefer it to housework, C. H. Younger, state labor commissioner, declared after an inspection trip to the railroad shops of the state.

OUR SAFETY IN OUR SOIL

There is some hysterical talk concerning the danger of food shortage in this country similar to that experienced in other countries at war. A little sober reflection, however, will show us how little ground there is for such fears, provided our production is pushed to the maximum and distribution is organized to stop food wastes in marketing.

The heart of America contains the richest developed area of corp-producing land i the world. It has been pointed out that one farmer on our fertile prairies could provide the food for a hundred people for a year. We have in the Central-States section about 2,000,000 farms which at this rate of production could produce food for all our people and have a lot to spare.

Our farms have always provided an ample supply for our people. This is apparently contrary to some statments that production has not kept pace with population; but the fact is that while in 1899 our farms furnished 3.6 bushels of potatoes per capita they furnished 3.5 bushels in 1915, when there was a short crop. Of all grains they furnished forty-four bushels per capita in 1899 and forty in 1915. In 1899 we produced only 6.4 pounds of sugar per capita; in 1915 19.9 pounds. In 18899 we produced 248 pounds of meat per capita; in 1915, 220 pounds. Of eggs there were 17 dozen in the first period and 18 dozen in 1915.

Our acres are ready to meet almost any demand upon them. They more than suffice for our home consumption and if they are properly tilled they will assure our being able to help feed other nations. Our place in the sun as the richest nation in the world is buttressed by the fact that we have potentially the greatest food supply in the world.

HOSPITAL PLANS READY; WAIT FOR APPROPRIATION

Plans for the proposed hospital building for the U. S. quartermaster's depot to be built at Ekin avenue and Mechanic street, have been approved but the necessary appropriation is not yet available.

THANKS FOR ORPHANS

FIRST LIST OF CLASS ONE ANNOUNCED

Work Of Classification Begun By Clark County Exemption Board

ACT ON SIXTY-TWO

This Class Should Yield All Needed For Military Service Of Country

The task of classifying registrants on the basis of their answers to questionnaires has been begun by the Clark County Exemption Board and a first list of sixty-two has been completed. It is expected that he first class will practically supply all who are wanted for service and this class will be exhausted before any other is drawn upon. This will be especially the case if recommendations of Provost Marshal General Crowder are adopted — on adding year by year the 700,000 young men who reach their majority, and another proposing that the quotas of saes and counties shall be pro rated on he basis of registrants in Class one instead of on the population basis.

The following is the first list of Class One, containing the names of all likely to be drafted, according to the forecast of General Crowder.

Arnold Andrew Aeschbach, 1313 Spring street, Jeffersonville; Arthur Schneider, Jeffersonville township; John Herschel Williams, National avenue, Claysburg; Rolla Hopwood, Otisco; Roy Hollowell, 1007 Clark avenue Howard Park; Otto Fletcher Hobson, 319 Indiana avenue, Jeffersonville; Harry L. Mottaz, 520 Missouri avenue, Jeffersonville; Fred Matthews, Charlestown; George V. Munz, 1700 West Front street, Clarksville; Carl Zimmerman, eleven miles north of New Albany; Clarence O. Long, 1011 Harrison avenue, Howard Park; William O. Landers, Sellersburg; William Earl Casey, Jeffersonville; Ernest Bowyer, Charlestown; Patrick James Bane State Penal Farm, Putnamville; Birdsell Bottorff, Memphis; Arthur Stoner, Jeffersonville; Jesse L. Gillespies, Borden; Josn Peter Weiske, Floyd Knobs; Charles Paul Duncan, 202 Bowling avenue Clarksville.

WEIGHT-LIFTING CONTEST FATAL

Death Of Louisville Employe At Q. M. Depot Ascribed To Effort

J. H. Herron, 54 years old, died suddenly at his home, 526 East Gray strret Friday night at 8:30 o'clock. He was an employe in the Quartermaster's depot in this city. cAccording to members of the family Herron wrenched his back a few days ago when he and several of his companions engaged in a banter as to who could lift the heaviest weight. No attention was paid to the injury and it is thought that it may have resuled in his death. Deputy Coroner Kammefer will investigate the case.

SCOUTS PLAN FOR NEW YEAR

Schedule Of Interesting Special Monthly Meetings

Homer M. Frank, scoutmaster has arranged a fine program of monthly meetings to continue through the first half of 1918. The list of special meetings is printed below. The Scouts of his troop meet every Friday night over the News office and they have some fine times. The plan has been adopted this year of letting each of the four troops take turn in providing the program. This week story telling was one of the features and one Scout gave a "vision of 1918" being a forecast of some of the things the Scouts hope to do this year. The Scouts have served the community well on a number of occasions and they will do so again at the first call upon them. There are about thirty-four in Mr. Frank's troop.

The following is the schedule of special monthly meetings.

January 25, Prof. F. E. Andrews, "Geological Scout Work"

Feebruary 10, Sunday, Scout Anniversary Day; special program at night at Wall street M. E. church.

February 22, Dr. J. H. Baldwin, "First Aid Work."

March 8, Parents' Night.

March 29, Rev. W. O. Williams, "A Scout is Reverent".

April 26, Hugh A. Stevens, county agricultural agent, Illustrated Lecture.

May 24, Capt. Albert Smith, Knot Tying.

June 21, A visit from Scout Executive A. T. Benson of Louisville.

PATRONS MUST FINANCE WORK

Must Advance Cash To Company If Electric Wiring Is Done.

Patrons of the United Gas & Electric Company who desire electric lighting installed in their homes or places of business must hereafter advance the money to the company to do the work, according to E. F. Groher, local manager. The money has to be paid before the installation is made but the sum is o be repaid to the consumer by crediting him with the amount of his monthly bill for electric current until the advance is liquidated.

The fact that the ciy owes the company nine months' rent for for electric lighting amounting to about $8,000 and is not likely to pay it for some time to come is a factor in conditions and Mr. Groher said that it would be simply impossible for the company to install wiring on any other terms. The company and the several interurban companies which are allied with it buy most of their current, both for Jeffersonville and New Albany, in Louisville, using their local plants as distaributing stations only.

FIRE DEPARTMENT WINS APPRECIATION

Mayor Rauth yesterday received a letter from Col. Wood, depot quartermaster, thanking the fire deparment for its efficient service during a fire on the morning of December 31. In the course of his letter he said. "It is noticed the fire alarm was given at 3:55 o'clock and the city fire department equipment arrived at 3:58, which is considered remarkable time of reporting at the place of the fire."

CLEAN UP POLICE STATION FOR NEW ADMINISTRATION

Under the direction of Capt. Dennis Donovan and James Masters who will possibly be the next chief, the police station is being given a good clean up and will be ready for the change of administration next week.

TWO TRIED HOLD UP IN RESTAURANT

Returned To Reformatory As Parole Violators; Out Two Months

OTHERS IN SCHEME

Disappointed Pal Gave Away Game To Louisville Detectives

Otis Wheeler and J. R. Whitson, arrested in Louisville Friday were returned later in the day as parole violators to the Indiana Reformatory by A. M. Dowd, parole agent, after an investigation made through Capt. Dennis Donovan hod shown that they were wanted at the instituion. The name of Whitson, as it appears on the records of the institution, is Raymond Burket and no alias appears on the books there.

The two men, who had been out two months, are said to have been involved in a number of hold-ups and robberies. Their arrest came about through an attempt to hold up Camp's restaurant on Jefferson street, Louisville, early Friday and "stick up" a score of people then in the place. The plan, it is said, was for one or two men to hold the doors with revolvers while the others went through he crowd and go their valuables. They were then to escape in an automobile which was to be waiting and they intended to time the affair so that they might just each an L. Q N. train for the south.

Several others were implicated in the affair and it is said that one of these gave the game away, leading to the arrest of these two before the others arrived on the scene, but the police assert that they will be taken later. The fwo men raptured were not armed and the automobile had not turned up at that time. They admitted being from the Reformatory. Wheeler is said to have been concerned in a robbery in Jeffersonville, at Dave Rose's grocery, and in holding up a deafmute at New Albany.

The Reformatory records show that Wheeler came from Floyd county April 5, 1916 for petit larceny and was paroled October 29, 1917, and that Burke came from Dekalb county for like offense December 29, 1915 and was paroled November 3, 1917. Each is about 21 years of age.

In Wheeler's pockets was found a letter addressed to his mother in Louisville. He told her that he had accepted o position as stenographer with a taobacco company in Nashville and later expected to go on the road as salesman. He asked that his mail be addressed to him under the name of John Wilson at the general delivery in that city.

On the back of the pages written ostensibly o his mother was a message addressed to a sweetheart written principally in shorthand. The message, which is also believed to be code, could not be deciphered.

Wheeler told the detectives he had been given an excellent education by his father and he had prepared only two years ago to enter the University of Louisville to study medicine.

Mrs. A. C. Pfau will entertain her Bridge Club at her home on West Riverside Tuehday afternoon.

KNIFE WOUNDS PROVE FATAL

Curtis Johnson, Arrested Here, Charged With Murder At Brownstown

Word reached Jeffersonville Friday evening of the death at a hospital in Seymour, Ind., earlier the same day, of Jacob Rucker as a result of injuries sustained last Saturday night on account of which two men are being held in jail at Brownstown. One of these os Curtis Johnson who was arrested on an interurban car in Jeffersonville last Saturday night by Sergt. Ellsworth W. Summers of the Jeffersonville police department, acting upon information from Crothersville, Jackson county, where the trouble occurred. Johnson gave his home as 261 North Clay street, Louisville and was returning to that city when arresed here. Randolph Acres, of Johnson county, is also under arrest.

The home of Rucker was at Tampico and he was at the Crothersville interurban station awaiting the arrival of relatives when approached by Acres and Johnson, both strangers to him, according to the story told. They had been drinking and asked Rucker to join them but the latter refused. They then taunted him until, it is asserted, he resented it and knocked Acres down whereupon, it is charged, Johnson drew his knife and made the wound of which Rucker subsequently died. Rucker was a young man of good habits and held in esteem, according to word from Seymour.

OBSERVANCE OF SABBATH

And Closing Of Saloons To Be Considered By Ministers Next Tuesday

The Rev. Arthur Hale Keeney president of the Jeffersonville Ministerial Association, has issued the following call for the deferred meeting to be held next Tuesday:

"Tuesday at 10:30 a. m. the regular meeting of the Ministers' Circle will convene in the lecture room of the Presbyterian church. It is important that all members be present, for with the new city administration there is hope for a decent observance of the Sabbath. The subject of open saloons on Sunday and gambling dives and the rowdy dance halls in the city will be given attention at tehis meeting."

PAIR OF SOCKS EACH FOR THIRTY

Mrs. N. H. Myers Sends Parcel To Camp Shelby

Mrs. Myers, wife of Newton H. Myers, mayor-elect, has forwarded to Camp Shelby, Miss. a parcel of one pair of socks each for thirty men from Clark county who were formerly at Camp Zachary Taylor and were recently transferred to the 38th Division at the southern camp. The socks have been made by Mrs. Myers and a number of ladies who have assisted her, the yarn being provided by herself and Mr. Myers. The following is the list of soldiers thus remembered:

John H. Abbott, Edward Awbrey, Louis C. Beyl, John T. Block; William A. Bonset; Walter W. Brennan; Patrick J. Callahan; John H. Canter; John K. Carroll; James G. Chappell; Charles L. Dickey; Thomas P. Gavin; Philip B. Hagest; Everett W. Henderson; Elbert L. Huston; Arlie C. Johnson; Richard G. Kerney; Charles E. McEntire Hugh McGrody; Daniel E. Mannix; Louis W. Noe; Joseph B. O'Neill; Jesse Powers; James H. Samples; Marrel Sanford; Charles J. M. Schnell; James W. Stone; James A. Trinkle; Clifton C. Varble; Joseph R. Volmer.

Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH MEDICINE. FRANK J. CHENEY.
Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886. A. W. GLEASON,
(Seal) Notary Public.
Hall's Catarrh Medicine is taken internally and acts through the Blood on the Mucous Surfaces of the System. Send for testimonials, free.
F. J. CHENEY & CO., Toledo, O.
Sold by all druggists, 75c.
Hall's Family Pills for constipation.

"The Telephone Rang."

"And the telephone rang!" is the burden of some verses read lately, describing all the things that happened and didn't happen in consequence. The way one woman escaped wearisome trips up and downstairs in response to 'phone calls was by using a desk telephone with a very long cord. Then she took the telephone upstairs, downstairs, or on the gallery, wherever she happened to be. When the bell rang the interruption was at least close at hand.

If Mothers Only Knew

Mother Gray's Sweet Powders for Children relieve Feverishness, Headache, Bad Stomach, Teething Disorders, move and regulate the Bowels and destroy worms. They break up colds in 24 hours. Used by mothers for 30 years. All Druggists, 25c. Sample Free. Address, Mother Gray Co., Le Roy, N. Y.

A House Guest.

"She's a house guest of her mother." "That's a queer expression. She lives at home all the time. "Well, she sits around while her mother does the work."

Dr. Humphreys' Admirers

The followers and admirers of Dr. Frederick Humphreys, will be deeply interested in the New Edition of his Medical Manual just off the press. Telling how to care for and treat the sick and ailing—mailed absolutely free on request, address: Humphreys' Homeopathic Medicine Co., 156 [illegible], New York.

HOW TO REDUCE

High Cost of Living During These War Times—What Every Woman Can Do.

Look over your old clothes. You can never appreciate how much you can brighten and freshen up your wardrobe until you use Dy-O-La Dye.

Take some of your discarded blouses and dresses, dye them with some of the sixteen different colors of Dy-O-La, change the trimmings a bit and you will be astonished at the result.

Dy-O-La is the modern dye made by skilled chemists who have removed all the difficulty from home dyeing in order that you may get perfect results. Old style dyes require a separate dye for each kind of goods. That makes trouble (as you probably know) for if you get a package for the wrong kind of material the goods are spoiled. You can't make such a mistake with Dy-O-La Dye.

Take some garment that you have grown tired of or that you desire to color the fashionable shade of the moment, look over Dy-O-La Dye color chart at your nearest druggist or storekeeper, select the one that pleases, and follow the printed directions. They will look as if they had just come from the dressmaker.

And remember—the colors will be just as fast and durable as they are beautiful. They won't rub off or bleach out.

Buy it of your nearest druggist or storekeeper, but if they have not the color you want we will send it to you on receipt of ten cents and at the same time include direction book and color chart.

Dy-O-La Dye is made in Black, Blue, Navy Blue, Brown, Seal Brown, Light Green, Dark Green Scarlet, Yellow, Orange, Cardinal Red, Pink, Purple, Dark Wine Old Gold, Turkey Red and from these sixteen colors a great variety of other shades and colors can be made.

Dy-O-La Dye Company,
700 Sixth Ave., Des Moines, Iowa

Patent Lawyers. Estab. 1889.
307 Seventh St., Washington, D. C.

Origin of the Word "Lady."

Why we call a woman a lady is known, probably, to few women. It came from a practice that obtained in the manor houses of England where, once a week, the lady of the manor distributed to her poor neighbors, with her own hands, loaves of bread. She came to be called "Laef day," the Saxon words for bread giver. These two words became one: "Lady."

The National Capital.

The site of Washington city as the national capital was selected in 1791, the corner stone of the capitol was laid in 1793 and congress met there for the first time in November, 1800. Prior to that congress had met at Philadelphia, New York, Baltimore, Lancaster, York, Princeton, Annapolis and Trenton.

THE STREET CAR

THE street car is the mixing trough of humanity. It is an automatic enforcer of democracy, and is our greatest proof that men are equal. The street car [illegible] the millionaire, the society [illegible], the minister, the gambler, the immigrant and the plain drunk [illegible] meet nowhere else and it mixes [illegible] thoroughly that at the end [illegible] minutes the millionaire is [illegible] the plain drunk on his lap, [illegible] is leaning on the minister and the society lady's hat [illegible] the poor immigrant's eye.

[illegible] street car is another reason [illegible] have had to put adding [illegible] in the recording angel's [illegible]. The reason why more men [illegible] go insane trying to drive automobiles is because they have previously ridden on street cars. The [illegible] car is a short, narrow box stall [illegible]. It has two rows of seats [illegible] only visible after business [illegible] a set of brakes powerful [illegible] to throw a 200 pound man [illegible] feet when the car stops. Some [illegible] get so expert that they [illegible] throw a large man from the [illegible] at a small man against the [illegible], and make a bull's eye [illegible] time.

[illegible] street car, as its name implies, [illegible] our streets. It can be found [illegible] a block ahead of where you [illegible] or waiting behind six coal [illegible] two miles to the rear. It [illegible] six miles an hour when you [illegible] aboard and trying to catch [illegible], but when you are chasing it, it frequently passes a crossing at a [illegible] of 100 miles an hour. Sometimes a motorman has run by so many people on the corners that he [illegible] to lose his trolley to avoid getting in on time.

[illegible] are two kinds of street cars, bad and worse. In the bad kind you have to pay your money before you get in. In the other kind the company takes its chance. In the latter kind the conductor climbs over the passengers to get his fares. In the former the passenger climbs [illegible] him. Conductors assure us that the "pay as you enter" cars are an utter failure, and that the price of living is getting steadily higher.

The street car refutes the old superstition that you can't put two things in the same place at the same time. Long after a street car is entirely full people keep getting into it. We are told by scientists that a street car does not become profitable unless it has a fringe of passengers dangling from the straps. It is much more comfortable, therefore, to contribute to the expenses of a company than it is to swell its profits. In England they use cars with roof gardens, which enables them to carry two layers of passengers at a time. In this country, however, we are more scientific. We carry three layers in one-story cars. Owing to the exertion of arranging the passengers, our street car conductors break down at an early age and become sardine packers and cotton balers.

Because of the vast number of street cars in America and the waning popularity of walking as an exercise the feet of this nation will soon be calloused on the upper side only.

When you are chasing it, it passes a crossing at a speed of 100 miles an hour

Friends

A friend is one who is a friend to you when you are absent. Happy the man who has many such friends and who is such a friend to many.—Exchange.

Little of Both.

"What is that dog—a pointer or a setter?" "He's a pointer when there's a beefsteak near, and a setter when we're out looking for game."—Life.

$1,000 FOR THE POPE

Barber Also Left $700 for Clock in Church Tower.

The will of Engelbert Metzger, a barber, who was found dead the other morning on the floor in a room in the rear of his shop in St. Louis, has been filed for probate. One of the bequests was $1,000 to Pope Benedict XV or his successor, and another was $700 for a clock in the tower of St. Henry's German Roman Catholic church. He also left $300 to the pastor of that church for masses.

To his children, Mrs. Elizabeth Moser, John, Frank, Joseph and Henry Metzger, he left $1 each; to his daughter-in-law, Mrs. Catherine Metzger, $1,000, and the residue of the estate to the children of his sister, Mrs. Verena Dold of Springfield, Ill.

WAR COST 1-14 OF OURS

Germany Musters 14 Men for What It Costs Us to Keep One.

Germany is putting 14.3 soldiers into the field for the same amount of money which the United States is paying for a single fighting man, according to calculations today of government experts. They said the same general proportion was true also of maintaining the armies in the field, or, in other words, America must raise $14.30 where the enemy nations raise only $1 to carry on the war.

The difference was said to be due to the higher pay of United States soldiers and the greater cost of supplies in this country, and the contrast was used as a text for admonitions that resources alone would not win the war, but that strict economy was necessary.

LIVING LAWN MOWERS

Sheep to Cut Grass in Rocky Mountain National Park.

Little Bo-Peep may be seen in various sections of the Rocky Mountain National Park system next summer, if a plan being advocated by those interested in "conservation" programs is accepted. It is pointed out that sheep can be used to good advantage in the vicinity of Estes Park, as well as in the numerous municipal parks of Denver, for "mowing lawns."

Great expense is involved in keeping the grass cut in Denver's beautiful parks and sheep are said to be excellent "lawn mowers." The city fathers of Denver have also been much impressed with the suggestion that snow-white sheep attended by dainty misses dressed as Dresden shepherdesses would greatly enhance the picturesque landscape.

PLEASURE MOTORS STOPPED

British Petrol Regulations Stop Non-essential Driving.

The complete suppression of pleasure riding by automobile and the restriction of gasoline consumption to strictly necessary purposes is aimed at in a series of new petrol regulations just issued in England. It is now illegal for any automobile owner to drive his car merely for his private convenience.

If a policeman sees an automobile standing outside a hotel or theater it will be his duty to find the owner and investigate the use he is making of his car. If the car is being used for any purpose other than those provided in the new regulations the owner will be prosecuted.

Picking Apples on Shares.

Picking apples on shares is the way one Kansas university fraternity is fighting the high cost of living and at the same time storing up a winter supply of fruit. One farmer bargained with the Acacia Chapter to pick his apples. The fraternity men picked 200 bushels one morning on shares, storing twenty bushels in their fraternity house as payment. This same chapter last year needed quilts, so they held a quilting bee and made thirty quilts.

Wood will leave Monday with her two sons Robert and Paul for South Bend Ind., where they are students at Notre Dame College, hey will complete the next term before joining their parents who will within the next ten days locate in Washingfon, D. C. Mrs. Wood will return from South Bend on Wednesday.

Where You Are.

You need not say, "I cant to get away from my daily business or from my domestic concerns in order to show my faith." No, no, stop where you are and show it.—D. L. Moody.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher.

The Kind You Have Always Bought

THE CENTAUR COMPANY, NEW YORK CITY.

Corn Needs Little Cultivation.

In Illinois farmers found that once the corn roots were fully established in the soil, their attraction for the moisture was so great that very little moisture escaped. The only cultivation they found valuable was to keep down the weeds, which used up the moisture. Three-fourths of the corn roots do not go deep, but establish themselves in the cultivated soil, and the less they are disturbed at their meals the better crop results are attained.

His Hair Was Valuable.

A Chicago contractor who says his hair came out as the result of treatment at a hospital sues for $10,000. It is as much as to y to the court, "Before a hair of my head was harmed I was a $10,000 beauty."—Louisville Courier-Journal.

Keeps The Bodies Warm

Pure, rich, red blood is a necessity in the production of animal heat. It keeps our bodies warm. We all know very well that when the arteries that carry it to a limb are bound or tied, the temperature of the limbs is immediately lowered.

There is a suggestion in this that, at this time of year especially, we should take Hood's Sarsaparilla, if our blood is impure, impoverished or pale. Hood's Sarsaparilla makes the blood good in quality and quantity. It has an unequaled record for radically and permanently removing blood diseases, scrofula, rheumatism and catarrh, and giving strength and tone to the whole system. It is a scientific combination of roots, barks, herbs and other medicinal substances that have long been used by successful physicians. Get it today.

Adv weekly Jan. 4 Daily 5

Lost the Pill.

The little daughter of a homeopathic physician received a ring with a pearl in it on the Christmas tree. Two days later she poked her head earfully in at the door of her father's office. "Papa," she wept, "I've lost my little pill out of my ring."

What Was His Nationality?

When a building laborer in New York was injured, the policeman who went with the ambulance reported: "It's nothing; a man lost his balance and fell over a Limerick limousine." The lieutenant at the station wondered all the afternoon, until the policeman came in off his post and explained that the man fell over a wheelbarrow. Maybe you can guess the policeman's ancestry.

Earth Grows Slowly Now.

In the early days of its history the earth grew rapidly by the addition of meteoric matter. It is still growing in the same manner, scientists say, though scarcely to an appreciable extent, for the mass of meteoric matter added yearly is reckoned to be only 20,000 tons. In the course of ages the larger planets have swept up practically all the fragments of the original disruption, and the only available source of supply of meteoric matter seems to be brought by comets.

Perfecting Fireproof Paper.

Documents written on paper made from asbestos fiber, with inks prepared from the nitrates of iron and cobalt, have withstood a red heat for two hours without being damaged in any way. No damage resulted until the intensity of the heat was increased considerably and the document was exposed in it for ten hours. It is expected that further experimentation and study will result in the perfection of a paper and ink practically indestructible by fire.

Children Cry FOR FLETCHER'S CASTORIA

Worry Greatest Slave Master.

The moment I fret about a thing I am its slave instead of its master. And there is no slave master in the world like worry. Another master may grudge the sleeping hour, but he must give you time for sleep. Another master may grudge the dinner hour, but sometime you must eat. But worry will work you 24 hours a day and spoil your appetite in the bargain.—Mark Guy Pearse.

Do you get up at night? Sanol is surely the best for all kidney or bladder troubles. Sanol gives relief in 24 hours from all backache and bladder troubles. Sanol is a guaranteed remedy. 35c and $1.00 a bottle at the drug store. The Sanol Chemical Company, St. Louis, Mo. daily tf

Eighth of Hebrew Prophets.

Habakkuk was eighth in order of the minor Hebrew prophets. The strophical arrangement of the denunciation of the Chaldeans is a remarkable feature of his prophecy. The whole concludes with a magnificent psalm in chapter 3, a composition that has been considered unrivaled for boldness of conception, sublimity of thought and majesty of diction.

ACHES AND PAINS

You know by experience that the aches and pains of rheumatism are not permanently, but only temporarily relieved by external remedies.

Then why not use an internal remedy— Hood's Sarsaparilla, which corrects the acidity of the blood on which rheumatism depends and cures the disease.

This medicine has done more for the rheumatic than any other medicine in the world.

Advertising Pays.

A woman of uncertain age required the services of a page-boy, and inserted in the local paper an advertisement headed: "Youth wanted." One of her friends, with little humor and less taste, sent her a bottle of a celebrated wrinkle-remover, a pot of fairy bloom, a set of false teeth, and a flaxen wig! —London Tit-Bits.

When you have Backache the liver or kidneys are sure to be out of gear. Try Sanol it does wonders for the liver, kidneys and bladder. A trial 35c bottle of Sanol will convince you Get it at the drug store. The Sanol Chemical Co., St. Louis, Mo.

Perhaps It Was Necessary.

Scene—City Restaurant.—Two elderly ladies, with adopted child, take their place at the table. Order, according to menu, served. First lady (to Child)—"Now, Minnie, dear, remember your blessing." Second lady—"Yes, say your grace, dear. Always do that when away from home as well as at home." Child (looking most obedient)—"Lord have mercy upon this food." Waiter runs.

TONNAGE NEEDS OF ARMY ABROAD

Over 200 Ships Will Be Requiree Constantly to Supply the American Force.

GREAT AREA FOR SEA BASE

Estimated That 100 Pounds of Freight Per Man Per Day Must Be Unloaded at the Port of Debarkation.

CHARLES H. GRASTY.
New York Times.

London. — The American army in France will need some transporting. Here are figures that are at least approximately correct.

It is estimated that 100 pounds of freight per man per day must be unloaded at the port of debarkation. Therefore, when at the end of two years, we have, say, one million men in France, we must unload daily 100,000,000 pounds of freight, or 50,000 tons.

Three thousand tons can be unloaded daily from a good-sized ship; hence 17 ships at the wharves, each of them unloading 3,000 tons, will fill the requirements. In the United States 17 ships must be loading 50,000 tons a day. This makes a total of 34 ships at the docks. Taking as a basis a 6,000 ton (dead weight) ship, we see that 17 ships must leave New York every two days and 17 ships leave some French port every two days in transit with army freight. Assuming ten days as the time of passage, there would be 170 ships (6,000 tons) en route to and from the United States, which, added to the 34 at the docks, will make a total of 204 ships, assuming no loss or delay.

Enormous Supplies Needed.

To indicate the quantities of certain articles required, fuel for cooking for six months, on a basis of half a cord per day per hundred men, would amount to 13,500 cords. Owing to scarcity of fuel part of this may have to be brought to France.

With 1,000,000 men, there will be approximately 200,000 animals. At 14 pounds of hay a day, there would be required for six months over 456,000,000 pounds of hay, which must be imported, and also 360,000,000 pounds of oats. Rations will require 815,000,000 pounds. Ammunition will run into billions of pounds.

This freight calculation does not consider what would be required in building or rebuilding railroads or cantonments. The space required for store housing at the base would be about as follows: Rations, etc., 250 acres; fuel, 150 acres; forage, 450 acres; remount depots, 250 acres; cantonments for casuals, etc., 800 acres; sick and wounded, 1,000 acres; engineer, ordnance, and signal corps, 1,500 acres. Allowing for roads, office buildings, barracks, etc., the total would be about 5,000 acres.

CHAS. TOLAN ACCEPTED FOR TREATMENT

Notice was received by Ernest Jacobs, clerk of the Clark Circuit court, from Dr. J. W. Milligan superintendent of the Southeastern Hospital for the Insane at North Madison that Charles B. Tolan of this city, recently the subject of a lunacy inquest, would be accepted there for treatment.

Could Not Eat or Sleep Made Well By PERUNA

Mr. William R. Denny, 1623 Park Ave., Springfield, Ohio, writes:

"I find great pleasure in writing you and thanking you for what Peruna has already done for me. I have been troubled with catarrh for years, and it had affected my head, nose, throat and stomach, that I could not eat nor sleep with any satisfaction.

"I have just taken three bottles. I can eat most anything and am greatly relieved of nervousness, so that when I lie down I can sleep without the least trouble. I recommend it to all those who are sufferers of that dreadful disease, catarrh."

Catarrh For Years Can Now Eat and Sleep To My Satisfaction

Those who object to liquid medicines can procure Peruna Tablets.

INDIANA
August 30, 1913

I never hear a feller git to braggin' 'bout his state
But what I git to squirmin' an I just can't hardly wait
To tell him where I come from an' where I was born an' riz
'Cause I allow that my state's every bit as good as his.
'Twas here in Indiana I first saw the light of day
In Brookville, Franklin county,—right smart town too by the way—
An' jus' about as pretty as you'll find upon the map,
All nestled in a valley like a baby in a lap.

She may not be the oldest in the bunch, this state of mine
She ain't the biggest, either; but in many ways she'll shine
As bright as any of em' for she's never fell down yet
A-holdin of her end up, an' she never will, you bet!
Her pioneers was sturdy an' God-fearin', brave and true,
We little know the hardships an' the suff'rins they went through;
But in our hearts we'll cherish, aye, forever an' a year
The record of their triumphs an' we'll hold their mem'ries dear.

I m proud of Indiana for a lot o' things she's done;
Look how it was way back there in the days of sixty-one
When Lincoln called for soldiers; why, she didn't hesitate,
But sent 'em by the thousands, an she ranked the fifth best state
An' in he farmin' business she's right there with both her feet
A-standin fourth for raisin' corn an' eighth for raisin' wheat.
An as for population, it beats all I ever seed,
She holds ninth place at present an' she's growin like a weed.

An' when it comes to statesmen she's contributed her share
Ben Harrison for four years held the presidential chair;
An' four times has the country picked her sons for second place—
First there was Schuyler, Colfax, then Tom Hendricks made the race;
The next was Charlie Fairbanks an' Tom Marshall in today,
A-doin' mighty well too, an' with three years more to stay.
Of course there's states that's got us skinned a mile but then, by gum,
You can't dispute the fact that Indiana's goin' some.

An' there's her writer-people that has won world wide renown
Jim Riley an' Lew Wallace—Lew he come from my old town—
An' Eggleston an' Major, an' Booth Tarkington an Ade —
A clever lot of fellers, an' all Indiana made—
An' then there's old Abe Martin an' George Barr McCutheon too—
An'—beg your pardon Nicholson come near fergittin you—
An' there's some more— I hope their noses won't git out o' j-int
I jus' picked out a few to sort o' illustrate the p'int.

Some people say I'm crazy 'cause from early dawn till late
I never seem to weary of a-harpin 'bout my state;
But I ain't carin' nothing what the people thinks o' me
Im goin' to keep a-harpin' long as I'm a livin see?
An when the dear Lord calls me from this world of care an' toil
I want my folks to bury me in good old Hoosier soil;
Then when St. Peter asks me for the password, I'll jus' grin
An' whisper, "Indiana" an Ill bet he'll let me in.

Edward Keely Brooks

OTTO H. FRY NAMED BY SHERIFF AS DEPUTY

Notice of appointment of Otto H. Fry as deputy sheriff for a term of two years was filed by Sheriff John H. Dellinger in the office of Ernest E. Jacobs, clerk of the Clark Circuit court.

Mr. and Mrs. Raymond Ward from Washington, Ind., are the guests of Mr. and Mrs. J. W. Stratton on Meigs avenue.

SAVING MONEY

Everytime thrift or saving money is mentioned some people get the idea that it means cutting down expenses to the very lowest notch to save every possible cent. at the expense of self-respect, comfort and health.

Not for an instant should you think it means anything like that.

Thrift means the elimination of **UNNECESSARY WASTE** — in food cothing, pleasure, business and everything that makes you spend more than is necessary for your convenience, comfort and happiness.

What you can save and put away for future emergencies or opportunities is deposited to advantage in a savings Account.

Arrangements are being made by the officers stationed at the Government Depot there being more than 100 of them, to give Col. W. S. Wood a farewell reception Monday night.

ONE BUNDLE ONLY FOR SEWING OPERATIVES

Operatives in the shirt manufacturing department who turned in their work yesterday at the Government Depot were given only one bundle and told not to report for a week for more material.

SHERIFF EXECUTES DEED ON FORECLOSURE DECREE

Sheriff John Dellinger has executed his first deed upon decree since assuming the duties of his office. The deed was in favor of William W. Morgan for 74½ acres of land in surevy 255 purchased for $1,264.97 at sheriff's sale November 18, 1916 on judgment in foreclosure for $1,244.50 in the suit of Louise Bacon against M. P. Kirkpatrick and others.

Earth Grows Slowly Now.

In the early days of its history the earth grew rapidly by the addition of meteoric matter. It is still growing in the same manner, scientists say, though scarcely to an appreciable extent, for the mass of meteoric matter added yearly is reckoned to be only 20,000 tons. In the course of ages the larger planets have swept up practically all the fragments of the original disruption, and the only available source of supply of meteoric matte seems to be brought by comets.

THE THINKERS DAY

This is the day of the Superman.

The ordinary individual in the present condition of the world has far less opportunity than he has had for 50 years. The man who thinks is the man who will get somewhere in the next two or three years.

For the past half century or more we have been gradually crystalizing our methods of conducting business of education, of the work of our professions, including what we are pleased to call our higher literature, and men learned as by rote, and through an apprenticeship those "tricks of the trade" which led them, by slow degrees perhaps, to a reasonable proficiency.

The world has suddenly become a mental jungle, and there isn't a straighttway track anywhere to be found. The richest reward which the thinker has ever been able to secure lies ahead of him who is able to solve the problems which confront, not only the nation, but even the individual in the minutest affairs of his life.

It is the hour of the Superman, and if ever it was worth while to examine the foundations of our social and industrial life; if ever it was worth yhile to test out what we have called our fundamental propositions—that time is now; and we have no doubt that within another decade, there will be almost a complete reversal of values, considered from an economic standpoint.

THREE CIVIL SERVICE EXAMINATIONS ANNOUNCED

Applications will be received at Cincinnati until January 19 by the Civil Service Commission for the position of sawyer, to fill a number of positions at the quartermaser's depot in Jeffersonville at $3 a day, it was announced. An examination to provide twenty-seven carpenters was announced previously for February 2 and another will be held February 9 for steam fitters's helper, seven vacancies, $75 a month.

MEETING OF CHAMBER OF COMMERCE FRIDAY

Elmer M. Frank, president of the Jeffersonville Chamber of Commerce, has announced that a meeting of members will be held at Chamber of Commerce headquarters on Friday evening next at 8 o'clock.

OFFICE IS ASSUMED BY NEW MAYOR

Newton H. Myers Succeeds Ernest W. Rauth As Chief Executive

OFFICES ARE FILLED

James Masters New Chief Of Police; Robert Gleason, Sergeant

At noon Monday, automatically by operation of the law and by the will of the voters expressed last November, the administration of the City of Jeffersonville passed for the first time for eight years from Democratic to Republican hands when Newton H. Myers became mayor succeeding Ernest W. Rauth who served four years in that office. At the same time William B. Thornley took up the duties of city clerk, laid down by John J. Snyder. The transfer of authority was made at the city hall at noon without unnecesary elaboration.

Monday night the old Council, consisting of eight Democrats and one Republican will meet and adjourn sine dine, and the new Council, which consists of eight Republicans and one Democrat, will assume office. Nathan Sparks, fourth ward, the only Councilman re-elected is also the lone Democratic member of the new body.

Mayor Myers has announced the following Board of Police Commissioners: Willacy JJ. Schwaninger, Alfred C. Pfau, Republicans and Elmer M. Frank, Democrat.

Under appointment of this Board James N. Masters, patrolman, becomes chief of police succeeding Dennis Donovan who filled that office for one week, having been appointed when Capt. Mike Wall resigned the first of the year.

The new sergeant, who is required to be a Democrat, will be Robert E. Gleason succeeding Ellsworth W. Summers who has served eight years. He will become a patrolman since the law compelled the relinquishment of the office he has held in most satisfactory and creditable manner. Dennis Donovan returns to the ranks and so far as known there will be no immediate change. An additional patrolman has not yet been selected to bring the total up to he regular number. William Dolan is the fifth member appointed a few weeks ago to succeed August Hutt.

Capt. Masters has been ten years on the police department and has built up a good record of efficiency. It is believed that his training and experience, added to his natural gifts will make him an efficient chief of police. He is being heartily congratulated by many friends with whom The News joins, the only abjection of this paper being to his politics.

Sergt. Gleason has served eight years on the police department. He was considered for chief of police by former Mayor James E. Burke who finally appointed Capt. Wall and placed Gleason on the force as a patrolman. He has proved himself an active and reliable officer and the general efficiency of the department is expected to be well maintained under the new arrangements.

Peter Myers, who is an experienced man, will be made chief of the fire department, succeeding John Gilbert who has resigned from the department. Peter D. Madden will also leave and probably several others but the department has not been fully reorganized yet.

Other appointments will be announced at the meeting of the Council Monday night. The office of street commissioner is to be revived and Charles Barron is tipped for the place. The office of civil engineer will not be abolished but will be placed on a per diem basis and the appointee, who will be Allen Clarke, will be paid only for those days that time he is actually employed.

Wilmer T. Fox will, it is understood, be elected by the Council to the office of city attorney which he filled with great credit under the late former Mayor E. N. Flynn when he was largely instrumental in saving for the city a large increment of taxes on an increased assessment on the Louisville & Jeffersonville Bridge Company.

At the meeting of the Council tonight Mayor Myers will deliver a message, it is understood, outlining some of the conditions to be faced and making certain announcements.

HINSHAW TO BE PAROLED IS REPORT

Minister, Charged With Killing Wife, Married While On Parole

RETURNS TO PRISON

Bought Farm In Arizona; Notable Case Approaches Climax

Indianapolis, January 7 —Prison doors will soon swing open again for the Rev. William E. Hinshaw.

Indiana's most noted life prisoner at Michigan City probably will be paroled or pardoned within the next two or three months. He was sent to prison more than twenty-three years ago on the charge of killing his wife while he was pastor of a small congregation at Belleville, Ind.

Governor Goodrich would not say positively last night, what course he will take, but he indicated that he has concluded that Hinshaw is entitled to a parole or pardon. It was learned that the state pardon board at its recent session decided by a vote of two to one in favor of a pardon for Hinshaw.

Hinshaw came from Lynn, Ind., a small town near Winchester, the home of Governor Goodrich, who is familiar with his history. Hinshaw maintained that he and his wife were attacked at night by burglars and that one of them shot and killed her. The crime attracted nation-wide attention. Hinshaw stuck to his story that his wife was killed by burglars but he was suspected of the crime and arrested. After a sensational trial, he was sentenced to prison for life, although the evidence was circumstantial.

One of the last official acts of Winfield T. Durbin as Governor in 1904 was to issue a parole for Hinshaw who went back to Lynn to live with his relatives. Within a few months after the inauguration of J. Frank Hanly as Governor reports reached him that Hinshaw was paying devoted attention to Anna Freeman, wife of the then sheriff of Wabash County. Hinshaw was brought to the Governor's office.

NEW HEAD OF Q. M. DEPOT HAS ARRIVED

Col. W. H. Hart, From Fort Sam Houston Depot Quartermaster

GOT HERE ON SUNDAY

Col. W. S. Wood Leaves In Few Days; Col. Powers May Remain

A new depot quartermaster arrived Sunday at the United States quarermaster's depot in Jeffersonville but he proved not to be the man expected, owing to an error in the transmission of his name in press dispatches. The new commandant is Col. William H. Hart who has been department quartermaster of the Southern Department, at Fort Sam Houston, Texas, and has been relieved from that duty to come to Jeffersonville to succeed Col. W. S. Wood who goes to Washington shortly to the office of the quartermaster general. The name of Col. William E. Horton, who is understood to be at Washington, had been sent as that of the new commandant.

Col. Hart is a native of Minnesota, born March 20, 1864, and he entered West Point June 15 1884. He was graduated June 11, 1888 and assigned as second lieutenant to the Twentieth Infantry; was transferred to the Fourth Cavalry February 11, 1889; transferred to the Seventh Cavalry and promoted first lieutenant May 23, 1896; was made a captain in the Commissary Department November 10, 1900 and a major in the same July 27, 1903. Later the commissary, quartermaster and pay departments were united and he became Lieutenant Colonel in the quartarmaster's Corps March 6, 1913 and was promoted full colonel last year.

Col. Wood, when instructed to report for duty at Washington, as assistant to the quarermaser general, was direced to turn over the business of the depot to Liuet Col. Robert B. Powers who came here a few weeks ago and had been acting as second in command to Col. Wood whose former first assistant, Lieut. Col. R. B. Clark is in hospital at Washington, D. C., seriously ill. Col. Powers may remain as second in command for the present.

Dispatches from Washington indicate the probability that Col. Wood will shortly be promoted to the rank of Brigadier General though no information to that effect has been given.

UTICA FARMERS' INSTITUTE PLANS

Two Day Program; Second Day For Home Talent

The program was arranged Saturday for the Utica Township Farmers' Institute to be held at Praher January 22 and 23, insetad of January 21 and 22 as previously planned. On Tuesday the instructors will be W. M. Jones, of Fairmount, Ind., and Mrs. C. N. Lindley of Salem both sent by Purdue University extension department. On the second day the program will consist of local talent and the aim has been to make it strictly educational. The officers of the institute are Samuel Lentz president; Herbert Fry, vice president Hugh Marble, secretary; John Lentz, treasurer. The following is the program:

Tuesday—9:30 a. m., opening; 10:00 "Mission of the Farmer" W. M. Jones; 10:45, discussion; 11:00 "Womans Service in the War of Democracy" Mrs. C. N. Lindley; noon, dinner; 1:30, report of officers and appointment of committees; 2:00 "Benefits of Local Organization to Farmers" Mrs. Lindley; 2:45 discussion; 3:00 "Conservation on the Farm" W. M. Jones; 3:45 discussion.

Wednesday—9:30 a. m. opening; 10:00 report of experimental committee and discussion; 11:00 "Corn Breeding" Carr Lentz; 11:30 "Income Tax as It Affects Farmers" J. E. Taggart; noon dinner; 1:30 report of committees and election of officers; 2:00 "County Council of Defense" Mrs. N. Sparks; 3:00, Introduction of Miss Esther Price, the new lady county agent 3:15 "Result of our Home Economic Club" Mrs. Meda Jacobs.

* * * *

Institutes Elect Officers

The following officers were elected last week for the Charlestown Township Farmers' Institute: A. L. Crum, president; W. O. Vaught, vice president; Harold McCulloch, secretary and treasurer.

The Sellersburg Farmers' Institute elected: Louis Kranz, president; Clifton Smith, secretary and treasurer.

CURTAIN WILL RAISE AT 8:15

On The Great Minstrel Given By Officers Of Q. M. Corps

BENEFIT OF RED CROSS

Many New Attractions Added; An Excellent Performance Assured

Reserved seat tickets for the Officers MINSTREL SHOW which is to be given at the Dream Theatre, Monday and Tuesday nights of January 14th and 15th, will be placed on sale Thursday morning at 8:00 o'clock at Doherty's Drug Store on Spring street.

Several misleading rumors have been circulated, relative to the sale of the reserved seats, and the management wishes to emphasize that absolutely no seats will be reserved or taken out of the house prior to the sale which will open Thursday.

Officers on duty at the Depot, as well as civilians employed there and towns people will have the same opportunity to make their reservation, and those presenting their general admission tickets at Doherty's first will receive the choice of the reservation.

Since the opening announcement of the performance was given many new attractions have been added and from present indications and the opinion that has been given out by the few that have been admitted to rehearsals an excellent preformance is assured.

Every effort has been made to make the performance the best that has ever been offered in this city and in consideraion and due to the fact that a number of those who take part in the performance have had professional experience the minstrel will be above the class of the usual amateur performance.

Patriotism and an appeal that will bring everyone to his feet

(Continued on Page 4)

AGED ARE SWEPT AWAY BY DEATH

Widow Of W. T. Meaders Died Saturday Midnight Age Seventy-Three

TWO DEAD IN COUNTY

Albert Stambach, Age Seventy-Five, Dropped Dead In Kitchen

Mrs. Ruth Meaders, age 73, widow of William T. Meaders who died April 24, 1917, died at midnight Saturday at her home at 318 Missouri avenue. She was born at Charlestown April 4, 1844 the daughter of James Young and was a lifelong resident of this county. One son, Allen Meaders, survives and three daughters, Mrs Ida Johnson and Mrs. Maggie Morris, of Ohio Falls, and Mrs. George Purcell of Clyde, Ohio. She was a member of Wall street Methodist Episcopal church. Dr. H. C. Clippinger will conduct the funeral which will be held from the residence Tuesday afternoon and interment will be in Walnut Ridge cemetery.

* * * *

Dropped Dead In Kitchen

Coroner Froman M. Coots was called Sunday afternoon to hold an inquest upon the body of Albert Stambach, age seventy-five who had dropped dead in the summer kitchen at his home at 218 Missouri avenue. He had been feeling ill all day but had not kept his bed. He had just stepped out from the living room when he was heard to fall and was dead when his daughter, Mrs. Emmo Retiger, who made her home with him, reached his side. Coroner Coots said that death due to heart disease. Mr. Stambach had lived in Jeffersonville many years. Besides his daughter his widow survives. The funeral will be held at ten o'clock Tuesday morning, at the house, and interment will be in the Eastern cemetery.

* * * *

Nonogenarian Is Dead

Word was received in Jeffersonville Saturday of the death in Owen township, of John Boston Hostetler, a member of a pioneer family of that district and resident all his ninety years in Clark county. Hea was born July 24, 1827, at Hibernia and his nephew and niece, Mr. and Mrs. George W. Bowyer now occupy the home place. After his marriage April 1, 1857 to Miss Nancy Jane Bowyer, he located on a farm three miles from Hibernia where he lived the remainder of his life. He was one of the early members of Hibernia Christian church which he joined in 1843 and helped to build the present church on land given by his father. His wife died fourteen years ago and five sons and three daughters of a family of thirteen survive besides twelve grandchildren and two brothers. Three of the sons are in the west and the other live in Clark couny.

* * * *

Aged Bachelor Is Dead

James Beaveler, age eighty-three, died of the infirmities of old age at his home in Wood township where he lived all his life, having been born there March 18, 1834. He remained a bachelor all his life and at the time of his death was living with his sister and niece near Borden.

Pneumonia Is Fatal

David Enterman, age 59, employed as a laborer at the U. S. quartermaster's depot, died Friday nigh of pneumonia at his home at Memphis and the funeral was held Sunday. His widow survives.

HANDLES MAIL FOR SOLDIERS

Will Robinson Of This City In Charge Of Postoffice At Camp Taylor

The following is from the December 24 issue of the Camp Zachary Taylor edition of "Trench and Camp" published at the various cantonments; it relates to a Jeffersonville citizen:

Mr. W. E. Robinson, our postmaster, is one of the busiest men to be found in the whole camp. He has at ordinary times thirteen civilian employes and an equal number of enlisted men who are acting as clreks, truck drivers, etc. Now, during the holidays he has eighteen additional men on the force.

On an average, ordinary day the camp post-office handles 50,000 letters (incoming) besides the packages, papers and other such matter, which will make a total of pieces per day that would stagger one to think of. It is estimaed that 17,000 letters go out each day from the camp office. Six thousand seven hundred special delivery letters were received through the office during the month of Novmber.

The biggest day on record since the opening of the office was the Wednesday before Thanksgiving when 1,200 bags of packages were received in addition to the letters, etc.

Mr. Robinson deserves a great deal of credit for having effected such an efficient organization in so short a time, as it is a very difficult undertaking to start in wih a new office and have a city of thirty to forty thousand people to serve.

HEARING ON INTERURBAN FACILITIES

TractionCompany Will Supply Figures; Finding Will Follow

ALL DAY PROBE HELD

Col. W. S. Wood Still Trying To Get Big Four Shuttle Service

At the conclusion of the hearing of the petitions relating to street railway service, held Saturday at the quartermaster's depota in Jeffersonville by Paul Haynes, of the Indiana Public Service Commission and Carl H. Mote, secretary of the commission the Louisville & Southern Indiana Traction Company was directed to supply the commission with certain figures and detailed information concerning the operation of cars, number of passengers carried and the like. A finding will be rendered later.

The hearing lasted all day and concluded late in the afternoon. Officers and employes at the quartermaster's depot were heard as witnesses and testified as to crowded condition of the cars and the alleged inadequacy of the provision made. The hearing was

Sold by all druggists, 75c.
Hall's Family Pills for constipation.

"The Telephone Rang."

"And the telephone rang." is the burden of some verses read lately, describing all the things that happened and didn't happen in consequence. The way one woman escaped wearisome trips up and downstairs in response to 'phone calls was by using a desk telephone with a very long cord. Then she took the telephone upstairs, downstairs, or on the gallery, wherever she happened to be. When the bell rang the interruption was at least close at hand.

HOW TO REDUCE

High Cost of Living During These War Times—What Every Woman Can Do.

Look over your old clothes. You can never appreciate how much you can brighten and freshen up your wardrobe until you use Dy-O-La Dye.

Take some of your discarded blouses and dresses, dye them with some of the sixteen different colors of Dy-O-La, change the trimmings a bit and you will be astonished at the result.

Dy-O-La is the modern dye made by skilled chemists who have removed all the difficulty from home dyeing in order that you may get perfect results. Old style dyes require a separate dye for each kind of goods. That makes trouble (as you probably know) for if you get a package for the wrong kind of material the goods are spoiled. You can't make such a mistake with Dy-O-La Dye.

Take some garment that you have grown tired of or that you desire to color the fashionable shade of the moment, look over Dy-O-La Dye color chart at your nearest druggist or storekeeper, select the one that pleases, and follow the printed directions. They will look as if they had just come from the dressmaker.

And remember —the colors will be just as fast and durable as they are beautiful. They won't rub off or bleach out.

Buy it of your nearest druggist or storekeeper, but if they have not the color you want we will send it to you on receipt of ten cents and at th esame time include direction book and color chart.

Dy-O-La Dye is made in **Black, Blue, Navy Blue, Brown, Seal Brown, Light Green, Dark Green Scarlet, Yellow, Orange, Cardinal Red, Pink, Purple, Dark Wine Old Gold, Turkey Red** and from these sixteen colors a great variety of other shades and colors can be made.

Dy-O-La Dye Company,
700 Sixth Ave., Des Moines, Iowa

307 Seventh St., Washington, D. C.

Origin of the Word "Lady."

Why we call a woman a lady is known, probably, to few women. It came from a practice that obtained in the manor houses of England where, once a week, the lady of the manor distributed to her poor neighbors, with her own hands, loaves of bread. She came to be called "Laef day," the Saxon words for bread giver. These two words became one: "Lady."

The National Capital.

The site of Washington city as the national capital was selected in 1791, the corner stone of the capitol was laid in 1793 and congress met there for the first time in November, 1800. Prior to that congress had met at Philadelphia, New York, Baltimore, Lancaster, [illegible] Princeton, Annapolis and Tren-

SWINDLERS GET MILLIONS FROM WAR CHARITIES

Grafters Take Advantage of Patriotism of Country.

EXPENSES EAT UP PROCEEDS

Prey on Those Anxious to Help the Men at the Front—London and Paris Had Same Experiences in Early Days of the War—Worthy Causes Hurt by Many Fraudulent Schemes.

The exponents of the "easy money" theory have not been slow to capitalize for their personal profit the patriotic sentiment of their country. The trail of their ventures, ostensibly designed to raise money by promoting "bazaars" and "benefits" by house-to-house canvasses and street collection funds for alleged worthy purposes, is to be found in all the cities and larger towns throughout the nation, writes Louis Seibold in the New York World.

Millions have been diverted from the intelligently organized and efficiently managed agencies operating under government auspices to provide comforts for the men who are actually fighting their battles. Recognized institutions like the Red Cross, the Y. M. C. A. and various worthy religious and patriotic organizations have been deprived of money that they could use with much greater advantage to the soldiers and sailors of the country than if given to volunteer ventures conducted under haphazard circumstances.

Little Left for Comforts.

Publication of the balance sheets of a recent bazaar show the cost of a ten-days' event which was designed to "provide comforts for boys at the front" exceeded $70,000. The net profits available for "providing comforts" was less than $800 after the expenses of the enterprise had been paid. The annual report of a "league" to furnish "comforts" for the seafighters of the country shows that out of $30,000 raised for the purpose, only a little more than $700 ever found its way into "comforts" for anybody.

But great as has been the abuse of the confidence of patriotic citizens from movements which are organized on an ostensible public basis, even more damaging are the flagrantly fraudulent schemes of persons who resort to house-to-house canvasses and street collections to line their own pockets.

The attention of the police of nearly every large city in the country, and particularly New York, has been centered on the operations of criminals of this type who have obtained through misrepresentation vast sums in the aggregate from gullible people who believed they were giving money to worthy causes designed to make life easier for the men who are exposing their lives to their country's enemies.

It is difficult, of course, to present any intelligent estimate of the gross amount of money raised by volunteer collectors of these various "funds," but it undoubtedly mounts away up into the millions.

There have been frequent instances of men and women utterly lacking a sense of honor and decency audaciously and fraudulently soliciting funds in the name of the Red Cross. One such case recently came to light on the upper West side of New York.

A Woman Swindler's Methods.

A well-dressed woman around whose arm was a white band on which was stamped a faint red cross, visited several apartment houses. She carried a pasteboard box with a slot and decorated with a big red cross. When admitted she inquired sweetly:

"Anything for the Red Cross today?"

When questioned by some of her intended victims as to the specific purpose of the collection she said: "Oh, this is for a special purpose."

The police say that persons falsely representing themselves as agents of the Red Cross or other recognized organizations should be immediately turned over to the first officer.

Inquiry of the Red Cross authorities reveals the fact that it does not employ agents of this sort and that its appeals for funds are publicly made, and subscriptions should be sent to headquarters.

That which is true of the Red Cross applies to the Y. M. C. A. and a few other worthy causes, including public funds started by newspapers for the purchase of tobacco, donations to which are acknowledged in the news columns.

Great Britain and every other belligerent country was confronted by the same conditions and problems in the early stages of the war. So great was the abuse of the public confidence by the "easy-money men" of England that the government and newspapers opened war on them, with the result that many were sent to prison, and the patriotic charities regulated and organized on a business basis under government supervision.

Frauds in London Exposed.

In December, 1915, the London Daily Mail began a crusade against the volunteer war charities of an indiscriminate character. It exposed the exorbitant profits raked in by persons who preyed on the public through appeals for funds to carry on ostensible patriotic ventures.

The Mail asserted that enough money was collected in this way to pay the actual cost of the war for a week. And Great Britain was then spending $25,000,000 for war purposes every day.

The same evils recently exposed in this country were brought to light in Great Britain. Most of the revenues of "bazaars" and "benefits" were eaten up by "expenses" for press agents, advertising solicitors and promotions.

The extent to which the indiscriminate war grafters imposed on the British public before the government stepped in to put a stop to their activities was described by James M. Touhy, London correspondent of the World, in a dispatch printed in 1916. Mr. Touhy said:

"One woman was arrested who turned out to be the wife of a soldier to whom the war department was making an allowance of $6 a week, this in addition to the $7 a week which her husband gave her from his pay. She was begging for a Belgian fund which did not exist. A well-known woman of society whose success in organizing entertainments for charity has produced many thousands of dollars has, it is said, paid herself, under the item of expenses, at the rate which the big theater managers of the West end receive.

"Scotland Yard blames the most prominent people who allow their names to be put upon committees for war charities without investigating the reliability of those who collect the funds.

"Early in April the citizens of Glasgow denounced the prince of Wales' fund, to which Scotland had contributed generously without being able to obtain a penny to pay rents for the families of soldiers at the front.

Stopped by Scotland Yard.

"The French relief fund and the Belgian soldiers' fund occupy the most conspicuous places just now in the public investigation of charity money scandals. In France the minister of the interior is responsible for the collection and distribution of all such funds, and the committee, self-appointed in London, to collect money for the French relief fund, had no difficulty in securing the patronage of President Poincare and different members of the French cabinet.

"It was then an easy matter to get the patronage of members of the British cabinet, and this fund was largely advertised as being under the sponsorship of Sir John Simon, the home secretary, and Winston Churchill, before the latter's withdrawal from the government. Mr. Asquith, the prime minister also allowed his name to be used in connection with the fund.

"When no balance sheet was published after nearly a year of activity in gathering in the shillings, and when, moreover, the London committee began seeking government aid to prevent the duchess of Somerset from having a French Flag day July 7 in London for the benefit of the French Red Cross, an investigation was begun which seems to have finally been taken in hand by Scotland Yard.

"Sir John Simon, Churchill, Lloyd George and others withdrew from the sponsorship of the fund. The secretary of the fund then tried to place before the public a statement of the condition of the fund, which amounted to $230,000, and $500,000 was wanted. The London papers refused to print the advertisement. It was said the newspapers had been told by Scotland Yard not to allow the affairs of the French relief fund to figure in their columns."

Paris had very much the same experience as the British metropolis with war grafters. Out of 147 war charities organized in the French capital in 1915, 75 were found to be the most barefaced swindles by the police, according to the Matin, which inaugurated a crusade against the evil. It

Corn Needs Little Cultivation.

In Illinois farmers found that once the corn roots were fully established in the soil, their attraction for the moisture was so great that very little moisture escaped. The only cultivation they found valuable was to keep down the weeds, which used up the moisture. Three-fourths of the corn roots do not go deep, but establish themselves in the cultivated soil, and the less they are disturbed at their meals the better crop results are attained.

Earth Grows Slowly Now.

In the early days of its history the earth grew rapidly by the addition of meteoric matter. It is still growing in the same manner, scientists say, though scarcely to an appreciable extent, for the mass of meteoric matter added yearly is reckoned to be only 20,000 tons. In the course of ages the larger planets have swept up practically all the fragments of the original disruption, and the only available source of supply of meteoric matter seems to be brought by comets.

NEGROES WIN HONORS

Somalis Get 264 Citations for Bravery in Battle.

Proud Tribesmen Prove Efficient Fighters, But Never Resort to Savagery.

French Point.—Two hundred and sixty-four personal citations for bravery have been won by the negro soldiers of a single Somalis battalion since it landed in France in June, 1916. Of these citations 190 were gained in the fierce battles of the Aisne and the remainder about Verdun.

The Somalis, many of whom were recruited in British Somaliland, are independent and find the discipline of an organized army severe. Their French officers, however, are accustomed to deal with these freedom loving tribesmen, and by appealing to their pride of race and their self-respect obtain their devoted obedience to such an extent that they rapidly become excellent soldiers. These men learn to handle modern infantry weapons quickly and furnish many specialists in the grenade throwing, rifle and machine gun sections of French regiments, for the men are of high intelligence and are full of natural initiative—valuable adjuncts in these branches of fighting—while at hand grenade throwing they are second to none.

Meticulously clean of habit, the Somalis, who are strict Mahometans, never touch alcohol. In fact, they look on any man given to intoxication with the greatest disdain. They are self-sacrificing to a degree, as was evidenced during their attack on La Bovelle, when they had to clear out the shelters in a trench which they had just captured, and which were still full of Germans who had taken refuge there. One of their European sergeants was about to enter a dugout known to be full of armed enemies, when he was pushed aside by a Somalis private with the exclamation, "Let me go first! You are married."

A widely prevalent fallacy has charged the negroes with savagery against their captives. Their officers say this charge has been disproved time and again after fights at Verdun, in Champagne and north of the Aisne.

Picking Apples on Shares.

Picking apples on shares is the way one Kansas university fraternity is fighting the high cost of living and at the same time storing up a winter supply of fruit. One farmer bargained with the Acacia Chapter to pick his apples. The fraternity men picked 200 bushels one morning on shares, storing twenty bushels in their fraternity house as payment. This same chapter last year needed quilts, so they held a quilting bee and made thirty quilts.

FLYER MAKES DARING ESCAPE FROM GERMANY

****

Lieut. Patrick O'Brien, an American member of the British flying corps, who was brought down in a one-sided battle by the Germans, and who had been taken into Germany on his way to a prison camp, jumped from a train which was going 30 miles an hour, and by many heroic and clever moves managed to get into Holland, and then back to England.

O'Brien was reported missing last August 17, and his reappearance was a great surprise to his friends. On the morning of August 17 enemy gunners forced him to land, but fortunately he got back to his own lines. Later in the day he was again flying over the enemy lines and he, with five other machines, was engaged by 20 German airplanes. O'Brien alone engaged four of them. He accounted for one of the machines before he was shot in the lip. He fell with his damaged plane 8,000 feet. He cannot explain why he was not killed.

When he regained consciousness O'Brien was in a German war hospital. Later, when he was being taken into Germany, he jumped from the moving train, and by walking at night, swimming rivers and subsisting only on food that he could get from the fields, he managed to reach Holland

He was a fugitive for 72 days. He had a narrow escape when he was in sight of his goal. To circumvent charged wires O'Brien built a bridge with nearby wood and threw it across the wires. It broke under his weight, and O'Brien says that he can still feel the shock. He dug a tunnel with his hands under the wires and he was free.

A brief telegram was received by his mother, Mrs. Margaret O'Brien, saying that he had escaped from the Germans, and that he soon would be home. O'Brien will try to change to the American aviation corps. The photo shows him standing in front of his machine.

What Was His Nationality?

When a building laborer in New York was injured, the policeman who went with the ambulance reported: "It's nothing; a man lost his balance and fell over a Limerick limousine." The lieutenant at the station wondered all the afternoon, until the policeman came in off his post and explained that the man fell over a wheelbarrow. Maybe you can guess the policeman's ancestry.

When Your Child Cries

at night and tosses restlessly, you feel worried. Mother Gray's Sweet Powders for Children Break up Colds in 24 hours, Relieve Feverishness; Constipation, Teething disorders, and destroy worms. Used by Mothers for 30 years. All Druggists, 25c. Sample FREE. A. S. Olmsted, LeRoy, N. Y.

January 7 to Feb. 5 inclu.

Perfecting Fireproof Paper.

Documents written on paper made from asbestos fiber, with inks prepared from the nitrates of iron and cobalt, have withstood a red heat for two hours without being damaged in any way. No damage resulted until the intensity of the heat was increased considerably and the document was exposed in it for ten hours. It is expected that further experimentation and study will result in the perfection of a paper and ink practically indestructible by fire.

Worry [illegible] Slave Master.

The moment I fret about a thing I am its slave instead of its master. And there is no slave master in the world like worry. Another master may grudge the sleeping hour, but he must give you time for sleep. Another master may grudge the dinner hour, but sometime you must eat. But worry will work you 24 hours a day and spoil your appetite in the bargain.—Mark Guy Pearse.

Do you get up at night? Sanol is surely the best for all kidney or bladder troubles. Sanol gives relief in 24 hours from all backache and bladder troubles. Sanol is a guaranteed remedy. 35c and $1.00 a bottle at the drug store. The Sanol Chemical Company, St. Louis Mo. daily tf

Eighth of Hebrew Prophets.

Habakkuk was eighth in order of the minor Hebrew prophets. The strophical arrangement of the denunciation of the Chaldeans is a remarkable feature of his prophecy. The whole concludes with a magnificent psalm in chapter 3, a composition that has been considered unrivaled for boldness of conception, sublimity of thought and majesty of diction.

INWARD AND OUTWARD

The inward effects of humors are worse than the outward. They weaken all the organs, inflame the mucous membrane, cause catarrbal troubles, and endanger the whole system

Hood's Sarsaparilla eradicates all humors and cures all their effects.

It's the great alterative and tonic medicine whose merit has been everywhere established.

Accept no substitute.

Adv No. 5

Advertising Pays.

A woman of uncertain age required the services of a page-boy, and inserted in the local paper an advertisement headed: "Youth wanted." One of her friends, with little humor and less taste, sent her a bottle of a celebrated wrinkle-remover, a pot of fairy bloom, a set of false teeth, and a flaxen wig!—London Tit-Bits.

When you have Backache the liver or kidneys are sure to be out of gear. Try Sanol it does wonders for the liver, kidneys and bladder. A trial 35c bottle of Sanol will convince you Get it at the drug store. The Sanol Chemical Co., St. Louis. Mo.

Friends

A friend is one who is a friend to you when you are absent. Happy the man who has many such friends and who is such a friend to many.—Exchange.

Thousands of Mothers Tell the Story

The story of Eskay's Food is one of actual happenings. There is no question of what it will do—what it *has done* is proven by thousands of sturdy little lads and lassies the country over.

Eskay's Food

The Complete Milk Modifier

is the royal road to perfect child-health and perfect physical development. Thousands of mothers tell the story in grateful letters

BEN DOOLITTLE,

437 SPRING STREET

Well Heeled.

The shipwrecked sailor sat disconsolate on a lonely raft in the middle of the trackless ocean. In his hands he held the last remnants of a pair of shoes. "Though reduced to the lowest extremities and completely surrounded by water," he croaked hoarsely, "I can still take to my heels." With these words he made his semiweekly meal and spent the remainder of the afternoon picking the nails out of his teeth.

Reduces 1 to 5 Inches
Makes You Look 10 20 lbs Lighter

W.B. Elastine-Reduso CORSETS

Effect an Astonishing Transformation in Stout Figures.

HINSHAW TO BE PAROLED

Continued from Page 1

confronted with the reports and sent back to prison for life.

Early last spring Governor Goodrich paroled Hinshaw for sixty days so he could go to Arizona to regain his health. It was learned last night that Hinshaw bought a small ranch in Arizona. Hinshaw then took a step that gave the case the unusual aspect. He elegraphed to Anna Freeman who had become a widow and asked her to come to him immediately with her children. She arrived at Hugo, Ariz., May 26 a short time before he was obliged to leave for prison. He asked her to become his wife. She consented and the ceremony took place. Hinshaw then went back to prison, presumably or life while the woman and two children, remained on the desert ranch to look after his interests.

(Continued from Page 1)

CURTAIN WILL RAISE 8:15

will close the opeing part of the performance.

The black faced comedians have not only localized their jokes and wittisms but they have worked consisently in other places which will add life to heir part of the work.

The olio numbers which will be given entirely by the Officers are said to be excellent and the afterpiece which has been especially arranged for the occasion is amusing to the extreme.

Everything has been done to obliterate from the speaking parts suggestions or insinuations that might be offensive and those who attend will find that both their time and money have been well spent for not only will they receive personal enjoyment but they will be supporting a cause which will make for our boys "over there" a better life with lessened hardships.

The curtain will be raised promptly at 8:15 at both performances and it is urgently requested due to the length of performance, that everybody be in his seat by the time the curtain goes up.

FUGITIVE FOR TWO YEARS

Wilbur Montgomery Returned By Himself To Reformatory

T. Wilbur Montgomery, missing from the Indiana Reformatory for more than two years, walked into the instituion late Saturday night and announced hat he had returned. On account of his voluntary surrender the way to a future parole will probably be made easier than if he had been captured.

Montgomery was sent to the institution from Posey county March 20, 1913, for stealing his nine-year-old daughter from his divorced wife. On October 7, 1915, he was permitted to go to Poseyville to attend he funeral of a relative. He dodged the guard who accompnied him and escaped. He was located a week later in a house but dashed out and escaped in an automobile as officers entered by another door and he made his clean get-away. His daughter has never been returned.

Montgomery spent part of the time in Cuba and returned recently to this counry. He was located by officers but permitted to remain at home over Christmas.

Continued From Page 1

HEARING ON INTERURBAN

especially as to service between New Albany and Jeffersonville and also on the city car line running to the depot and the service to Louisville is indirectly involved. Inter-state transportation is beyond he jurisdiction of the state commission but it is thought that action by the latter may tend indirectly to improvement of the cross-river service. The company has promised to improve it as much as possible and as quickly as may be.

Chester P. Wilson, of Indianapolis, president of the company George H. Voigt, of Jeffersonville, attorney and W. L. Foreman of New Albany, superintendent, were among those present representing the company. Mayor Ernest W. Rauth and Mayor-elect Newton H. Myers of Jeffersonville and Mayor Robert Morris, of New Albany, were among those present besides many of the commissioied officers at the quartermaster's depot, including Col. W. S. Wood, depot quartermaster, for part of the time.

Col. Wood said subsequently that the impression that he had taken no further steps regarding a shuttle train service over the Big Four bridge was wrong, but to the contrary he had been at work to secure railroad accommodations for the government depota employes ever since he decided such action was necessary. He said he had communicated with the Inter-state Commerce Commission and had asked that body to give the Big Four railway authority to operate shuttle trains and charge a fare of 5 cents from the Seventh street station, Louisville ao the Government Depot.

Lost the Pill.

The little daughter of a homeopathic physician received a ring with a pearl in it on the Christmas tree. Two days later she poked her head tearfully in at the door of her father's office. "Papa," she wept, "I've lost my little pill out of my ring."

SAVING MONEY

Everytime thrift or saving money is mentioned some people get the idea that it means cutting down expenses to the very lowest notch to save every possible cent, at the expense of self-respect, comfort and health.

Not for an instant should you think it means anything like that.

Thrift means the elimination of UNNECESSARY WASTE — in food cothing, pleasure, business and everything that makes you spend more than is necessary for your convenience, comfort and happiness.

What you can save and put away for future emergencies or opportunities is deposited to advantage in a savings Account.

IMMORTALITY OF A DOLLAR

By Scott Nearing

The world has searched in vain for a spring of perpetual youth. Men and women seem destined to grow old and die. Not even Metchinkoff, with all of the resources of the Pasteur Institute at his command, could stay young or stay alive.

Man must die. His property lives on, if the modern system of finance has its way—forever.

Financiers believe that they have discovered the river of perpetual financial life. Its modern name is "securities." Once put a dollar in this form, and it's vitality is so increased that it lives, almost if not quite, **forever.**

Modern business practice has wielded an immense influence in the direction of property permanence. A thousand dollars, once invested, is virtually immortal, unless it is stolen, or disposed of in some extra-legal way. Any failure in the perpetuity of the property values is due to the carelessness, stupidity or dishonesty of some servant of the property interests. For centuries, the thought and effort of the business world have directed toward the increasing permanence of property rights.

Today the property values of the United States are only two hundred and fifty billions of dollars ($250,000,000,000) but they are increasing at the rate of more than ten billions each year. Stacked up, mountain high, these immortalized stores of exploiting power provide their owners with an ever increasing possibility of living without working upon the work of someone else.

Today the dollar is immortal—but tomorrow,—who shall say?

SERENADED THE COLONEL

Band At Quartermaster's Depot Makes First Appearance

A military band has been organized at the United States quarermaster's depot in JJeffersonville composed of thirty men employed at the depot, with Charles H. Leach of Jeffersonville, as director.

The band made its first appearance Tuesday to serenade Col. W. S. Wood on the eve of his departure for Washington and to express the regard of the quartermaster's department force for their departing chief.

The band has all principal instruments well represented, is already a well balanced and efficient organization and under the capable leadership of Mr. Leach and is inspired by the fine spiria of the Q. M. D. It is intended to make it the finest band connected with any indusrial organ[illegible] country.

New Mayor And Council

CITY ADMINISTRATION GETS STARTED; MESSAGE BY MAYOR; NO MORE GAMBLING; ADVISORY COMMITTEE NAMED.

COUNCIL HAS ORDINANCE SHOWER

The new City Administration got properly launched Monday night amid a measure of acclaim from a well filled lobby that made the council chamber look almost like a Repubican convention. There were a number of ladies present and these applauded the appointment of one of their sex on the Board of Health, the men joining in heartily. The Mayor's address also drew hearty applause. The good fellowship feeling was shown by the many flowers sent to the Mayor and to some of the councilmen. All were happy, the proceedings went through as though they had been well oiled and a large amount of business was disposed of in forty-five minutes.

Financial arrangements were perhaps the most important matter up. The Mayor and Council dopted the plan of modifying the ordinance fixing the tax levy for the year 1918 while leaving the total levy at $1.60. Twenty-five cents was transferred from the general fund to the sinking fund increasing the latter to 32 cents and reducing the former to 95½ cents.

There was barely enough in the sinking fund to meet bonds due the first of the year and another lot of bonds come due in February. Refunding is considered out of the question since these bonds bear only three and one-half and four per cent interest and new bonds could not be floated possibly under five per cent. Authority was given to borrow $4,000 to meet the February bonds until cash is available from the collections. No steps were taken at this time to meet the deficiency in the general fund.

The financial report showed a balance of $3,143.01 in the general fund on December 31, 1917, but current bills absorbed this. There is about $12,400 owing on bills, chiefly for light. Twenty-six saloon licenses came due December 28 and will be collected now authority has been obtained to accept the pro rata amount for the period to April 2. This means abou three months' license or $50 each, instead of $200, and a total of $1,300 from this course.

Names Advisory Committee

An advisory committee, consting of eight leading business men, equally divided between Republicans and Democrats, was named by Mayor Newton H. Myers Monday night. He explained that he will consult with this committee on all matters relating to the the city's benefit. The following are the eight men, the first four named being Republicans and the other four Democrats: Dr. C. F. C. Hancock, physician; Robert Dawes, of the National Tobacco Works; David S. Cook, superintendent of the cement mills at Speed and one of the leading auhorities in the state on cement; Marion Bennett, locomoive engineer; John Gienger, head of the product firm of John Gienger & Co; James Marra, of the Jeffersonville Baking Company; Thomas F. O'Neil, contractor; Charles Moser, merchant.

At the meeting of the City Council Monday night when Mayor Myers and the nine new Councilmen took their seats and held their first session a message was read by the mayor, outlining conditions and his policy. He reiterated his pledge of law enforcement and devotion to the cause of a bigger, cleaner and more btautiful Jeffersonville with strict regard to economy and then passed to discuss the big opportunity confronting the city in he great development of the quartermaster's depot with a payroll of $540,000 a month, and also with the improvement being made by the Pennsylvania lines, and said that all this had come so suddenly that it had caught the city unawares and it would be necessary to use intelligent planning to make the most of the opportunities. He alluded to the ransportation problem and pointed out the difficulties of finance on account of the failure of the last administraion to increase the tax levy. All gambling devices would have t go, he said, and saloon keepers would be expected to obey the law. The text of the message is printed below.

Many Ordinances Passed

The first session of the new Council lasted from 7:45 to 8:30 with a full attendance of members. After the oath had been administered to the nine members simultaneously by Wilmer T. Fox and the roll had been called showing all present, the Mayor read his address and a series of ordinanees and resoutions were adopted as follows:

Ordinance providing for rules of procedure, introduced by Councilman Perrin, first ward.

Ordinance providing for standing committees, with executive powers, and for special committees, all to be named by the mayor; introduced by Councilman Odell, second ward.

Resolution naming Wilmer T. Fox city attorney, introduced by Councilman Myers, for the city at large. The salary of the office was fixed by the last Council at $700 per annum.

Ordinance fixing the salary of a city civil engineer and Board of Metropolitan Police Commissioners.—the former at $1.00 per hour for time actually employed not exceeding $500 in any one year; the three members of the latter, $500 per annum, instead of $150 as previously; introduced by Councilman Russ. The mayor named Allen R. Clarke engineer and Willacy J. Schwaninger, Alfred C. Pfau and Elmer M. Frank police commissioners.

Ordinance creating the office of street commissioner, fixing the salary at $1,000 and his bond at $1,000; introdueed by Councilman Bennett, for the city at large. Mayor Myers later named Charles Barron for the position.

To Meet Financial Problem

Ordinance providing for the transfer of a levy of 25 cents on each $100 of taxable property from the general fund to the sinking fund, making the general fund levy 95½ cents and the sinking fund levy 32 cents. The total levy remains unchanged at $1.60; introduced by Councilman Mears, sixth ward.

Resolution authorizing a temporary loan of $4,000 for the sinking fund, in anticipation of current revenue; to be raised on city's warrant which is to be sold by sealed bid to the best bidder, at six per cent interest, secured by an appropriation from current revenue; introduced by Councilman Lancaster, third ward.

A resolution expressing regret at the approaching departure of Col. W. S. Wood, depot quartermaster, to Washington, congratulating him o n the recognition of his ability by the transfer to a higher position and expressing appreciation of what he has done for Jeffersonville while located here, his work being of such a character that he has become known the nation over as the "shirt maker"; introduced by Councilman Andrews, for the city at large.

Only Councilman Sparks, the lone Democratic member, failed to have part in this ordinance and resolution shower.

The mayor then named the council committees and the several appointive officers and boards. Reports of the city clerk, the city engineer and an inventory of the property of the fire department were read in part. The monthly financial report was referred to committee and the monthly bills were passed. Bills allowed aggregated $4,936.28.

The members of the City Council who took their seats were: Francis E. Andrews, George W. Benntt and Claude C. Myers, Councilmen-at-Large, J. Harry Perrin, first ward; Philip Lee Odell, second ward; Edwin R. Lancaster, third ward; Nathan Sparks, fourth ward; John Russ, fifth ward; Edward Mears, sixth ward.

Woman Is Appointed

During the evening Mayor Myers named his new Board of Health which will consist of Dr. D. L. Field, president; Dr. J. H. Baldwin, secretary and acting health officer; Mrs. Katherine R. Coll, wife of John P. Coll. The latter innovation of the appointment of a woman will doubtless be popular since there are many things in this department which are pteuliarly a woman's province and Mrs. Coll has been much interested in civic matters such as her new official position will bring within her jurisdiction. Dr. Field is the only member of the former board of health to remain in office.

The standing committees were announced as follows: Fire Department Mears, Andrews, Russ; Streets and Alleys—Bennett, Myers, Odell; Books and Printing, Perrin, Russ, Lancaster; Light and Gas Myers, Sparks, Mears; Licenses—Russ, Bennett, Sparks; Waterworks, Andrews Odell, Bennett; Claims and Contracts—Myers, Andrews, Perrin; Wharf and Levee—Odell, Mears, Russ; Railroads, Mears, Andrews, Lancaster; Eruptive Hospital, Lancaster, Perrin, Sparks; City Hall Perrin, Lancaster, Sparks.

Annual Reports

The report of the city clerk, John J. Snyder for the year 1917 showed a balance brought forward of $5,844.32 and $45,799.87 received during the year; disbursements were $48,501.18 and balance at the close of the year $3,143.01.

The report showed $13,099.49 paid as interest on bonds during 1917 and $12,500 paid from the sinking fund in redemption of bonds. The bonded indebtedness is placed at $311,300 so that this year's payments will reduce the amount below $300,000. Of this amount $127,500 bear five per cent; $30,800 bear four per cent and $151,000 bear three and one-half per cent interest. The resources of the city are placed at $465,039.94 including $130,000 for real estate and $31,687 improvements. Most of the remainder is the taxes due for the current year.

John Gilbert, retiring chief of the fire department, made his annual report, which showed 113 alarms answered in 1917. Of these twelve were false and six were outside the city. The value of the property endangered was $41,670 and the loss was $5,464. The insurance carried was $24,000.

POLICE AND FIRE

Departments Reorganized; Two Vacancies On Police Force

Councilman Edward Mears, chairman of the committte on fire department, has announctd the following personnel: Engine house, No 1—Peter Myers, chief; Frank Jenks, Will Ramond, John Raymond, Otis Grubbs; Harry Christianson; engine house No. 2—Samuel Wilson, captain; Edgar Johnson, Harry Spellman, Arthur O'Neal. The new chief has been on the department for some time and has had considerable experience. Jenks is a former captain in the department. The two Raymonds of No. 1 engine house and Johnson and O'Neal of No. 2 have been on the department the two latter for a considerable time. John Gilbert, chief with a record of about sixteen years on the department and Peter D. Madden for the past eight years in charge of the steamer are among those who leave the department.

Dennis Donovan, patrolman, who was an applicant for he position of sergeant, resigned from the police force Monday evening, leaving the department two mtn short of the regular six. Those now serving are: James N. Masters, chief, promoted from patrolman; Robert F. Gleaon, sergeant promoted from patrolman; Ellsworth W. Summers, William Dolan, patrolmen. Summers and Masters are Republicans and the others Democrats. The force is as nearly as possible equally divited between the parties.

MAYOR'S ADDRESS

To New Council; Law Enforcement Pledged; Opportunity For City To Be Grasped

HONORABLE MEMBERS OF THE COMMON COUNCIL AND CITIZENS OF THE CITY OF JEFFERSONVILLE:

The platform on which I was elected Mayor of this city is so short that its repetition at this time will not be burdensome. When a candidate, I declared my conviction that whoever held the office of Mayor should work intelligently for a greater Jeffersonville industrially, for a cleaner and more beautiful city, for such an economical administration that every dollar of taxes collected should produce a dollar in value to the taxpayers, and above all, that the laws on the statute books should be enforced without fear or favor. This pledge was not made to serve a purpose in a political campaign, and afterward to be forgotten, but instead reflects my present desire and purpose. At the beginning of this administration I renew this pledge and covenant to the citizens of Jeffersonville.

This city has already grown industrially because of activities incident to hte war, but it is clear to thost in touch with the situation that many opporunities have been neglected for building up permanent industries to the profit not alone of the community in general, but to the profit of those engaged in the enterprises. Notwithstanding the fact that colossal hings are now actually transpiring here, is is difficult to realize that the United States Quartermaster's Depot in a few months has been enlarged until it now covers sixty-six acres, on which additional buildings costing almost a million dollars have been erected or are in process of construction. This large enterprise with a monthly payroll at present of $540,000.00 and daily purchases often amounting to a million dollars, has been established so quickly and quietly that the community has failed to appreciate many of the opportunities it offers for permanent industrial development. In addition, the next year will see the completion of the double track bridge of the Pennsylvania Railroad Company across the Ohio River, its establishment here of extensive round houses and repair shops, the enlargement of its yards and the erection of a $25,000,00 passenger station. Not the least of these benefits will be the elimination of all main line grade crossings of this road in the city and for some distance into the county. These opportunities for indusrial expansion have come so swiftly that Jeffersonville has reaped only a part of the prosperity to which it is entitled. With proper co-operation and intelligent planning, these opportuities can be made to yield their full measure of industrial development. I have appointed a non-partisan advisory committee of progressive business men to work with me, so that the city may have the benefit of their experience in such matters, and their names will be announced later in the day.

The transportation problems of the city are urgent, because of the failure of both the Traction Company and the Ferry Company to make proper provision for the normal needs of the community, let alone the enlarged requirements resulting from the increased activity at the United States Quartermaster's Depot. In the face of its failure to provide sufficient cars to meet the increased traffic, and with knowledge of the fact that the Pennsylvania Railroad Company will soon erect its new passenger station at a point on the North Spring car line, the Traction Company has the temerity to petition the Public Service Commission to release iff rom its franchise obligation to maintain a fifteen minute service on this line. This petition, as well as the petition for an increase in rates on the city lines, will be resisted by the legal department of the city. In addition, such power as is given to the City and to the Public Service Commission will be invoked to require all of these public utilities to perform their obligations to the communiy.

All hopes of beautifying the city, other than by keeping it clean, must be abandoned for the year 1918 for the reason that a majority of the retiring council deliberately voted to cripple the succeeding administration during the year 1918 by providing an inadequate tax levy.

A semblance of fairness was given the transaction by a preamble to the ordinance recommending to the succeeding administration that it cut down expenses by issuing refunding bonds to take the p lace of the $12,500.00 in bonds maturing during the year 1918. The folly of the course recommended is apparent when it is considered that $3,500.00 of these bonds bear but 3½ per cent interest and the remainder 4 per cent. Not only have municipalities been requested by the government not to float new loans during the war, but the interest rates at which money can be secured are now prohibitive. When the federal government, with all its resources, is required to pay 4 per cent intaerest, and expects to pay 4½ per cent on its next loan, a municipality has no chance of borrowing at reasonable rates. During the year 1917 the retairing administration failed to live within the revenue produced by the combined tax levy and income from saloon licenses by $12,396.28, and has turned over to the new administration unpaid bills of that amount. Yet the retiring council, which numbered among its members men of affairs and high business position, has so framed the tax levy that, at a time when labor and materials have almost doubled in price, and when a substantial revenue and saloon licenses will cease, the new administration with the decreased revenue must not only meet this added burden, but must pay off this deficit of $12,396.28. At the time of its g reatest opportunity, the hands of the city are tied until the taxes are available in 1919. The motive for such an act of folly is pretty generally understood and comment is unnecessary. I am satisfied that you gentlemen of the council will be able to weather this troubled situation, but it will require the strictest economy and the elimination of all useless expenditures and possibly some necessary ones in order for the city to discharge its corporate functions during the year 1918.

I have pledged myself to enforce the laws on the statute books without fear or favor. This means exactly what it says and, translated into concrete terms, means that the lotteries now operating in this city must close for the full four years of my tenure in office. Not only will this form of gambling be eradicated, but our citizens will again be free to ravel on the interurban cars without being compelled to share seats with lottery runners and law violators. This pledge also means that crap games, faro banks and horse race exchanges, must close and remove their equipment from the city. It also means that not only slot machines but all kinds of punch boards, so common in stores must go. The punch board is even more dangerous to the community than the other forms of gambling enumerated, for the reason that it educates mere children to play games of chance and furnishes as recruits for more advanced forms of gambling persons who would otherwise not come in contact with such institutions. With this declaration of the policy of the administration, there should be no need for the police to go from place to place notifying people to remove these violations of the law.

As to saloons the law allows them eighteen hours out of every twenty-four in which to conduct their business. I am reasonably satisfied that most proprietor are willing to close at 11 p. m. and stay closed until 5 a. m. if they konw that every other person in the same line of business is obeying the closing law. Yet there is a strong inducement for all to evade this law if it is so administered that favorites may remain open during forbidden hours. The nation has a direct interest as never before, in having the closing law enforced, for our people are now engaged in the greatest war of all time—a war which can not be won by money alone—a war which requires all the man power this nation can develop. There will be no favorites in this city and the closing hours must be obeyed.

I have appointed men whom I believe will enforce these laws. If they do not, the law gives me power to remove them without trial, and I will replace them with men who will enforce the laws. There are many forms of aw violations that I have not mentioned, but the same policy will apply to them also.

From time to time I will address such special messages to you as the needs of the city may dictate. Without asking it, I am assured of tht heartiest and most sincere co-operation of each of you members of this honorable council in providing for the welfare of our city, in which I have great interest and take no little pride.

The Young Woman's Social Ciarcle of the First Christian church will hold their regular meeting Wednesday afternoon at 2:30 o'clock in the church parlors. Election of Officers will take place, a full attendance is urged.

"The Telephone Rang."

"And the telephone rang!" is the burden of some verses read lately, describing all the things that happened and didn't happen in consequence. The way one woman escaped wearisome trips up and downstairs in response to 'phone calls was by using a desk telephone with a very long cord. Then she took the telephone upstairs, downstairs, or on the gallery, wherever she happened to be. When the bell rang the interruption was at least close at hand.

HOW TO REDUCE

High Cost of Living During These War Times—What Every Woman Can Do.

Look over your old clothes. You can never appreciate how much you can brighten and freshen up your wardrobe until you use Dy-O-La Dye.

Take some of your discarded blouses and dresses, dye them with some of the sixteen different colors of Dy-O-La, change the trimmings a bit and you will be astonished at the result.

Dy-O-La is the modern dye made by skilled chemists who have removed all the difficulty from home dyeing in order that you may get perfect results. Old style dyes require a separate dye for each kind of goods. That makes trouble (as you probably know) for if you get a package for the wrong kind of material the goods are spoiled. You can't make such a mistake with Dy-O-La Dye.

Take some garment that you have grown tired of or that you desire to color the fashionable shade of the moment, look over Dy-O-La Dye color chart at your nearest druggist or storekeeper, select the one that pleases, and follow the printed directions. They will look as if they had just come from the dressmaker.

And remember —the colors will be just as fast and durable as they are beautiful. They won't rub off or bleach out.

Buy it of your nearest druggist or storekeeper, but if they have not the color you want we will send it to you on receipt of ten cents and at th esame time include direction book and color chart.

Dy-O-La Dye is made in **Black, Blue, Navy Blue, Brown, Seal Brown, Light Green, Dark Green Scarlet, Yellow, Orange, Cardinal Red, Pink, Purple, Dark Wine Old Gold, Turkey Red** and from these sixteen colors a great variety of other shades and colors can be made.

Dy-O-La Dye Company,
700 Sixth Ave., Des Moines, Iowa

Patent Lawyers. Estab. 1889.
307 Seventh St., Washington, D. C.

Origin of the Word "Lady."

Why we call a woman a lady is known, probably, to few women. It came from a practice that obtained in the manor houses of England where, once a week, the lady of the manor distributed to her poor neighbors, with her own hands, loaves of bread. She came to be called "Laef day," the Saxon words for bread giver. These two words became one: "Lady."

The National Capital.

The site of Washington city as the national capital was selected in 1791, the corner stone of the capitol was laid in 1793 and congress met there for the first time in November, 1800. Prior to that congress had met at Philadelphia, New York, Baltimore, Lancaster, York, Princeton, Annapolis and Trenton.

"HANG HANGMAN, NOT ME!" CRIES RUSSIAN SPY

And the People Very Nearly Did That Very Thing.

AMAZING TALE FROM RUSSIA

Escape From Death of Man Whose Plotting Cost 3,000 Lives—Acts as Secretary of Meeting While Question Is Debated Whether He or the Executioner Shall Be Hanged—Latter Gets Jail Sentence.

The provincial newspaper Priasovsky Krai publishes an amazing account of the escape of a Russian military prisoner who had been sentenced to be hanged for selling military secrets to Germany and plotting explosions in two powder factories which caused the death of 3,000 persons.

When a squad of soldiers and government agents had assembled to watch the hangman do his work, the condemned man startled them by a proposal that, instead of hanging him, they give to him a vote of approval. In the debate which ensued the executioner narrowly escaped hanging in place of the prisoner. The convicted man was elected secretary of the meeting and escaped while the vote whether to kill him or the executioner was being taken. The meeting then voted to sentence the executioner to imprisonment for failure to do his duty.

Smiling contemptuously, the prisoner was led to the scaffold. When the sentence had been read, he raised his hands and demanded to be heard.

"No," objected the prosecuting attorney. "It is too late now. You should have spoken before, at the trial."

One of the squad of soldiers stepped out and said in a tone of amazement:

"What? Why too late? Is not speech free? Thank God there's no Tsarist regime to keep our mouths closed. Speak, comrade, speak!"

The condemned man began: "Comrades! Do you know who has condemned me? A court constituted entirely of lower middle class capitalists inspired by the imperialists of the allied countries. The prosecutor, as I know absolutely, was a masquerading Kornilovist! Comrades! Shall not democracy itself speak? Shall it not say, 'Hands off the creators and inspirers of the internationale?'

Outbursts of Oratory.

"Comrades! Can you possibly recognize a decision of this counter-revolutionary, antidemocratic court as binding on you?"

"Bravo!" shouted a guard. "Let me also speak!"

The condemned man yielded the floor to the guard, who began:

"Comrades! Can anything be more atrocious than for us to permit the hanging of this man, who speaks as an apostle and champion of the internationale? Comrades, I propose a vote of want of confidence in the executioner."

"I demand the right to speak," said the executioner.

"Comrades, I solemnly protest against this universal condemnation of all executioners. I am just as good a revolutionist as any of you, and if the revolutionary people have imposed on me this sad duty I am bound by my conscience. I demand, comrades, that you pass a resolution confirming the lawfulness of my acts. I hope that you understand that it is better to deprive one dangerous individual of his life rather than sacrifice thousands of useful lives.

"I move to discontinue your speech, Comrade Hangman," broke in the condemned man.

"And by what right, Comrade Exploder of Powder Magazines, do you constitute yourself the chairman?" replied the executioner, vehemently.

"Chairman! Chairman! Let's elect a chairman," came from several parts of the audience. The election proceeded fast. It took only half an hour, and the condemned man had the office thrust upon him of secretary of the meeting.

At this point an unfortunate divergency arose among the soldiers' and workmen's delegates. One of them, a minimalist, demanded the instant hanging of the prisoner; another, a social-revolutionary-internationalist, suggested getting explanations from the government; the third, a maximalist, proposed that they should release the prisoner and in his stead hang the executioner as a servant and agent of the counter-revolution.

The drummer got up to declaim against the third suggestion, but after his first sentence he began talking, not to the point, but to demand the transfer of all the land without purchase to the masses. A vote of closure was invoked to cut his speech off.

Solving the Problem.

An eloquent speech was made by the secretary of the garrison committee, although it was not much to the point. He said that the revolutionary government was now organized, that there was no reason now to fear German spies or explosions at powder magazines, and, therefore, in the name of the garrison, he called for the disclosure of all secret treaties!

The chairman here turned the discussion to the actual subject, putting two questions to vote. First, the fat in store for the condemned prisoner; second, the fate in store for the executioner.

The voting showed a two-thirds majority in favor of executing the sentence, whereupon the condemned man expressed dissatisfaction as to the accuracy of the voting and demanded a formal division of the house. Thus the matter was carried to the prison court yard, and the ayes and noes were requested to line up on opposite sides of the gates. The result was still the same, but when they looked around for the secretary, who was also the condemned prisoner, he was nowhere to be seen.

It was explained that he had voted by marching out at the gate and had failed to return.

After some discussion the meeting decided that the disappearance of the prisoner had disposed of any necessity of further discussing question No. 1, and that there remained before the meeting only question No. 2, namely, the fate in store for the executioner.

This time the vote was unanimous, and the following resolution was passed:

"In consequence of the fact that the revolutionary people on February 28 to March 12 gained its freedom, not in order to down civil liberty; also in consequence of the fact that Executioner Demochkin neglected to execute sentence on the condemned man, the assembly has decided to condemn Domochkin to three months' imprisonment. Long live the self-determination of the peoples on the basis of Russia federative and indivisible."

BARON VON STEUBEN FRENCHMAN, IS CLAIM

Indianapolis, Ind.—That Baron "von" Steuben of revolutionary war fame was properly named Baron "de" Steuben and was a Frenchman and not a Prussian, is the claim of A. B. Gardiner, secretary general of the Society of Cincinnati, in a statement made public here.

Baron "de" Steuben was of German birth, but renounced Prussia and owed allegiance to France when he came to America to help the revolutionary cause, according to Gardiner. He asserts that Steuben expatriated himself after making a glorious record in the seven years war, but says the full reason for his expatriating himself probably will never be known.

PROVES ALLIES' CONTROL OF SEA

Cattegat Battle Shows Germans Fear to Take Chance.

STAND IDLE AS 11 ARE SUNK

Teutons Strike Nervously at Night and Flee, Not Daring to Go to Rescue of Own Ships—British Fight Openly in Daytime and Rescue Drowning Men From the Water—Reputation of German Navy Suffers.

The recent naval action in the Cattegat, where the British sank a German cruiser and ten armed patrol ships, is an example of the careful planning which lies behind every move on the naval chart. A comparatively insignificant force of British destroyers and light cruisers were the actual stage performers in the little Skaggerak drama.

The actual fight in the Cattegat began about seven o'clock in the morning and was over three hours later. The German fleet behind its fortifications received calls for help, but dared not take a chance—probably well knowing that any attempt to send out help would be confronted with enemies rising out of the sea on all sides.

The Cattegat is a deep bay lying between Denmark and Sweden and leading out through the Skaggerak into the North sea, near the scene of the famous Jutland battle. A fog lay over the entire Cattegat throughout the action, and the British destroyers picked off their victims, one by one, and sank them.

Discredit German Captain's Story.

The German auxiliary cruiser Marie, which was leading the fleet of patrol boats, was a ship of 3,000 tons. Its captain, Herr Lauterbach, was wounded, but reached the Danish shore safely. His ship, which had four guns and a crew of 90, was "suddenly attacked," he said, in an interview with a Danish newspaper man afterward, "by a fleet of British destroyers and the shells fired by them descended with such rapidity that the men on the Marie were almost unable to use the guns. Only a few shots were fired before the ship was a mass of flames."

British and American naval men who have been on the China station in years past will remember Captain Lauterbach. He was known from Shanghai to Vladivostok as "Baron Munchasen" and is said to have been the most unpopular German naval officer in the far East.

Lauterbach's naval reputation will probably suffer somewhat from the Cattegat battle. His report that he fired his guns as long as possible is denied by his own men, who declared that Lauterbach was seized with "funk" as soon as the enemy appeared and that not a single shot was fired from the Marie's guns.

Presumably the Marie was making its way toward the trade route between Norway and Scotland, in hopes of repeating the successful German attack on the British convoy on October 17. The British commander concentrated his fire first of all on the Marie and then detached his fastest vessels to round up the escorting patrol vessels. This was thoroughly done after a hunt lasting nearly three hours. This action, it should be remembered, occurred in waters which the Germans regarded as practically one of their "inland seas."

The Cattegat is the gateway to the Baltic. The scene of the fight is 500 miles from the nearest British coast, but less than 200 miles from Kiel. The Germans held their favorite "interior lines," while the British forces had to cross the North sea, go up through the Skaggerak, and then around Skaw.

Enemy Afraid to Attempt Coup.

The Germans had every chance to execute a coup, cutting off the retreat of the British forces by bringing superior units up the coast to the entrance of the Skaggerak. That they did not dare to attempt this is evidence of their appreciation of the initiative and resource of the British navy.

An interesting comparison might be made between this clean victory by the British destroyers and the tip-and-run raid by the German light cruisers on a British convoy on October 17.

The Germans sent out two of their fastest cruisers in the darkness, struck their blows in nervous haste in the early morning hours, not pausing to rescue a single life of hundreds of combatants and noncombatants, then ran away northward to pass the remaining hours of daylight in hiding, and when night fell dashed down the Norwegian coast, and thus returned home without being intercepted.

On the occasion of the British victory the fight occurred not in the North sea, but on Germany's doorstep; not at night, but in daylight; not hurriedly or nervously, for 64 prisoners were taken, drowning men rescued from the water, thus providing another vivid contrast between German and British methods of warfare.

The return of the British squadron to its base was quiet and unostentatious. By nightfall they were off again on their business of sweeping the sea.

The cruise of the fleet into the Cattegat and the little victory which the British won there without the loss of a single British life, while not largely important in itself, is a concrete illustration and proof of the manner in which the allied fleets control the seas.

After such splendid results with "Seventy-seven" send for a free copy of Dr. Humphreys' Manual of all diseases and dip into its wealth of information on domestic practice, describing in simple language the maladies prop er for a layman to treat. Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher.

In Use For Over 30 Years

The Kind You Have Always Bought

THE CENTAUR COMPANY, NEW YORK CITY.

Mrs. H. W. Hartley has returned from Camp Shelby where she visited her husband Sergeant Hartley.

Mrs. Arnold Clegg of East Chestnut street will tonight be hostess to the members of the Standard Bearers Missionary Society of Wall street M. E. church at their regular meeting when Miss Maude Wilson will be the captain in charge.

Mrs. Mary Hays formerly of this city has just returned from Indianapolis where she spent the holidays with her daughter and has gone to Frankfort, Ky., where she has charge of the Substation of the Government Depot of this city.

Charles Long of West Maple street, who was improving from a serious illness has suffered a relapse but is resting easy thsy this morning.

If Mothers Only Knew

Mother Gray's Sweet Powders for Children relieve Feverishness, Headache, Bad Stomach, Teething Disorders, move and regulate the Bowels and destroy worms. They break up colds in 24 hours. Used by mothers for 30 years. All Druggists, 25c. Sample Free. Address, Mother Gray Co., Le Roy, N. Y.

BASUTOS SING PSALMS

Africans Surprise Congregation of Noted Church in Paris.

An odd spectacle was seen at the Oratoire in Paris recently. Twelve Basuto laborers stood before the altar and sang several Psalms in their own language. They are part of the contingent brought to France last January by the British authorities to work behind the front and were paying a visit to Paris, in charge of Lieutenant Mabillo, son of a Swiss Protestant pastor, and a naturalized Africander.

Pastor Shristol, who was a missionary in Basutoland for 25 years, welcomed them at the Oratoire, and two of them replied in Basuto.

This Judge Had a Heart.

"She told me and the court clerk she was just eighteen years old, and I signed here," explained Peter P. Swartz of Colony, Okla., charged by his father-in-law, E. V. Upchurch, of perjury in securing a license to marry the pretty daughter of Upchurch. The judge took a look at the pretty bride and her young husband and decided their defense was enough to dismiss the case.

What Was His Nationality?

When a building laborer in New York was injured, the policeman who went with the ambulance reported: "It's nothing; a man lost his balance and fell over a Limerick limousine." The lieutenant at the station wondered all the afternoon, until the policeman came in off his post and explained that the man fell over a wheelbarrow. Maybe you can guess the policeman's ancestry.

Perfecting Fireproof Paper.

Documents written on paper made from asbestos fiber, with inks prepared from the nitrates of iron and cobalt, have withstood a red heat for two hours without being damaged in any way. No damage resulted until the intensity of the heat was increased considerably and the document was exposed in it for ten hours. It is expected that further experimentation and study will result in the perfection of a paper and ink practically indestructible by fire.

Worry Greatest Slave Master.

The moment I fret about a thing I am its slave instead of its master. And there is no slave master in the world like worry. Another master may grudge the sleeping hour, but he must give you time for sleep. Another master may grudge the dinner hour, but sometime you must eat. But worry will work you 24 hours a day and spoil your appetite in the bargain.—Mark Guy Pearse.

Do you get up at night? Sanol is surely the best for all kidney or bladder troubles. Sanol gives relief in 24 hours from all backache and bladder troubles. Sanol is a guaranteed remedy. 35c and $1.00 a bottle at the drug store. The Sanol Chemical Company, St. Louis, Mo. daily tf

Eighth of Hebrew Prophets.

Habakkuk was eighth in order of the minor Hebrew prophets. The strophical arrangement of the denunciation of the Chaldeans is a remarkable feature of his prophecy. The whole concludes with a magnificent psalm in chapter 3, a composition that has been considered unrivaled for boldness of conception, sublimity of thought and majesty of diction.

DON'T

Don't think because you have taken many remedies in vain that your case is incurable.

You have not taken Hood's Sarsaparilla.

It has cured many seemingly hopeless cases of scrofula, catarrh rheumatism, kidney complaint, dyspepsia, and general debility—many cases that may have been worse than yours.

What this great medicine has done for others it can do for you.

Adv No. 6

Advertising Pays.

A woman of uncertain age required the services of a page-boy, and inserted in the local paper an advertisement headed: "Youth wanted." One of her friends, with little humor and less taste, sent her a bottle of a celebrated wrinkle-remover, a pot of fairy bloom, a set of false teeth, and a flaxen wig! —London Tit-Bits.

When you have Backache the liver or kidneys are sure to be out of gear. Try Sanol it does wonders for the liver, kidneys and bladder. A trial 35c bottle of Sanol will convince you Get it at the drug store. The Sanol Chemical Co., St. Louis, Mo.

Friends.

A friend is one who is a friend to you when you are absent. Happy the man who has many such friends and who is such a friend to many.—Exchange.

Thousands of Mothers Tell the Story

The story of Eskay's Food is one of actual happenings. There is no question of what it will do—what it *has done* is proven by thousands of sturdy little lads and lassies the country over.

Eskay's Food

The Complete Milk Modifier

is the royal road to perfect child-health and perfect physical development. Thousands of mothers tell the story in grateful letters

BEN DOOLITTLE,

437 SPRING STREET

Well Heeled.

The shipwrecked sailor sat disconsolate on a lonely raft in the middle of the trackless ocean. In his hands he held the last remnants of a pair of shoes. "Though reduced to the lowest extremities and completely surrounded by water," he croaked hoarsely, "I can still take to my heels." With these words he made his semiweekly meal and spent the remainder of the afternoon picking the nails out of his teeth.

W. B. Elastine-Reduso CORSETS

Effect an Astonishing Transformation in Stout Figures.

Wearing a properly fitted W. B. Reduso Corset you appear a younger woman—hips, bust and abdomen reduced 1 to 5 inches, you look 10 to 20 pounds lighter.

CLASSIFIED IN CLASS ONE

Action By Exemption Board On Registrants Answering Questionnaires

Thirty-one registered men, under the selective draft law, have so far been placed in Class One by the Clark County Exemption Board on the basis of their answers to the questionnaires. The following are the names of those additional to the list previously published in The News, many of whom have heretofore been examined for physical causes:

Clyde Consley Boyer, Otto; Leonard Joseph Kempf, 736 East Market street, city; John J. Gill, 726 Watt street, city; Louis Brown, 126 East Fourteenth streea city; James Russell 605 Missouri ave., city; Tiny B. Stone, Solon; Floyd Hillyard, R. F. D. 1, Jeffersonville; Ernest E. Hicks, Charlestown; John I. Johnson, Charlestown; Jesse Irving Colvin, Utica; Albert A. Duitz, 432 Missouri ave., city; Archie Stone, Owen.

Chance to Get Away.

Tom's uncle [illegible] which he was going to [illegible] or the navy. Tom [illegible] and the uncle expla[illegible] were. Tom thought a [illegible] said, "I think I'll join the [illegible] can run but I can't swim."

THAT LIVER IS NO GOOD

that is so lazy it lets the skin do part of its work. The skin turns yellow doing it. Such a liver upsets the whole system. Take Hood's Pills, they put the liver to work; best for biliousness, yellowness, constipation. Do not irritate nor gripe. Price 25c., of druggists or C. I. Hood Co., Lowell, Mass.

WOMAN NEAR DEATH

Hair Caught in Electric Wringer and Head Pulled Up to Rollers.

Mrs. Allen Weir, who lives west of Evansville, Ind., had a narrow escape from death when her hair was caught in an electric wringer.

Her hair was hanging loose and she had a scarf about her neck, when the scarf and hair were caught in the wringer. Her body was pulled up to the rollers. The obstruction threw a belt. Her husband found her in a short time, choking and unconscious. He obtained a pair of scissors and released her by cutting off her hair and the scarf. Mrs. Weir will recover.

PLAN MUSCLE RE-EDUCATION

Medical School Adds Course for Aid of Maimed Soldiers.

Re-education of muscles, a new branch of medical science developed by the war, will be added to the course at Hahnemann Medical college of Philadelphia. In explaining the idea, which has been tested in England and Canada, Professor Baker said when a man loses his right arm the muscles of the left arm are at first practically useless. Their adaptation to new uses can be greatly expedited by special training.

Georgia Needs Salt.

After hundreds of farmers in Georgia had killed hogs and prepared to cure the meat, they discovered that salt in sufficient quantities could not be readily secured for the process. It was the first time since the Civil war, when the salt supply of Georgia was shut off by the Yankee blockade, that there has been a shortage of salt.

Bunny to Do His Bit.

Kansas negroes who are fortunate enough to go against the Boches will all have the famous darky charm, the left hind foot of a rabbit, to keep him safe from the Teuton bullets. K. C. (Kroon) Beck, well-known Kansas naturalist and "rabbit king" of Kansas has agreed to furnish every negro drafted man in the state a rabbit foot.

FRENCH GIRLS WORK AS 'CHIMNEY SWEEPS'

Pays Better Than Dressmaking—When Season Ends They'll Take Up Whitewashing.

Chimney sweeping has been taken up in Paris by two girls—Mlle. Cecile Sevestre, aged eighteen, and Mlle. Germaine Fleury, seventeen.

Asked why they had undertaken it, Germaine explained:

"We both worked in the same dressmaker's shop. The war obliged the directress herself to find work elsewhere, and consequently we had to do the same. My father is a chimney sweeper but men have all been mobilized and we offered to help him.

"Our customers are so surprised to see us and also so pleased with our work that we never leave a job without getting a good tip. Cecile has a fixed salary of seven francs a day and she usually gets four francs extra in tips. In the dressmaking trade she got three francs a day.

"Soot easily comes off. We have only to take a bath and dress to go to a theater if we feel like it. When our work is done no one can tell we are chimney sweeps. At first we felt the effects of climbing and jumping about on roofs, but now we're used to it and enjoy it.

"Next spring, when the chimney sweeping season is over we shall take to whitewashing. Go from black to white, see?"

Little of Both.

"What is that dog—a pointer or a setter?" "He's a pointer when there's a beefsteak near, and a setter when we're out looking for game."—Life.

MARRY THE SOLDIER

"Take Home a Soldier" Movement Responsible for Double Wedding.

Who started the "Take-Home-a-Soldier" movement?

Sergt. Clarence E. War and James E. Dozier of Company C, Balloon division, Signal corps, at Fort Omaha, accuse D. Cupid.

Last January they were invited to eat Sunday dinner at a home near the fort.

There they met Miss Thelma Fancher and Miss Clara Palmer, both of Fremont, Neb.

Miss Palmer and Miss Fancher appeared at the marriage license clerk's office on important business the other day. The same night, Sergeants Dozier and War asked for a leave of absence.

A minister performed the ceremonies and the newlyweds went to a show. Then the husbands had to return to their posts at Fort Omaha and the girls went back to Fremont.

"They're coming back when we get a longer leave of absence," declares Sergeant War, hopefully.

A House Guest.

"She's a house guest of her mother." "That's a queer expression. She lives at home all the time." "Well, she sits around while her mother does the work."

Complicated Job.

Dobson—There goes Figgers, the expert accountant. They say he's going crazy. Jobson—What's the trouble? Dobson—He's been trying to straighten out his wife's household accounts.—London Telegraph.

SAVING MONEY

Everytime thrift or saving money is mentioned some people get the idea that it means cutting down expenses to the very lowest notch to save every possible cent. at the expense of self-respect, comfort and health.

Not for an instant should you think it means anything like that.

Thrift means the elimination of UNNECESSARY WASTE — in food cothing, pleasure, business and everything that makes you spend more than is necessary for your convenience, comfort and happiness.

What you can save and put away for future emergencies or opportunities is deposited to advantage in a savings Account.

AWAITING TRANSFER TO HOSPITAL

Charles B. Tolan, Bricklayer, Died Tuesday Morning; Was Bachelor

MRS. CRESSMAN DEAD

Coroner Coots Called To Wilson's Switch; Inquest Farmer's Wife

Charles B. Tolan, age fifty-two a bachelor and well known in Jeffersonville died at five o'clock Tuesday morning in the hospital at the county jail where he was taken a week ago to await transporation to the Southeastern Hospital for the Insane at Madison on account of a mental infirmity which was due to softening of the brain. He was in bad physical shape at that time and grew steadily worse. Tolan was a bricklayer and was in good standing in the Bricklayers' Union and in Myrtle lodge, Knights of Pythias and Jefferson lodge of Odd Fellows. He made his home with his sister Mrs. Addie BeDunnah and lived all his life in this city where he was born September 14, 1865.

The body was taken to the undertaking esablishmen of Messrs. E. M. Coots' Sons to be prepared for burial.

* * * *

Died Without Physician

Coroner Froman M. Coots was called Monday to Wilson's Switch several miles oot on the Monon railroad, to hold an inquest on Mrs. Emily Jackson, age seventy who died of heart disease without the attention of a physician. She became ill Friday and on Saturday hea family tritd to get a physician but were unable to do so and she died early Sunday. When arrangements were being made for the funeral it was oupnd only the coroner could sign a permit for burial. The funeral was held Tuesday morning at 10 o'clock with interment in Hickory cemeery. Mrs. Jackson is survived by her husband Tyler Jackson a farmer, and by a number of children.

POTATO DAYS IN INDIANA

Plan To Promote Consumption Of Murphys

* * * * * * *

With the completion of a state wide campaign to organize retail grocers the plan of the federal food administration to establish one "potato day" each week will be definitely undertaken in Indiana. The plan of the federal food administration is to increase to a maximum the use of Irish potatoes.

Grocers will be asked to select a day when deliveries of other foods are fewest and to make a special point to have potatoes delivered on that day. Housewives will be asked to buy a week's supply each potato day. It is hoped by the food administration to make potatoes a part of every family menu every day of the year, according to H. E. Barnard federal food administrator of Indiana.

DEATH NOTICE

Mrs. Thersia Cressman, wife of William Cressman died at her residence 212 Main street, Port Fulton, Tuesday morning, January 8, at ten minutes till one of Brights disease. She was a member of St. Luke's German Reformed Church. She is survived by her husband and four children Mrs. Mollie E. Needham of Port Fulton also two young daughters Ollie M. and Arietta B. Cressman, one son Joshua N. Cressman all of Port Fulton; and a brother Charles Freidhand Bader of Louisville, Ky., and also several half-sisters and brothers.

SAYS GOODBYE TO EMPLOYES

Col. W. S. Wood Adresses Letter To Staff Of Government Depot

Col. W. S. Wood has addressed the following farewell letter to the employes of the quartermaster's depot:

In compliance with telegraphic instructions from the Adjutant General of the army, the undersigned herewith relinquinshes the command of the Jeffersonville Depot of the Quartermaster Corps In thus relinquishing command I desire to express my keen appreciation of the exceptional loyalty and support that I have received so spontaneously from the officers and he entire body of civilian employes of this depot. The spirit with which you have been animated is remarkable and has been frequently commented upon by distinquished visitors at this depot as being one peculiar to and distinctive of the Jeffersonville depot. I feel that it is not necessary for me to bespeak from you the same loal support for my successor."

WILL ATTEND STATE BOARD DOF EDUCATION

County Superintendent S. L. Scott wil go to Indianapolis Thursday to attend the regular meeting of the State Board of Education of which he is a member. It is possible that the language question in the schools will come up at this time since several petitions have been filed requesting the board to take steps to place the German language on an equal footing with all other foreign language in the school curriculum.

ASSESSOR SAGE IS ATTENDING MEETING

Erasmus T. Sage, county assessor, is at Indianapolis to attend the annual meeting of the officers of that class with the State Board of Tax Commissioners which closes Thursday. Each assessor is required to report the amount of omitted property he has placed on the tax duplicate and Mr. Sage will report $79,057.61. He is assigned to the committee on corporations. Governor James P. Goodrich will sptak Tuesday afternoon on "Tax Problems."

RUNAWAY BOY FROM RUSHVILLE FOUND HERE

Capt. James Masters is investigating the case of James Peak age 15 whom he found on Spring street Tuesday night. The boy told Sergt. Robert Gleason at the police station hat his father was John Samuel Peak, employed in James Clore's livery barn at Bushville, Ind. He said he had run away because he was acensed of taking a watch. Capt. Masters communicated with the police at Rushville.

TWO GASOLINE SCHOONERS TO BE BUILT AT HOWARDS

It is understood that two 200-foot gasoline schooners will soon be in course of construction at the Howard shipyards for the C. C. Mengel Bros. Company. The boats will be added to the big fleet of steam schooners now in operation between the United States and Africa in carrying mahogany loge, and will be the first of this type of craft to be used for commercial purposes on such a large scale.

TOTAL OF 8669 FOR RED CROSS

Jeffersonville Chapter Report Shows 2069 Over County's Quota

CAMPAIGN IS CLOSED

List Of Donations Received For Local Purposes Is Appended

Jeffersonville Chapter, Red Cross, 8,669.

Quota for Clark County 6,600

Below will be found the complete report of the Christmas membership campaign of the Jeffersonville Chapter of the American Red Cross which virtually closed New Year's Day but the final report had to wait on reports from the county and from the quartermaster's depot. The report gives the numbers of members obtained by each captain and also the numbers for each auxiliary chapter. The quota was exceeded by 2,069 which was much better than ew Albany and Floyd county did. Compared with Louisville, in proportion to population, this county ran about twice as well.

FELL FROM BRIDGE INTO RIVER; KILLED

Frank Sims, of Louisville, age 37, an employe of the Bethlehem Steel Company, working on the Fourteenth street bridge, lost his hold Tuesday and fell from the bridge on the Louisville side of the river, crashing through the ice into the water. He died a few minutes after reaching the city hospital.

ENORMOUS SHPMENT IN SPITE OF WEATHER

The cold weather is not preventing the unloading of seventy-five carloadss of equipment each day at the Government Depot all of which is being piled in the open at the several camps.

SHIPYARD FOREMAN GOES TO MOBILE, ALA.

Jacob Merrideth, 602 East Market street, has resigned the position of foreman of the carpenters for the Howard Shipyards & Dock Company, and has gone to Mobile, Ala., to take a responsible place with the A. C. Murnan Shipyard Company.

PLENTY OF MATERIAL IS COMING

Gen. Goethals Promises No Shortage For Making Of Shirts

NEW SUBDEPOTS SOON

Crawfordsville Promised To Be Given First; 2100 Are Ready

Washington, January 9 —Protests of Crawfordsville citizens over the failure of the war department to establish a subdepot there for the manufacure of shirts have caused Major-General George W. Goethals, acting quartermaster general to assure Vice President Marshall that Crawforesville will receive first consideration this spring when new subdepots are opened.

Under pledges of having a subdepot if 1000 women were obtained to make shirts Crawfordsville raised $6,000 and a plant for the shirt manufacture was found which could be remodeled. Following an extensive campaign 2100 women agreed to make shirts not only women who needed the money but others who agreed to do the work as a matter of patriotism, intending to turn the money over to the Red Cross. About $2500 was expended on remodeling the plant but material then ran short and no more subdepots were established. Even Jeffersonville and Louisville failed to get all the material required.

According to General Goethals shirt material in large quantities will be sent to Jeffersonville this spring for distribution among the many subdepots in southern and central Indiana. Crawfordsville will receive first consideration, he said, when this material is distributed for manufacture into shirts.

OFFICERS INSTALLED BY JEFFERSON LODGE

Officers were installed Monday night at Jefferson Lodge, No. 3, I. O. O. F. by Harry Heimbaugh installing officer, as follows:

Wm. Monroe, N. G; Arthur Perry, V. G; Elmer Collins, recording ecretary; Jesse Robbins, financial secretary; H. E. Heaton, treasurer;; E. J. Crandall, A. E. Mahaffey, J. A. Sellers trustees; Rev. A. H. Keeney **chaplain.**

Appointive Officers—A. E. Mahaffey, R. S. N. G; Henry Temple, L. S. N. G; Wm. Fricke, R. S. V. G; W. B. Bastian, L. S. V. G; Jno. Mitchell, I. G; Leroy Perry, O. G; Ed Zimmer, warden Henry Owens, conductor; Chas. Grim R. S. S.; Jas. Oliver L. S. S.

WHOLESALE PRODUCE FIRM HAS DISSOLVED

Walter Schlosser, on account of ili health, has withdrawn from the wholesale produce firm of John Gienger & Company.

GETS PAROLE FROM GOVERNOR

Wilbur Montgomery Agrees At Last To Surrender Stolen Daughter

Wilbur Montgomery, who returned to the Indiana Reformatory Saturday night two years after escaping from a guard while attending a funeral at Poseyville, Ind., has been released on parole granted by Governar James P. Goodrich. A condition of the parole is that Montgomery shall produce his daughter, now about eleven years old whom he kidnapped from his divorced wife five years ago, this being the occasion of his commitment to the Reformatory. He was authorized for parole two years ago by the board of trustees but they insisted on the prior fulfillment of the condition that he should produce the child. He had refused before his commitment to o so and still refused. He has now given his word to Governor Goodrich that he will do so at the close of the school year.

Paroled Man Returned

James Bashaw, sent to the Reformatory from Huntington county for robbery October 21, 1913, and paroled December 21, 1916, has been returned to the institution as a parole violator from St. Louis by John H. McCafferty assistant state agent.

FERTILIZER AND THE PRESENT CRISIS

Only through the Sincerest cooperation of the Government, the Manufacturers, the Dealers and the Farmers, can we be assured of an adequate supply of Commrecial Fertilizer for the Crops of the Coming Season.

On account of congestion of transportation facilities, the prospects are not very big for manufacturing and distributing a sufficient amount of commercial fertilizers for use on our farms the coming season.

Fertilizer dealers and farmers should make a concerted request that all fertilizer orders be moved as quickly as possible. The National Council of Defense, announces that the storage facilities of the Fertilizer manufacturers are about exhausted. Unless there can be some very early movements of this commodity, it wille be necessary to close th plants for lack of room in which to store their products.

There probably was never a time when an intelligent use of fertilizers would pay as well as it the demands of our nation are met and the needs of our allies will this year. Furthermore if adesuately supplied, everything must be done to increase the efficiency of our farmers. Fertilizers used intelligntly will help very much.

Every farmer shoud consider his first duty in conserving soil fertility, to be, to take the best care of the barnard manure. All losses from leaching and heating should be prevented. This ran best be done by hauling direct to the fields whenever weather conditions will permit. Most of our farmers have come to recognize the manure spreader as a necessity. It makes the same amount of manure go farther by distributing it over more acres.

All plants require a balanced ration. They are similar to animals in this respect. On the average clay soil as found in Clark County, manure does not furnish a balanced ration for plants, the manure should be supplemented with Commercial Fertilizer carrying a high per cent of available phosphorus.

H. A. STEVENS,
County Agent

COUNTY AGENT WILL ATTEND CONFERENCE

Hugh A. Stevens, county agricultural agent, will go to Seymour Thursday to attend a district meeing of similar officers.

MINISTERS WILL WATCH CITY MORALS

At Meeting Held Tuesday Hope Is Expressed Of Better Things

DANCE HALL VISITED

Ministers Arrange Topics For Monthly Meetings Until June

The following report has been furnished The News of the meeting of the Jeffersonville Ministerial Association:

The regular monthly meeting of the ministers of the city convened at 10:30 Tuesday morning at the Presbyterian church.

The subject of Union services during the winter evenings was again discussed and the matter tabled.

The observance of the Lords Oay in the city was considered an dthe assembly expressed itself as hopeful of improvement under the new mayor. The association commended Mayor Myers for his declaration for a cleaner city. tt was noted that many of the gamblers had decamped already and that a more respectable tone around some saloons already prevailed.

The dances at the K. P. hall were also a subjejct of much discussion. The fact that this place is patronized so largely by Louisville people has brought it under suspicion. The Rev. A. H. Keeney in company with the K. P. trustees went into this hall Monday night and brought a report to the ministers association. Mr. Keeney thuoght matters at the hall not as objectionable as certain pool rooms and gambling dives on Spring street. The Presbyterian minister in discussing these subjects deplored the tendency to glose over the low moral tone in he town and the habit of church people in not seeing the low-down conduct of many public places. The ministers were urged to be "eternally vigilant". The Rev. J. M. Vawter declared that on one occasion he had seen a Jeffersonville dance and that there was but one thing that could have made it more reprehensible and that would have been for the dancers to have been naked.

The drug stores do a saloon-business also came under the lime light and it was purposed to give further investigation to this end of the booze-can. It was urged that all whiskey dispensers be named and Christian people enlightened on the subject.

This body of preachers purposes to go after the evil in this town and if possible to clean out some of the Devil's Special Agents. Under the last city government there was no hope but it is believed with the present mayor, decency has a chance. So declares the president of the Ministers' Association.

A program of talks was outlined for the regular monthly meetings. The following subjects will be handled:

Feb. "A review of the Meaning of Prayer" Rev. J. M. Vawter

March "Spiritual value of Ministerial Persion" Rev. H. C. Clippinger

April "Popular-views concerning the Dead" Rev. Arthur Hale Keeney.

May "Preachers Power, How to Keep It" Rev. A. F. Zarwell.

June "Exegesis of Luke 16" Rev. W. O. Williams

HOW TO REDUCE

High Cost of Living During These War Times—What Every Woman Can Do.

Look over your old clothes. You can never appreciate how much you can brighten and freshen up your wardrobe until you use Dy-O-La Dye.

Take some of your discarded blouses and dresses, dye them with some of the sixteen different colors of Dy-O-La, change the trimmings a bit and you will be astonished at the result.

Dy-O-La is the modern dye made by skilled chemists who have removed all the difficulty from home dyeing in order that you may get perfect results. Old style dyes require a separate dye for each kind of goods. That makes trouble (as you probably know) for if you get a package for the wrong kind of material the goods are spoiled. You can't make such a mistake with Dy-O-La Dye.

Take some garment that you have grown tired of or that you desire to color the fashionable shade of the moment, look over Dy-O-La Dye color chart at your nearest druggist or storekeeper, select the one that pleases, and follow the printed directions. They will look as if they had just come from the dressmaker.

And remember—the colors will be just as fast and durable as they are beautiful. They won't rub off or bleach out.

Buy it of your nearest druggist or storekeeper, but if they have not the color you want we will send it to you on receipt of ten cents and at the same time include direction book and color chart.

Dy-O-La Dye is made in **Black, Blue, Navy Blue, Brown, Seal Brown, Light Green, Dark Green Scarlet, Yellow, Orange, Cardinal Red, Pink, Purple, Dark Wine Old Gold, Turkey Red** and from these sixteen colors a great variety of other shades and colors can be made.

Dy-O-La Dye Company, [illegible] Des Moines, Iowa

SMOTHERING SPELLS

And Dizziness Relieved By Black-Draught, Says Ohio Lady.

Coalton, Ohio.—Mrs. Lucy J. Beatty, of R. F. D. 1, this place, writes: "Some time ago I had a great deal of trouble with my stomach. It seemed there was a hard lump formed in my stomach. This lump was sore and every time I would eat I would feel bloated and pained me terribly. It would seem to come up toward my chest.

I would have smothering spells and feel dizzy. I would start across the floor and would have to sit down. At night I smothered so I couldn't sleep. I would go to bed and wake with a start and feel like I would smother to death . . . The doctors said it was my age and doctored and doctored, and I didn't get any better.

I was almost discouraged so I began to look around for other remedies and while reading the Almanac I decided to try Black-Draught, which I did. I bought two packages and took it regular for awhile and it cured me and I don't have any more trouble of that kind."

If you suffer from stomach and liver troubles, give Thedford's Black-Draught a trial. It has helped thousands of others—why not you? All druggists. NCB-16

Agricultural Education.

Agricultural education is one of the essentials to the betterment of country life. The pervading thought in this movement is to add dignity to farming by placing it on the high plane to which of right it has ever belonged.—Exchange.

Origin of the Word "Lady."

Why we call a woman a lady is known, probably, to few women. It came from a practice that obtained in the manor houses of England where, once a week, the lady of the manor distributed to her poor neighbors, with her own hands, loaves of bread. She came to be called "Laef day," the Saxon words for bread giver. These two words became one: "Lady."

When Your Child Cries

WAR LEAVES MAN SIGHTLESS AND ARMLESS

Another Hero Brings to Victim Priceless Reward.

ROMANCE OF THE TRENCHES

Village Belle on Hearing of the Maiming of Farmer Boy Acquaintance Offers to Marry Him—Care of Sightless and Armless Husband Splendid Example of the Spirit of the Women of France.

A "Metro" train pulled into the Alma station on the Champs Elysees line. It was nearly six o'clock and every seat was taken and the aisles were crowded. The crowd, as in the New York subway during rush hours, packed itself tightly around the side doors of the cars.

A slender, fair-haired, well-dressed girl—not more than twenty years old—managed to burst through the knot of officers, fashionably gowned women and civilians who were jammed at the center side door of the first-class car. Behind her trailed a man wearing the uniform of a French soldier.

She held his sleeve clutched tightly in her hand, and he followed her with fumbling steps.

No sooner had they entered than the train started, and the girl, still pulling the soldier after, edged away from the door and to the nearest seats—there are cross seats like in railway cars in the Paris underground system.

Two young women—clad in furs and silks, their blackened eyes, scarlet lips and crimsoned cheeks proclaiming them of the demi-monde, were occupying the nearest seat.

"Will you please give your place to a mutile of the war?" said the fair-haired girl, the soldier always at her heels.

Instantly, as the crowded train stared with curious eyes, both women arose. The girl pushed her companion forward from out of the crowd and he sat down. She sat beside him.

When the soldier sat down one could understand why the girl led him, and why he stumbled uncertainly. He was sightless, and the blue powder marks still staining his cheeks and forehead showed what had blinded him.

And as he sat there one could see why the fair-haired girl had led him by the sleeve. He had no hands! Both arms had been amputated just below the elbow.

Sorrows of Their Own.

The crowd stared as crowds will stare—some curiously, some feelingly, some dispassionately, for they had undergone their own sorrows in this war, others critically as they wondered who the beautiful, fair-haired girl might be and what was the name of the soldier hero.

Nearly all had thought, when the girl entered the car with her companion, that she was an American, one of those engaged in war relief work and attached to a hospital or home for the blind, taking out a sightless man. Such sights are common in Paris; American girls and women take blinded and crippled soldiers walking in the Bois de Bologne, in the Champs Elysees, in the Tuileries gardens. And they take them to the outdoor terraces of the cafes along the grande boulevards and to theaters, too.

But the perfect French uttered by the fair-haired girl when she requested the seat for her companion indicated clearly enough she was no American. She was French, born and bred.

The soldier, a young, rugged, black-haired figure, clad in the familiar horizon-blue uniform of the French line regiments, wore the Croix de Guerre, with two palms and a star, the Medaille Militaire and the Cross of the Legion of Honor, pinned to his tunic. France has no other medals.

He sat half facing her and the girl sat half facing toward him. He nudged her with the stump of the arm nearer her and she took it under her own arm. The soldier was plainly greatly fatigued and he leaned toward her, whispering something.

Soldier and Bride.

Apparently in answer to his request, she removed the horizon-blue kepi, with the gold numerals, "107," indicating the number of his regiment, on the front, and smoothed his shock of raven black hair. When his hat was removed one could see a great V-shaped scar in the front of his scalp, where trepanning had been resorted to for a fractured skull.

The girl kept the kepi in her lap and the tired soldier leaned his head on her shoulder. His eyeless face was close to her milky white throat. Then she turned her head toward him and kissed him lightly on the cheek.

Not even the most brazenly curious dared stare for a while after that, but the kiss had shown plainly enough that the couple were married. Then it came back to most of the passengers in the car who the soldier was and who his bride was. It was only a fortnight ago that the daily newspapers told of a beautiful girl proposing to and marrying a soldier who was sightless, armless and had undergone a trepanning operation for a fractured skull.

The girl and the soldier had both been born and brought up in the same little town in Normandy. They had scarcely known one another except in school; for while he was the son of a poor farmer, she was the daughter of a shopkeeper in the town, and, moreover, she was the prettiest girl in the locality. Prosperous youths from the surrounding villages paid court to her; the farmer boy had never dared to aspire to her hand.

Then the war came, and the farmer put on his uniform, took up his rifle and went to the front. He was wounded three times, but each time was able to go back. Then, at the Aisne, in the summer of 1916, he was mutilated by a hand grenade when on a night raiding party headed for the German lines. He lay in No Man's Land for 26 hours, until the following night, when his comrades crept out to the shell hole just in front of the enemy barbed wire entanglements where he lay, and carried him back to the French lines.

Surprised the Surgeons.

He lived through it, to the surprise of the surgeons who attended him. News of his mutilation reached his home town, and a few weeks ago he received a letter from Mlle. Marguerite Lavenue, just twenty years old and the belle of the village, telling him that she had heard of his misfortune, that his duty for France was finished, but that hers had just begun, if he would consent to marry her.

Sergeant Georges Roy, himself only twenty-three, was stunned at the proposal. He could not believe it was true until she came to Paris, to the great hospital located in the Grand Palais on the Champs Elysees, and told him she meant it. They were married soon afterward in the church of St. Pierre de Chaillot, and then took a honeymoon trip to the south of France.

George Kessler, the champagne manufacturer, and Mrs. Valentine Webster, widow of an English officer killed early in the war, are carrying on relief work for blinded French, Belgian and British soldiers. And it is from their fund that Sergeant Roy and his bride went on their honeymoon. And from the same fund Mr. Kessler has purchased a home in Normandy for the blind, armless soldier and his bride. They are going down to the country in a few days.

Mr. Kessler and Mrs. Webster are going to continue to look after the couple and already Roy has been granted a pension of 1,500 francs a year. But there are 3,000 other blinded Frenchmen who must be looked after, and it takes money for them, too.

GIRLS MAY BE CONSCRIPTED

Germany Considers Training to Match Boys' Military Service.

Plans for general conscription of women after the war are being made in Germany, and there is a general feeling that girls, as well as boys, will be compelled to undergo a regular period of training corresponding to the German youth's service in the army. The service proposed for girls is not military but civil. It is proposed that all women should, preferably at the age of seventeen, be taken from their homes and compulsorily "trained" either in a profession, a trade or in household duties.

The characteristic German division between rich and poor is maintained in the project. Girls of the upper classes are to be trained in special institutions; poor girls will go to factories or be placed in private households, where their employers will give them a trifle of pocket money and make a contribution to the state.

The idea meets with wide commendation in the German newspapers, but one English critic notes that "there is some difference between male conscription, which puts a man into a regiment run by and for the state, and a female conscription, which makes a girl work without wage for the profit of private individuals. The latter cannot with accuracy be called anything but slavery."

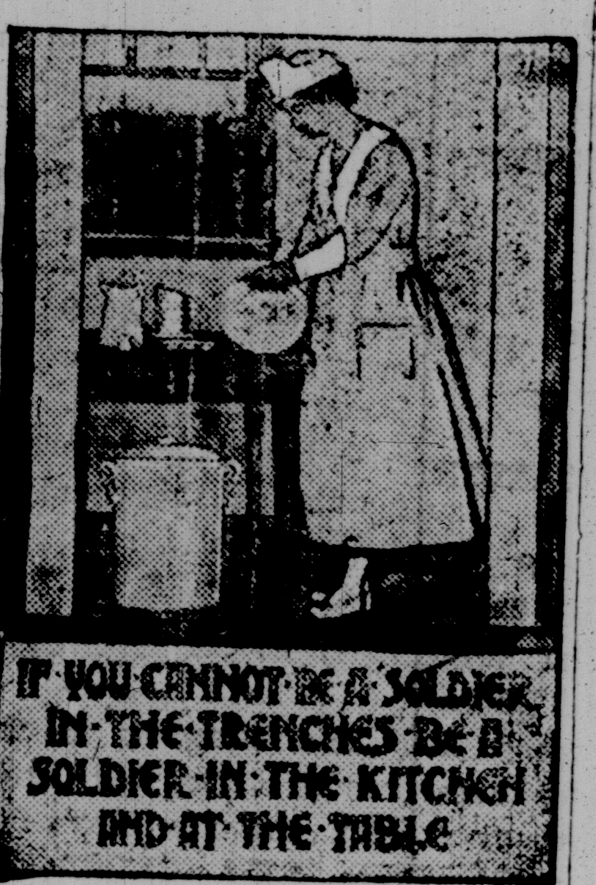
Hard to Recognize Sometimes.

Most people have enough opportunities, but the difficulty is that many do not see them. They do not know the opportunities when they see them. Let us get acquainted with our opportunities, then we will be in a position to entertain them when they visit us.—Exchange.



IF YOU CANNOT BE A SOLDIER IN THE TRENCHES BE A SOLDIER IN THE KITCHEN AND AT THE TABLE

When Your Little Child

cries at night, tosses restlessly and mutters in its sleep, is constipated, fretful and feverish, or has symptoms of worms, you feel worried and have your night's rest disturbed by the little one's crying, or perhaps because of your own anxiety.

Many thousands of mothers rely at such times upon a tried and trusted remedy always kept in the house,

Mother Gray's Sweet Powders for Children,

Used by mothers for 28 years. These powders cleanse the stomach, act on the Liver and give healthful sleep by regulating the child's system. Easy to give and pleasant for the child to take.

Happy mothers in every community are using them with splendid results.

Mother, if your child has the symptoms here described you should try these powders.

Your druggist has them, 25c. a box.

Be sure you ask for, and obtain,

Mother Gray's Sweet Powders FOR CHILDREN.

LOVER BORROWS A "FATHER"

Oklahoma Youth, Under Legal Age, Seeking Marriage License, Is Resourceful.

Bartlesville, Okla.—C. O. Gray, twenty, of Choctaw, got a father, a girl and a marriage license, all in one day. Recently he applied to the district court clerk for a marriage license. Being only twenty, that official had to refuse the important paper.

Young Gray declared that both his parents were dead and he had rustled for himself since he was ten years old. He left the court determined to win out some way.

Later he returned with one "Mr. Gray," who said he was the father of the boy and was ready to give his consent to his "son" getting married. The clerk issued the license, and then remembered that young Gray had told him a short time before that both his parents were dead.

SPAIN KEEPS ITS OLIVE OIL

Recent Royal Decree Forbids Export of This Product.

A recent royal decree forbids exports from Spain of olive oil, of which large quantities formerly were shipped both directly and via France and Italy to the United States and other foreign markets from Barcelona and Seville. In southern Spain and in Catalonia the olive oil industry has been an important source of revenue to the growers, who exported to foreign refineries, whence the oil was often shipped to the United States as of really non-Spanish production. Recently the direct exports from Spain to the United States have increased considerably.

MISS FRANCES INGRAM

Will Address War Council Monday; All Welcome

Miss Frances Ingram, head of the welfare department of the War Council, of Louisville will address the citizens of this city and the local War Council at Chamber of Commerce headquarters next Monday afternoon at 3 o'clock. The meeting will be under the auspices of the Current Events Club and all are invited.

Mrs. Campbell Retires

Mrs. Elinor Campbell wishes it known that she no longer has any thing to do with the Red Cross knitting, except as to completing work that has already been started.

Will Visit At Washington

William Long, who retired as Sheriff of Clark county January 1 will leave Saturday for Washington, where he will remain several days.

Ladies' Aid Meets

The Ladies Aid of Morton Memorial M. E. church will meet at the home of Mrs. E. M. Lindley on Thursday afternoon and the presence of all members is desired.

Leaves For Camp Oglethorpe

Dr. James H. Walker, associate superintendent at the Indiana Reformatory, who has been commissioned a Captain in the Medical Corps of the United States Army left Tuesday night for Fort Oglethorpe, Ga., to be assigned to duty.

Col. Wood Leaves Sunday

Mrs. Winthrop S. Wood deferred her going to South Bend until this morning, when she accompanied her two sons Robert and Paul to Notre Dame University. They will remain there until the close of the college term, when they will join their parents in Washington, D. C. Mrs. Wood will return Friday and on Sunday she and Col. Wood will depart for Washington where their home will be for the present. Much as we dislike to loose them from our midst we certainly wish them well wherever they may be stationed in the future.

D. A. R. Meeting

Ann Rogers Clark Chapter D. A. R., held a very interesting meeting yesterday afternoon at the home of Mrs. Walter Swartz on East Maple street with Mrs. W. T. Ingram joint hostess. They appropriated $50.00 to the State Ambulance fund and indorsed the appointment of the Lady County Agent and pledged themselves to lend her all the help they could by personal subscription $10.00 was raised for the Young Woman's Christian Association fund. The annual election of Officers resulted in the following Mrs. Janet Whiteside, Regent; Mrs. Anna Hutchison, Vice Regent; Miss Jennie Taggart, Recording Secretary; Mrs. Roy Graham, Corresponding Secretary; Mrs. Clarence Bennett, Treasurer; Mrs. Clara Fitch, Registrar; Mrs. M. D. Schlosser Historian; Mrs. Charles T. Fox, Librarian.

After the business was disposed of a delightful social hour was spent and dainty refreshments served. The chapter numbers 64 members and two more pending Mrs. Ed Sauer of Midway and Miss Altha Carr of North Spring street, both of whom are coming in on the same ancestor.

Capt. Crum Gets Orders

Dr. C. C. Crum yesterday received orders to report for duty at Fort Oglehorpe, Ga., January 23. Some few weeks ago Dr. Crum received a commission as captain in the Medical Officers Reserve Corps of the U. S. Army. He will be accompanied to Fort Oglethorpe by Mrs. Crum.

Entertained Tri Kappa

[illegible] Percy Poindexter was hostess [illegible] to the Kappa Kappa Kappa Sorority at her home on East Maple street. No business of importance was transacted but good social time was the order of the evening when all the members except two were present. Those who participated were Mrs. Hope Haas, Misses Bertha Mary Elrod, Edith Eberts May and Grace Veasey, Helen Gibbs, Helen Armstrong, Lora Burtt, Anna Nahstoll, JeJnnie Taggart, Ruth Hensel, Eugenia Glossbrenner and Amy Poindexter.

Personals

Mrs. T F. McNaughton of Meigs avenue is a victim of lagrippe.

Miss Lucille Martin of Louisville is spending a few days the guest of Miss Lucy Baird on West Chestnut street.

Miss Clara Kratz and her sister Mrs. Crook of Cleveland, Ohio who have been the guests of their mother Mrs. Louose Kratz in Ohio Falls have returned to their home.

Miss Madeline Pfau is convalescent from a severe attaak of tonsilitis at her home on West Riverside.

Mrs. John Nagel of West Market street is this afternoon entertaining the members of her Sewing Club.

Henry Edmons of Cleveland, Ohio, came yesterday to be the guest for a few days of Misses Nellie and Marie Patrick on Indiana avenue.

Richard Russell has gone to Princeton, Ind., for a visit with relatives.

Lieut. Leggitt and family have token the lower Pernett flat on East Riverside.

Mrs. Henry Hogue of he Gravel road left this morning for Seymour, called there by the illness of Mr. Hogues mother.

Mrs. Roy I. Lindley will be hostess Thursday afternoon for her sewing club at her home on West Market street.

Miss Louise Bass of Chattanooga, Tenn., who has been the guest of her father Capt. Bass of the Quartermaster's depot departed Sunday night for Virginia, where she is attending college The Capt. was at the Hotel Henry Wattaerson during his daughter's visit.

Frank Peel returns today to Camp Shelby, Hattiesburg, Miss., after spending ten days furlough with his parents Mr. and Mrs. Charles Peel at Rosedale.

Mrs. Rose Amick has returned to her home in Indianapolis after a visit with her daughter Mrs. John Cole.

Mrs. T. G. Porter who is visiting her parents from Hazen, Arkansas left Monday accompanied by her mother Mrs. J. W. Radley for a few days visit with relatives at Bradenburg, Ky.

James McKnight who underwent an operation for appendicitis at Norton Infirmary a few days ago is making rapid progress toward recovery.

Mrs. Garener Dutz entertained the members of the Neaedle Craft Embroidery Club Tuesday afternoon at her home on Watt street when those present were Mesdames Ben Clegg, William Moser, Harry Edwards, Edward Schan, Orville Brown, Clyde Hoover and C. N. Finch.

Ben NuDyke having spent the holidays with his mother on East Maple street has returned to Detroit, Mich., to resume his duties as Construction Engineer for Dodge Bros. Motor Car Company. Formerly he was connected with the Henry Vogt Machine Company of Louisville, until he located in Detroit two years ago. Locally he was prominent in athletics and is now president of the Inter-Church Athletic Association of Detroit.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher.

In Use For Over 30 Years

The Kind You Have Always Bought

DAYTON HAS LEAGUE TO WATCH ALIENS

Dayton, O.—The American Protective league, to co-operate with Federal authorities in running down slackers and seditious aliens, has been organized here. Practically every factory, shop, business house and industrial enterprise in Dayton is represented in the league's membership.

The medium between the public and government secret agents for the transmission of information relative to seditious remarks and efforts to escape the draft is Dayton's postmaster, who is receiving written messages daily from citizens furnishing clues.

DISEASE IS EVER THE SAME

And in view of this fact a medicine like Hood's Sarsaparilla, which has been successful for more than 40 years, is a safe one to rely upon.

Hood's Sarsaparilla is known to the people of America as the standard blood purifier. Its record is one of general satisfaction and remarkable results. There is nothing better as a general tonic and appetite-maker for weak and run-down men, women and children and old people, invalids and convalescents.

It is pleasant to take, aids digestion, and supplies the vital organs with rich red blood essential to perfect health.

Get Hood's Sarsaparilla today and begin to take it at once.

Perfecting Fireproof Paper.

Documents written on paper made from asbestos fiber, with inks prepared from the nitrates of iron and cobalt, have withstood a red heat for two hours without being damaged in any way. No damage resulted until the intensity of the heat was increased considerably and the document was exposed in it for ten hours. It is expected that further experimentation and study will result in the perfection of a paper and ink practically indestructible by fire.

After such splendid results with "Seventy-seven" send for a free copy of Dr. Humphreys' Manual of all diseases and dip into its wealth of information on domestic practice, describing in simple language the maladies proper for a layman to treat. Humphreys' Homeo. Medicine Co., 156 William Street, New York.

Worry Is Worst Slave Master.

The moment I fret about a thing I am its slave instead of its master. And there is no slave master in the world like worry. Another master may grudge the sleeping hour, but he must give you time for sleep. Another master may grudge the dinner hour, but sometime you must eat. But worry will work you 24 hours a day and spoil your appetite in the bargain.—Mark Guy Pearse.

PARKER'S HAIR BALSAM
A toilet preparation of merit.
Helps to eradicate dandruff.
For Restoring Color and Beauty to Gray or Faded Hair.
50c. and $1.00 at Druggists.

What Was His Nationality?

When a building laborer in New York was injured, the policeman who went with the ambulance reported: "It's nothing; a man lost his balance and fell over a Limerick limousine." The lieutenant at the station wondered all the afternoon, until the policeman came in off his post and explained that the man fell over a wheelbarrow. Maybe you can guess the policeman's ancestry.

If Mothers Only Knew

Mother Gray's Sweet Powders for Children relieve Feverishness, Headache, Bad Stomach, Teething Disorders, move and regulate the Bowels and destroy worms. They break up colds in 24 hours. Used by mothers for 30 years. All Druggists, 25c. Sample Free. Address, Mother Gray Co., Le Roy, N. Y.

Little of Both.

"What is that dog—a pointer or a setter?" "He's a pointer when there's a beefsteak near, and a setter when we're out looking for game."—Life.

BELL-ANS
Absolutely Removes Indigestion. Druggists refund money if it fails. 25c

Eighth of Hebrew Prophets.

Habakkuk was eighth in order of the minor Hebrew prophets. The strophical arrangement of the denunciation of the Chaldeans is a remarkable feature of his prophecy. The whole concludes with a magnificent psalm in chapter 3, a composition that has been considered unrivaled for boldness of conception, sublimity of thought and majesty of diction.

HARD COLDS.

People whose blood is pure are not nearly so likely to take hard colds as are others.

Physiology goes into the reason Hood's Sarsaparilla makes the blood pure, causing healthy action of the mucous membrane and giving strength and tone to all the organs and functions.

This great medicine recovers the system after a cold, as no other does.

Well Heeled.

The shipwrecked sailor sat disconsolate on a lonely raft in the middle of the trackless ocean. In his hands he held the last remnants of a pair of shoes. "Though reduced to the lowest extremities and completely surrounded by water," he croaked hoarsely, "I can still take to my heels." With these words he made his semiweekly meal and spent the remainder of the afternoon picking the nails out of his teeth.

W. B. Elastine Reduso CORSETS

Effect an Astonishing Transformation in Stout Figures.

SENSITIVE ABOUT HER FEET

Kansas City Woman Resents Reference to Her Pedal Extremities by Judge.

Kansas City, Mo.—Mr. and Mrs. Charles Miller, a bridal couple, quarreled within 48 hours after their marriage. Their troubles came before Judge Joe Keirman of the municipal court.

Mrs. Miller explained that her husband made a sarcastic remark about her feet, as she slipped on the ice and snow, on a downtown corner, and the quarrel ensued. The police had to interfere.

The judge admonished them and gave some sage advice:

"Try to be more careful next time," he advised.

As the couple started to leave the judge remarked:

"Your feet look like they ought to hold you up."

"I hope you fall flat the first minute you step outside the door," replied Mrs. Miller, as, with reddening cheeks, she backed out of the court room.

BASKET BALL

Departmental School Wins Against Mars

The basket ball team of the Departmental School met Mars, a Freshman-Sophmore team of the High School in an excellent game at the High School gymnasium yesterday afternoon. It was a clean square game from start to finish and resulted in a victory of 17 to 15 in favor of the Departmental boys.

The line up was:

Departmental		Mars
Myers 10	F	Davis 1
Royce 7	F	Zimmer 4
Hanna	C	Glaser 4
Baker	G	Voit 4
Morris	G	Coll 2

The Departmental boys will play against the New Albany Departmental next Friday evening, January 11 at 8 p. m. in the High School Gym. and a good game can be expected.

MRS. ELLEN BRADY WILL BE RECEIVED

Notice has been received by Ernest E. Jacobs, clerk of the Clark Circuit court, that Mrs. Ellen Brady, of Port Fulton, an aged resident of the Old Ladies' Home will be received for treatment at the Southeastern Hospital for the Insane at North Madison. She was at first refused for lack of room.

COLLECTED $6,800 FEES DURING YEAR 1917

Ernest E. Jacobs, clerk of the Clark Circuit court, collected and paid in to the county during 1917 $6,000 in fees which is two and one-half times the amount of his salary which is $2,700. His report for the fourth quarter of the year was filed with the Board of County Commissioners and showed collections of $3,264.31 as follows clerk's fees, $1,923.25; ex-clerks' fees, $270.95; sheriff's fees $140.21; ex-sheriffs' fees, $51.70; docket fees, $13.50; fines and forfeitures, $790.

GEORGE WALKER AGAIN MARSHAL AT SCOTTSBURG

The town board of Scottsburg, consisting of two Democrats and one Republican, elected George W. Walker, town marshal, although the latter is a Republican. He has served several years in that office.

NO SHIRKERS OR SLACKERS

Need Expect Consideration At Mayor's Hands

Grover Harrell, who was serving time at the county jail where he has been sent on two or three occasions, was found on the street intoxicated Tuesday night, having been allowed outside as a trusty. He was brought before Mayor Myers in city court and was given a severe lecturing by the court who said that no leniency would be shown shirkers who refused to work.

Mayor Myers said after court that the demand for man power to win the war is such that every man must work and he would not so far as his authority went, tolerate idlers lying around at home doing nothing while the young men of this country were fighting their country's battles over the sea.

"There is work for everybody today," said Mr. Myers, "and there is no excuse for a man not working and I will not consent to able-bodied men lying around doing nothing." The mayor intimated that at soon as plans could be worked out he would establish a rockpile for city prisoners at the county jail and then — "no work, no eat" said Mayor Myers.

CARL ROBINETT IN TROUBLE AGAIN

Former Young Minister Is Charged With Forgery

Carl Robinett, of New Washington, is again in trouble and is in jail at Scotatsburg awaiting hearing on a charge of forgery. It is alleged that he forged a check for $12.50 on the New Washington State Bank nearly a year ago in the name of Henry Schowe and more recently another check for $13 on the same bank in the name of T. A. Stevens, of Bethlehem. Both were cashed by the Scottsburg State Bank but the second led to his arrest. Robinett asserts he was at Anderson and can establish an alibi.

Robinett is about 40, the son of John T. Robinett of New Washington, brother of L. D. Robinett of that p lace and another brother, Frank Robinett, is at Anderson. The family is well known and respected. Several years ago Robinett became a minister in the Methodist Church, was stationed at Beamblossom, Brown county and made a success apparently. Later he got into trouble at Washington concerning a horse trade and left the ministry of this Church and served the United Bretheren. A year or so ago he was arrested in Louisville and served a year in jail on a charge of breaking into a drug store to get cocaine to the use of which he was addicted.

"NO WORSE" NOT VERY GOOD

Germans Going To Treat American Prisoners Kindly

The following press dispatch is direct from Berlin and may be taken for what it is worth.

"The report is published from American headquarters that the Germans intend to treat American prisoners systematically worse than British, French and Italian prisoners, and is based allegedly on an official German statement that Americans are hard of understanding and unable to conduct themselves like gentlemen. Such an official statement was never made.

"American prisoners will be treated just as kindly and considerately as all other prisoners."

CLASS IN SURGICAL DRESSINGS

Miss Sue May Whiteside To Train Supervisors To Aid This Work

FIRST CLASS FEB. 5

This Work Is Urgent; Every Woman And Girl—Attention, Please!

Miss Sue May Whiteside, who has been devoting her energy to the organization and management of the Red Cross volunteer shop for the making of surgical dressings, is preparing to start a series of ten lessons to train supervisors who may assist in having charge of this work, relieving her in a measure of a task that will become too big for one person to manage and at the same time permitting an extension of the work.

The classes will be held on Tuesday and Friday afternoons at the volunteer workrooms at the postoffice building from 2:00 to 4:30 o'clock and the first lesson will be given by Miss Whiteside Tuesday, February 5. It is hoped that there will be at least ten entries for the class and a number of those who have been assisting with the work and have already become familiar with it in a measure are thinking of taking the course of lessons.

There will be a charge of $3.00 for the series of ten lessons and this money will be used in the purchase of supplies for the classes. This is necessary because the money may not be taken from the regular Red Cross funds. Should any be left over at the close of the course the balance will be used in purchase of supplies for the volunteer workshops which are now being conducted.

Those who successfully complete the course will be entitled to act as "supervisors" at the volunteer workshops in instructing the volunteer workers in making surgical d ressings and they will be entitled to wear the Red Cross headdress, their status being recognized by the Red Cross organization.

It is planned when this series of lessons shall have been completed to extend the activities of the workrooms to every day in the week. There will be one or more supervisor on duty every morning and on at least one evening. At present the rooms are open Tuesdays, Wednesdays and Thursdays only.

Miss Whiteside said that the attendance of workers has fallen off to an average of about twelve or less each session though one afternoon this week there were seventeen present. Before Christmas the numbers were running twenty to twenty-five and she is exceedingly anxious to increase the daily and total attendance again. There is no reason why any woman or girl, who can spare one afternoon or evening a week, should not pledge herself to give this much time to this urgent work. Those attending are simply volunteer workers, able to come or go as they please and not obligated to come regularly though asked to do so. They will be given instruction in making the dressings and all the assistance needed to become expert. It is work anybody can learn.

There are five different dressings being made here but those who take the classes will be required to learn a large number of others so as to be all around experts at this work. As to the urgent need which will continue and increase as long as the war lasts, take this by way of illustration: **For one small article made, only a few inches square, used by the surgeon at his work, it requires one fairly expert worker an entire afternoon to make one package; the surgeon uses up that same quantity in less than five minutes.**

COUNTY ORGANIZED

Red Cross Auxiliaries In Nearly Every Township

Auxiliary evhapters of the American Red Cross have been organized or are in process of organization in Clark county in nine out of the eleven townships of the county outside of Jeffersonville which is served by Jeffersonville Chapter the parent of them all. The others are at Charlestown, Sellersburg, Henryville, Borden; New Washington; Prather; Newmarket; Solon; Bethlehem.

SUIT FILED TO CONSTRUE WILL

Exact Purpose Of Allen Hutsel Not Clear To Executor

Suit to construe a will was filed by Allen A. Hutsel, executor of the estate of Andrew B. Hutsel, against Reed M. Schowe, the Foreign Christian Missionary Society, the American Christian Missionary Society, Bethel Christian church and the New Washington Christian church. Mr. Hutsel deid some time ago in Bethlehem and his wife about the same time. His will provided that Bethel Christian church and the New Washington Christian church should be given $100 each with residue to Reed Schowe, a grandson.

There was another provision that if Mrs. Margaret J. Hutsel survived her husband she was to have control of the estate until her death. There was a codicil tha provided if the grandson should die without heirs the property was to go to the Foreign Christian Missionary Society and the American Christian Missionary Society.

TWO INDICTED ON CHARGE OF MURDER

Seymour, Ind., Jan 10—Curtis Johnson, of Louisville and Randolph Akres of this county were indicted for murder in the first degree Wednesday by a special grand jury. The men were arrested December 29 following a cutting affray at Crothersville, in which Jacob Rucker, 19 years old was fatally slashed with a knife. The men will be arraigned in Circuit Court without delay.

Johnson was arrested in Jeffersonville the night of the killing by Sergt. Summers who took him off an interurban car as he was on his way to Louisville. He denied being implicated.

UNION OF ELKS AND APOLLO CLUB

Reaches Effective Stage; Initiation Planned

The union of Jeffersonville lodge of Elks and the Apollo Club has been practically effected. Applications of many of the members of the latter organization will be acted upon at next meeting and at the first meeting in February there will be a big initiation. It was stated a few days ago by a leading Elk that the membership would be increased about fifty, making it over one hundred. The Apollos have lost a number of members in the service and some are Elke already. The club rooms and lodge hall in the Elks building will be their joint home.

'ONE' ADDED TO ACCOUNT IS ASSERTED

Contractors Got $100 Too Much Through Error, It Is Found

ONE HAS REPAID $50

Suit Ordered Against Werle & Pass For Remainder Of Amount

George W. Stoner, county auditor, received instructions from the State Board of Accounts to notify the prosecuting attorney, Claude McBride, that he should institute a civil proceeding against Peter Werle and William Pass, contractors, to recover $50 balance of an alleged excess payment of $100 made on account of work on the Robertson roads. Fifty dollars of the alleged over payment was recently repaid the county by Pass. The error was found by L. Donaldson, special examiner of the State Board of Accounts, who recently went through the complicated accounts concerning the Robertson roads, Charlestown township, which have been in almost endless litigation. There was an account of $204.58 for extra bridges and culvert work done by Werle & Pass of which $160 was paid, leaving balance of $44.58 and this was raised by the addition of a figure "1" is some manner to read $144.58 it is said, and the latter sum was paid. Werle will be asked to repay the remaining $50 before suit is instituted, Mr. Stoner said. Pass admitted there had evidently been an overpayment made.

* * * *

COUNTY COMMISSIONERS

Proceedings Of Monthly Meeting; Emergency Rate Of Pay For Prisoners' Board

On account of the increased cost of all food supplies the Board of County Commissioners has made an emergency agreement with Sheriff John Dellinger whereby a rate of 20 cents per meal per capita will be paid by the county for board of inmates of the county jail, instead of the 13 1-3 cents provided in the old law. A formal agreement to this effect has been made in which it is set forth that the agreement is "during present abnormal conditions and during the continuance of the present international law." It is set forth that the amount to be paid will only about cover the actual cost of boarding the prisoners.

Action on the Logan Coombs road, Charlestown township, is still waiting on a straightening out of the tangle between he attorneys. A hearing on this matter was to have been held this week but was deferred on account of the sickness of Clay Hughes of Charlestown, who has pneumonia and who was needed as a witness. His son, Harry Hughes, is also down with the malady. Meantime no further steps are being taken concerning the road for which new viewers were recently appointed sweeping aside all the former proceedings which had reached a point where bonds were to be sold. The court practically overthrew the contract awarded Thomas F. O'Neil for building the road.

Joseph Willinger was on Monday elected by the Board of County Commissioners as superintendent of the county infirmary and he will on March 1 succeed Joseph L. Carr in that position. R. E. Kirk Democrat and Marion Martin, Republican, voted for Mr. Willinger who belongs to the former party. William D. Hobbs, Republican, the new member of the board, voted for Ben Finley. The board also, by the vote of the same two members confirmed the previous appointments of Joseph H. Warder as county attorney; Wesley Everhart, courthouse custodian; Claude Allhands, county highway superintendent, and Dr. W. M. Varble, county health commissioier for a term of four years. All these are Democrats and Mr. Hobbs voted for Thomas H. Stradley for county attorney, W. M. Stout for courthouse custodian and Dr. I N. Ruddel, for county health commissioner.

On petition of a number of attorneys the Commissioners agreed to place a wooden floor in the vault of the recorder's office and install electric lights and oil stoves. The auditor was directed to advertise for bids for making a new set of plat books.

Dr. T. J. Marshall, of Charlestown, has been reappointed physician for the county infirmary by the Board of County Commissioners at a salary of $100 per annum. Dr. C. M. Bottorff of Charlestown, offered to do the work for $125.

COMFORTING TO HOME FOLKS

Report Of Our Clean Army Is No Doubt True

The following from a press dispatch from the American Armies in France is important and interesting it is no doubt reliable and will be reassuring to parents and friends of our boys "over there" who have been dissuieted by the alarmist talk of some zealots:—

"We have a clean army" was the eulogy on the American fighting forces pronounced today in a concurrent report of the Catholic and Protestant chaplains attached to the Americans.

"American soldiers in France" the chaplains declared "are in less moral danger than they would be if in service in the United States.

"We have found moral conditions most satisfactory. The military authorities are vigilantly removing temptations. The men themselves are honestly trying—with the result that we have a clean army."

GIVES INSTRUCTIONS FOR COMMITTING BOYS

George A. H. Shideler, superintendent of the Indiana Boys' School at Plainfield, has sent a circular letter to Judge James W. Fortune and Clerk Ernest E. Jacobs setting forth the rules governing the commitment of boys to that institution. For assistance of the parole department is is especially asked hat the names of all relatives on the mother's side be given.

ATHLETIC CLUB FORMED BY UNDERWOOD YOUTHS

With Frank Cook as leader, several Underwood youths have organized a club and rented an old store building and will meet every night and indulge in such sports as wrestling and boxing that will help the boys pass away dull hours and at the same time strengthen the muscles and help make athletes of them. The club is intended to be on the order of the Y. M. C. A.

DIRECTORS RE-ELECTED BY LOAN ASSOCIATION

At the annual meeting of the stockholders of the Mutual Savings & Loan Association held Tuesday night Joseph F. Voigt and H. M. Frank, retiring members of the board, were re-elected directors.

NINETY ARE CLASSIFIED IN DRAFT

Only Twelve In Class One But Proportion Higher Further On

MOST IN CLASS FOUR

Statistics Given By Provost Marshal General For Draft

Notices were mailed Wednesday to ninety more registered men by the Clark County Exemption Board showing their classification under the answers returned to the questionnaires. Of this number seventy-one were placed in Class 4, chiefly on account of having dependents; four in Class 3, and 3 in Class 5. There were none in Class 2 and the remaining twelve were in Class 1. The small relative number of those in Class 1 is due to the fact that the list of names now being worked over is drawn from among the first five hundred on the order list and consequently the bulk of those eligibles for service among this number have already been sent to Camp Zachary Taylor. The following are the twelve placed in Class one:

James Roy Smothers, 1215 Missouri avenue; William Simms, Watson; James West, Seventh and Wall streets; George Bader, 413 Indiana avenue; Bradford Snodgrass, 318 Illinois avenue; Clyde A. Richardson, Sellersburg George A. Antz, 1206 Spring street; Benjamin Hancock, 119 Spring street; Charles E. Marshall, 1020 Locust street; Charles Patrick O'Hern, 219 Indiana avenue; Joseph Clarence Oney, 1612 Main street, Port Fulton; Harry G. Densford, 102 East Park street Port Fulton.

* * * *

Statistics Of Draft

The report of General Crowder provost marshal general, to the secretary for war sets forth the statistics of the operation of the selective draft in Indiana by counties. The following figures are given for Clark county: gross quota 293; enlistment credits, 32; nett quota 251; called for examination 730; failed to appear, 23; accepted physically 573; rejected physically 132; total claim for exemption and discharge 345; claims allowed 270; claims disallowed 75; certified to the district board 307.

Up to this time Clark county is credited with 149 nett sent to Camp Zachary Taylor, a few more having been sent but turned down by the army doctors. The remaining 102 were ready to send several weeks ago.

RECEIVES SCHOOL MONEY FROM STATE AUDTOR

George W. Stoner, county auditor, has receiaed from the auditor of state a warrant for $17,114.76 as Clark county's share of the semi-annual distribution of school revenue. The county paid in $12,973.58 tares but distribution is on a per capia basis.

POLICE BOARD WILL ORGANIZE TONIGHT

The newly appointed Board of Metropolitan Police Commissioners, Willacy J. Schwaninger, Alfred C. Pfau and Elmer M. Frank will meet this morning for the purpose of organizing.

HOW TO REDUCE

High Cost of Living During These War Times—What Every Woman Can Do.

Look over your old clothes. You can never appreciate how much you can brighten and freshen up your wardrobe until you use Dy-O-La Dye.

Take some of your discarded blouses and dresses, dye them with some of the sixteen different colors of Dy-O-La, change the trimmings a bit and you will be astonished at the result.

Dy-O-La is the modern dye made by skilled chemists who have removed all the difficulty from home dyeing in order that you may get perfect results. Old style dyes require a separate dye for each kind of goods. That makes trouble (as you probably know) for if you get a package for the wrong kind of material the goods are spoiled. You can't make such a mistake with Dy-O-La Dye.

Take some garment that you have grown tired of or that you desire to color the fashionable shade of the moment, look over Dy-O-La Dye color chart at your nearest druggist or storekeeper, select the one that pleases, and follow the printed directions. They will look as if they had just come from the dressmaker.

And remember —the colors will be just as fast and durable as they are beautiful. They won't rub off or bleach out.

Buy it of your nearest druggist or storekeeper, but if they have not the color you want we will send it to you on receipt of ten cents and at the same time include direction book and color chart.

Dy-O-La Dye is made in **Black, Blue, Navy Blue, Brown, Seal Brown, Light Green, Dark Green Scarlet, Yellow, Orange, Cardinal Red, Pink, Purple, Dark Wine Old Gold, Turkey Red** and from these sixteen colors a great variety of other shades and colors can be made.

Dy-O-La Dye Company,
700 Sixth Ave., Des Moines, Iowa

NURSE GETS HER REWARD

Left About $10,000 by Man She Took Care Of.

The Society of Ethical Culture of Philadelphia is given $1,000 in cash and Pittsburgh street railway stocks valued at $2,000 by the will of John A. Stevenson, retired lumber dealer of Philadelphia, and member of the Union League, whose will was probated recently.

It gives to his brother, Frank N. Stevenson of Philadelphia $10,000, and his "faithful little nurse," as she is called in the will, Ella A. Wagner of Norristown, is remembered to the extent of nearly $10,000 in cash and stock and ground rent.

Various nephews and nieces and other relatives are given about $2,000 each and the residue of his estate is to be held in trust for the benefit of his daughter, Mrs. Frank J. Alker of Norristown, with whom he lived after he was stricken with paralysis half a dozen or more years ago. The estate is valued at $50,000 and upward."

SAYS FRYING PAN MUST GO

Domestic Science Expert Says This Method of Cooking Food Is Wasteful.

Eugene, Ore.—"The frying pan must go," said Miss Lillian Tingle, head of the household arts department of the University of Oregon, before her class on the conservation of food.

"It is a utensil of the pioneer, who had plenty of food to prepare in the quickest and simplest way. The people of this country always have been wasteful, and unless we reduce materially our consumption of meat we shall face a meat famine.

"French people cook in a casserole, thus saving every bit of the nourishment of the meat. We could well learn from them in this matter."

Shake Into Your Shoes

CHARGES GERMANS CRUCIFY CAPTIVES

Frightful Outrages Perpetrated on the Western Front.

DESCRIBED BY U. S. SOLDIERS

"If All America Could Hear Horrible Tales," Says an American Soldier, "There Would Be Five Million Men Training for War and Loans Would Be Oversubscribed by Billions of Dollars.

Crucifixion of Canadian and Scottish soldiers by Germans on the western front, with wholesale outrages on nuns in captured convents, are given by members of the Eleventh United States Engineer regiment in letters received in this country as the causes of a determination they express to fight to a finish and to give or take no quarter.

"If all of America could hear the horrible tales these refugees tell and see the country about us here," says one letter, "there would be five million American soldiers training for war and war loans would be oversubscribed by billions."

Makes the Blood Boil.

One of the officers of the regiment, in a letter to Robert Ridgeway of the public service commission, wrote:

"The devastated country and villages destroyed by shellfire, I suppose, must be expected. But the thing that makes one boil is the absolutely unnecessary and wanton destruction wrought by the retiring Hun. His usual wonderful and systematic methods have been applied to this destruction. Whole towns that have hardly been touched by shellfire have been completely destroyed by dynamite. We find notches cut in the few standing walls and marked with the size of the charge to be used. Evidently every building had been systematically prepared in that way, long in advance, for blowing up upon retirement.

"So homes, beautiful chateaus, garden walls, little summer houses are all blown up. Shade trees, flowering shrubs are cut down or the bark cut, so the trees will die. Cemeteries have been ransacked; graves and vaults opened; bones thrown about or in heaps on the ground. I have seen the cemeteries, that are awful sights; one body dragged half-way out of the casket; coffins broken open and the bones from several dumped into one. Evidently the boche was looking for jewelry, was simply malicious, or both.

"Those things could not be done without the knowledge and permission of the officers, and the thing is so complete that it looks as though it was all a part of an official program. I never did believe the stories we got in America of the outrages. I have to believe them now, and they are many times worse than the stories that I heard at home. Certain Canadian and Scottish battalions take no prisoners. They give and ask no quarter. The reason is that the Boche has several times crucified the Canadian and Scotch prisoners and held them above the trenches in view of their battalions. In one such case a Canadian battalion went right over the top after the Boches without orders. Very few of them have come back. A British chaplain told me that he knows personally of a Belgian convent where they found that fifty-seven out of eighty-two nuns had been violated when the Boches fell back.

Looks Like Wrathful Spite.

"I cannot understand what the mental operations or processes of the Hun can be. I cannot understand what his object can be. It must be the wrathful spite of a disappointed, degenerate mind. In fairness to our many very fine acquaintances of German birth in America I will say that the German prisoners I have seen appear to be largely a different type from the German in America. They look not of a personally high type. Major —— does not agree with me in this. He says he can see among them the counterpart of every German he ever knew.

"The prisoners will not believe that we are American troops. They say, 'No, it is impossible. Our submarines have stopped all traffic between America and Europe.' That is the way with the German soldier, and I suppose every one in Germany is kept in ignorance of the true situation."

SHOT IN HIS CELL

Man Who Denounced America and Killed Marshal, Himself Killed.

A man who told the police of Malden, Mo., he was L. H. Wissmann of Havana, Ill., was captured in a swamp near there by a posse of several hundred men after he had shot and killed City Marshal R. S. St. Clair when the marshal tried to arrest him for uttering disloyal sentiments. A member of the posse that captured Wissmann shot and probably mortally wounded him in his cell in the jail here after his capture.

Members of the posse say Wissmann was heard to remark a few days ago:

"To —— with the Red Cross, the government and Wilson!"

Maps showing the farms of this part of the country with the names of the owners and a list of their principal products were found in Wissmann's possession.

WOMEN ARE URGED TO TRAIN AS NURSES

Needs of Our Army and Navy Must Be Met to Utmost Extent.

"In the United States today is found a large proportion of the available nursing service of the world. Our allies in this war are looking to us to supplement their nursing service. If the women of America fail to realize their duty at this time the American men who have been called upon to offer their lives for their country may suffer accordingly."

This was a statement recently made by Miss Jane A. Delano, director of the American Red Cross nursing service.

"If this war goes on we shall be compelled to extract aid to the last fraction of trained nursing material available in the United States," said Miss Delano. "The men on the fighting fronts must be nursed back to health. They are relying in large measure upon the American nurses for this service; the nurses must not fail them.

"The problem confronting us is to meet to the utmost extent, with the trained nursing personnel available in the United States, the needs of our army and navy and the armies of our allies, protecting as best we may the welfare of our civilian population.

"Several thousand American nurses are now in France assigned to duty in the various branches of the military service and almost as many more are needed for our own cantonment hospitals. If we are to continue to meet the demands made upon us, the women of the country must be willing to accept equal sacrifices with the men. The public, too, must be willing to sacrifice the service of nurses who are required for military purposes.

"For many years to come, the demand for women trained for nursing, including woman welfare work and health service, will increase tremendously, and to meet this need women of ability and education can do no better than to take seriously the work of training as nurses believing that they are not only qualifying themselves for most important service on the completion of their course, but that even during the period of training they are helping to solve the nursing problems confronting us."

WEST TO SUPPLY NEEDED SULPHUR

Comes From Gases Evolved in Smelting of Zinc.

NO NEW PROCESS NECESSARY

Development of Large Zinc Fields Recently Discovered, Will Insure Supply of Sulphur for Sulphuric Acid That Will More Than Meet the Demands in the United States During the War.

Eastern manufacturers will have to turn to Kansas City and the middle West for their supply of sulphuric acid during the war. Prof. Erasmus Haworth, dean of the Mining school, has made a survey of reports of producers in various portions of the country, and finds that the West will soon be depended upon entirely for the supply of sulphur and sulphuric acid.

The main supply of this acid will come from the zinc district around Baxter Springs, Kan., and Miami, Okla., and in part around the Joplin (Mo.) zinc district. The Joplin district was always known as one of the largest zinc fields in America, but the discovery of the field around Baxter Springs, the extent of which is unknown, makes it the largest in the world. With this field being properly developed the output of zinc will be enormous, and as this zinc is smelted the sulphur can be collected from the gases, making a supply of sulphur for sulphuric acid that will more than meet the demands in the United States during the war.

No New Process Necessary.

At the present time only about 10 per cent of the sulphur is saved at these smelters. To save the entire supply no new process or invention is necessary, as the process has been in use in some places for 35 years. The United Zinc and Chemical company of Kansas is already one of the largest sulphuric acid producers in the Missouri valley. This company uses the ores in the Joplin district. With the eastern concerns closed on account of the high cost of transporting minerals to the East, the western firms will enlarge their smelters and amply supply the entire United States, Professor Haworth points out.

The question of adequate sulphuric acid supply came before the chemists of the country at the recent convention of the American Institute of Mining Engineers in St. Louis. The eastern companies reported that the United States was threatened with a shortage of sulphuric acid, since the supply of pyrite, which had been imported, was cut off. Geologists in the West and South are now asking the eastern chemists and manufacturing companies to turn to the West for the supply. Sulphur is being mined in Louisiana and Texas in vast quantities now as fast as the market will consume it. Near the mouth of the Brazos river, in Texas, sulphur is in high piles awaiting transportation.

POET DECORATED MANY TIMES FOR BRAVERY

Photo From Western Newspaper Union

Gabriel D'Annunzio, eminent poet, author and playwright, has won great distinction as a member of the Italian aviation corps. He has been cited for bravery several times and has frequently inspired the Italian army to greater efforts by his valor. Recently he was given the military cross by King George of Great Britain and a silver medal by the king of Montenegro. D'Annunzio entered the service as a lieutenant, but was promoted rapidly. He lost the sight of one eye in an airplane accident last year.

SPAIN KEEPS ITS OLIVE OIL

Recent Royal Decree Forbids Export of This Product.

A recent royal decree forbids exports from Spain of olive oil, of which large quantities formerly were shipped both directly and via France and Italy to the United States and other foreign markets from Barcelona and Seville. In southern Spain and in Catalonia the olive oil industry has been an important source of revenue to the growers, who exported to foreign refineries, whence the oil was often shipped to the United States as of really non-Spanish production. Recently the direct exports from Spain to the United States have increased considerably.

Do you get up at night? Sanol is surely the best for all kidney or bladder troubles. Sanol gives relief in 24 hours from all backache and bladder troubles. Sanol is a guaranteed remedy. 35c and $1.00 a bottle at the drug store. The Sanol Chemical Company, St. Louis, Mo. daily tf

TOBACCO "NECESSARY"

Lord Rhondda, British Food Controller, Says It Is Not a Luxury.

Tobacco is a necessity not a luxury declares Lord Rhondda, the food controller, in a statement published here. "We must have tobacco," he says. "I believe that its loss would be a national misfortune. It means much both to the manual laborer and to him who works with his brains. Men would eat a great deal more if they did not have tobacco. I hold that the deprivation of it would work great discomfort."

Some system of "rationing" tobacco, however, is forecast by the newspapers.

When you have Backache the liver or kidneys are sure to be out of gear. Try Sanol it does wonders for the liver, kidneys and bladder. A trial 35c bottle of Sanol will convince you. Get it at the drug store. Sanol Chemical Co.,

Society In Jeffersonville

Mothers' Association

The regular meeting of The Mothers' Association of the Departmental School will be hled at the Pearl street building Friday afternoon at 2 o'clock.

H. A. Stevens, County Agricultural Agent, will talk on some vital topics concerning the schools.

Entertained By Mrs. Gienger

Mrs. John Gienger on Wednesday evening entertained the teachers of St. Luke's Sunday School at her home on East Court avenue. This is an annual custom with Mrs. Gienger who is superintendent of the primary department. Members of the choir were also her guests. The report of the schoool showed 200 scholars enrolled. After the business there was a social session and a lunch was erved. A reception is being planned for early in February in honor of the Rev. D. A. Winter who will assume charge as pastor January 20.

Entertained Stag Party

Mr. Jack Lynn entertained a stag party at the Lynn residence the following being present:

Messrs. Harry Gaither, Jack Lynn, Patrick Lynn, Frank Lynn Will Davis, Arthur Carroll, Louis Schifler, Denny Canter, William Shegog.

The most attractive event of the evening was the musical Zass Band by Messrs. Roy Gaither and Morris Weinstein.

Dinner For Col. Wood

Col. Wintrop S. Wood will be guest of honor at a banquet given by the business men of the city tonight at 7 o'clock at Pfau's hall, which will be served by Seelbach, of Louisville.

Personals

The Young Woman's Social Circle of the First Christian church met in regular session Wednesday afternoon in the church parlors. No special business except the election of officers was transacted. Several things were launched but nothing definite decided on. The officers elected for the ensuing year are Mrs. Edward Kehoe, president; Mrs. Homer Hawes, first vice president; Mrs. Albert Eich, second vice president; Miss Margaret Jones, secretary and Mrs. Ray McKinney, treasurer.

Mayor Newton H. Myers was guest of honor Thursday evening when a number of officers of the Quartermasters depot entertained with a chicken dinner at the home of Mrs. George Dix at the Pines on the Plank road.

Miss Elinor Berry of Louisville formerly of this city is the guest of her aunt Mrs. R. W. Nelson and Col. Nelson at Newport, Ky.

Mrs. John Nagel was hostess Wednesday afternoon to her 500 club at her home on West Market street when those present were Mesdames John Cole, David Crandall, Patrick Haley, William Rapp, Kate Cisco; Irvin Gibbs; Robert Henry and Frank Nagel. During the afternoon a Dutch lunch was enjoyed.

Mrs. William Prinz of North Spring street is able to be out after an attack of pleurisy.

John McKnight of St. Louis who came here to attend the bedside of his brother James A. McKnight when he was operated on for appendicitis returned to his home Tuesday night. Mr. McKnight is making rapid progress at Norton Infirmary and expects to be brought to his home in the Marblehead apartment Saturday or Sunday.

Irvin Gibbs has gone to Dayton Ohio, where he has accepted a position.

The Young Ladies' Guild of the Presbyterian Church meets [illegible] afternoon in the church [illegible]

[illegible] Peyton will entertain [illegible] of the Blue [illegible] afternoon at her home the residence of the superintendent of the Reformatory.

Mr. and Mrs. Paul Lutz and little daughter Pauline Frances who have been the guests for the past week of Mrs. W. C. Davis on Wall street have returned to their home in Charlestown, Ind.

Jerry Dalton, a prizefighter, whose home is in Port Fulton has enlisted in the National Army and is stationed at Fort Thomas, Ky.

Mrs. Hettie Jamison of East Chestnut street, is breaking up housekeeping and will locate at Memphis, Tenn., where her son son Erso Jamison has a position as traveling salesman.

Mrs. Rudolph Deibel will be hostess Friday afternoon at her home on East Maple street to her sewing club.

Mrs. John Rauschenberger of West Front street who has been ill for several months is now able to sit up.

Mrs. Irene Burtt Wylie of New York City daughter of Mr. and Mrs. Henry Burtt of this city was operated on Thursday of last week at Roosevelt Hospital for appendicitis. She stood the operation remarkably well and is reported as doing fine. The day Mrs. Wyle was operated on was doubly sad for her husband Mr. Wylie, his mother's death occuring on the same da. She made her home with her son and daughter-in-law; her funeral took place last Monday with interment at Tarrytown on the Hudson. Mr. and Mrs. Wylie moved to New York recently from Bloomington Ind. The many friends of Mrs. Wyle in this city will be glad to know that her complete recovery is anticipated.

Sergeant Joseph Vollmer who has been the guest of relatives at Princeton, Ind., stopped in this city to see his friends on his return to Camp Shelby, Hattiesburg.

Mrs. William Levengood received a letter from her son Clarence Levengood from somewhere on the coast of England. He is with the United States Navy and left New York six weeks ago on his ship the U. S. Wyoming. Mrs. Levengood has another son Eugene who is also in the Navy and is on the U. S. Texas, whom she is expecting home some time this month on furlough.

The Ladies' Aid Society of the Presbyterian church have deferred their all day meeting and are holding a half day session this afternoon in the church parlors.

Mrs. Aurella Becker, of Louisville, daughter of Capt and Mrs. J. H. Drosta of this city, leaves today for Pine Bluff, Ark., to join her husband, Herman Becker who has been there two months He has been staying with the Rev. and Mrs. W. C. Wood the latter a sister of Mrs. Becker, but upon the arrival of his wife and household effects they will go to housekeeping there.

The ladies of the F. F. S. Club held their weekly meeting at the home of Mrs. John McDaniel on East Chestnut street. They also elected officers for the coming year. Mrs. John McDaniels, president; Mrs. John Walker, secretary and treasurer; Mrs. J. A. McLean, chaperone. Refreshments were served.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher.

In Use For Over 30 Years

THE CENTAUR COMPANY, NEW YORK CITY.

Jane Elizabeth, little daughter of Mr. and Mrs. Frank Nagel on Indiana avenue is recovering from an attack of lagrippe.

Miss Helen Payne entertained a few friends at her home in Howard Park in honor of Mr. Frank Peel, prior to his departure for Camp Shelby, Hattiesburg, Miss., where he is with the Kentucky Field Hospital Corps, No. 1, for which place he departed last night.

$500 LIBERTY BOND AS TIP

Hotel Employee Gets Nice Present From Old Patron of the Establishment.

Kansas City, Mo.—Ten years ago Joseph Bartles of Bartlesville, often stopped at the Baltimore hotel while on business in this city. Among the youths who served him was Alvin J. Hawkins, a page, who took a liking to the Oklahoma man.

As the years went by Bartles continued to stop at the hotel, and Hawkins, now promoted, continued to look after his every whim. He was always alert in making the Oklahoma man's stay enjoyable.

Now Hawkins is superintendent of service at the hotel. The other day Bartles called and found his old friend on the job.

"I want to give you a little tip," Bartles told Hawkins, as he placed a folded paper in his hand.

When the hotel man opened the paper he found a $500 Liberty bond.

MEXICANS ARE NOT DRAFTED

President Carranza Denies Reports That His Countrymen Are Being Molested by Americans.

Mexico City.—In reply to lower house, which sought information regarding the statement that Mexicans are being drafted and enrolled in the American army, President Carranza said that there was no truth in the report that Mexicans are being molested or unlawfully enlisted in the American army, which was being organized on account of American participation in the war.

He explained that the draft law required all foreigners, including Mexicans, to register and undergo medical examination; that those not American citizens or unfit for service were exempted and that the ministry of foreign relations has been doing its full duty toward Mexicans residing in the United States.

Perhaps It Was Necessary.

Scene—City Restaurant.—Two elderly ladies with adopted child take their place at the table. Order, according to menu, served. First lady (to Child)—"Now, Minnie, dear, remember your blessing." Second lady—"Yes, say your grace, dear. Always do that when away from home as well as at home." Child (looking most obedient)—"Lord have mercy upon this food." Waiter runs.

Perfecting Fireproof Paper.

Documents written on paper made from asbestos fiber, with inks prepared from the nitrates of iron and cobalt, have withstood a red heat for two hours without being damaged in any way. No damage resulted until the intensity of the heat was increased considerably and the document was exposed in it for ten hours. It is expected that further experimentation and study will result in the perfection of a paper and ink practically indestructible by fire.

After such splendid results with "Seventy-seven" send for a free copy of Dr. Humphreys' Manual of all diseases and dip into its wealth of information on domestic practice, describing in simple language the maladies proper for a layman to treat. Humphreys' Homeo. Medicine Co., 156 William Street, New York.

Worry Greatest Slave Master.

The moment I fret about a thing I am its slave instead of its master. And there is no slave master in the world like worry. Another master may grudge the sleeping hour, but he must give you time for sleep. Another master may grudge the dinner hour, but sometime you must eat. But worry will work you 24 hours a day and spoil your appetite in the bargain.—Mark Guy Pearse.

Little of Both.

"What is that dog—a pointer or a setter?" "He's a pointer when there's a beefsteak near, and a setter when we're out looking for game."—Life.

Miss Edith Wood who has been in Indianapolis for an extended visit has returned to her home in this city.

Eighth of Hebrew Prophets.

Habakkuk was eighth in order of the minor Hebrew prophets. The strophical arrangement of the denunciation of the Chaldeans is a remarkable feature of his prophecy. The whole concludes with a magnificent psalm in chapter 3, a composition that has been considered unrivaled for boldness of conception, sublimity of thought and majesty of diction.

CONVALESCENCE

Convalescence is something merely apparent, not real, and especially is this true after such diseases as pneumonia, typhoid fever and the grip. To make it real and rapid, there is no other tonic so highly to be recommended as Hood's Sarsaparilla.

This great medicine cleanses and renews the blood, strengthens all the organs and functions, and restores health. Take Hood's.

SAVING MONEY

Everytime thrift or saving money is mentioned some people get the idea that it means cutting down expenses to the very lowest notch to save every possible cent, at the expense of self-respect, comfort and health.

Not for an instant should you think it means anything like that.

Thrift means the elimination of **UNNECESSARY WASTE** — in food cothing, pleasure, business and everything that makes you spend more than is necessary for your convenience, comfort and happiness.

What you can save and put away for future emergencies or opportunities is deposited to advantage in a savings Account.

FAMILY OF INTERNED MAN

Appeal For Help; Carl Horst Was Taken To Indianapolis

The wife of Carl Horst, left in Jeffersonville with her three young children when her husband was recently taken to Indianapolis by United States Marshal Mark Storen to be interned as an alien enemy, appealed to James N. Masters, chief of police, stating that she had exhausted the small sum of money Horst had left her—all he had—and that she had no means of supporting the children. The case was reported to Fielding L. Wilson, assistant to Charles White, township trustee, who took steps to give her assistance.

Horst had a vulcanizing plant here for automobile tires. He was taken away for talking in a manner antagonistic to the interests of the country especially on the charge of advising young men to evade the operation of the selective draft law.

A WAR PRAYER

By James Waterman Wise of the Vigilantes.

Father, we beseech thee
Guard our boys tonight.
Keep, we pray, their footsteps
On the paths of right.

We have sent them gladly,
For the fight is just,
Yea, their cause is holy,
Glorious their trust.

Hold their fates, O Father,
In thy wondrous hand,
Bring them back, if may be,
Back to grace our land.

For we loved them dearly
But our path was clear;
Honor bade us send them,
Father, be thou near!

But if they must leave us,
If it be thy will,
Father, we implore thee,
Guide and guard them still.

PUTS OFF THE UNPATRIOTIC

Jitney Driver Will Not Take Fare From Persons Who Talk Against America.

Nashville, Mich.—German sympathizers would sure have a hard time getting about the country if all common carriers adopted the rule that Roy Wolfe has put into effect on his jitney bus.

If he hears any one voicing opposition to America while riding with him, off he or she goes, to walk the rest of the journey. He has only one arm, the other being taken off at the shoulder, but he put off two men the other day and offered to lick them both in the bargain.

Wolfe runs a jitney from here to Coldwater by way of Battle Creek and Union City, and though that is the way he makes his living he has the grit to refuse fares from unpatriotic people.

CANDY WITHOUT SUGAR

Copyright Underwood & Underwood

Mary Elizabeth Evans, has solved the problem of making the candies without using large quantities of sugar which is so scarce, by the substitution of honey, molasses, maple sugar, fruits, nuts, raisins and chocolate.

Miss Evans recently visited Mr. Hoover, federal food administrator, his assistant, Doctor Wilbur and Assistant Secretary of Agriculture, Doctor Taylor and two important facts have been the result. One is that the human being needs sweets, and that they can be made just as tasty with the use of the substitutes mentioned above.

Caught Tame Golden Eagle

Aurora, Ind.—John L. Lube, a Clay township farmer, caught a large golden eagle in a steel trap that he had set on his farm to catch chicken hawks that had been raiding his chicken flock. The eagle evidently had escaped from some show, as it appeared to be very tame and permitted Mr. Lube to dress its injured leg after he had removed the bird from the trap and placed it in a large cage. Mr. Lube has presented the eagle to the Zoological Garden at Cincinnati.

CHAMBER OF COMMERCE

Meeting Called For Tonight At Headquarters

A meeting of the Jeffersonville Chamber of Commerce has been called for tonight—Friday—at 7:30 at Chamber of Commerce headquarters.

All members should attend this meeting to consider matters of importance to the city's welfare.

OUR FINANCIAL STRENGTH

Two billion dollars is a tremendous sum of money. Yet the American people have loaned their Government that much and have barely touched their resources. The money was raised so easily it only seemed to show the tremendous financial strength of the country.

It is not one-tenth of our bank deposits. It is less than one-eighth of our bank loans for one year. It was less than one-half of our national savings for 1916 and only five per cent of our national income for that year according to estimates.

SNOW AND ICE POOR COMBINATION

Traffic Delayed In Country By Conditions

The new fall of two inches of snow on top of the half melted and then rozen snow that preceded, has made the country roads worse than they have been this season and the rural mail carriers are having great trouble in making their rounds. Few teams are out in the country and the roads are deserted of all traffic except what is absolutely necessary. In the city the conditions are bad enough but they are far worse in many places outside.

Interurban and steam traffic were continually delayed this morning. Cars from New Albany were laid out and persons coming from the McCulloch neighborhood waited an hour and a half for a car this morning.

FIFTY-SIX MORE MEN CLASSIFIED

Fourteen Of This Number Placed In Class One

One in four of the men on another list of names of those notified of their classification upon their answers filed to questionnaires have been placed in Class One and are thereore first eligible to military service under the selective draft system. Most of these have already been exempted on the previous call on account of physical causes. The list contains fifty-six names and of these thirty-nine were placed in Class Four on account of dependents, two in Class Three and one in Class Five. The fourteen placed in Class One follow:

Edward Bunnell, 611 Lee street Clarksville; Edward B. Bottoqff Charlestown; Burton Carter, 1312 Meigs avenue city; Grant L. Creamer, Sellersburg; David A. Doyle, R. F. D. No. 1, Marysville; Frank L. Lackey, New Washington; Amos H. Burtt, 401 East Front street city; William Goedeker, Borden; Charles W. White, 816 Miller avenue, Clarksville; Oma E. Johnson Nabb; Joseph E. Kenney 803 Watt street city; Sylvester Kellis 1020 East Chestnut street, city; Walter Kilty, Charlestown; Charles H. Krantz 107 Beckett street Ohio Falls.

NOT ALLOWED TO VISIT MOTHER

Is Allegation In Divorce Suit; Suit On Account Also Filed

Elsie McCray, Jeffersonville, has sued Lonuie McCray, a nonresident of the state, in the Clerk Circuit court for divorce alleging they were married March 25, 1915, and separated August 15, 19177 and charging failure to provide, cruel treatment and that among other things defendant refused to permit plaintiff to visit her mother or other relatives.

James W. Carter filed suit against Sam Stone demanding judgment for $75 on account of note for $43.10 alleged executed January 20, 1916, and also judgment for $60.22 alleged due on account for merchandise supplied between January 26, 1916 and May 15 1917.

AUTHORITY TO ISSUE BONDS

United Gas & Electric Co. Files Petition; Hearing January 23

The United Gas & Electric Company has petitioned the Public Service Commission for authority to issue $300,000 of six per cent general mortgage thirty-year gold bonds at not less than eighty-five per cent of par and accrued interest for the purpose of refunding floating indebtedness of the company.

The Commission has set January 23 at 10 a. m. for hearing the petition.

An exhibit filed with the petition shows total assets of the company $3,143,084.68 and the liabilities include $1,000,000 capital; $1,428,000 in mortgage indebtedness and $408,742.15 surplus.

MUTUAL LOAN HAS RE-ELECTED OFFICERS

The directors of the Mutual Savings and Loan Association met Thursday evening and reelected the following officers: Allen A. Swartz, president; Thomas J. Lindley, vice president; Joseph F. Voigt, secretary; James V. Biggert, treasurer; Henry F. Dilger, attorney.

The directors declared the usual semi-annual dividend of three per cent.

GOODBYE COL WOOD WAS CRY

Company Of Business And Professional Men Give Banquet

GIVE HIM SEND-OFF

Col. Hart, His Successor, Is Welcomed At Same Social Affair

Col. W. S. Wood, who departs Sunday for Washington, will carry with him a most pleasant memory of the entertainment given for him Thursday night at Pfau's hall by a number of business and professional men of Jeffersonville. Nothing could have been made clearer than the manner in which his resideance in Jeffersonville and his attitude towards the city are appreciated and nothing could have been more certainly shown than the regret felt at his departure.

Covers were laid for eighty men at the banquet table in Pfau's hall and the company sat down at 7:30. Before eating and speeches were over it was ten o'clock and it was half an hour later before the last of the company had drifted away. The banquet was preceded by a get-acquainted period of half an hour in the offices of Dr. C. F. C. Hancock on the floor below and a feeling of genuine good fellowsrip and warmth was generated before the company proceeded to the banqueting hall.

An elegant dinner was spread but though it was generous it conformed closely to the Hoover rules in conservation of those kinds of food of which there is shortage and the most need for restraint. Only water was served to drink, except coffee at the close and this was of course in conformity with conditions as they affect army men at this time. Col. Wood's health was drunk as the closing feature of the banquet by the company standing, pare water being the beverage in which he was toasted.

Besides Col. Wood the guests of the assembly included a number of other officers from the depot among whom was Col. W. H. Hart, successor to Col. Wood, Capt Paul M. Millikin, Capt. Marshall T. Levey, Capt. David J. Beem, Capt. Harry H. Cheal, Capt. Albert F. Volgenau, Capt. James L. Glascock, Capt. James V. Biggert and Capt. Lyman L. Simms were among the other officers present. The list of the other guests would include representatives of every business, industry and profesion in Jeffersonville and was representative of the city's most prominent men of affairs.

Towards the close of the repast Judge Fortune who had Col. Wood upon his left and Col. Hart upon his right rose and made the introductory remarks, expressing the purpose of the gathering and the goodwill to Col. Wood which it was intended to convey. Col. Wood spoke briefly in reply. Though he is going away he will still be one of us, he says, and his speech which was very short, manifested the regard he has grown to entrain for this city. There followed many other speakers all of whom were interesting every one of whom was brief, most of whom were witty and in the aggregate they expressed much of the good feeling mingled with regret which was the feeling of those present. Those who spoke were Mayor Newton H. Myers, Capt. James V. Biggert, Charles T. Hertzsch, Major David C. Peyton, M. Z. Stannard, Capt. Paul M. Millikin, Wilmer T. Fox, Capt. Albert F. Volbenau, James E. Taggart, Capt. James L. Glascock and finally Col. Hart. It should be added that Col. Hart made a most favorable impression on all.

Music was rendered during the evening in most charming style by that accomplished harpist, Mrs. James Clark of New Albany, formerly Miss Margaret Rowe. The crowd stood when she passed near the close into the strains of the National Anthem. The hall was decorated only with large American flags which were adequate and appropriate to the occasion. Small American and Alllied flags were favors.

After the gathering had broken up Col. Wood held an informal reception. All present passed around to shake his hand and wish him God Speed. Col. Wood remarked that the spontaneous manifestation of goodwill had ben almost too much for him and that he had not been able to trust himself to speak at any length. The regard of his officers for their chief was especially interesaing to notice.

Goodbye Colonel. We are sorry you are going but we are mighty glad you came and we know that Jeffersonville is today better and will tomorrow be better still for your coming. God bless you in your work for your counry at Washington, and, say, don't forget us, Colonel when you get busy at the capital. Goodbye; or, as the French say, and we like to think, "Au Revoir."

OLD RESIDENT DIES IN ARIZONA

Pleasant James Was Brother Of Mrs. Dan Austin

Mrs. Daniel Austin, 312 Walnut street, has received word of the death of her brother, Pleasant James, age eighty-one at the home of his daughter Mrs. Earl James Chloride, Ariz., and the body was taken to Los Angeles, Cal. for burial. Mr. James was born March 4, 1836, and was a son of Dr. Beverly James. He resided much of his life in this county and was once clerk of the Clark Circuit court. Later he located in the west and amassed considerable wealth, owning property at Santa Monia and Venice, Cal., and serving as town clerk at the latter place. Two daughters and a son survive: Mrs. Inez Hedenburg, Pasadena, Cal., and Mrs. Curtis Welch and Warren H. James in Alaska. Mrs. Lydia Chamberlain of Council Bluffs, Ia., who frequently visits here, is another sister.

SCOTTSBURG MEN IN FEDERAL COURT

William H. Everett of Scottsburg was arraigned before Judge A. B. Anderson in federal court at Indianapolis to answer an indictment for shipping quail out of the state for which he was fined also a couple of years ago following the seizure of a quantity of the game in Louisville where it was sold by auction afterwards. He pleaded not guilty to the charge. The Scottsburg Canning Company was fined $100 for violating the pure food law and Joseph S. Morgan one of the owners of the Austin Canning Company also in Scott county was fined a like sum on a similar charge.

RAILROAD PATROLMEN ARE DEPUTY SHERIFFS

Capt. John R. Nutter and Patrolman Maurice McBride of the Pennsylvania railroad police, were yesterday appointed as deputy sheriffs for one year by Sheriff John Dellinger.

QUESTION OF MAIN MARKET HIGHWAY

Important Meeting At Court House To Be Held On Saturday

TO ACT ON MATTER

Joint Meeting Of Commissioners And County Council

A joint meeting of the boards of County Commissioners and County Council will be held at the courthouse Saturday morning to consider the question of making an appropriation of $42,000 for the county's share of paying for that part of the proposed main market highway to pass through Clark county. It is hoped that many citizens will attend to give their views on the advisability or otherwise of the move.

The highway is to run from the north to the south of the state. It is designed to come south through Henryville to Sellersburg and Hamburg and thence direct to New Albany, instead of to Jeffersonville. This gives the county sixteen miles of road but prevents Jeffersonville township—paying half the cost assessed against the county—from getting any direct or immediate benefit.

If Clark county refuses, a new route must be chosen, perhaps through Salem, which will give all of Clark county—and the city no less—the entire go-by.

The entire ultimate cost to the county will be about $160,000 by the time the road is finished, the state giving an equal amount. The cost would be distributed over a number of years by means of a bond issue. After the road shall be built it will be entirely maintained by the state. The road will be of brick or concrete and sixteen feet wide.

The petition ought to be amended to bring the road to Jeffersonville as well as New Albany, or instead of the latter. If not so there is a difficult question whether he money should be spent with a view to having the road there for future developments or whether it should be entirely passed up.

In the next ten years motor transport will enormously increase. Within the next ten years there will be a wagon bridge over the Ohio river here which will be superior to the New Albany bridge and the question is whether this future does not justify the effort to get a least part of this main market highway now when there is a chance.

CIVIL SERVICE EXAMINATIONS

civil service examination has been announced to be held here February 2 for the office of timekeeper at $1,200 per anum and assistant timekeeper at $1,000 per annum to fill a number of vacancies at the quartermaster's depot.

Notice is given by the Civil Service Commission of a non-educational examination, entries for which must be filed not later than February 9, to fill thirty vacancies as steamfitters at the quarermaster's depot in Jeffersonville at $90 a month. Recently notice of examination for seven vacancies as steamfitters' helpers at $75, was given.

WILL REBUILD DEPAUW CHURCH

Will Cost $25,000 To Replace Building Burned At New Albany

DePauw Memorial Methodist Episcopal church which was destroyed by fire in New Albany three weeks ago will be rebuilt on a more extensive scale. This was announced yesterday as result of a meeting Wednesday night of the Official Board when a Building Committee was named to act in conjunction with the Board of Trustees.

Work on the new building which will occupy the site of the one destroyed by fire at the south west corner of Vincennes and Beeler streets, will be started as early in the spring as the weather will permit. The estimated cost of the structure is $20,000. It was stated that in addition to the insurance of $5,000 which has been paid, an additional $5000 already has been subscribed to the building fund.

DEBATE GIVEN AT DEPARTMENTAL

Teachers Act As Judges; Decision Given In Favor Of Affirmative

The Departmental School had a debate for their general assembly exercises this morning.

The subject was "Resolved that the Women of the United States should be granted equal Suffrage with Men."

The affirmative was represented by Mary Inez Hertzsch and Anna Jacobs. The negative was represented by Frances Rager and William Whiteside.

All the teachers at the building acted as judges except Mr. Potter and Miss Pangburn. Mr. Potter had acted as coach for the boys and Miss Pangburn as coach for the girls.

The judges gave their decision on delivery, language used, and points given. They decided four to one in favor of the affirmative.

BIGAMY ALLEGED IN DIVORCE SUIT

Hubert Carey Sues Wife Who Married Second Husband Here

Hubert Carey sued in the Louisville courts for divorce from Margaret Carey, filing with his petition a certified copy of the findings of the Clark County, Indiana, Juvenile Court of July 27, 1917, adjudging the defendant guilty of bigamy. They were married December 2, 1916, and the pleadings and findings of the Indiana Court show that the defendant afterward entered into a pretended marriage with Harry Henderson, July 4, 1917.

NEW POLICE BOARD MET AND ORGANIZED

The Board of Metropolitan Police Commissioners, consisting of Willacy J. Schwaninger, Alfred C. Pfau and Elmer M. Frank organized Thursday afternoon by electing Schwaninger president. James N. Masters was appointed chief of police and acts as secretary of the board. Robert F. Gleason was named sergeant and Ellsworth W. Summers and William Dolan were appointed patrolmen. These were already serving. There remain two vacancies to be filled.

ORDER OF SALE IN SCOTT COUNTY CASE

An order of sale was asked in the office of Ernest E. Jacobs, clerk of the Clark Circuit court, against the defendants in the suit of Arthur B. McClinick and others against Thomas J. Everett and others on account of judgment for $1,466.65 rendered in the Clark Circuit court in suit on note. The paper will be sent to Scott county for service.

WHAT USE OF RIVER IF IMPROVED?

Congress Chairman On Rivers Committee Wishes To Be Informed

WRITES TO MAYORS

Wants Provision To Utiliez River Transportation To Full

Washington, Jan. 11—Representative Small, of North Carolina, chairman of the Committee on Rivers and Harbors, sent letters today to the Mayors of Louisville and other Ohio river cities inquiring what provisions those cities and others are making for the utilization of the Ohio River when the work of improvement shall be completed.

"If the cities and towns and territories contiguous to this river do not intend to utilize it fully Congress will not be justified in continuing the large onnual appropriations necessary for the completion of the project," said Representative Small. "Among the essential conditions for the maintenance of transportation by water are the establishment of lines of transportation with an adequate number of boats and also the construction of terminals at all the cities, towns and important landings adequate and suitable to local demands."

Mr. Small and other members of his committee pointed out that their recommendations for the further canalization of the river will be governed largely by the information they expect to receive from Louisville and other cities in the Ohio valley.

NOTICE TO BIDDERS

NOTICE IS HEREBY GIVEN, that the Board of Commissioners of Clark County, Indiana, will receive sealed Bids up to 10 o'clock a. m.

Monday, February 4th 1918 at the County Auditor's Office, in Jeffersonville, Indiana for recopying Two (2) Old Plat Books in the Recorder's Office, on Stationery furnished by the County. Said Bidders must acquaint themselves by examining the Plat Books.

All Bids must be accompanied with good and sufficient Bond for double the amount of the Bid.

Bonds to be approved by the Board of Commissioners. Each Bdi must be accompanied by an affidavit of Non-collusion as by Law set out. All Bidders must be competent to do said work.

HOW TO REDUCE

High Cost of Living During These War Times—What Every Woman Can Do.

Look over your old clothes. You can never appreciate how much you can brighten and freshen up your wardrobe until you use Dy-O-La Dye.

Take some of your discarded blouses and dresses, dye them with some of the sixteen different colors of Dy-O-La, change the trimmings a bit and you will be astonished at the result.

Dy-O-La is the modern dye made by skilled chemists who have removed all the difficulty from home dyeing in order that you may get perfect results. Old style dyes require a separate dye for each kind of goods. That makes trouble (as you probably know) for if you get a package for the wrong kind of material the goods are spoiled. You can't make such a mistake with Dy-O-La Dye.

Take some garment that you have grown tired of or that you desire to color the fashionable shade of the moment, look over Dy-O-La Dye color chart at your nearest druggist or storekeeper, select the one that pleases, and follow the printed directions. They will look as if they had just come from the dressmaker.

And remember —the colors will be just as fast and durable as they are beautiful. They won't rub off or bleach out.

Buy it of your nearest druggist or storekeeper, but if they have not the color you want we will send it to you on receipt of ten cents and at the same time include direction book and color chart.

Dy-O-La Dye is made in **Black, Blue, Navy Blue, Brown, Seal Brown, Light Green, Dark Green Scarlet, Yellow, Orange, Cardinal Red, Pink, Purple, Dark Wine Old Gold, Turkey Red** and from these sixteen colors a great variety of other shades and colors can be made.

Dy-O-La Dye Company,
700 Sixth Ave., Des Moines, Iowa

NURSE GETS HER REWARD

Left About $10,000 by Man She Took Care Of.

The Society of Ethical Culture of Philadelphia is given $1,000 in cash and Pittsburgh street railway stocks valued at $2,000 by the will of John A. Stevenson, retired lumber dealer of Philadelphia, and member of the Union League, whose will was probated recently.

It gives to his brother, Frank N. Stevenson of Philadelphia $10,000, and his "faithful little nurse," as she is called in the will, Ella A. Wagner of Norristown, is remembered to the extent of nearly $10,000 in cash and stock and ground rent.

Various nephews and nieces and other relatives are given about $2,000 each and the residue of his estate is to be held in trust for the benefit of his daughter, Mrs. Frank J. Alker of Norristown, with whom he lived after he was stricken with paralysis half a dozen or more years ago. The estate is valued at $50,000 and upward."

SAYS FRYING PAN MUST GO

Domestic Science Expert Says This Method of Cooking Food Is Wasteful.

Eugene, Ore.—"The frying pan must go," said Miss Lillian Tingle, head of the household arts department of the University of Oregon, before her class on the conservation of food.

"It is a utensil of the pioneer, who had plenty of food to prepare in the quickest and simplest way. The people of this country always have been wasteful, and unless we reduce materially our consumption of meat we shall face a meat famine.

"French people cook in a casserole, thus saving every bit of the nourishment of the meat. We could well learn from them in this matter."

13 MILLION MEN IS COST OF WAR

Figures Stupendous Beyond Power of Human Mind to Compass.

MOST OF THEM ARE KILLED

Big Price Being Paid for the World's Future Security — Money Cost Nearly $175,000,000 a Day—Capital Cut Down.

By **FREDERIC J. HASKIN.**
(Correspondent of the Chicago News.)

Washington, D. C.—The figures relating to the cost of this war are stupendous beyond the power of the human mind to compass.

The number of men killed in battle has been between 7,500,000 and 8,000,000. Offsetting the number of deaths which would have occurred in times of peace, it is safe to set the war loss at more than 7,000,000 men. This is about one man in twenty for each year of the whole number mobilized.

The figures are large, but they are based on the greatest armies the world has ever seen. Moreover, the death rate has been falling steadily throughout the war, as methods more economical of human life are adopted and hospital efficiency increases. The well-prepared nations lose least. Russia has suffered casualties disproportionately large because in the first year of the war her troops were sent to the front poorly supported by artillery and sometimes literally unarmed. On the western front the French losses were heaviest for the first two years, but as England takes over the bulk of the fighting her casualties increase and those of France fall off.

Total of 5,250,000 Disabled.

In addition to the dead, the permanently disabled total about 5,250,000 men. Thus the net loss in men amounts to about 13,000,000. There have probably been about 10,000,000 men less seriously wounded in such a way that they have either been returned to the front or able to pursue some useful occupation in civil life.

Some realization of the meaning of these totals may be gleaned from the reflection that the dead and the totally disabled equal more than half the able-bodied men in the United States.

The money cost is a vastly more confusing problem. The total is beyond all comparison with any national debts, loans or expenditures of the past. At the beginning of the war the cost of $30,000,000 a day. It was predicted Europe could not stand it for six months. Now, well along in the fourth year, the cost is nearly $175,000,000 a day and there are no signs of a financial breakdown.

It has become increasingly evident that lack of "money" will never make any nation surrender. As long as sufficient economic resources actually exist in the shape of men and munitions, food and beasts and iron and steel, so long can the nation in question continue to make war. In looking for a German breakdown the eye should turn not toward the absurdly depreciated German mark, but toward what Germany has left in men and food and steel.

Its Future Mortgaged.

This is because a nation can mortgage its future like a man who enters a shop with empty pockets and pays for goods with signed notes pledging the labor of his children. The world's debt since the war has increased by $90,000,000,000. The total cost has exceeded this figure by at least $15,000,000,000, the difference representing the amount levied in taxes in excess of the interest requirements.

It is easy to see that if all the interest is paid to people living in the United States, and the principal at the end of the term also paid to residents in the United States, the United [illegible] dially for having borrowed [illegible]000 than if it had never borrowed a cent. Such enormous loans will probably effect a redistribution of wealth, for the interest charges will be met by taxation, and provision made for a sinking fund in the same way. By redistributing this taxation wisely and equitably, the end of the period that the Liberty bonds have to run may well see a more efficient balance of wealth than the present.

As in reckoning war strength, the basic realities of the problem are economic rather than financial. Such part of the great war loans as is invested in convertible factories, in increase of food production and similar real assets, cannot be regarded as lost. On the other hand, the dollars that are spent for shells which explode and ships that sink are lost in fact.

World's Capital Cut Down.

Moreover, the cost in dollars is no measure of the real economic cost of the war, because it takes no account of the enormous destruction of property that has taken place. This represents a cutting into the capital of the world. The sinking of millions of tons of shipping, the destruction of cities, the ravaging of farm lands, the deterioration of industrial equipment in the last three years, are only a few of the items that must be charged to this account. One huge item is the labor of 55,000,000 men who have been taken completely from productive occupations. Even reckoning their value to industry at the moderate sum of $1 a day, in four years of war the industrial loss mounts up to $75,000,000,000.

There is no disposition on the part of the allies to begrudge the expenditure. It is the highest price that has ever been paid in history for anything but the thing purchased is security for the application of these same forces to peaceful aims in the future. It is literally true that the men and money spent in this war could have transformed the earth. They could have established universal sanitation, universal education, eliminated barbarism and savagery, reclaimed all the waste lands, established communications by rail and steam with every corner of the globe, and brought the millennium nearer by a long stride. At least, the human race has ceased to be awed by the magnitude of any project. In the hell of war, men have learned that no task is too great for them, and that is a thought worth carrying into times of peace.

Y. M. C. A. WORK IN COW SHED

Recreational Work for American Troops in France Begun in Humble Surroundings.

Paris, France.—Refreshments and amusements were provided by the American army and navy Young Men's Christian association for the first American troops stationed for training in the first-line trenches. The work began in a cow shed in a little village just behind the front lines under the direction of Ira D. Shaw, a former Columbia university football player. The equipment to begin with consisted only of a small supply of chocolate, cigarettes and matches, which were passed out to the men as they passed the hut on their way "up the line." Soon the cow shed was abandoned for a large, hospitable room with a magnificent fireplace. The association headquarters in Paris largely augmented the supply of refreshments and provided magazines, writing paper, and a talking machine, which was on "active service" from early morning until late at night.

The Y. M. C. A. secretaries did not confine their work to the huts, but went almost to the front trenches with newspapers, magazines, tobacco, and other supplies.

WEST TO SUPPLY NEEDED SULPHUR

Comes From Gases Evolved in Smelting of Zinc.

NO NEW PROCESS NECESSARY

Development of Large Zinc Fields Recently Discovered, Will Insure Supply of Sulphur for Sulphuric Acid That Will More Than Meet the Demands in the United States During the War.

Eastern manufacturers will have to turn to Kansas City and the middle West for their supply of sulphuric acid during the war. Prof. Erasmus Haworth, dean of the Mining school, has made a survey of reports of producers in various portions of the country, and finds that the West will soon be depended upon entirely for the supply of sulphur and sulphuric acid.

The main supply of this acid will come from the zinc district around Baxter Springs, Kan., and Miami, Okla., and in part around the Joplin (Mo.) zinc district. The Joplin district was always known as one of the largest zinc fields in America, but the discovery of the field around Baxter Springs, the extent of which is unknown, makes it the largest in the world. With this field being properly developed the output of zinc will be enormous, and as this zinc is smelted the sulphur can be collected from the gases, making a supply of sulphur for sulphuric acid that will more than meet the demands in the United States during the war.

No New Process Necessary.

At the present time only about 10 per cent of the sulphur is saved at these smelters. To save the entire supply no new process or invention is necessary, as the process has been in use in some places for 35 years. The United Zinc and Chemical company of Kansas is already one of the largest sulphuric acid producers in the Missouri valley. This company uses the ores in the Joplin district. With the eastern concerns closed on account of the high cost of transporting minerals to the East, the western firms will enlarge their smelters and amply supply the entire United States, Professor Haworth points out.

The question of adequate sulphuric acid supply came before the chemists of the country at the recent convention of the American Institute of Mining Engineers in St. Louis. The eastern companies reported that the United States was threatened with a shortage of sulphuric acid, since the supply of pyrite, which had been imported, was cut off. Geologists in the West and South are now asking the eastern chemists and manufacturing companies to turn to the West for the supply. Sulphur is being mined in Louisiana and Texas in vast quantities now as fast as the market will consume it. Near the mouth of the Brazos river, in Texas, sulphur is in high piles awaiting transportation.

POET DECORATED MANY TIMES FOR BRAVERY

Photo from Western Newspaper Union

Gabriel D'Annunzio, eminent poet, author and playwright, has won great distinction as a member of the Italian aviation corps. He has been cited for bravery several times and has frequently inspired the Italian army to greater efforts by his valor. Recently he was given the military cross by King George of Great Britain and a silver medal by the king of Montenegro. D'Annunzio entered the service as a lieutenant, but was promoted rapidly. He lost the sight of one eye in an airplane accident last year.

SPAIN KEEPS ITS OLIVE OIL

Recent Royal Decree Forbids Export of This Product.

A recent royal decree forbids exports from Spain of olive oil, of which large quantities formerly were shipped both directly and via France and Italy to the United States and other foreign markets from Barcelona and Seville. In southern Spain and in Catalonia the olive oil industry has been an important source of revenue to the growers, who exported to foreign refineries, whence the oil was often shipped to the United States as of really non-Spanish production. Recently the direct exports from Spain to the United States have increased considerably.

Society In Jeffersonville

Current Events Club

The Current Events Club will meet Monday afternoon at 2:15 at Chamber of Commerce. Only the business meeting will be held by the club which will give up the remainder of the afternoon to hearing Miss Frances Ingram of Louisville, who will speak at 3 o'clock. All members are urged to attend.

Sends Shoes And Bandages

Mrs. Ed Weber, chairman of the Hospital Supply Committee of the Red Cross Chapter yesterday shipped thirty-nine Hospital Shoes and thirty T bandages to Indianapolis where they are reshipped to Philadelphia and thence to France. Mrs. Weber in behalf of the committee thanks the dierent societies and clubs of the city for the excellent help they have rendered. Much praise is also due Miss Mary Guernsey of Charlestown who is chairman of the committee in that town for the wonderful work they are doing. Their goods are shipped with this Chapter work. Yesterday Miss Guernsey brought forty-eight red shoes, twenty-four triangular bandages and four sweaters, the result of their work in the lest few weeks.

Betterment Of Our City

Every man and woman in Jeffersonville is urged to be present Monday afternoon at 3 o'clock at the Chamber of Commerce to hear Miss Frances Ingram who is at the head of the Welfare Department of the War Council in Louisville. All who are interested in the betterment of our city should hear this address. Prior to this meeting the Current Events Club will hold their regular business session which will consume just a short time and will meet at 2:15 o'clock at the Chamber of Commerce.

Married At Hattiesburg

Miss Helen Anshutz of New Albany left about ten days ago for Hattiesburg, Miss. As prearranged on her arrival she wes married to Mr. Donald Weaver who is with the 152nd United States Infantry at Camp Shelby. Mr. Weaver is a former Jeffersonville boy and was very popular with the younger society set. He was the first boy from the local High School to enlist in the Army. Leaving school last April he enlisted in Company M, Second Indiana National Guard that were stationed at the foot of Chestnut street during the summer. Mr. Weaver is the son of Henry Weaver of this city.

Stitch And Chatter

Mrs. John Troutman of Missouri avenue entertained the members of the Stitch and Chatter Club at their first meeting since they abandoned for the holiday season. Those present were Mesdames Sallie Eberts, Charles Seitz, James Seward, Cleveland Schaffer, William Prinz and Mrs. Harry Very, Mrs. James Lewis of New Albany, Mrs. Charles Meyer and Mrs. John Schlafer were guests of the club.

Personals

An important meeting of the Eastern Star will be held tonight at Masonic Hall. All members are urged to be present.

Mr. and Mrs. John R. Compton and little daughter of Decatur, Ill., are spending a few days the guest of Mrs. Compton's sisters the Misses Van Zandt on East Chestnut street enroute to Knoblock, Ky., where hey will visit Mrs. Compton's mother.

Fry Curry of West Court avenue is able to resume his duties at the Government Depot after a tussle with lagrippe.

Miss Lucille Martin of Louisville left yesterday to resume her [illegible] at Vassar College after [illegible] the holidays with her [illegible] with friends in this [illegible]

[illegible] Lindley was hostess Thursday afternoon to the members of her sewing club at her home on West Market street when those present were Mesdames Claude Lindley, Fielding Morrison, Charles Eaken, Misses Alma Holzbog, Zell Johnson and Jean Burke.

Mrs. Charles Booth of Howard Park returned Tuesday from a few weeks visit with relatives at Paris, Decatur and Chicago, Ill. At the latter place she was the guest of her sons Earl and Thad Colliday.

Mrs. James Buehler who has been the guest for a few weeks of her mother Mrs. Ben Tyler on Spring street, returned Wednesday to her home in Seymour, Ind.

Paul Sage of Mechanic street who has been confined to his home suffering with lagrippe is now able to be out.

Mrs. Robert Yent was hostess last evening at her home on Walnut street at a six o'clock dinner to the members of the Linger Longer Club.

Miss Louise Weaver who has been the guest of friends and relatives in the city has returned to Indianapolis where she is a student for a trained nurse at the Methodist Hospital.

Mrs. Henry Hogue of the Gravel road returned yesterday from Seymour. She was accompanied by Mrs. Elizabeth Hogue, Mr. Hogue's mother who is ill and will remain with them all winter.

Miss Mattie Quick has taken a position at the Government Depot.

Miss Frances Figg of Lexington, Ky., is the guest of her cousin Miss Frances Culp on East Seventh street.

Mrs. Sallie J. B. Murphy departed Sunday for Chicago where she will spend the winter with her niece and nephew Mr. and Mrs. David Hicks.

Mrs. F. T. Hornung will entertain this evening at her home on Spring street in honor of her sister Mrs. Charles Zaun of Chicago.

Mrs. Robert Martin of Louisville who underwent an operation the 26th day of December at Norton Memorial Infirmary is still at the Hospital and improving very slowly. Mrs. Martin formerly resided in this city where she has many friends having only recently moved to Louisville.

Misses Mildred and Opal Crandall and brother Otto have gone to Terre Haute for a few weeks visit with relatives.

Mrs. Janet Wilson Cowan who suffered an injury to her spine in falling on the icy pavement is slowly improving at her home on Ohio avenue.

The Womans' Benefit Association of Maccabees at their meeting yesterday afternoon deferred the election of Officers until the next meeting two weeks hence.

Miss Helen Wall is a victim of the prevailing disease lagrippe at her home on West Market street.

Lost the Pill.

The little daughter of a homeopathic physician received a ring with a pearl in it on the Christmas tree. Two days later she poked her head tearfully in at the door of her father's office. "Papa," she wept, "I've lost my little pill out of my ring."

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of
Chas. H. Fletcher.

In Use For Over 30 Years
The Kind You Have Always Bought
THE CENTAUR COMPANY, NEW YORK CITY.

Miss Ruby Spellman will be hostess Sunday afternoon to the Laugh and Chatter Club at her home on Watt street.

$500 LIBERTY BOND AS TIP

Hotel Employee Gets Nice Present From Old Patron of the Establishment.

Kansas City, Mo.—Ten years ago Joseph Bartles of Bartlesville, often stopped at the Baltimore hotel while on business in this city. Among the youths who served him was Alvin J. Hawkins, a page, who took a liking to the Oklahoma man.

As the years went by Bartles continued to stop at the hotel, and Hawkins, now promoted, continued to look after his every whim. He was always alert in making the Oklahoma man's stay enjoyable.

Now Hawkins is superintendent of service at the hotel. The other day Bartles called and found his old friend on the job.

"I want to give you a little tip," Bartles told Hawkins, as he placed a folded paper in his hand.

When the hotel man opened the paper he found a $500 Liberty bond.

MEXICANS ARE NOT DRAFTED

President Carranza Denies Reports That His Countrymen Are Being Molested by Americans.

Mexico City.—In reply to lower house, which sought information regarding the statement that Mexicans are being drafted and enrolled in the American army, President Carranza said that there was no truth in the report that Mexicans are being molested or unlawfully enlisted in the American army, which was being organized on account of American participation in the war.

He explained that the draft law required all foreigners, including Mexicans, to register and undergo medical examination; that those not American citizens or unfit for service were exempted and that the ministry of foreign relations has been doing its full duty toward Mexicans residing in the United States.

Perhaps It Was Necessary.

Scene—City Restaurant.—Two elderly ladies with adopted child, take their place at the table. Order, according to menu, served. First lady (to Child)—"Now, Minnie, dear, remember your blessing." Second lady—"Yes, say your grace, dear. Always do that when away from home as well as at home." Child (looking most obedient)—"Lord have mercy upon this food." Waiter runs.

The National Capital.

The site of Washington city as the national capital was selected in 1791, the corner stone of the capitol was laid in 1793 and congress met there for the first time in November, 1800. Prior to that congress had met at Philadelphia, New York, Baltimore, Lancaster, York, Princeton, Annapolis and Trenton.

Perfecting Fireproof Paper.

Documents written on paper made from asbestos fiber, with inks prepared from the nitrates of iron and cobalt, have withstood a red heat for two hours without being damaged in any way. No damage resulted until the intensity of the heat was increased considerably and the document was exposed in it for ten hours. It is expected that further experimentation and study will result in the perfection of a paper and ink practically indestructible by fire.

After such splendid results with "Seventy-seven" send for a free copy of Dr. Humphreys' Manual of all diseases and dip into its wealth of information on domestic practice, describing in simple language the maladies proper for a layman to treat. Humphreys' Homeo. Medicine Co., 156 William Street, New York.

Worry Greatest Slave Master.

The moment I fret about a thing I am its slave instead of its master. And there is no slave master in the world like worry. Another master may grudge the sleeping hour, but he must give you time for sleep. Another master may grudge the dinner hour, but sometime you must eat. But worry will work you 24 hours a day and spoil your appetite in the bargain.—Mark Guy Pearse.

Eighth of Hebrew Prophets.

Habakkuk was eighth in order of the minor Hebrew prophets. The strophical arrangement of the denunciation of the Chaldeans is a remarkable feature of his prophecy. The whole concludes with a magnificent psalm in chapter 3, a composition that has been considered unrivaled for boldness of conception, sublimity of thought and majesty of diction.

CONVALESCENCE

Convalescence is something merely apparent, not real, and especially is this true after such diseases as pneumonia, typhoid fever and the grip. To make it real and rapid, there is no other tonic so highly to be recommended as Hood's Sarsaparilla.

This great medicine cleanses and renews the blood, strengthens all the organs and functions, and restores health. Take Hood's.

SAVING MONEY

Everytime thrift or saving money is mentioned some people get the idea that it means cutting down expenses to the very lowest notch to save every possible cent. at the expense of self-respect, comfort and health.

Not for an instant should you think it means anything like that.

Thrift means the elimination of **UNNECESSARY WASTE** — in food cothing, pleasure, business and everything that makes you spend more than is necessary for your convenience, comfort and happiness.

What you can save and put away for future emergencies or opportunities is deposited to advantage in a savings Account.

MEN WANTED TO BUILD SHIPS

Thirty-five thousand men it is estimated, will be required to turn out the 120 ships to be built at the Hog Island Yard near Philadelphia by the American International Shipbuilding Corporation To obtain these men an advertising Campaign has been started throughout the Middle West, as it is found that the Atlantic Coast yards are already employing all the available skilled men on Government work.

To secure the enormous number of workers required it will be necessary to take from many related trades men whose experience with a little training, will enable them to become first class shipyard mechanics. The bolters, riveters reamers drillers and chippers who form the arger number of workers required on steel ships all use pneumatic tools, the employment of which can be learned in a very short time by a man who hars already acquired facility in manual trades. Two other classes of workmen of which large numbers are needed are the rectors who stt up the frames, and the stage builders. Bridge and structural iron workers and scaffold builders are admirably suited for the two latter classes of shipyard work.

To adapt men to the particular requirements of work on steel boats the Hog Island Yard has established a training school where skilled and unskilled men will be turned into shipbuilders in from a week to six weeks —the length of time depending upon their previous training and the work for which they wish to fit themselves.

Among other arrangements for making life at Hog Island agreeable work has begun on a recreation building to be under Y. M. C. A. administration. There is an auditorium seating 1200 people a "loafiing room" with writing and game tables and bowling alleys, barber, tailor and cobbler shops. One wing of the building which is 206 feet long and 160 feet wide will be given over to a gymnasium.

Candidates or shipyard work are urged to write to the American International Shipbuilding Corporation, stating their qualifications in order that a roster may be made and men called upon as needed. The purpose is to avoid calling men to Philadelphia before they are actually needed, and before there is provision for proper housing and training. Only those men not now engaged in a war industry are being considered but as to others this urgent call has been sent out; "Even if you have never been in a shipyard apply your exeprience now to the most needed and best paid work to be done to win the war. The American International Shipbuilding Corporation, Philadelphia, issues a free booklet "Ships to Win the War,'" which tells the story of the Government shipbuilding program of Hog Island, the world's greatest shipyard, and of the opportunity it offers good Americans to help their country and themselves.

REAL ESTATE

Evan Edwards has conveyed to Amos B. Hostettler, by deed filed in the office of Clifford Allhands county recorder, lots 1, 2 and 3, Sellersburg for a consideration of $1000.

Walter T. Fry to Thomas Carlin, lot 89, Utica for a consideration of $1.

Laura A. Monson and Pearl C. Monson to Charles Elmer McCrory a triangular piece of land in survey 37, near Watson containing 15-100ths of an acre, for $1 ad exchange of property.

THREE EFFICIENT MEDICINES

Hood's Sarsaparilla, superlative blood purifier and appetizer, originated in a Boston physician's successful prescription,

Peptiron, superlative iron tonic, for anemia, nervousness, made from iron, pepsin, nux, celery, etc.,

Hood's Pills, superlative family cathartic, for liver, constipation,—

The superlative combination that gives superlative health.

Practically everybody needs at least one of these medicines,—

But,—If your blood is scrofulous,
If you are also anemic or nervous,
If you are constipated besides—
thousands have all these ailments,—
You need all three medicines.
Ask your druggist for them today.

SLEEP Like a Baby

How often you wake up in the morning, feeling as if you had not gone to bed! Your sleep does not seem to have rested you or built you up for the work of the day. Indigestion is usually the cause, and that includes lazy liver, clogged up kidneys, constipation and a lot of other symptoms.

M. Flannigan, a Nashville machinist, after describing all these symptoms, tried Vin Hepatica, and no longer suffers from pain in the head and back, but sleeps soundly and wakes up refreshed and fit for work.

Be warned in time and take Vin Hepatica, the great nature remedy and universal system purifier. It's not a purgative, but is made from herbs that give relief to all digestive troubles, gets to the root of the cause, and restores the patient to health so that he or she enjoys the peaceful slumber of a baby.

Come and get a bottle upon our recommendation.

Preparing for a Big Dog.

A nouveau riche who was noted for his misuse of the king's English is quoted by an exchange as dilating on the cost of the kennels for his new country place in these words: "It's just throwing money into the fire. We haven't an animal on the place worth $2; but the way those architects are fitting up those confounded kennels anyone would think that they expected them to be occupied by the Dog of Venice himself!"

The Happy Man.

It is a good thing to start out a laughing of a Monday, keep laughing on Tuesday, Wednesday and Thursday, be careful how you spend Friday night, and then make Saturday the merriest day of the week. You will find plenty of company, for the world loves a happy man.—Charles Battell Loomis.

Origin of the Word "Lady."

Why we call a woman a lady is known, probably, to few women. It came from a practice that obtained in the manor houses of England where, once a week, the lady of the manor distributed to her poor neighbors, with her own hands, loaves of bread. She came to be called "Laef day," the Saxon words for bread giver. These two words became one: "Lady."

Corn Needs Little Cultivation.

In Illinois farmers found that once the corn roots were fully established in the soil, their attraction for the moisture was so great that very little moisture escaped. The only cultivation they found valuable was to keep down the weeds, which used up the moisture. Three-fourths of the corn roots do not go deep, but establish themselves in the cultivated soil, and the less they are disturbed at their means the better crop results are attained.

Earth Grows Slowly Now.

In the early days of its history the earth grew rapidly by the addition of meteoric matter. It is still growing in the same manner, scientists say, though scarcely to an appreciable extent, for the mass of meteoric matter added yearly is reckoned to be only 20,000 tons. In the course of ages the larger planets have swept up practically all the fragments of the original disruption, and the only available source of supply of meteoric matter seems to be brought by comets.

PLAN FOR CLUB FOR WOMEN

One Of Last Steps Of Col. W. S. Wood Commended To City

PLACE MUCH NEEDED

Reidential Club Would Provide Accommodation For Many

Miss Lettie Perkins of Jeffersonville was married Wednesday night to Mr. Herbert Gardner at New Albany by Father Seibert.

The following communication was received by the News too late for use Saturday but is well worthy of consideration:

The last step of Colonel Winthrop S. Wood prior to leaving the Jeffersonville Depot is of special benuefit to the women employed there.

He has started a movement for the establishment of a Young Women's Club in the City of Jeffersonville. This is very badly needed there, because so many strange young women come to the city every day to get employment at the Government Depot, and are experiencing much roubble in securing room and board.

It is also of special advantage to the strange girls, bzecause many of them coming have no friends here and when their working hours are over, have nothing to do but go to their rooms, or else go to the picture show, or other places by themselves. This Club will prevent their having to do this, as the girls living at the Club can get together in the cafeteria, and in the reading rooms, etc. and get acquainted and have some very pleaant evenings.

It is planned to raise aum sufficient for the establishment of such a club, including suitable bedrooms, cafeteria, gymnasium, reading rooms, library, reception halls etc. Subscriptions are being received daily by the members of the Organization Commitee, appointed by Colonel Wood from among the employees of the Government Depot.

This should appeal to you, as you must feel the sense of obligation to your community, and to those who, by the fortunes of War are forced here for temporary habitation, and knowing the woeful lack of proper accommodations, it becomes your duty in so far as it is possible for you so to do to assist in making such arrangements for the houing and accommodation of these strangers in our midst as will ensure them proper environment. According- [illegible] urgently requested that [illegible] have the support [illegible] the three Falls

DEATH OCCURRED AT FERN CREEK

L. C. Bates Formerly Lived Here; Widow Was Miss Laura Kehrt

The body of Lawrence S. Bates was brought to this city Monday for burial at Walnut Ridge cemetery following funeral services held at ten o'clock at the home of his parents Mr. and Mrs. U. S. Bates, Fern Creek, Ky. He died there Saturday night of tuberculosis, age thirty-eight after a long illness. Formerly he lived in this city and before that at Utica but more recently in Louisville and some time ago he went to Asheville, N. C., in search of health and then to his parents' home when he returned. He is survived by his widow who was Miss Flora Kehrt of this city and whose father, William Kehrt, died about a year ago. There is also an eight-year old daughter and two brothers and two sisters. He was a member of Myrtle lodge No. 19, Knights of Pythias of this city and of Utica lodge of Masons.

Death Of Hugh Worrall

Hugh Worrall, age seventy-three, who made his home with his brother, Daniel W. Worrall, 311 Sixth street died Saturday afternoon of Brights disease, having been sick a long time. He leaves no family. Funeral arrangements have not been made.

GOETHALS SAYS BUILD ROADS NOW

Urges No Cessation Of Activity In Construction Of Highways

'MILITARY NECESSITY'

Congestion On Railroads Is Further Cause For Good Roads

In view of the proposal to build main market highways in Indiana the following dispatch from Trenton, N. J., upnder Saturdway's date, quoting General Goethal's may be of interest here:

Maj. Gen. George W. Goethals New Jersey, engfineer, in a recent report to the State Highway Commission says: "Modern highways are a military as well as a transportation asset and whatever the cost such improvements were never sao greatly needed."

The general goes on to impress the necessity of pushing, without delay, the construction of America's arterial highways, and states that no road work should be held up because of the present high cost of materials and labor, pointing out that construction prices are likely never to return to pre-war level and that the curtailment of American road constsuction would enail a higher ultimate cost to the nation all things considered, than would the carrying through of the necessary construction as fast as possible regardless of expense.

Another reason atatributed by the general to the urgency for the commencement of work immediately on all important highways is the ever growing use of motor trucks, which has resulted largely because of the congested condition of the railroads. "Consequently, the necessity for good roads is now greater than ever, and to handle such traffic the roads must be provided with good foundations, with proper drainage if the maintenance charges are to be reduced to a minimum" contends the general.

* * * *

DRASTIC COAL ORDER ISSUED

Saloons And Places Of Amusement Must Give Way To Homes

COAL MAY BE SEIZED

But Neighborliness Is Depended Upon In Crisis, Says Woollen

The following telegram has been received by Fielding L. Wilson, federal fuel administrator for Clark county, from Evans Woollen, federal fuel administrator for the state of Indiana:

"Confirming yesterday's telegram, do not hesitate to appropriate commercial coal whenever in your judgment necessary to prevent suffering in homes. I now direct that no coal or coke be delivered to any saloon or place of entertainment if and as long as there is in your judgment any suffering in homes caused by fuel shortage; and further, to the same end I direct that every effort be made in accordance with recommendations heretofore issued from this office to prevent delivery to any home not in immediate need and then only in emergency quantities.

"I have been informed this morning that the priority order issued by me Wednesday to operators for shipment of all coal heretofore requested has been substantially complied with and you may accordingly expect coal as soon as transportation conditions permit.

"Neighborliness and thoughtful conservation will go farter than anything else to meet the immediate situation and for these you can, I know, appeal confidently to our people."

Carrying Out Instructions

Instructions in accordance with this telegram have been issued by Mr. Wilson to the local coal dealers. One of the latter had four orders on hand for delivery to saloons and Mr. Wilson said he would carry out his instructions by making a ruling to this effect: That coal should be delivered to saloon keepers while the present shortage continues, only upon authority from himself and only on the understanding that coal was required exclusively for family consumption and not for use of the saloon.

The local dealers have some coal on hand but not very much. Probably however there is enough to tide over the period of especial danger until the movement of coal by rail can be resumed. It will however require husbanding as suggested in the telegram printed above. One chief difficulty is that of obtaining labor, for drivers are very few and difficult to get. Mere boys are taking out the coal wagons in some cases. Efforts will be made to see that those able to work but unwilling to do so be pressed into service.

Don D. Walker has had his teams working uninterruptedly hauling coal for the quartermaster's depot and no more than succeeding in keeping the place supplied, this meantime preventing much delivery to private consumers. The Indiana Reformatory has coal on hand but not more than enough and the utmost economy is being practiced, unnecstary lights are not being used and only the minimum of heat and power are being produced.

Schools Come To Aid

The schools have helped out in several places. At Henryville a carload of coal was delivered a few days ago and during the last day or two this coal pile has been drawn upon for poor relief. At Utica, Omega Lentz, township trustee, allowed people who were out of coal to purchase small quantities from the school pile.

Most of the schools in the county are closed including those in Jeffersonville and Jeffersonville township. Claude Allhands, county highway superintendent, has men at work with a drag cleaning the roads off to permit the schools to resume and where there is sufficient coal this will be done in a day or two but in some parts the schools will remain closed all week.

MEETING POSTPONED

Until Saturday On Question Of Appropriation For Road

On account of the inclement weather the joint meeting of the Boards of County Commissioners and County Council, which was to have been held in Jeffersonville Saturday, was deferred until next Saturday. It would have been almost ipmossible for some of the country members of the boards to reach town. Some believe that the entire project of building the main market highway in Indiana, which was the subject of the proposed meeting ought to be deferred until after the war. It is understood that is the sentiment of the Floyd county commissioners and if the Clark county board takes the same view the Ohio river terminal will not be reached by the road. On the other hand, if the hoad should be built, many believe that Jeffersonville and Clark county should not forego the advantage it offers.

WARNING TO WATER CONSUMERS

During the extreme cold weather of the pat few days the conumption of water has increased to a point where it exceds the amount we can obtain from our wells, this is caused by consumers allowing water to run constantly to keep pipes from freezing.

We urge all consumers to keep faucets shupt off when not in use to the end that there will be sufficient water for fire and other purposes.

Water will be turned off from all consumers allowing water to run constantly.

TWO ROBBERS FROM MADISON

Captured On Loucinda After Hold-Up And Escape In Auto

Thomas Gray and James Price the latter colored, were received at the Indiana Reformatory from Jefferson county to erve from five to fourteen years each for robbery. Gail Gray, elder brother of the former, was sent to the state prison at Michigan City, being over thirty years of age. The men pulled off a wild west stunt at Madison the night of December 6 when theyh eld up D. B. Huntley at his grocery store, one going in to make a purchase and the other two following with leveled revolvers. They got $11.25 in cash and then commandeered an out-of town automobile in which they got away. Opposite Carrolton they boarded the steamer Doucinda, bound for Louisville but were arrested at Madison by officers who were on their trail Tom Gray made a run for it and was captured after a chase during which several shots were fired.

TWENTY-TWO IN CLASS ONE

Exemption Board Sends Notices To Registrants

Exactly one-half of the forty-four notices of classification sent out Saturday by the Clark County Exemption Board showed classification in Class one. Of the remainder eighteen were in Class four one each in Classes two and three and two in Class five. One of the last was George E. Milhollan who is already in the service as a member of the supply company, 152d Infantry, stationed at Camp Shelby, Miss. Those who were placed in Class one are the following:

John D. Brown, Marysville; William Edward Bennett, 514 Broadway; Artur C. Jann, Sellersburg; Edwin J. Fackler, Avondale, Jeffersonville; William John Graham, R. F. D. No. 1, Jeffersonville; Richard R. Elliott, 912 Walnut street; Raymond E. Doherty, 422 Meigs avenue; Walter W. Dunlevy, Memphis; Clarence Hillyard, Sellersburg; Russell H. Huffstetter, Charlestown; Edward Hughes, Eleventh and Fulton streets; Archie M. Jackson, Borden; W. O. Kranz, Sellersburg; Louis William Koch, 732 Indiana avenue; Eddie Hicks, Broadway; Roy A. Sagabiel, 521 East Market street; Roy W. Noe, 422 Spring street; Paul Addison Northam, 802 Seventh street; John A. Roederer, Middle road, Jeffersonville township; George G. Riddeord, Camp Sherman, Chiicothe, Ohio; Albert Rush, Charlestown; George J. Kraemer, R. F. D. No. 2, Sellersburg.

SALOONS CLOSED ALL DAY SUNDAY

Orders Are Strict And Are Apparently Observed

Capt. James N. Masters, chief of police, said Monday that in his judgment the saloon s in Jeffersonville were never tighter closed than on Sunday, this being in accordance with the announced purpose of the new administration to require them to observe the law as regards closing hours.

So far as could be judged, on a cold day and one not convenient for observing anything very closely, there was nothing doing at the saloons on Spring street, at least, and reports from other parts of the city indicate that similar conditions generally prevailed.

Capt. Masters said that the orders were that the saloons should be closed and that this order would be carried out.

FIRST MAIL HAS ARRIVED FROM NORTH

Traffic Resumed To Limited Degree On Steam And Electric Lines

TROUBLE WITH WATER

Consumers Cause Danger Of Fire By Leaving Faucets Wide Open

The first mail from the north since Friday night aws received today at the local postoffice, having arrived at 7 a. m. The first mail to go out in thirty-six hours left Sunday night.

Steam trains are beginning to move again though with difficulty and few freight trains are moving yet. Unless condition s turn worse again the tie-up is about over however and schedules will soon be restored. The first train north since the tie-up began left here at 2:45 Sunday afternoon and there was a train in at midnight Saturday which reqnired two locomotives to get it through.

Interurban traffic is being resumed. A car got in from Indianapolis Sunday night after a break of nearly forty-eight hours and cars went out Monday. Charlestown serviee was also resumed. The cars to New Albany and Louisville got through in fair shape Sunday and are getting back to normal schedule. The Court avenue street car line was kept moving though intermittently and the other city lines will be re-established. A big car was out to help clear the lines of snow ond ice. The company had previously swept the tracks clear but the snow packded into the rails held up traffic and prevented the cars running, epecially the light city cars.

The Pennsylvania lines had trouble early Sunday when their big tank froze up and it became necessary Sunday and Monday to bring the big locomotives down the dinkey track to Spring street and Court avenue to receive water from the city hydrants.

The temperature which fell to 14 below Friday night and two below Saturday night, reached a minimum only 14 above zero on Sunday night. That was early in the night and at 7 a. m. Monday the thermometer showed 20 degrees above zero.

* * * *

MADE GOOD RECORD

Only Nine Q. M. C. Guards Absent Out Of 300; Several Are Frost Bitten

Capt. James L. Glascock, quartermaster officers' reserve corps, said Sunday that all but nine guards at the quartermaster's depot out of a total of three hundred had repored for duty Saturday, in spite of the weather, and an equally good record was made Sunday. Ever post was properly covered as though there were no bad weather conditions.

Sunday there was practically nothing doing at the depot but inside business went on Saurday pretty much as usual. The tie-up of freight and the snow prevented any loading and unloading for the time. Work is proceedig Monday under difficulties.

The emergency Red Cross hospital had a busy time Saturday but no serious cases, Capt. Glascock aid. One guard was found in a benumbed condition but was soon brought around. One had his face partly frozen and a colored teamster had his hands frozen by sticking to his wagon too long. There were other cases of ears and noses being frozen and other minor mishaps that kept the emergency staff busy.

* * * *

WATER PRESSURE

Reduced By Water Waste; Consumers Must Not Leave Faucets Wide Open

A serious deficiency of water pressure was reported Sunday to Mayor Newton H. Myers and the water and fire committees of the City Council, such as to endanger the city, it was stated, in the event of a fire. It was ascertained that the practice of leaving faucets wide open at night to prevent pipes from freezing up was the cause and H. W. Strauss manager of the waterworks, said that many thousands of gallons of water were thus run to waste. The mayor declared that drastic steps would be aken if necessary to prevent this and advised that water users leave merely a thin steram flowing if not able to shut their water off at the main. Otherwise their water supply will be eut off.

OFFICERS ELECTED AT CHRISTIAN CHURCH

The congregation of the First Christian church on Sunday elected Edward Schowe, trustee and the following five deacons: John Giltner, John Fitzpatrick, Ray McKinney, Theodore Lyons and Clarence Benneta. All of these were re-elected except Mr. Bennett who was choen to fill the vacancy that had existed since the death of Charles Ruddell some time ago. Part of each board only is elected each year.

WILLIAM TREAT OF SELLERSBURG MARRIED

William Treat age forty-nine, and Mrs. Susie Ella Raines, a few months his junior came to Jeffersonville and were married by Magistrate Albert Eich. The bride was formerly Miss Susie Ella Stubblefield and her former husband died last year. Treat was divorced December 13 last from Mrs. Anna T reat by whom he had a large family. She deserted him several years ago and went to St. Louis, Mo., taking all her children except the oldest who was grown.

SOCKS RECEIVED AT CAMP SHELBY, MISS.

Mayor Newton H. Myers, received word from Joseph O'Neill of the safe arrival at Camp Shelby, Miss., of a parcel of thirty pairs of socks knitted by Mrs. Myers and a number of other ladies for the thirty men of Clark county transferred from Camp Zachary Taylor a few weeks ago. Three pairs hod been stolen in transit but ont soldier had already received an extra pair from another source and two soldiers had been discharged so the parcel supplies the wants of the other twenty-seven.

Beavers Use Scarecrow.

So troublesome have beavers become to the farmers along the Walla Walla river in Washington that one rancher erected a beaver "scarecrow" which was effective the first night. On the second night the beavers cut down the scarecrow and used it in their dam.

PRO RATA OF LICENSE PAID BY SALOONISTS

J. E. Gray, county treasurer, is accepting from city saloon keepers, renewing their licenses, the pro rata amount of the annual license fee of $250 due up to April 2 when the prohibtion law becomes effective. Twenty-six saloon keepers were liable for their city licenses the last of the year and all of these a re paying now the question of the pro rata charge has been determined in their favor.

Had Orpheus Beaten a Mile.

"Dad," said the eight-year-old of the family, "here's a book that says that Orpheus was such a fine musician that he made trees and stones move." "Son," said father, solemnly, "your sister Bess has Orpheus beaten. Her piano playing has made twenty families move out of this building in the last three months."

"WAR BOOK" FOR SCHOOLS

Ready Soon, Says S. L. Scott; Saturday Sessions For High Schools

Samuel L. Scott, county superintaendent of schools, has returned from Indianapolis where he attended a meeting of the State Board of Education. At this meeting it was decided that high schools all over the state in city, town and country, should run two Saturdas a month to make up part for lost time. This rule will go into effect as soon as weather conditions permit.

The board has authorized the use of a "War Book" and it is announced that this will be ready in a few days. It will be used in all the schools of the state from th ehigh school. The book covers the causes that led to the United States being in the war and aims to bring the entire question of the war, its causes and the principles involved, before the pupils both in their historical and geographical setting.

DEPUTY COLLECTOR OF INTERAL REVENUE

William F. Avery, of Palmyra has been appointed by Isaac F. Strouse, Collector of Internal Revnue for the Seventh district located at Terre Haute to the position of deputy internal revenue collector for the Fifth division. Mr. Avery will have his headquarters in the Federal building in New Albany. His territory will include Clark, Floyd, Scott, Washington; Orange; Crawford and Harrison counties.

HAD EARS FROZEN IN LONG WALK

Morris Watson, assistant ticket agent for the Pennsylvania lines at the company's Fourth avenue office in Louisville, had both ears badly frozen Saturday night while walking to his home in Port Fulton from the city, a distance of a mile and a half. He was complelled to walk because no cars were running.

SHOVEL SNOW FROM SIDEWALK

Ordinance Requires It; Auto Truck And Wagon Owners To Haul Coal

Capt. James N. Masters, chief of police, has been instructed by the Police Board to see that the ordinance requiring merchants and residents of the city to sweep snow from the front of their premises be complied with.

The suggestion is made that owners of auto trucks and horses and wagons volunteer their use to assist coal dealers in supplying the public with coal during this bad spell. Drivers for coal wagons are also needed.

SAYS FRYING PAN MUST GO

Domestic Science Expert Says This Method of Cooking Food Is Wasteful.

Eugene, Ore.—"The frying pan must go," said Miss Lillian Tingle, head of the household arts department of the University of Oregon, before her class on the conservation of food.

"It is a utensil of the pioneer, who had plenty of food to prepare in the quickest and simplest way. The people of this country always have been wasteful, and unless we reduce materially our consumption of meat we shall face a meat famine.

"French people cook in a casserole, thus saving every bit of the nourishment of the meat. We could well learn from them in this matter."

Shake Into Your Shoes
Allen's Foot-Ease(the antiseptic powder for painful, smarting tender, nervous feet. It takes the sting out of corns and bunions. Over 100,000 packages are being used by he American, French and British troops at the front. Sold everywhere 25c.
January 7 to Feb. 5 inclu.

CAPT. ED CLEGG NOT ON POLCE FORCE

Matthew Edward Clegg, a former chief of police who was named patrolman on Friday by the Board of Metropolitan Police Commissioiers, did not report for duty Saturday night and Capt. James N. Masters, chief, stated Sunday that Clegg had told him he would not take the position. Asa Prince, also appointed Friday went to work Saturday night.

LIEUT. HARRY PERRY COMING FOR MINSTRELS

Dr. O. P. Graham received word from Lieut. Harry Perry, who is to be one of the solosists at the minstrel entertainment to be given tonight by officers at the quartermaster's depot for the benefit of the Red Cross, that he is on his way home from New York City and will arrive in time to take his place on the program.

DEATHS REPORTED FROM COUNTRY

Mrs. Agnes Scholl And Marshall Chesser Dead

Mrs. Agnes Scholl, age 70, widow of John Scholl, died at 10 o'clock Sunday evening at her home at Henryville from paralysis after a week's illness. She leaves four sons and a daughter, William, JJohn and Charles Scholl, Denver, Col., and Henry Scholl and Mrs. Anna Norris at Henryville.

Marshall Chesser, age 45, died at his home at Memphis of pneumonia. He was attended by Lewis Ward who was sitting up with him and on returning to the room where his patient was found he had passed away. Mr. Chessers wife died a year ago and one son, Clark, age fifteen survives.

MARRY THE SOLDIER

"Take Home a Soldier" Movement Responsible for Double Wedding.

Who started the "Take-Home-a-Soldier" movement?

Sergt. Clarence B. War and James E. Dozier of Company C. Balloon division, Signal corps, at Fort Omaha, accuse D. Cupid.

Last January they were invited to eat Sunday dinner at a home near the fort.

There they met Miss Thelma Fancher and Miss Clara Palmer, both of Fremont, Neb.

Miss Palmer and Miss Fancher appeared at the marriage license clerk's office on important business the other day. The same night, Sergeants Dozier and War asked for a leave of absence.

A minister performed the ceremonies and the newlyweds went to a show. Then the husbands had to return to their posts at Fort Omaha and the girls went back to Fremont.

"They're coming back when we get a longer leave of absence," declares Sergeant War, hopefully.

FINE TONIC FOR WOMEN

Is What This Lady Thinks About Cardui. It Made Her Well.

Springfield, Mo.—Mrs. Alice Fletcher, of this address, writes: "I cannot say too much in praise of Cardui, it has done so much for me. Shortly after my marriage, 14 years ago, I suffered terribly...with my back paining me, and my limbs pained me so bad. And also I had such awful bearing-down pains, and I became very weak and could not hardly do my work...

I went to my sister-in-law and she told me to get Cardui. So I took one bottle and it helped me so much, I got another bottle, and by the time I had taken the two bottles I was a well woman. I have never been troubled any more...I keep Cardui in my home...for I think it is a fine tonic for a woman raising a family.

I always take one or two bottles before and after my..., for it strengthens me so, and has such good effects on my nervous system."

Weak women, worn out with the work and care of the home, need a tonic, strength-building medicine, like Cardui, the woman's tonic. NCB-9

FEET.

Feet are the terminals of the human system, and cause about as much trouble to their owners as any other kind of transportation terminals.

Feet were made by turning up the lower end of the human frame, thus enabling man to stand without a prop after he has discovered the knack. They consist of a heel, an instep and five toes, most of which are perpetually insurging against the administration. A foot is harder to keep happy and contented with its surroundings than a girl who has just returned from college, full of higher education.

Moreover, very few toes get along well together. They have no *esprit de corps*, so to speak. There is continual friction between them, and this leads to so much bad feeling and so many sore spots, that many a tortured proprietor of ten belligerent toes has looked with sad envy on a wooden-legged friend. Until some international court of arbitration is formed to settle the claims of rival toes, which insist on occupying the same place at the same time, man cannot hope for complete peace and happiness.

Feet are very retiring, seldom appearing in public. They live in shoes, boots and slippers. This is one of the great sources of indignation among feet. The man who will spend three days in having his shoulders fitted perfectly to a new coat, will leave the job of fitting his feet with shoes to a machine in Lynn, Mass., which has never seen them and has no interest in them whatever.

Until the invention of the bicycle, the automobile, the street car, and the elevator, feet were used extensively for walking. Now, however, they are more or less superfluous. A great many men leave them on their desks all day and on the mantelpiece most of the evening.

Owing to their great distance from the central heating station, it is very difficult to keep feet properly heated in cold weather. Frigid feet are one of the curses of mankind. They are not only painful, but have a sad effect upon the brain. If it had not been for a national attack of cold feet, which swept over this country more than half a century ago, the northern boundaries of the United States would now extend almost to Hudson's Bay.

In sizes varying from number one to nineteen.

Feet come in sizes varying from number one on a double A last to number nineteen, standard gauge. Small feet are generally preferred, though they are not so useful. In China they are so greatly esteemed that Chinese women wear their corsets on their feet. There has been much unprofitable discussion as to where the largest feet can be found, but it can be safely said that as a rule, they belong to the most truthful women. 263

WILL ORGANIZE BORDEN RED CROSS

A meeting has been called for this afternoon at 2:30 o'clock by Mrs. George R. Robb at College Chapel, Borden to organibze a chapter of the Red Cross and elect officers. There is now a temporary organization.

Lost the Pill.

The little daughter of a homeopathic physician received a ring with a pearl in it on the Christmas tree. Two days later she poked her head tearfully in at the door of her father's office. "Papa," she wept, "I've lost my little pill out of my ring."

The Happy Man.

It is a good thing to start out a laughing of a Monday, keep laughing on Tuesday, Wednesday and Thursday, be careful how you spend Friday night, and then make Saturday the merriest day of the week. You will find plenty of company, for the world loves a happy man.—Charles Battell Loomis.

Earth Grows Slowly Now.

In the early days of its history the earth grew rapidly by the addition of meteoric matter. It is still growing in the same manner, scientists say, though scarcely to an appreciable extent, for the mass of meteoric matter added yearly is reckoned to be only 20,000 tons. In the course of ages the larger planets have swept up practically all the fragments of the original disruption, and the only available source of supply of meteoric matter seems to be brought by comets.

POET DECORATED MANY TIMES FOR BRAVERY

Photo From Western Newspaper Union

Gabriel D'Annunzio, eminent poet, author and playwright, has won great distinction as a member of the Italian aviation corps. He has been cited for bravery several times and has frequently inspired the Italian army to greater efforts by his valor. Recently he was given the military cross by King George of Great Britain and a silver medal by the king of Montenegro. D'Annunzio entered the service as a lieutenant, but was promoted rapidly. He lost the sight of one eye in an airplane accident last year.

SPAIN KEEPS ITS OLIVE OIL

Recent Royal Decree Forbids Export of This Product.

A recent royal decree forbids exports from Spain of olive oil, of which large quantities formerly were shipped both directly and via France and Italy to the United States and other foreign markets from Barcelona and Seville. In southern Spain and in Catalonia the olive oil industry has been an important source of revenue to the growers, who exported to foreign refineries, whence the oil was often shipped to the United States as of really non-Spanish production. Recently the direct exports from Spain to the United States have increased considerably.

Do you get up at night? Sanol is surely the best for all kidney or bladder troubles. Sanol gives relief in 24 hours from all backache and bladder troubles. Sanol is a guaranteed remedy. 35c and $1.00 a bottle at the drug store. The Sanol Chemical Company, St. Louis, Mo. daily tf

TOBACCO "NECESSARY"

Lord Rhondda, British Food Controller, Says It Is Not a Luxury.

Tobacco is a necessity not a luxury declares Lord Rhondda, the food controller, in a statement published here. "We must have tobacco," he says. "I believe that its loss would be a national misfortune. It means much both to the manual laborer and to him who works with his brains. Men would eat a great deal more if they did not have tobacco. I hold that the deprivation of it would work great discomfort."

Some system of "rationing" tobacco, however, is forecast by the newspapers.

When you have Backache the liver or kidneys are sure to be out of gear. Try Sanol it does wonders for the liver, kidneys and bladder. A trial 35c bottle of Sanol will convince you. Get it at the drug store. Sanol Chemical Co.

Corn Needs Little Cultivation.

In Illinois farmers found that once the corn roots were fully established in the soil, their attraction for the moisture was so great that very little moisture escaped. The only cultivation they found valuable was to keep down the weeds, which used up the moisture. Three-fourths of the corn roots do not go deep, but establish themselves in the cultivated soil, and the less they are disturbed at their means the better crop results are attained.

Chance to Get Away.

Tom's uncle asked him which he was going to join [illegible] or the navy. Tom said [illegible]" and the uncle explained [illegible] were. Tom thought a mom[illegible] said, "I think I'll join the army, for I can run, but I can't swim."

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of
Chas. H. Fletcher.

In Use For Over 30 Years
The Kind You Have Always Bought
THE CENTAUR COMPANY, NEW YORK CITY.

Perhaps It Was Necessary.

Scene—City Restaurant.—Two elderly ladies, with adopted child, take their place at the table. Order, according to menu, served. First lady (to Child)—"Now, Minnie, dear, remember your blessing." Second lady—"Yes, say your grace, dear. Always do that when away from home as well as at home." Child (looking most obedient)—"Lord have mercy upon this food." Walter runs.

BOOK on treatment of Horses, Cows, Sheep, Dogs and other animals, sent free. Humphreys' Homeopathic Veterinary Medicines, 156 William St., N. Y.

The National Capital.

The site of Washington city as the national capital was selected in 1791, the corner stone of the capitol was laid in 1793 and congress met there for the first time in November, 1800. Prior to that congress had met at Philadelphia, New York, Baltimore, Lancaster, York, Princeton, Annapolis and Trenton.

Name Your Ailment

The descriptions are so clear, plain and simpe, that anyone can name their aiment by reading Dr. Humphreys' Manual, a compact little Medical Volume that fits the side pocket, mailed free on request, address; Humphreys' Homeopathic Medicine Co., 156 William St., New York.

Preparing for a Big Dog.

A nouveau riche who was noted for his misuse of the king's English is quoted by an exchange as dilating on the cost of the kennels for his new country place in these words: "It's just throwing money into the fire. We haven't an animal on the place worth $2; but the way those architects are fitting up those confounded kennels anyone would think that they expected them to be occupied by the Dog of Venice himself!"

Perfecting Fireproof Paper.

Documents written on paper made from asbestos fiber, with inks prepared from the nitrates of iron and cobalt, have withstood a red heat for two hours without being damaged in any way. No damage resulted until the intensity of the heat was increased considerably and the document was exposed to it for ten hours. It is expected that further experimentation and study will result in the perfection of a paper and ink practically indestructible by fire.

After such splendid results with "Seventy-seven" send for a free copy of Dr. Humphreys' Manual of all diseases and dip into its wealth of information on domestic practice, describing in simple language the maladies proper for a layman to treat. Humphreys' Homeo. Medicine Co., 156 William Street, New York.

Worry Greatest Slave Master.

The moment I fret about a thing I am its slave instead of its master. And there is no slave master in the world like worry. Another master may grudge the sleeping hour, but he must give you time for sleep. Another master may grudge the dinner hour, but sometime you must eat. But worry will work you 24 hours a day and spoil your appetite in the bargain.—Mark Guy Pearse.

PARKER'S HAIR BALSAM
A toilet preparation of merit. Helps to eradicate dandruff. For Restoring Color and Beauty to Gray or Faded Hair. 50c and $1.00 at Druggists.

What Was His Nationality?

When a building laborer in New York was injured, the policeman who went with the ambulance reported: "It's nothing; a man lost his balance and fell over a Limerick limousine." The lieutenant at the station wondered all the afternoon, until the policeman came in off his post and explained that the man fell over a wheelbarrow. Maybe you can guess the policeman's ancestry.

Little of Both.

"What is that dog—a pointer or a setter?" "He's a pointer when there's a beefsteak near, and a setter when we're out looking for game."—Life.

Miss Edith Wood who has been in Indianapolis for an extended visit has returned to her home in this city.

BELL-ANS
Absolutely Removes Indigestion. Druggists refund money if it fails. 25c

Eighth of Hebrew Prophets.

Habakkuk was eighth in order of the minor Hebrew prophets. The strophical arrangement of the denunciation of the Chaldeans is a remarkable feature of his prophecy. The whole concludes with a magnificent psalm in chapter 3, a composition that has been considered unrivaled for boldness of conception, sublimity of thought and majesty of diction.

YOU NEEDN'T

You needn't keep on feeling distressed after eating, nor belching nor experiencing nausea between meals.

In other words, you needn't ktep on being dyspeptic, and you pepsia—it strengthens and tones the stomach, perfects digestion, certainly shouldn't.

Hood's Sarsaparilla cures dysreates a normal appetite, and builds up the whole system.

Adv No. 1

Advertising Pays.

A woman of uncertain age required the services of a page-boy, and inserted in the local paper an advertisement headed: "Youth wanted." One of her friends, with little humor and less taste, sent her a bottle of a celebrated wrinkle-remover, a pot of fairy bloom, a set of false teeth, and a flaxen wig!—London Tit-Bits.

SAVING MONEY

Everytime thrift or saving money is mentioned some people get the idea that it means cutting down expenses to the very lowest notch to save every possible cent, at the expense of self-respect, comfort and health.

Not for an instant should you think it means anything like that.

Thrift means the elimination of UNNECESSARY WASTE — in food cothing, pleasure, business and everything that makes you spend more than is necessary for your convenience, comfort and happiness.

What you can save and put away for future emergencies or opportunities is deposited to advantage in a savings Account.

Help to Build Ships

For emergency government shipbuilding at Hog Island, near Philadelphia, there is

NEEDED

an Industrial Army Corps many thousands strong

Skilled men, and men whose previous training will enable them quickly to become skilled workers on steel ships, as

Erectors—Who set up and brace the steel frame work.

Bolters—Who work with and follow up the erectors, bolting the frame and plates together.

Riveters—Who rivet the plates together with a pneumatic tool.

Reamers—Who use a pneumatic tool to ream holes in plates and frames

Stage Builders—Who erect the scaffolding required while the ship is under construction.

Drillers and Chippers—Who also use pneumatic tools for these operations.

Hand Riggers, Holders-on, Caulkers, Ship Fitters, Pipe Fitters, Hand Riveters, Machinists, Boiler Makers, Oxy-Acetylene Cutters, and Carpenters

Even if you have never been in a shipyard, *apply your experience* now (if not already engaged in a war industry) to the most-needed and best-paid work to be done.

Highest prevailing wages, steady work, good living conditions, good working conditions

Write To-day Stating trade or experience, age and other information about yourself, and ask us what you want to know about this job

AMERICAN INTERNATIONAL SHIPBUILDING CORPORATION
140 NORTH BROAD STREET PHILADELPHIA, PA.

FREE BOOKLET: "Ships To Win the War" tells the story of the Government's shipbuilding program; of Hog Island, the world's greatest shipyard, and of the opportunities it offers good Americans to help their country and themselves. Sent free to anyone interested.

MEN WANTED TO BUILD SHIPS

Thirty-five thousand men it is estimated, will be required to turn out the 120 ships to be built at the Hog Island Yard near Philadelphia by the American International Shipbuilding Corporation To obtain these men an advertising Campaign has been started throughout the Middle West, as it is found that the Atlantic Coast yards are already employing all the available skilled men on Government work.

To secure the enormous number of workers required it will be necessary to take from many related trades, men whose experience with a little training, will enable them to become first class shipyard mechanics. The bolters, riveters reamers, drillers and chippers who form the arger number of workers required on steel ships all use pneumatic tools, the employment of which can be learned in a very short time by a man who hars already acquired facility in manual trades. Two other classes of workmen of which large numbers are needed are the rectors who stt up the frames, and the stage builders. Bridge and structural iron workers and scaffold builders are admirably suited for the two latter classes of shipyard work.

To adapt men to the particular requirements of work on steel boats the Hog Island Yard has established a training school where skilled and unskilled men will be turned into shipbuilders in from a week to six weeks —the length of time depending upon their previous training and the work for which they wish to fit themselves.

Among other arrangements for making life at Hog Island agreeable, work has begun on a recreation building to be under Y. M. C. A. administration. There is an auditorium seating 1200 people a "loafing room" with writing and game tables and bowling alleys, barber, tailor and cobbler shops. One wing of the building which is 206 feet long and 160 feet wide, will be given over to a gymnasium.

Candidates or shipyard work are urged to write to the American International Shipbuilding Corporation, stating their qualifications in order that a roster may be made and men called upon as needed. The purpose is to avoid calling men to Philadelphia before they are actually needed; and before there is provision for proper housing and training. Only those men not now engaged in a war industry are being considered but as to others this urgent call has been sent out; "Even if you have never been in a shipyard, apply your exeprience now to the most needed and best paid work to be done to win the war. The American International Shipbuilding Corporation, Philadelphia, issues a free booklet, "Ships to Win the War,'" which tells the story of the Government shipbuilding program of Hog Island, the world's greatest shipyard, and of the opportunity it offers good Americans to help their country and themselves.

BOY SCOUTS PLAN TO HELP

Will Distribute Literature To Teach War Lessons

The Rev. A. H. Keeney, minister of the First Presbyterian church, makes the following announcement:

Our Boy Scouts are going to distribute to you certain pamphlets from the federal government. They will ask you to promise to read them and pass them on. The first will be President Wilson's Falg Day address.

Thee boys are accredited by the Committee of Public Information and the Church bespeaks for them your considerate attention. The purpose of these pamphlets is to give clean-cut, straight information about the war, the information to come direct from Washington. Each boy will be assigned to certain people who are friendly to him and it becomes that boy's business to see that that man gets the pamphlets. Do your part.

PLAN MUSCLE RE-EDUCATION

Medical School Adds Course for Aid of Maimed Soldiers.

Re-education of muscles, a new branch of medical science developed by the war, will be added to the course at Hahnemann Medical college of Philadelphia. In explaining the idea, which has been tested in England and Canada, Professor Baker said when a man loses his right arm the muscles of the left arm are at first practically useless. Their adaptation to new uses can be greatly expedited by special training.

HOW TO REDUCE

High Cost of Living During These War Times—What Every Woman Can Do.

Look over your old clothes. You can never appreciate how much you can brighten and freshen up your wardrobe until you use Dy-O-La Dye.

Take some of your discarded blouses and dresses, dye them with some of the sixteen different colors of Dy-O-La, change the trimmings a bit and you will be astonished at the result.

Dy-O-La is the modern dye made by skilled chemists who have removed all the difficulty from home dyeing in order that you may get perfect results. Old style dyes require a separate dye for each kind of goods. That makes trouble (as you probably know) for if you get a package for the wrong kind of material the goods are spoiled. You can't make such a mistake with Dy-O-La Dye.

Take some garment that you have grown tired of or that you desire to color the fashionable shade of the moment, look over Dy-O-La Dye color chart at your nearest druggist or storekeeper, select the one that pleases, and follow the printed directions. They will look as if they had just come from the dressmaker.

And remember—the colors will be just as fast and durable as they are beautiful. They won't rub off or bleach out.

Buy it of your nearest druggist or storekeeper, but if they have not the color you want we will send it to you on receipt of ten cents and at th esame time include direction book and color chart.

Dy-O-La Dye is made in Black, [illegible], Navy Blue, Brown, Seal [illegible], Light Green, Dark Green [illegible], Yellow, Orange, Cardinal [illegible] Pink, Purple, Dark Wine [illegible] Gold, Turkey Red and from [illegible] sixteen colors a great variety [illegible] other shades and colors can [illegible]

RUIN IN WAKE OF HUN IN FRANCE

Nothing But Desolation Where Prosperous Villages Smiled.

FLATTEN OUT EVEN SCRAPS

One Can Motor for Hours in Region Now Known as British Front and See Nothing But Ruins of What Used to Be Human Habitations—People Hide in Cellars Lest Boche Shells Find Them Out.

By FREDERIC WILLIAM WILE
of the Vigilantes.

"Somewhere in France"—I never imagined in the wildest flights of fancy about war that to gain an objective under modern battle conditions an army has not to lay waste a position or a village but practically a countryside. You can motor nowadays for hours in the region generally known as the British front, sweep the landscape for miles in every direction, and see nothing but ruins of what used to be human habitations. Your guides point to a scattered dump of brick, mortar, twisted timbers, indiscriminate rubbish of all sorts, lining either side of the roadway along which you are spinning. Here and there at irregular intervals the bare, charred remains of what once were trees stick up from amid the debris and the chaos. There is not a suggestion of a standing wall anywhere, nor even of a door or window-frame, and, of course, no semblance of a roof. There are only cellars into which houses, shops, churches, stores, schools—everything—have been thrown into a crazy holdall of a town-wide grave.

"We are now going through ———," remarks our military chaperone, laconically, and we recognize the name of a place prominent in the fighting during some important "push" weeks or months ago—now wiped from the face of the earth as effectually as if honest French peasants and villagers had never striven through the generations to make a comfortable abode for themselves and theirs. One hopes that the ministering angels permitted them to evacuate the town before their homes were splintered and crushed by 15-inch death-dealers. One wonders how many human remains may still lie buried beneath the wreckage of beams and sandstone. One speculates whether men, women and children who contrived to escape the shells will ever again be able to start life with their dwellings, places of business and cultivated fields mangled and devastated. One is persuaded that stupendous as is the work of destruction wrought by twentieth century warfare, the task of reconstruction will be enormously more gigantic still. Towns that took years to make have been shot to pieces in an hour.

Last Word in Perforation.

I have heard of towns in our own wild and wooly West that have been "shot-up." But ——— is surely the last word in complete and scientific perforation. In July, 1914, it was a happy, thriving community of 35,000 or 40,000 inhabitants, a smiling town, with a wonderful Grand place and a picturesque Petit place, a noble Gothic cathedral and a splendid town hall. Round the Grand place ran a quadrangle of colonnaded houses of surpassing architectural beauty. For the rest, the town was typically French, by which I mean a complex of neat stores and dwelling houses, churches and factories, schools and estaminets (cafes). Today there is not a solitary building of any kind in the whole town that is not entirely or partially wrecked. There is not a single thing of wood, brick or stone that is intact. Not more than 1,500 or 2,000 people live there now, and they must hide in cellars most of the time, lest Boche shells search them out. Death lurks in every street, even though the British have held it for more than two years and have extended their lines beyond it considerably during the past few months. Though they have long since turned the town into scraps of its former self, the Germans seem filled with an insatiable lust to flatten out even the scraps. You walk through the Grand place, hugging close to the walls by order of your army guide, in perpetual danger that a souvenir from Krupps will land at your feet and send fragments of you flying into the ethereal eternal. But you are only living the life that the British garrison and indomitable little civilian rearguard of 1,500 or 2,000 people—mostly old men and women too fragile to seek a safer abode further behind the lines—are living day in and day out.

Museum of German Savagery.

This thought occurred to me while surveying the tumbled-down cathedral and mince-meated town hall and the limitless field of desolation and devastation lying all around them at every turning: Why not keep it just as it is today, a pile of glorious ruins, as a world museum of German savagery? Why not leave it, stricken, battered and maimed in its every structural limb, just as we saw it this day three years after, for the admonition, horror and instruction of a universe which has rushed to arms for the overthrow of liberty's foe? There will be vast libraries of documentary evidence of the Huns' atrocities to educate and terrify posterity. But what are books and descriptions and documentary proofs compared to such an ocular dem-

fire, it may be a rain of shrapnel seeking the same object or of percussion shells endeavoring to blow up the windlass below and set the big bag adrift in a wind blowing across the German lines. Naturally, every precaution in the way of protecting airmen and antiaircraft guns are on hand, but even at that constant vigilance is essential.

Weather Makes Trouble.

Weather conditions also bring difficulties, though not so great as might be expected from a distance. Flying in thunderstorms is, of course, dangerous because of the lightning. Rainstorms appreciably add to the weight of the balloon and thereby decrease its ascending power, while heavy winds put a strain on the cable and considerable wear and tear on the envelope. Clouds are bothersome as a mask for lurking airmen, and fogs, if regular through the atmosphere, render observation very difficult. Nevertheless, so essential is the news gathered by balloonists that they are sent up in all sorts and kinds of weather.

One of the most difficult and yet essential parts of the work is that of concealing the balloon "beds," especially from enemy airmen who like to hunt out the big envelopes when they are lying still on the ground. "Beds" in the lea of a hill which obstructs artillery fire or in the deceptive shadows of a nearby wood offer a preliminary disguise, but beyond that "camoufleurs" are needed to exercise their highest skill.

Plans for all this work are now progressing at a gratifying rate. The American balloon program has been aided by the best and latest developments abroad, while manufacture presents but a few difficulties, owing to the resources of the big American rubber companies. The great need, as with all the air program, is for men of the type and ability needed, men for officers' commissions as observers and men for the enlisted squadrons to do the delicate mechanical work necessary. The balloon section of the Signal corps at Washington has already handled hundreds of letter applications and is ready to furnish the fullest details so that by next spring in France may be increased to a size commensurate with the pressing needs of the American army there.

Requirements for Service.

Men who are being selected as observers, and who will all be commissioned as officers, should have physical endurance, acute vision, an appreciation of distances and localities, and above all a sense of responsibility and thoroughness in keeping with the importance of the work assigned to them. They may be somewhat older than aviators—preferably from twenty-five to thirty-five—and of somewhat less severe physical requirements. A special training is given in winds military observation meteorology and ballooning before a cadet is given his officer's commission and his post above the trenches in France in order that the high standards prevailing throughout the air service generally may be upheld.

For the enlisted men who will form the squadrons, gas-works employees, rope riggers, cordage workers and mechanicians are especially fitter. The number of men trained through their civilian occupations to do this delicate and highly specialized work is limited, indeed, and the difficulty of establishing contact with them is great. Nevertheless, the forces are being brought together with gratifying rapidity and give every promise of becoming an efficient part of the air establishment which is to help the allies blind the German forces in France.

TO CONSERVE FUEL SUPPLY.

No Delivery To Be Made To Amusement Places Under Order Of State Fuel Administrator.

In conformity with a ruling made by the State Fuel Administrator, Fielding L. Wilson, Clark County Administrator, notified coal dealers in this city yesterday that no delivery could be made to any places of amusement, which includes saloons. The order was issued with a view of insuring, so far as possible, a supply of coal for every household that no suffering will result from the present extreme weather.

For violation of the order a fine of $5,000 will be assessed. It is believed most of the places affected by the order have a supply of fuel on hand for immediate use, but it may not last long under present conditions. Considerable fear that the supply will be reached if the present weather continues, exists in Jeffersonville. Many who thought they had ample coal on hand are seeing their pile dwindle away all too rapidly.

Beavers Use Scarecrow.

So troublesome have beavers become to the farmers along the Walla Walla river in Washington that one rancher erected a beaver "scarecrow" which was effective the first night. On the second night the beavers cut down the scarecrow and used it in their dam.

3 Dead, 20 Injured in Crash On Louisville Approach

Indianapolis & Louisville Limited Car Smashed Into Rear Of Local

AT 5:30 O'CLOCK LAST EVENING.

Motorman Blames Weather For Fatal Accident, In Which 3 Were Killed.

Three were killed and 20 persons injured in a rear end collision when an Indianapolis & Louisville Traction car smashed into the rear end of a Louisville & Southern Indiana Traction Company car on the Louisville approach to the Bog Four bridge at Campbell and Geiger streets, Louisville, at 5:40 Monday evening.

The limited car was in charge of Chester Wyman, of Scottsburg, who attributes the crash to the bad weather and he alleges that the brakes would not work properly. The vestibule of the car struck was badly damaged and being crowded as usual, occasioned so many being hurt. The register of fares showed more than 150 passengers.

Six persons fell headlong through the trestle into snow drifts, 65 feet below. Following the accident there was an absolute suspension of traffic. Those most badly injured were taken to the Louisville city hospital for treatment. Many of those on the front car were Louisville people employed at the Quartermaster's Depot here.

The Dead.

George B. Greenwall, 708 Finzer avenue, Louisville. Crushed chest. Employed at Government Depot in Jeffersonville.

Thomas Alvey, Louisville, brother to Ed Alvey.

Lamont Leo Hagan, of 3601 Greenwood avenue, Louisville. Crushed lung and fracture of skull.

Injured At Louisville City Hospital.

Henry Gondolf, 922 East Jefferson street, Louisville. Fractured skull. Condition serious.

J. J. Wulf, 1337 Christy avenue, Louisville. Fractured leg.

A. Domeck, 913 Fehr avenue, Louisville, employed at Government Depot. Fractured pelvis.

William Hill, negro, forearm and both thighs fractured. Condition serious.

Arthur Kalcher, 2335 West Market street, Louisville. Employed at Government Depot. Broken ankle.

George Moore, Commercial Hotel, Louisville, slight injuries on head and chest.

John Eaton, negro, 508 Hancock street, Louisville. Strained back.

Elmer Russell, negro, 637 Center street, Louisville. Broken back. Dying.

F. B. Stokes, 459 Brandeis street, Louisville. Sprained hip.

Mary Butler, negro, Shelbyville, Ky. Sprained back.

George Beck. Slight injuries.

Thomas Newell, 727 East Washington street, Louisville, employe of Government Depot; three ribs crushed, internal injuries, condition serious. Attended by Dr. C. H. Hunt and removed to his home.

Arthur Whitter, employe of the Government Depot, lives at 927 E. Washington street, Louisville; right arm broken. Attended by Dr. Hunt and removed to his home.

Capt. H. A. Schmitt, Quartermaster's Department, bruised.

Lieut. Burke, Quartermaster's Department, bruised.

George Jones, Shelbyville, Ind., back wrenched, arm injured.

Ezra Landrum, 836 East Main street, Louisville, back wrenched.

James Douglass, Moses Anderson and Charles Montfort, all negro laborers employed at Government Depot, were able to leave the hospital after their injuries were dressed.

The rear end of the local car was telescoped up to the partition of the car proper. According to those on the car, the local was proceeding down the incline at a slow speed to enable the conductor to collect all the fares from the 150 or more passengers. The blinding snow had caused ice and snow to gather on the window of the limited and may have obscured the vision of the motorman, preventing a view of the rear of the car in front.

L. B. Dyer was the motorman and W. L. Bollinger, conductor on the Louisville & Southern Indiana Tracion Company car.

A Huge Success

Marks Initial Production Of Red Cross Minstrel At Dream Theater.

BY THE OFFICERS OF Q. M. C.

Inclement Weather Fails To Hold Back An Appreciative Audience.

The opening production of the Red Cross Benefit Minstrel, at the Dream Theater last evening, by the officers' Q. M. C. of the Quartermaster's Depot was inaugurated on the eve of perhaps the wildest night ever experienced in Jeffersonville, yet the spacious auditorium of the Dream was filled completely by a most attentive and appreciative audience, who manifested their pleasure by repeated encores, in fact every member on the program was most generously received.

The minstrel was staged and directed by Lieut. Chas. R. Sherman, who showed much executive ability in the coaching of the participants, all of whom acquitted themselves with credit. Considering that every number was taken by a novice, there was a remarkable absence of stage fright, in fact every part was rendered in expert fashion.

The minstrel will be repeated this evening and if the weather moderates sufficiently to permit of a resumption of car service the Star advises all those anticipating witnessing the show to get an early start. The program follows:

RUNAWAY BOY IS ORDERED RELEASED

Upon receipt of a letter from Arthur L. Yakey, chief of police at Rushville, Ind., Capt. James N. Masters, chief of police at Jeffersonville, turned loose Jasper Peak, age fifteen, who was picked up here a few days ago. He had told the officers that he ran away because he was accused of taking a watch but it appears from the letter from Capt. Yakey that no one is prepared to prosecute any such charge.

ON WATCH FOR AIRPLANE SCOUT

Episode Illustrative of One of Many Diverse Phases of the War.

CLOSE VIGILANCE NECESSARY

Three Whistles; Presto, Battery Camouflaged!—In This Instance Venturesome German Machine Plunged to Earth.

London.—The airplane sentry sat on his solitary mound in the middle of the field in the hot sunshine. His business was to watch for hostile airplanes and warn the battery of their approach. It does not sound a very arduous business, but it is one that requires considerable training if mistakes are to be avoided. Airplanes fly too high nowadays for their distinguishing marks to be discerned, even through the best glasses. The sentry must be able to detect the enemy as soon as he comes in sight, at whatever angle he may happen to be flying; and with so many different types of machine in the air this requires experience and a quick eye.

The experience he had gained by being attached for some days to an antiaircraft battery whose business it was to spot all hostile planes at once; quickness of vision was inbred in him, for he had an Englishman's love of sport. The attitude of watchfulness seemed natural to him as he sat with his glass slung round his neck, his eyes searching the skies all about him.

A couple of hundred yards away, the battery was at the height of its morning toilet. The big guns were uncovered and the limber-gunners and their assistants were performing the morning ablutions of their charges, washing out the bores and scrubbing them with the long-handled piasaba brushes that take four men to push through. The artificer was testing air pressures; the section officers and their layers were busy with the sights. Behind the guns, again, groups of men were laying shells in rows, taking them from the heaps in which they had been dumped by the ammunition column during the night. The whole orchard was a scene of activity, and concealment was out of the question while it lasted.

Sudden Transformation.

Suddenly the airplane sentry stood up, gazed at a distant speck in the sky through his glasses for a few seconds, then blew three blasts upon his whistle. Before the echoes had died away a furious scene-shifting began in the battery. The cleaning squads put down their utensils and drew up the gun-covers, the artificer put his spanners in his pocket and sprang under the nearest tree, where he was joined by the section officers and their assistants. The shell numbers hastily covered their work with leaves and brushwood, and hid themselves under cover of the shed that acted as an ammunition store. In ten seconds, where all the activity had been the sharpest eye would have seen nothing but a compact orchard, with here and there a group of men sheltering under trees, invisible from the air.

The German airplane made a wide sweep over the lines at a great height, the nucleus of a scattered pattern of shrapnel that burst all around it, leaving puffs of smoke that hung like cottonwood against the clear blue of the sky. Then, apparently not liking the look of a couple of British fighters that rose to pursue it, it made off, without having been anywhere near the battery. The airplane sentry blew his whistle once more and the covers were stripped off the guns and the interrupted work went on again.

A Second Invitation.

But the sentry redoubled his vigilance. The battery had made itself exceedingly unpopular with the German; it had recently put several of his guns out of action, besides accounting for a big minenwerfer that had annoyed the infantry in the front line; and it was evident that he meant to discover its position somehow. There were several German balloons up as it was, though a fortunate rise in the ground just hid the battery from their view. Nor was it likely that on a day when visibility was so good the enemy would stop at one casual airplane. It was far more likely that he would send them over at intervals throughout the day.

And so it happened. Before an hour was past a second speck appeared in the sky and again the scene shifting took place on the blast of the whistle. This time the hostile plane was shaping a course that would bring it very nearly over the battery, and the sentry watched it with some concern. On it came, the shrapnel bursting furiously round it, diving and wheeling to disconcert the gunners' aim. It swept over the battery, went straight on for a few minutes, then turned and came back again. Had it seen anything suspicious? The sentry scanned the orchard sharply. Everything was in perfect order, not even a bully-beef tin lay about to betray a sign of human occupation; there were no tracks visible across the grass; every trifle was carefully covered up. It is on details like this that the safety of a battery depends. Upon the slightest hint that anything is hidden in a particular spot the airplane calls up its guns and ranges on the place. And ever afterward one has the uncomfortable feeling that one is suspected and that at any moment a torrent of shell may arrive.

Pursued by Shrapnel.

The plane was perceptibly lower; it almost seemed as if its suspicions must have been aroused. It swept off toward home, pursued by the bursting shrapnel that it dodged as if by a series of miracles. But suddenly it seemed to quiver, its tail went up, and it began to dive steeply. The sentry watched it eagerly through his glasses. Was it a ruse to escape the shell, or was it hit? Slowly the plane began to turn over as it fell, and then, all at once, all control seemed to leave it, and it dropped steadily, turning over and over, the sun flashing from its polished fusilage as it did so. Lower and lower it fell, until only a few hundred feet from the ground, when it turned on its side and crashed swiftly to earth, a mile or so from the battery.

The sentry blew his whistle once more, and the battery returned to its work cheering and whistling. Every one had seen the machine come to earth and was proportionately elated. But, as always, a chivalrous feeling for their fallen enemy was mingled with the men's joy.

"Plucky sportsman, that," said one, and the rest echoed his sentiments.

AIMS OF U. S. MUST BE ACHIEVED—LANSING

Secretary of State Answers Comment of German Press on Wilson's Speech.

New York, Jan. 15.—Secretary of State Robert Lansing, speaking here at the annual dinner of the New York State Bar Association, declared that until the war aims outlined by President Wilson are accepted by the Prussian government the war must go on.

"We are in this war as a republic to the very end," he declared emphatically, and brought the diners to their feet cheering.

Mr. Lansing's address was regarded by his hearers as a reply to the comments in German papers upon President Wilson's address to Congress. He declared the aims we seek must be achieved and will be.

DEATH OF MRS. SCHOLL

Occurred At Home In Henryville, This County.

The death of Mrs. Agnes Scholl occurred at her home in Henryville. She was sixty-nine years old and the widow of John Scholl. Originally she was Miss Agnes Bolly, daughter of Mr. and Mrs. Melchert Bolly.

Mrs. Scholl is survived by four sons and one daughter. Funeral services will be conducted from the Henryville Methodist Episcopal Church Wednesday afternoon.

Farmer Is Pneumonia Victim.

Marshall Chesser, one of the best known farmers in the community in which he lived, passed away Monday at his home near Memphis, after an illness of several days from pneumonia. He succumbed while seated in a chair following a congestive chill. The only survivor is a son, Clark Chesser. The remains will be taken to Shelby County for burial.

MOVE COAL FIRST IS RAILROAD EDICT

Also Order to Keep Locomotives in Running Order, if Possible.

Washington, Jan. 15.—The railroad administration has met the storm conditions prevailing throughout the country with informal instructions to railroads to move coal first wherever possible and to redouble energies to keep locomotives in running order.

Director-General McAdoo has instructed the railway officials to follow the course which local conditions required. The disruption of traffic in the west and south was only temporarily serious, it was pointed out, since congestion could be cleared up quickly when normal weather is restored, but in the east it would take weeks to eliminate the storm's effect. Traffic in the east was reported as moving a little faster although great quantities of coal still were held up.

The railroads' policy of eliminating priority orders was reaffirmed.

NEW TYPHOID SERUM FOUND

Entente Forces in Saloniki Virtually Free of Disease, Say Health Authorities.

London.—It is announced that the health and sanitary condition of the entente forces in Saloniki are better than ever before. There is no epidemic, no plagues and no typhoid.

In the suppression of typhoid use has been made of a new serum based on oil, which has given very satisfactory results. A French army report estimates that for the whole French army the average number of typhoid cases has been reduced to less than thirty.

"WAR BOOK" FOR SCHOOLS

Ready Soon, Says S. L Scott; Saturday Sessions For High Schools

Samuel L. Scott, county superintaendent of schools, has returned from Indianapolis where he attended a meeting of the State Board of Education. At this meeting it was decided that high schools all over the state in city, town and country, should run two Saturdas a month to make up part for lost time. This rule will go into effect as soon as weather conditions permit.

The board has authorized the use of a "War Book" and it is announced that this will be ready in a few days. It will be used in all the schools of the state from th ehigh school. The book covers the causes that led to the United States being in the war and aims to bring the entire question of the war its causes and the principles involved, before the pupils both in their historical and geographical setting.

DEPUTY COLLECTOR OF INTERAL REVENUE

William F. Avery, of Palmyra has been appointed by Isaac F. Strouse Collector of Internal Revnue for the Seventh district located at Terre Haute to the position of deputy internal revenue collector for the Fifth division. Mr. Avery will have his headquarters in the Federal building in New Albany. His territory will include Clark, Floyd, Scott, Washington; Orange, Crawford and Harrison counties.

HAD EARS FROZEN IN LONG WALK

Morris Watson, assistant ticket agent for the Pennsylvania lines at the company's Fourth avenue office in Louisville had both ears badly frozen Saturday night while walking to his home in Port Fulton from the city, a distance of a mile and a half. He was complelled to walk because no cars were running.

SHOVEL SNOW FROM SIDEWALK

Ordinance Requires It; Auto Truck And Wagon Owners To Haul Coal

Capt. James N. Masters chief of police has been instructed by the Police Board to see that the ordinance requiring merchants and residents of the city to sweep snow from the front of their premises be complied with.

The suggestion is made that owners of auto trucks and horses and wagons volunteer their use to assist coal dealers in supplying the public with coal during this bad spell. Drivers for coal wagons are also needed.

SAYS FRYING PAN MUST GO

Domestic Science Expert Says This Method of Cooking Food Is Wasteful.

Eugene, Ore.—"The frying pan must go," said Miss Lillian Tingle, head of the household arts department of the University of Oregon, before her class on the conservation of food.

"It is a utensil of the pioneer, who had plenty of food to prepare in the quickest and simplest way. The people of this country always have been wasteful, and unless we reduce materially our consumption of meat we shall face a meat famine.

"French people cook in a casserole, thus saving every bit of the nourishment of the meat. We could well learn from them in this matter."

FEET.

Feet are the terminals of the human system, and cause about as much trouble to their owners as any other kind of transportation terminals.

Feet were made by turning up the lower end of the human frame, thus enabling man to stand without a prop after he has discovered the knack. They consist of a heel, an instep and five toes, most of which are perpetually insurging against the administration. A foot is harder to keep happy and contented with its surroundings than a girl who has just returned from college, full of higher education.

Moreover, very few toes get along well together. They have no *esprit de corps*, so to speak. There is continual friction between them, and this leads to so much bad feeling and so many sore spots, that many a tortured proprietor of ten belligerent toes has looked with sad envy on a wooden-legged friend. Until some international court of arbitration is formed to settle the claims of rival toes, which insist on occupying the same place at the same time, man cannot hope for complete peace and happiness.

Feet are very retiring, seldom appearing in public. They live in shoes, boots and slippers. This is one of the great sources of indignation among feet. The man who will spend three days in having his shoulders fitted perfectly to a new coat, will leave the job of fitting his feet with shoes to a machine in Lynn, Mass., which has never seen them and has no interest in them whatever.

Until the invention of the bicycle, the automobile, the street car, and the elevator, feet were used extensively for walking. Now, however, they are more or less superfluous. A great many men leave them on their desks all day and on the mantelpiece most of the evening.

Owing to their great distance from the central heating station, it is very difficult to keep feet properly heated in cold weather. Frigid feet are one of the curses of mankind. They are not only painful, but have a sad effect upon the brain. If it had not been for a national attack of cold feet, which swept over this country more than half a century ago, the northern boundaries of the United States would now extend almost to Hudson's Bay.

In sizes varying from number one to nineteen.

Feet come in sizes varying from number one on a double A last to number nineteen, standard gauge. Small feet are generally preferred, though they are not so useful. In China they are so greatly esteemed that Chinese women wear their corsets on their feet. There has been much unprofitable discussion as to where the largest feet can be found, but it can be safely said that as a rule, they belong to the most truthful women.

MARRY THE SOLDIER

"Take Home a Soldier" Movement Responsible for Double Wedding.

Who started the "Take-Home-a-Soldier" movement?

Sergt. Clarence E. War and James E. Dozier of Company C. Balloon division, Signal corps, at Fort Omaha, accuse D. Cupid.

Last January they were invited to eat Sunday dinner at a home near the fort.

There they met Miss Thelma Fancher and Miss Clara Palmer, both of Fremont, Neb.

Miss Palmer and Miss Fancher appeared at the marriage license clerk's office on important business the other day. The same night, Sergeants Dozier and War asked for a leave of absence.

A minister performed the ceremonies and the newlyweds went to a show. Then the husbands had to return to their posts at Fort Omaha and the girls went back to Fremont.

"They're coming back when we get a longer leave of absence," declares Sergeant War, hopefully.

FINE TONIC FOR WOMEN

Is What This Lady Thinks About Cardui. It Made Her Well.

Springfield, Mo.—Mrs. Alice Fletcher, of this address, writes: "I cannot say too much in praise of Cardui, it has done so much for me. Shortly after my marriage, 14 years ago, I suffered terribly...with my back paining me, and my limbs pained me so bad. And also I had such awful bearing-down pains, and I became very weak and could not hardly do my work...

I went to my sister-in-law and she told me to get Cardui. So I took one bottle and it helped me so much, I got another bottle, and by the time I had taken the two bottles I was a well woman. I have never been troubled any more...I keep Cardui in my home...for I think it is a fine tonic for a woman raising a family.

I always take one or two bottles before and after my..., for it strengthens me so, and has such good effects on my nervous system."

Weak women, worn out with the work and care of the home, need a tonic, strength-building medicine, like Cardui, the woman's tonic. NCB-9

The Happy Man.

It is a good thing to start out a-laughing of a Monday, keep laughing on Tuesday, Wednesday and Thursday, be careful how you spend Friday night, and then make Saturday the merriest day of the week. You will find plenty of company, for the world loves a happy [illegible] Charles Battell Loomis.

Earth Grows Slowly Now.

In the early days of its history the earth grew rapidly by the addition of meteoric matter. It is still growing in the same manner, scientists say, though scarcely to an appreciable extent, for the mass of meteoric matter added yearly is reckoned to be only 20,000 tons. In the course of ages the larger planets have swept up practically all the fragments of the original disruption, and the only available source of supply of meteoric matter seems to be brought by comets.

POET DECORATED MANY TIMES FOR BRAVERY

Photo From Western Newspaper Union

Gabriel D'Annunzio, eminent poet, author and playwright, has won great distinction as a member of the Italian aviation corps. He has been cited for bravery several times and has frequently inspired the Italian army to greater efforts by his valor. Recently he was given the military cross by King George of Great Britain and a silver medal by the king of Montenegro. D'Annunzio entered the service as a lieutenant, but was promoted rapidly. He lost the sight of one eye in an airplane accident last year.

SPAIN KEEPS ITS OLIVE OIL

Recent Royal Decree Forbids Export of This Product.

A recent royal decree forbids exports from Spain of olive oil, of which large quantities formerly were shipped both directly and via France and Italy to the United States and other foreign markets from Barcelona and Seville. In southern Spain and in Catalonia the olive oil industry has been an important source of revenue to the growers, who exported to foreign refineries, whence the oil was often shipped to the United States as of really non-Spanish production. Recently the direct exports from Spain to the United States have increased considerably.

Corn Needs Little Cultivation.

In Illinois farmers found that once the corn roots were fully established in the soil, their attraction for the moisture was so great that very little moisture escaped. The only cultivation they found valuable was to keep down the weeds, which used up the moisture. Three-fourths of the corn roots do not go deep, but establish themselves in the cultivated soil, and the less they are disturbed at their meals the better crop results are attained.

Chance to Get Away.

Tom's uncle asked him which he was going to join, [illegible] or the navy. Tom said, "[illegible]?" and the uncle explained [illegible] were. Tom thought a moment [illegible] said, "I think I'll join the army, for I can run but I can't swim."

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher.

The National Capital.

The site of Washington city as the national capital was selected in 1791, the corner stone of the capitol was laid in 1793 and congress met there for the first time in November, 1800. Prior to that congress had met at Philadelphia, New York, Baltimore, Lancaster, York, Princeton, Annapolis and Trenton.

Name Your Ailment

The descriptions are so clear, plain and simpe, that anyone can name their aiment by reading Dr. Humphreys' Manual, a compact little Medical Volume that fits the side pocket, mailed free on request, address; Humphreys' Homeopathic Medicine Co., 156 William St., New York.

Preparing for a Big Dog.

A nouveau riche who was noted for his misuse of the king's English is quoted by an exchange as dilating on the cost of the kennels for his new country place in these words: "It's just throwing money into the fire. We haven't an animal on the place worth $2; but the way those architects are fitting up those confounded kennels anyone would think that they expected them to be occupied by the Dog of Venice himself!"

Perfecting Fireproof Paper.

Documents written on paper made from asbestos fiber, with inks prepared from the nitrates of iron and cobalt, have withstood a red heat for two hours without being damaged in any way. No damage resulted until the intensity of the heat was increased considerably and the document was exposed in it for ten hours. It is expected that further experimentation and study will result in the perfection of a paper and ink practically indestructible by fire.

After such splendid results with "Seventy-seven" send for a free copy of Dr. Humphreys' Manual of all diseases and dip into its wealth of information on domestic practice, describing in simple language the maladies proper for a layman to treat. Humphreys' Homeo. Medicine Co., 156 William Street, New York.

Worry Greatest Slave Master.

The moment I fret about a thing I am its slave instead of its master. And there is no slave master in the world like worry. Another master may grudge the sleeping hour, but he must give you time for sleep. Another master may grudge the dinner hour, but sometime you must eat. But worry will work you 24 hours a day and spoil your appetite in the bargain.—Mark Guy Pearse.

PARKER'S HAIR BALSAM

A toilet preparation of merit.
Helps to eradicate dandruff.
For Restoring Color and Beauty to Gray or Faded Hair.
50c. and $1.00 at Druggists.

What Was His Nationality?

When a building laborer in New York was injured, the policeman who went with the ambulance reported: "It's nothing; a man lost his balance and fell over a Limerick limousine." The lieutenant at the station wondered all the afternoon, until the policeman came in off his post and explained that the man fell over a wheelbarrow. Maybe you can guess the policeman's ancestry.

If Mothers Only Knew

Mother Gray's Sweet Powders for Children relieve Feverishness, Headache, Bad Stomach, Teething Disorders, move and regulate the Bowels and destroy worms. They break up colds in 24 hours. Used by mothers for 30 years. All Druggists, 25c. Sample Free. Address, Mother Gray Co., Le Roy, N. Y.

Little of Both.

"What is that dog—a pointer or a setter?" "He's a pointer when there's a beefsteak near, and a setter when we're out looking for game."—Life.

Eighth of Hebrew Prophets.

Habakkuk was eighth in order of the minor Hebrew prophets. The strophical arrangement of the denunciation of the Chaldeans is a remarkable feature of his prophecy. The whole concludes with a magnificent psalm in chapter 3, a composition that has been considered unrivaled for boldness of conception, sublimity of thought and majesty of diction.

YOU NEEDN'T

You needn't keep on feeling distressed after eating, nor belching nor experiencing nausea between meals.

In other words, you needn't ktep on being dyspeptic, and you pepsia—it strengthens and tones the stomach, perfects digestion, certainly shouldn't.

Hood's Sarsaparilla cures dys- reates a normal appetite, and builds up the whole system.

Adv No. 1

Advertising Pays.

A woman of uncertain age required the services of a page-boy, and inserted in the local paper an advertisement headed: "Youth wanted." One of her friends, with little humor and less taste, sent her a bottle of a celebrated wrinkle-remover, a pot of fairy bloom, a set of false teeth, and a flaxen wig!—London Tit-Bits.

BEN DOOLITTLE,

437 SPRING STREET

Well Heeled.

The shipwrecked sailor sat disconsolate on a lonely raft in the middle of the trackless ocean. In his hands he held the last remnants of a pair of shoes. "Though reduced to the lowest extremities and completely surrounded by water," he croaked hoarsely, "I can still take to my heels." With these words he made his semiweekly meal and spent the remainder of the afternoon picking the nails out of his teeth.

SAVING MONEY

Everytime thrift or saving money is mentioned some people get the idea that it means cutting down expenses to the very lowest notch to save every possible cent, at the expense of self-respect, comfort and health.

Not for an instant should you think it means anything like that.

Thrift means the elimination of **UNNECESSARY WASTE** — in food cothing, pleasure, business and everything that makes you spend more than is necessary for your convenience, comfort and happiness.

What you can save and put away for future emergencies or opportunities is deposited to advantage in a savings Account.

Help to Build Ships

For emergency government shipbuilding at Hog Island, near Philadelphia, there is

NEEDED

an Industrial Army Corps many thousands strong

Skilled men, and men whose previous training will enable them quickly to become skilled workers on steel ships, as

Erectors—
Who set up and brace the steel frame work.

Bolters—
Who work with and follow up the erectors, bolting the frame and plates together.

Riveters—
Who rivet the plates together with a pneumatic tool.

Reamers—
Who use a pneumatic tool to ream holes in plates and frames

Stage Builders—
Who erect the scaffolding required while the ship is under construction.

Drillers and Chippers—
Who also use pneumatic tools for these operations.

Hand Riggers, Holders-on, Caulkers, Ship Fitters, Pipe Fitters, Hand Riveters, Machinists, Boiler Makers, Oxy-Acetylene Cutters, and Carpenters

Even if you have never been in a shipyard, *apply your experience* now (if not already engaged in a war industry) to the most-needed and best-paid work to be done.

Highest prevailing wages, steady work, good living conditions, good working conditions

Write To-day Stating trade or experience, age and other information about yourself, and ask us what you want to know about this job

AMERICAN INTERNATIONAL SHIPBUILDING CORPORATION
140 NORTH BROAD STREET PHILADELPHIA, PA.

FREE BOOKLET: "Ships To Win the War" tells the story of the Government's shipbuilding program; of Hog Island, the world's greatest shipyard, and of the opportunities it offers good Americans to help their country and themselves. Sent free to anyone interested.

MEN WANTED TO BUILD SHIPS

Thirty-five thousand men it is estimated, will be required to turn out the 120 ships to be built at the Hog Island Yard near Philadelphia by the American International Shipbuilding Corporation To obtain these men an advertising Campaign has been started throughout the Middle West, as it is found that the Atlantic Coast yards are already employing all the available skilled men on Government work.

To secure the enormous number of workers required it will be necessary to take from many related trades, men whose experience with a little training, will enable them to become first class shipyard mechanics. The bolters, riveters reamers, drillers and chippers who form the arger number of workers required on steel ships all use pneumatic tools, the employment of which can be learned in a very short time by a man who hars already acquired facility in manual trades. Two other classes of workmen of which large numbers are needed are the rectors who stt up the frames, and the stage builders. Bridge and structural iron workers and scaffold builders are admirably suited for the two latter classes of shipyard work.

To adapt men to the particular requirements of work on steel boats the Hog Island Yard has established a training school where skilled and unskilled men will be turned into shipbuilders in from a week to six weeks —the length of time depending upon their previous training and the work for which they wish to fit themselves.

Among other arrangements for making life at Hog Island agreeable, work has begun on a recreation building to be under Y. M. C. A. administration. There is an auditorium seating 1200 people a "loafiing room" with writing and game tables and bowling alleys, barber, tailor and cobbler shops. One wing of the building which is 206 feet long and 160 feet wide, will be given over to a gymnasium.

Candidates or shipyard work are urged to write to the American International Shipbuilding Corporation, stating their qualifications in order that a roster may be made and men called upon as needed. The purpose is to avoid calling men to Philadelphia before they are actually needed, and before there is provision for proper housing and training. Only those men not now engaged in a war industry are being considered but as to others this urgent call has been sent out; "Even if you have never been in a shipyard, apply your exeprience now to the most needed and best paid work to be done to win the war. The American International Shipbuilding Corporation, Philadelphia, issues a free booklet, "Ships to Win the War,'" which tells the story of the Government shipbuilding program of Hog Island, the world's greatest shipyard, and of the opportunity it offers good Americans to help their country and themselves.

BOY SCOUTS PLAN TO HELP

Will Distribute Literature To Teach War Lessons

The Rev. A. H. Keeney, minister of, the First Presbyterian church, makes the following announcement:

Our Boy Scouts are going to distribute to you certain pamphlets from the federal government. They will ask you to promise to read them and pass them on. The first will be President Wilson's Falg Day address.

Thee boys are accredited by the Committee of Public Information and the Church bespeaks for them your considerate attention. The purpose of these pamphlets is to give clean-cut, straight information about the war, the information to come direct from Washington. Each boy will be assigned to certain people who are friendly to him and it becomes that boy's business to see that that man gets the pamphlets. Do your part.

PLAN MUSCLE RE-EDUCATION

Medical School Adds Course for Aid of Maimed Soldiers.

Re-education of muscles, a new branch of medical science developed by the war, will be added to the course at Hahnemann Medical college of Philadelphia. In explaining the idea, which has been tested in England and Canada, Professor Baker said when a man loses his right arm the muscles of the left arm are at first practically useless. Their adaptation to new uses can be greatly expedited by special training.

FUN! JOY! MORE FUN THEN SOME

The Officers Minstrel Show Was A Complete Success

HIT OF THE SEASON

It Was The Best Two Hours Entertainment Ever Held In Jeffersonville

The Officers Minstrel Show given at the Dream Theatre last evening leaves in the writers mind only one regret, and that is the fact that the entire city was not able to be present to witness he excellent performance given by the Officers of the Quartermaster Depot.

From the rise of the first curtain until the finale, every moment was taken up by amusing incidents and songs of excellent character, probably never before has the city of Jeffersonville witnessed such a gorgeously staged production as that given by the Officers.

Practically everything used in the entire production was built especially and built in keeping with the general atmosphere of the Minstrel, in fact, remarks were heard comparing the performance with productions given by professional talent.

Too much credit cannot be given the various individuals who so ably rendered their respective parts.

As Interlocutor Capt. A. F. Volgenau was in command at all times, his ease and poise added wonderfully to the success of the first part, his introductions were clever to the extreme, showing the great time and patience that have been taken in perfecting his part.

Lieut. Lefkovitz in his interpertation of that popular song "All Bound round by the Mason Dixie line' was one of the features of the evening. Lieut. Lefovitz possesses an excellent voice and his impersonations were most enjoyable.

Lieut. Wright augmented by two small puppies kept the audience before him in his renderition of that popular tune "Steppin' on the Puppies Tail.".

It remained for Litu. Baujan to captivate the audience with his clever song "Shake Hands with Mr. Jazz." Lieut. Baujan deserves especial credit for the ease in which he rendered this selection.

For the man who desires the care of a nurse and who does not care to get well Lieut. Shafer gave an exhibition of enthusiasm in his song "I don't want to Get Well" which will linger for many days in the minds of those who heard him.

Probably the most timeful selection on the program, was the song rendered by Lieut. Weakley. With the entire chorus smoking the audience felt itself enveloped in the atmosphere of far off dreamy Egypt.

One of the best numbers on the evening's program was the singing and dancing act given by Mr Hespin, who has had considerable experience in Mnistrel work and really displayed himself as a clever comedian, not only was his singing and dancing excellent but his interpertation of a negro character and his ability to put his jokes and wittisms across were especially note worthy.

The prologue of the Minstrel given by Lieut. Colston was extremely well done, and it must be said that his interpertation of "My Lady Innocent" was admirable.

The olio numbers were without exception very commendable, Lieuts. Pine and Bannerman in a black face comedy sketch entitled "Foreman and Fireman" furnished an excellent brand of comedy dialogue, they were warmly commended for their efforts.

The pianologue by Lieut. Harold Sweet could not be improved upon, besides being a gifted musician Lieut. Sweet, with the aid of several excellent songs of comic nature thereby pleased his audience during his entire act.

For those who witnessed the performance of Rio Grande some weeks ago, the after piece of last evening's performance was amusing from start to finish, so carefully and so skillfully had the various lines and scenes been burlesqued that the entire audience was kept amused from the very first.

Lieut. Longfellow as hero impersonated the effimine role in an excellent manner and the "Dirty-Villian" played by Lieut. Richardson would do justice to the usual brand of ten, twenty and thirty melodrama.

The beautiful Spanish maiden, inlea gue with the villian was none other than Lieut. Livengood and his burlesque of the Spanish dancer brought shrieks o delight from the audience.

Lieut. Foland in the character of the Colonel played his part exceedingly well and his last line "Lets have the Curtain Please" provoked much amusement.

Lieut. Colston as the heroine made a charming impression as a

(Continued on Page 2)

COAL AND COLD ARE PROBLEMS

Fuel Administrator Unable To Find Coal To Appropriate

HARDLY ANY IN CITY

Traffic Conditions Slowly Improve; Ferry Makes Trips

Fielding L. Wilson, county fuel administrator, made the effort Wednesday to locate some commercial coal which he might appropriate under the instructions of the federal feul administrator for the state, Evans Woollen, for the relief of domestic consumers. Hardly any could be found however, only the railroad, the government depot and the Indiana Reformatory having any coal on hand and these no more than their immediate needs.

Volunteers came to the aid of the coal dealers to assist in distributing coal and stocks on hand are practically depleted and with the present rail conditions there is no hope of more for several days as the railroads cannot move the freight at all. Coal has been ordered here by the fuel administrator and will arrive as soon as conditions premit it to move.

Traffic conditions show some improvement. There was mail in Tuesday night from the north but none out until Wednesday morning and another delivery from the north and east arrived about noon. nterurban cars are running again erratically but som kind of service is being given. Dinkey service by the Pennsylvania has been the chief means of communication with New Albany and Louisville. The ferry

DISTRICT MEETING OF RED MEN

Sixteen Arranged; Clark County Tribes Go To Salem On January 29

BIG MASONIC DOINGS

Knights Of Pythias Also Arrange District Meeting Thursday

The first of sixteen district meetings arranged by the Great Council of Indiana, Improved Order of Red Men, will be held at Salem, Washington county, on January 29 and George McCoy of Salem will be chairman in charge. The tribes in Clark county have been assigned to this district and also those of Floyd, Washington, Orange, Scott, Crawford and Harrison counties. Other district meetings will follow at short intervals, twelve of them falling within the month of February.

The meeting at Salem, and those to follow, will be attended zy W. H. Eichhorn, of Bluffton, Great Senior Sagamore, who will exemplify the unwritten work and will answer questions concerning it, and by James S. Wright, Great Sachem, who will answer questions of law. At an afternoon session there will be reports from the tribes of the district and the Great Council degree will be conferred by the best team in the district. Prizs are offered for the tribes and individual members.

The other distroct meetings will be held at the following places and on the dates named: Columbus, January 30; Linton, February 1; Rushville, February 5; Marioi, February 7; Kokomo, February 8; Mishawaka, February 12; Columbia City February 13; Rensselaer, February 18; Osford, February 19; Newcastle, February 21 Danville February 22; Clinton February 27; Lebanon, February 28; Oakland City, March 8; Vevay, May 2.

MASONIC INSPECTION

Will Be Held For Three Lodges In This City Friday

Friday will be a big day for the Masons of Clerk county, the oicasion being a visit from Herbert Graham, Elkhart, Grand inspector of the Indiana Grand Lodge of Masons. Three lodges will be inspected—Blazing Star lodge of Charlestown; Jeffersonville lodge No. 340, and Clark lodge No. 40, of Jeffersonville. Each lodge will confer one degree in the order named. The sessions will be hled at Masonic hall in this city and will begin at 1:30 p. m. After an interlude for supper the work will be resumed at a night session.

* * * *

KNIGHTS OF PYTHIAS

District Meeting To Be Held Thursday At New Albany; Grand Officers Coming

The annual district meeting of the Knights of Pythias will be held at Castle Hall, Vincennes and Oak streets, New Albany next Thursday. Sessions will be held afternoon and night. The district embraces the counties of Floyd, Clark and Washington, including lodges at New Albany, Jeffersonville, Salem and a number of smaller towns.

A number of officers of the Indiana grand lodge, Knights of Pythias, are expected including Frank J. Heller, grand chancellor Elbert A. Brown, grand keeper o records and seals and Harvey M. Thompson, grand inner guard In the afternoon a social session will be held, and the session at night will be devoted to the exemplification of the degrees of the order and other secret work.

DEATH OF MANY AGED RECORDED

James Tucker Was Boss Shipbuilder At Howards For Many Years

MRS. WHEELER DEAD

James Prather, Native Of Utica Township, DiDes In Louisville

James Tucker, aged 70, for many years employed as a boss carpenter at Howards shipyards, died early Wednesdap, after a long illness, at the home of his sister, Mrs. Catherine Allen, 811 East Chestnut street. Mr. Tucker was seventy years old last August and had resided here most of his life but also for some years at Madison where he worked for the same company.

Mr. Tucker was born in Woodford county, Ky. His wife is dead and he is survived, besides his sister, by a son and two daughetrs, Edward Tucker, of Memphis Tenn., and Mrs. Jennie Poole and Miss Ruth Tucker of the Utica pike. He was a member of Madison lodge of Odd Fellows but affiliated here with Jefferson lodge and he was also a member of the Knights of Pythias.

* * * *

Death Of James A. Prather

James A. Prather, age seventy-nine, a native and life-long resident of Clark county, died early Wednesday at the home of his daughter, Mrs. Nora Henry, wife of John Henry, 219 Pope street, Louisville where the body will remain until the weather moderates sufficiently to permit it to be taken to his home near Watson.

Mr. Prather was a son of Thomas F. Prather and belonged to one of the oldest established families of Utica township. The most aged representative of the amily is his aunt, Mrs. Margaret Patrick, who is past ninety years of age. Mr. Prather is survived by his widow, his daughter and a son, Thomas Prather of Utica township; also by one sister, Mrs. E. T. Sage of this city who is the last survivor of that generation. Mr. Prather was widely known through Utica township.

* * * *

Death Of Mrs. Wheeler

Mrs. Mary F. Wheeler, daughter of Eli McCauley who many years ago was clerk of Clark county, died of pneumonia in Washington, D. C., Monday afternoon after an illness of only two days. The body has been taken to Ann Arbor, Mich., Mrs. Wheeler's old home.

News of the death of Mrs. Wheeler was contained in telegrame received by her brother, Thomas B. McCauley and her nieces, Miss Fannie B. McCauley and Mrs. Claud W. Perry, all of Louisville.

Mrs. Wheeler as Miss McCauley, was one of the first women school teachers of Jeffersonville, having begun teaching when only 15 years old. Since the death of her husband J. M. Wheeler years ago, Mrs. Wheeler had been spending much of her time in Washington.

ANSWER OF CITY FILED TO PETITION

Will Resist Request Of Traction Company To Increase City Fares

AND CURTAIL SERVICE

Two Paragraphs Of Answer Filed With Public eSrvice Commission

Wimer T. Fox, city attorney of Jeffersonville, has filed with the Public Service Commission of Indiana an answer to the petition of the Louisville & Southern Indiana Traction Company. A first paragraph of answer is to that part of the petition which asks an increase in passenger car fares in the city, by abolishing the rate of six tickets for a quarter and by increasing the school ticket rate. In the answer it is set forth that the business of the company has been much increased during 1917 to a greater degree than increase in cost of labor and material; that the street car railway is a part of the general system of the company connecting Jeffersonville, Louivville and New Albany and that th eyear 1917 has been the most profitable in the history of the company.

The second paragraph of answer is to that part of the petition which asks authority to disconinue service by city car on Spring street from Court avenue north to the city limits on the ground the district is served by the interurban cars. Mr. Fox sets forth in response that the interurban cars give only a thirty-minute servie; that they carry the regular New Albany travel and are much overcrowded thereby; that they do not make close connection in time with city cars at Court avenue; that the line which the company wishes to abanon runs to the site of the $25,000 passenger depot to be built this year by the Pennsylvania lines; that the abandonment of transfers prayed for by the company and the failure to make good time connection would make it cost ten cents and take forty-five minutes for residents in parts of the city to reach the Pennsylvania station; that the line is a part of a general system and even if in itesl unprofitable should not be abandoned while the company retains the profitable parts of its corporate franchise. It is also asserted that the company, without authority of the commission, has since December 7, 1917, actually abandoned the service in question.

Will Fight Bond Issue

The legal department of the city is also preparing to resist the petition of the United Gas & Electric Company to the Public Service Commission for authority to issue $300 000 six per cent bonds to take up floating indebtedness of that corporation.

CORONER TO INVESTIGATE COLLISION

Louisville Official Will Probe Disastrous Wreck Next Week

BLAME IT ON SNOW

W. L. Foreman Explains Signal System; Says Car Not Stopped

Contrary to the belief of many local authorities have no jurisdiction regarding the interurban wreck of Monday night though it may lead, on account of the large number of Government depot men hurt, to increased efforts of the Quartermaster's Department to obtain better service.

The collision betwen the two traction cars which cost three lives and caused injury to more than a score of persons, will be investigated as early as possible next week by Coroner Roy L. Carter of Louisville. The crews of both electric cars and officials of the interlocking companies, besides a number of passengers will be summoned.

Walter L. Foreman, trainmaster or the Louisville & Southern Indiana Traction Company and the Louisville & Northern Indiana Traction & Lighting Company, said that as yet he had not ben notified by his superiors of any contemplated investigation by the company, but believed that one would necessarily take place.

Mr. Foreman said that from information obtained by him he was positive the local had not come to a full stop. At this point before coming down the incline, cars always slow down and turn off the current, he said, in order to take the incline as easy as possible.

In referring to the green signal to proceed, Mr. Foreman pointed out that it takes less than three minutes for a car to celar the bridge proper. The signal is used mainly to protect trains of every description from another frain approaching in the opposite direction. He said that electric cars on practically every road in the country often run a short distance behind another electric car, es on the city streets, where the distance is sometimes only a few yards.

"But for the weather conditions" concluded Mr. Foreman "it would have been easy for the rear electric car to have seen the car ahead and slowed down or stopped."

All the victims of the wreck are doing nicely at the city hospital or at their homes, and Elmer Russell, the negro who is soffering with a broken back and Henry Gondolf of 922 East Jefferson street who has a fractured skull are the only ones in imminent danger.

* * * *

Among The Injured

I. M. Dodson, fireman on the Pennsylvania lines, was among those who were injured in the interurban smash on Monday night. He was a passenger on the Scottsburg car which he boarded in this city on his way to report for duty. After the accident he was able to get to Tenth street station but found himself unequal to work and go home on the late Pennsylvania special and later was attended by Dr. C. F. C. Hancock of this city. He is cinfined to his home at 801 East Seventh street suffering with a badly wrenched back and possibly other injuries.

PAROLE BOARD ACTS; FIFTY FOUR IN LUCK

Unusual liberality was shown by the Board of Trustees of the Indiana Reformatory at the January session just closed when seventyfive per cent of the men examined by the board were authorized for a parole insctead of the usual proportion of fifty per cent and requently less. Out of seventy examined fifty-four will go out in a month's time to jobs care fully selected for them.

HOW TO REDUCE

High Cost of Living During These War Times—What Every Woman Can Do.

Look over your old clothes. You can never appreciate how much you can brighten and freshen up your wardrobe until you use Dy-O-La Dye.

Take some of your discarded blouses and dresses, dye them with some of the sixteen different colors of Dy-O-La, change the trimmings a bit and you will be astonished at the result.

Dy-O-La is the modern dye made by skilled chemists who have removed all the difficulty from home dyeing in order that you may get perfect results. Old style dyes require a separate dye for each kind of goods. That makes trouble (as you probably know) for if you get a package for the wrong kind of material the goods are spoiled. You can't make such a mistake with Dy-O-La Dye.

Take some garment that you have grown tired of or that you desire to color the fashionable shade of the moment, look over Dy-O-La Dye color chart at your nearest druggist or storekeeper, select the one that pleases, and follow the printed directions. They will look as if they had just come from the dressmaker.

And remember—the colors will be just as fast and durable as they are beautiful. They won't rub off or bleach out.

Buy it of your nearest druggist or storekeeper, but if they have not the color you want we will send it to you on receipt of ten cents and at the same time include direction book and color chart.

Dy-O-La Dye is made in **Black, Blue, Navy Blue, Brown, Seal Brown, Light Green, Dark Green Scarlet, Yellow, Orange, Cardinal Red, Pink, Purple, Dark Wine Old Gold, Turkey Red** and from these sixteen colors a great variety of other shades and colors can be made.

Dy-O-La Dye Company,
700 Sixth Ave., Des Moines, Iowa

SAYS FRYING PAN MUST GO

Domestic Science Expert Says This Method of Cooking Food Is Wasteful.

Eugene, Ore.—"The frying pan must go," said Miss Lillian Tingle, head of the household arts department of the University of Oregon, before her class on the conservation of food.

"It is a utensil of the pioneer, who had plenty of food to prepare in the quickest and simplest way. The people of this country always have been wasteful, and unless we reduce materially our consumption of meat we shall face a meat famine.

"French people cook in a casserole, thus saving every bit of the nourishment of the meat. We could well learn from them in this matter."

Shake Into Your Shoes
Allen's Foot-Ease(the antiseptic powder for painful, smarting tender, nervous feet. It takes the sting out of corns and bunions. Over 100,000 packages are being used by he American, French and British troops at the front. Sold everywhere 25c.

pretty miss and acted the part very becomingly.

For those who did not attend, it may be said that Capt. Milligan was a dispenser of cause for laughter during his entire six minutes. He would do credit to the "big time" circuit.

The staging and production of the Minstrel was under the able hand of Lieut. Chas. R. Sherman and much credit is due him, not only for his work in producing the Minstrel but the part he played besides his rendrition of "I wasn't scared but I thot I better go" had it been a lottery ticket selling sporty coon his dialect could not have been improved on.

The management of the production was in charge of Lieut. Jean A. Crandall.

LAWRENCE-DELLINGER

Wedding Wednesday Afternoon At Sheriff's Residence

Miss Edna Rachel Lawrence, daughter of Charles Lawrence of Charlestown township and John Sherman Dellinger, son of Sheriff John Dellinger, were married at 1:30 Wednesday afternoon by the Rev. J. M. Vawter at the sheriff's residence in Jeffersonville. A number of relatives and friends attended the wedding which was followed by dinner. Mr and Mrs. Dellinger will reside on the Dellinger home place, Jeffersonville township.

SELLERSBURG WOMEN DEAD

Widow Of Leander McCorCormick And Mrs. Sophia Barnes

Mrs. Catherine Gwin McCormack age about 77, widow of Leander C. McCormack a former trustee of Silver Creek township and an old soldier, died Tuesday night at her home at Sellersburg where she had lived most of her life. She was married January 11, 1859, to her late husband who died seventeen years ago. A large family survives including three sons and four daughters: Robert McCormack, of Terre Haute; Thomas McCormack of Anderson Ind; Justice McCormack, Alton, Ill; Mrs. George Hostettler Sellersburg; Miss Mattie McCormack who lived with her mother and two married daughters at Indianapolis. Mrs. McCormack belonged to the Methodist church.

Mrs. Sophia Barnes, age 65, wife of Asa Barnes of Sellersburg died Tuesday night at St. Edward's hospital, New Albany. The body will be taken to Sellersburg for burial. Mrs. Barnes was a member of the Sellersburg Reformed church. She had no children.

(Continued from Page 1)

boat resumed running Wednesday though delayed by the heavy fog.

Roads approavching the city are almost impassable. Messrs. E. M. Coots' Sons attempted to send a sleigh to Watson with a casket for a dead negro when other means of conveyance failed but the rig was upset in a snowdrift and the attempt was abandoned until laer.

Dairymen are unable to reach town. One cast was narrated in which ninety gallons of milk had accumulated and had to be otherwise disposed of at a loss. Others dependent on country dairymen have been thrown upon condensed milk to carry them through.

Strenuous efforts have been made to dig out. Thomas O'Neil voluntarily put a drag and road scraper to work; the government depot has swept some roads; the traction company has attempted to open the streets it uses and property owners have been energetic in backing the efforts of the street committee to clear pathways on the sidewalks.

A minimum of 2 below zero was recorded Tuesday night following a maximum of 27 above during the preceding 24 hours.

BIGAMIST RETURNS TO REFORMATORY

Harry Cowsert was brought back to the Indiana Reformatory from St. Louis, Mo., by John McCafferty, assistant state agent as a parole violator. He was sent from Vanderburg county for bigamy February 2, 1915 and was paroled November 2, 1917.

FERRY BOAT MAKING REGULAR TRIPS

The Ferry Boat has resumed its regular trips and making them on time, after the unpleasant weather we have had and still continuing. Captain Dorsey is doing everything possible that can be done to keep the boat going.

Buy It Now

Procrastination is the thief of time. It's also the thief of the pocketbook. Your own good judgment tells you not to put off until tomorrow what you can do today. Apply this simple but very sensible reasoning to your own needs. Act now. Buy now. You have the time. You have the money. Don't procrastinate.

"TODAY, I'M WELL"

Says Jackson Lady, And Thanks Cardui For Her Good Health.

Jackson, Ohio—Mrs. Alice Scarlock, of this place, writes: "About three or four years I was in a very weak state. I suffered with my sides. They were sore and it seemed when I would lay down at nights something seemed like it twisted and pulled in my sides.

I could not rest nights, I was so very nervous. At . . . time I was worse than others, the pain was much more severe. I had sick headaches. My limbs would get numb and this was disagreeable . . .

I doctored myself and tried different doctors . . . I was very frightened of operations and felt I could not go through one, I had gotten down so nervous. I read of Cardui and decided to use it. I took 11 or 12 bottles. Today I'm well and do not have any nervous trouble. I am able to do my own work and feel so strong and well. My sides are all right, and I know Cardui did it. I certainly am stronger than in a long time."

If you suffer from any of the troubles so common to women, try Cardui. Thousands of women give Card-u-i credit for their good health. NCB-10

LOAFERS MUST GET TO WORK

Need For Men; Idlere Will Not Be Tolerated

Capt. James N. Masters has declared war on loafers. These must either get to work or get out.

Loafers will, if necessary, be arrested on vagrancy charges and all city prisoners committed to jail by the Mayor will be required to work to earn their keep.

The country has no room for idlers and Jeffersonville will not tolerate them.

The Happy Man.

It is a good thing to start out a laughing of a Monday, keep laughing on Tuesday, Wednesday and Thursday, be careful how you spend Friday night, and then make Saturday the merriest day of the week. You will find plenty of company, for the world loves a happy man.—Charles Battell Loomis.

Earth Grows Slowly Now.

In the early days of its history the earth grew rapidly by the addition of meteoric matter. It is still growing in the same manner, scientists say, though scarcely to an appreciable extent, for the mass of meteoric matter added yearly is reckoned to be only 20,000 tons. In the course of ages the larger planets have swept up practically all the fragments of the original disruption, and the only available source of supply of meteoric matter seems to be brought by comets.

POET DECORATED MANY TIMES FOR BRAVERY

Photo From Western Newspaper Union

Gabriel D'Annunzio, eminent poet, author and playwright, has won great distinction as a member of the Italian aviation corps. He has been cited for bravery several times and has frequently inspired the Italian army to greater efforts by his valor. Recently he was given the military cross by King George of Great Britain and a silver medal by the king of Montenegro. D'Annunzio entered the service as a lieutenant, but was promoted rapidly. He lost the sight of one eye in an airplane accident last year.

SPAIN KEEPS ITS OLIVE OIL

Recent Royal Decree Forbids Export of This Product.

A recent royal decree forbids exports from Spain of olive oil, of which large quantities formerly were shipped both directly and via France and Italy to the United States and other foreign markets from Barcelona and Seville. In southern Spain and in Catalonia the olive oil industry has been an important source of revenue to the growers, who exported to foreign refineries, whence the oil was often shipped to the United States as of really non-Spanish production. Recently the direct exports from Spain to the United States have increased considerably.

TOBACCO "NECESSARY"

Lord Rhondda, British Food Controller, Says It Is Not a Luxury.

Tobacco is a necessity not a luxury, declares Lord Rhondda, the food controller, in a statement published here. "We must have tobacco," he says. "I believe that its loss would be a national misfortune. It means much both to the manual laborer and to him who works with his brains. Men would eat a great deal more if they did not have tobacco. I hold that the deprivation of it would work great discomfort."

Some system of "rationing" tobacco, however, is forecast by the newspapers.

When you have Backache the liver or kidneys are sure to be out of gear. Try Sanol it does wonders for the liver, kidneys and bladder. A trial 35c bottle of Sanol will convince at the drug store Chemical Co., St.

Corn Needs Little Cultivation.

In Illinois farmers found that once the corn roots were fully established in the soil, their attraction for the moisture was so great that very little moisture escaped. The only cultivation they found valuable was to keep down the weeds, which used up the moisture. Three-fourths of the corn roots do not go deep, but establish themselves in the cultivated soil, and the less they are disturbed at their meals the better crop results are attained.

Chance to Get Away.

Tom's uncle asked him which he was going to join [illegible] or the navy. Tom said, "[illegible]?" and the uncle explained [illegible] were. Tom thought a moment [illegible] said, "I think I'll join the army, for I can run, but I can't swim."

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher.

Little of Both.

"What is that dog—a pointer or a setter?" "He's a pointer when there's a beefsteak near, and a setter when we're out looking for game."—Life.

BELL-ANS

Absolutely Removes Indigestion. Druggists refund money if it fails. 25c

Eighth of Hebrew Prophets.

Habakkuk was eighth in order of the minor Hebrew prophets. The strophical arrangement of the denunciation of the Chaldeans is a remarkable feature of his prophecy. The whole concludes with a magnificent psalm in chapter 3, a composition that has been considered unrivaled for boldness of conception, sublimity of thought and majesty of diction.

YOU NEEDN'T

You needn't keep on feeling distressed after eating, nor belching nor experiencing nausea between meals.

In other words, you needn't ktep on being dyspeptic, and you certainly shouldn't.

Hood's Sarsaparilla cures dyspepsia—it strengthens and tones the stomach, perfects digestion, reates a normal appetite, and builds up the whole system.

Adv No. 1

Advertising Pays.

A woman of uncertain age required the services of a page-boy, and inserted in the local paper an advertisement headed: "Youth wanted." One of her friends, with little humor and less taste, sent her a bottle of a celebrated wrinkle-remover, a pot of fairy bloom, a set of false teeth, and a flaxen wig!—London Tit-Bits.

SAY YOU READ IT IN THE NEWS

Origin of the Word "Lady."

Why we call a woman a lady is known, probably, to few women. It came from a practice that obtained in the manor houses of England where, once a week, the lady of the manor distributed to her poor neighbors, with her own hands, loaves of bread. She came to be called "Laef day," the Saxon words for bread giver. These two words became one: "Lady."

Where You Are.

You need not say, "I want to get away from my daily business or from my domestic concerns in order to show my faith." No, no, stop where you are and show it.—D. L. Moody.

New Kind of Mucilage.

Mucilage which can be used in both stick and book form, and of which only the quantity desired at any particular time can be utilized, has been invented, the purpose being to guard the loss consequent upon the drying of liquid mucilage.

SAVING MONEY

Everytime thrift or saving money is mentioned some people get the idea that it means cutting down expenses to the very lowest notch to save every possible cent. at the expense of self-respect, comfort and health.

Not for an instant should you think it means anything like that.

Thrift means the elimination of UNNECESSARY WASTE — in food cothing, pleasure, business and everything that makes you spend more than is necessary for your convenience, comfort and happiness.

What you can save and put away for future emergencies or opportunities is deposited to advantage in a savings Account.

GERMAN CALLS ON COUNTRYMEN TO OUST KAISER

Bitter Arraignment of Hohenzollernism Written to Be Read by Germans.

EMPEROR ALONE TO BLAME

Senseless and Extravagant Lust for War Plunges World Into Sea of Blood and Tears—Soldiers Urged to Join Entente and Wrest Land From Claws of Destroyer.

This article was written by a German to be read by Germans. It was circulated in Germany through the efforts of German republicans in Switzerland who are working for the overthrow of Hohenzollernism and the establishment of a German republic. A copy has just been received in this country and has been translated for the use of the press.
COMMITTEE ON PUBLIC INFORMATION.

By SIEGFRIED BALDER.

Comrades in war!

Three years have passed since the German emperor plunged the world and his people into this most groundless, senseless and impious of all wars, into a sea of blood and tears.

Trained from childhood to be a soldier, brought up amid the perverted views of the junker and officer caste, dreaming of the laurels of the conqueror as the highest ideal, counseled by generals, befriended by war contractors, and even with a financial interest in their profiteering, he has since 1905 systematically paved the way for the war. He desired this war, he permitted the systematic cult of war in Germany by the Pan-Germanists, and he has encouraged it. He supported and fomented the almost daily quarrels of the other powers through the Pan-German press, by his inflammatory speeches. Last of all he affixed his signature to the various declarations of war; he is fully and entirely responsible for them.

For nine years the diplomacy of our neighbors, consistently anxious for peace, succeeded in averting this disaster from the world. This was the policy which was falsely presented to your ignorance as the "isolation policy," in reality, a peace policy in which Germany was always most heartily invited to participate. **Germany was not isolated, but the German government, and in its wake the Austrian government, deliberately and maliciously withdrew from the circle of civilized nations, as criminals from human social circles.**

But not only the diplomatic circles of foreign states, but also German men of insight and lofty ideals have placed themselves firmly in opposition to the **emperor's senseless and extravagant lust for war**, in spite of his wrath, and have sacrificed their positions rather than their convictions. This was true

FREE MANKIND FROM AN INSANE CRIMINAL.

There are only two possible ways of ending this war. Either humanity, without you, without the co-operation of the German people, will annihilate Prussian junkerdom, and will starve out the German people that thus they may free mankind, for now and forever, from a curse which rests upon them with the weight of Alpine snows; from any insane criminal on a throne who, by a stroke of the pen, may change millions of men into corpses and cripples, and ruin the industry and welfare of a nation; either this or you yourselves will assist in the task of freeing mankind. **PEACE WILL NOT COME ONE HOUR BEFORE THIS GOAL IS REACHED, BUT NOT ONE HOUR LATER.** But if this goal should be reached without you and in spite of you you will be ground down into ruin, and what is more, the people of our German fatherland will be given over to the will of the conquerors. Then your intellectual and political leaders, the true leaders who are not the lackeys of the emperor, will have no right and no opportunity to interpose a word concerning the future order of the world and of Germany. But if you co-operate, and that with all your might, to carry out this purpose, the honor of the German people, which is today scorned as merely an insensate tool in the hands of murderers, will be restored; and more than that, you will have a voice in the establishment of the new order of the world and of Germany. And take my word for it we shall have peace, and we can have it on such terms that the German people will be happier in the future than they ever were before the war. But leave us in the lurch, and we must recognize with sullen rage and scorn that we are the fellow countrymen of hopelessly deluded slaves, upon whom will rest the blame for their own ruin and for the annihilation of Germany.

EMPEROR WICKEDLY DECEIVED YOU.

Comrades in war, you have taken an oath of allegiance to your flag. But the emperor, too, took an oath at the beginning of his reign, an oath of allegianee to the German constitution. The confederation which forms the German empire was established according to this constitution, **"TO PROTECT THE UNITED PROVINCES AND THE LEGAL RIGHTS THEREOF, AND TO PROMOTE THE WELFARE OF THE GERMAN PEOPLE."** To guard it is the foremost, indeed the only, duty of the German emperor. If this purpose cannot be accomplished without war, then the emperor may declare war, but not until then. **But the emperor wickedly, wantonly, by deceiving the German people, by misrepresenting facts and by forging official documents, by breaking sacred treaties which he as the defender of justice should have observed, has overthrown Belgium, declared war on Russia, France and Serbia, and has thereby violated the laws of justice and the constitution; has hurled the German empire down to ruin and has wrecked the welfare of the German people.** The oath which you have taken means allegiance merely to an emperor who is the protector of the German people, the guardian of their constitution, the true preserver of their welfare; it does not mean allegiance to burglars, murderers, rascally drummers for greedy cannon makers. But you took no oath against the German people whom it was this emperor's duty to protect; whom you must now protect without him and against him, a miserable wretch who betrays his country in the hour of greatest danger, who either from stupidity or from cowardice works against the good of his people.

KNIFE AT GULLET OF SCOUNDRELS WHO RULE.

Let every man who loves the German people and the German fatherland come over! The password which is to be given at the French posts is:

REPUBLIC!

He will meet not only French and English and Americans, but also German patriots, whose concern it is that our fatherland, the fatherland so shamefully and treacherously sold by its rulers by divine right, should not be annihilated; and he will be welcomed with honor by the French if he gives this password, and will be well treated.

Comrades in war, the knife is at the gullet of the scoundrels who rule you, and they would rather starve and bleed the German people to death to the last man than make peace, or even make known the object of their war. For they know very well that the hour of reckoning has struck for them when they can no longer suppress the truth beneath their martial law, and trample freedom in the dust. Before we make peace, therefore, and in order to make peace, we must first reckon with them.

DUCHESS OF ABERCORN

England's titled men and women are in this war to win, and are actuated by the same motives and feelings as the humblest Tommy. The noblemen of England have as a whole gone into the army or navy and have proved their courage and sacrifice as evidenced in the day's citations and casualty lists. The women are also doing their bit. Few of England's prominent women are not enrolled and actively working in the various service leagues assisting the government. The Duchess of Abercorn has two daughters in war service. One is working in a munition factory and the other is in the Red Cross service.

FUNERAL NOTICE

Mr. James Tucker will be buried from the home of his sister Mrs. William Allen East Chestnut street, Tomorrow afternoon at 2 o'clock.

BORROWS BABY TO GET SUPPLY OF COAL

Grimly Humorous Happenings Noted by Agents of the Fuel Administration.

Some of the federal fuel administration's field agents while they are busy with the serious work in their various fields have noted some grimly humorous happenings. One field agent tells of a Newark (N. J.) retailer who has been supplying his regular customers with small lots of coal and he has declined all new business unless there was sickness in the family. He was appealed to by a prospective customer, who demonstrated that his was a case of dire need by wheeling a delicate-looking baby, accompanied by a pale wife, to the coal yard. The coal he so earnestly sought was delivered, and then it was discovered that the new customer had borrowed the baby.

In the same town there was a jeweler who took a few days off from his regular employment and got a job driving a coal cart for a local dealer. His first trip out was with two tons of coal. This he promptly dumped into his own cellar, and then resigned, saying that the work was too hard for him.

Another shrewd case came before one of the Pennsylvania county fuel administrators, whose directions are that dealers shall deliver only one ton and half-ton lots, and no coal is to be delivered where the prospective customer has a two-weeks' supply. It was discovered that one man had two cellars, connected by a long tunnel. He was ordering half-tons and carrying the coal from one cellar to the other. By the time his scheme was unearthed he had accumulated four tons, but he was still out for more coal. The dealer he applied to sent [illegible] to the fuel administrator, where [illegible] made affidavit that he had no coal [illegible] all. The next step was an indict[illegible] for perjury, the case being [illegible] for the next court. In addi[illegible] the offender was made to take [illegible] little bucket and carry three and [illegible] tons of his ill-gotten coal to [illegible] sidewalk and thence load it onto [illegible] cart.

[illegible] Leavenworth Fears Poisoned Water.

[illegible] William A. Shunk, commanding [illegible] Leavenworth, Kan., has direct[illegible] water used in the camp [illegible]. Fear of poison and [illegible] the order.

Longevity In Jeffersonville

ONE-HALF OF THOSE WHO DIED HERE DURING 1917 HAD ATTAINED AGE OF THREE SCORE YEARS OR MORE.

ROLL OF DEAD; TOTAL WAS 127

The register of deaths in the city, for the year 1917, a record which interests a large number of persons is here submitted, a little bit late on account of delays in getting the death record which Dr. O. P. Graham, who served as health officer again during that year, was bringing down to date.

The list of deaths given includes only those who died in the city and there should be a few added who died away from here in hospital but whose deaths should properly be charged to the Jeffersonville account. One or two accidental or homicidal deaths are among those not appearing on this record for this reason. The Clarksville, Port Fulton and township deaths are not included in the summary which is taken from the city health officer's record only.

The total number of deaths shown on this record was 127 which is twenty less than during 1916 and six less than during 1915. The high proportion of aged among the deaths, which was noticeable last year, is again characteristic of the record herewith compiled. It possibly indicates in part a movement of the younger population away from the city but this tendency has no doubt been reversed by the recent revival of activity here and it will be Jeffersonville's fault if such tendency is allowed again to become so great as it was from one to two years ago when the manuacture of munitions for foreign account drew young people by the score, or even hundred, rom this city to munition making districts. On the other hand the great age attained by many of our ciizens must be considered a tribute to the healthiness of the city and a death rate of under 12 per thousand and indicated by these figures is very low indeed if the proportion of aged folks is unduly high.

Fifty-Six Lived To Be Sixty

Of the number of deaths—127—no less than fifty-six persons had attained the age of sixty years or more. During 1916 there were sixty-six past sixty out of a total of 147. During 1917 there were twenty deaths of infants who ailed to live one year, including stillborn babies and those who lived only a ew days. Eliminating this class it will be seen that more than one-half the remainder attained the age of three score. Seven children who lived to be twelve months old died before completing their tenth year and six more died before reaching the age of twenty. Thirty-eight died between the ages of twenty and sixty.

Of the fifty-six who lived to be sixty years or more thirty two were women, including for negresses, and twentyfour were men including three negroes. There were seventeen who lived to be sixty but died before they became sventy; twenty-eight who passed that barrier but did not enter the octogenarian class; ten lived to fourscore years or more and one other lived to be ninety-one. Louis Hutt was the only citizen who died in the nongenarian class during the year. Four men and sixx women were included among those who died during the ninth decade of their lives.

By months the deaths occurred as follows: January—8, four of them past seventy; February—11; March—9, six of them 69 years old or more; April—15, of whom seven failed to reach the age of 20 and six passed the age of 68; May—12, of whom seven were 60 years old or more; June—11, including five who were past 69; July—9, including three past 60 and four less than twelve months; August—10, three of them past sixty and three who failed to live one year; September—10, including four past 60 years of age; October—13, of whom seven were sixty years old or more; November—8; December 11, with six o them attaining sixty years of age.

Many Were Foreign Born

Of the total number who died 52 were white males and 15 colored males; 45 white females and 15 colored females. In all, 67 males died to 60 females and 97 whites to 30 colored persons.

There were no less than sixteen foreign born persons who died during the year, Ireland claiming one half of these as her chidren while six were German and one was born in England and one—Louis Hutt—was born in what is at present a part of German soil, the province of Alsaac, but which was French soil at the time of his birth.

American born persons who died are credited as follows: Jeffersonville, 39; Clark county, 10; Indiana 11; Kentucky 29; other parts of the United States 21; unknown 1.

Brights disease and allied disorders claimed the highest number of victims, which is not to be wondered at considering the large number of aged among the dead. Eighteen deaths are attributed to various kidney disorders as a chief cause of death compared with 30 for the year before. Deaths from heart disease numbered 13; cancer, 11; tuberculosis, 12 which is one less than the preceding year; pneumonia 9; apoplexy 8; asthma 2; peritonitis 3, including one due to appendicitis; senila gangrene 2; diabetes 2; typhoid fever 1. Typhoid fever caused one death also during 1916 and diphtehria one but the latter was not represented during 1917 among the causes of death.

Violent deaths included one suicide by hanging; two shot without intent to murder; one death from a fractured hip; one drowning and fractured skull, homicide—the case of Madison Dugan; one from an accidental drink of lye and one from accidentally being run down by a train.

Births Showed Gain

The births recorded number 185 to which a few late reports may be added. This was fifteen more than during 1916, which is a nett gain of thirty-five including the decrease in number of deaths.

Ninety-seven of the babies were males and eighty-eight were females, an effort of sature perhaps to maintain due proportions, since the number of male deaths was greater than the number of female deaths. There were twenty colored babies—eight boys and twelve girls—which is one in nine of the total number of births while the negro deaths ran in proportion of nearly one in four.

Inquests By Coroner

The number of inquests held by Coroner Froman M. Coots during 1917 was forty-one, most of them outside the city. There were eighteen violent deaths included in this number the others including thirteen who died of heart disease and others who died from natural causes without the presence of a doctor. Thirteen of the violent deaths were accidental; three were suicides and three were homicides. The suicides were by drowning, hanging and acid. One of the homicides was murder and the other two victims were shot by a police officer and a soldier respectively for failure to comply with lawful demands. The murder was that of Madison Dugan who drowned after being assaulted. The death of George Bowman in the city is not included because after being assaulted here he died in a Louisville hospital.

The accidental deaths were due to the following causes: struck by train 3; run over by wagon 2; one of these dying weeks later as a result of the injuries; drowned 2; killed by falling house during cyclone 1; burned to death 2, besides whom another died in New Albany rom burns suffered here; shot himself accidentally 1.

Roll Of The Dead

The following is the record of Jeffersonville deaths excepting children under ten and negroes in some cases:

DARING ICE YACHTER FLIRTS WITH DEATH

Copyright Underwood & Underwood

Flirting with death is nothing new to the pretty miss who skippers this speedy ice boat. She considers spinning over the ice at the speed of a racing automobile sport and it probably is if one has nerves steady enough to stand it, for it requires nerves of steel and the utmost skill to steer this boat over the ice-covered rivers. There is always the risk of running amuck in a fog that may come up from the ocean at any minute, of shooting into another equally speedy ice yacht or of dropping into icy water if one is unfortunate enough to strike a patch of open river.

Serene in her faith in an ever-present good fortune, this miss is smiling happily as she starts her yacht for a spin along the Shrewsbury, inside the Jersey capes.

STRANGE CRAFT DEAD WHALE

An Adventurous Fisherman Secured a Prize.

Farmers along the bay shore near Broadkiln Beach, near Milton, Del., were prepared to protect their homes with their lives when a long, low, mysterious craft made its appearance up the bay. In the early morning light it could be plainly seen coming in toward the shore above Cedar Beach.

Then it stopped, and finally Charlie Reed, an adventuresome fisherman, started out to it and found it to be a dead whale, a prize of the first magnitude.

It stranded near the Frank Waples farm at Slaughter Neck, and was viewed by hundreds, who came from all parts of Lower Delaware in automobiles and wagons to see it. In the morning Reed, with a small launch, landed it at the Lewes fisheries and will have it made into oil.

It is estimated that at the present price of oil Reed will realize several hundred dollars from it. The whale was 57 feet long, and is supposed to have been shot in mid-ocean.

Meet After Many Years.

T. R. Trotter, city clerk of Pomona, Cal., and his sister, Mrs. F. L. Jesscott of Philadelphia, met recently after 42 years' separation. Trotter left his sister in Cork, Ireland, to become a sailor and within a few years lost track of her. He has been city clerk in Pomona for twenty years. A month ago Mrs. Jesscott picked up a Los Angeles newspaper and read a story containing the name of her brother. She immediately communicated with him.

Drastic Order To Save Coal

FIVE DAYS' SHUT DOWN FOR MANUFACTURING PLANTS; WEEKLY HOLIDAY FOR MOST EVERYBODY

COAL SITUATION IS EASIER HERE

In the absence of any direct instructions up to noon Thursday Fielding L. Wilson, fuel administrator, was unable to give any information other than that contained in the morning papers relative to the drastic order for fuel conservation.

In briefest form this order requires nearly all manufacturing plants to close five days beginning Friday, the order applying even to actories engaged on government orders.

Secondly all such factories and in addition stores, saloons, places of amusement, offices, etc. with certain exceptions are to have a Monday holiday every week for ten weeks. No fuel is to be used for heating on such days.

In addition a priority order has been issued that gives the railroads first call on coal and domestic consumers second call.

Local Effect Of Order

The number affected here is not easily estimated. The 3,000 employes at the quartermaster's depot will be little if any affected. Apparently the folowing wil be affected directly for both the five day period and the weekly shutdown; American Car and Foundry Co., 800; Jeffersonville Manufacturing Co., 50; Louisville Fertilizer Ca., 100; Speeds cement mills, 400; Anderson's, Howard's; Sweeney's 60; miscellaneous plants, 100. In addition it is presumed that 800 men in the trade schools at the Reformatory will be similarly affected.

Nearly 100 persons in 35 saloons will be affected on the weekly holiday and perhaps 200 more clerks and others not including groceries which are partially excepted. The bakery and canning company will presumably be able to run.

Five carloads of coal were obtained Wednesday by Fielding L. Wilson, federal fuel administrator for Clark county. The coal was appropriated in the local railroad yards in transit to points in Michigan. Mr. Wilson said that the cars required repairing in any case and that the company was glad to dispose of the coal here. The price will be as fixed by the federal fuel administration.

Mr. Wilson expects to obtain another ten carloads of coal in a day or two through Anderson G. Moore, of New Albany, fuel administrator for Floyd county who has twenty carlaads in sight and will divide up. Mr. Moore obtained three carloads Wednesday which met immediate needs there.

There are about fifteen carloads of coal, requisitioned some time ago through the Idianapolis fuel administration office, and these would have been here had not the weather tied up all the railroads. Eleven cars of this amount are for Jeffersonbille and the remainder for the county. Among points in the county from which distress signals have been received are Nabb, Henryville, New Washington and Utica.

So far as Mr. Wilson is advised all local plants are fairly well provided for except that the waterowrks is running rather short. There is however coal in sight to tide over the period of anxiety it is believed.

Col. W. H. Hart, depot quartermaster, assured Mr. Wilson that every effort would be made at that place to conserve coal though it does not come under the jurisdiction at all of he local fuel administration. There is not a great deal of saving possible there as that is work that must go on, but what can be saved will be.

Hope is felt that the movement of freight is getting near unless the weather turns much worse again. Passenger trains are getting back to their more normal schedules and on Thursday morning, for the first time for a week, the morning mail was in nearly on time.

Interurban travel to Louisville has been re-established on practically a regular schedule and most of the travel between the two cities was over the interurban Thursday morning. Service to New Albany however is still hindred by the snow and cars are running slow.

Col. J. L. Glascock said Thursday that the New Albany men employed there had been unable to get to work because of present conditions and the Pennsylvania

(Continued on Page 4)

DRASTIC ORDER

Issued By Food Administration At Washington

Washington, Jan. 17—America's manufacturing enterprises, with but few exceptions, in all States east of the Mississippi River were ordered by the Government last night to suspend operations for five days, beginning Friday morning, as a drastic measure for relieving the fuel famine.

At the same time, as a further means of relief, it was directed that industry and business generally including all normal activities that require heated buildings observe as a hoiday every Monday for the next ten weeks. This will close down on Mondays not only factories, but saloons, stores except for the sale of drugs and food places of amusement and nearly all office buildings.

The Governments move came entirely without warning in an order issued by Fuel Administrator Garfield with the approval of President Wilson prescribing stringent restrictions governing the distribution and use of coal.

The order prescribes a preferential list of consumers in whose interest it was drawn. These users will get coal in the following order:

Railroads.

Household consumers, hospitals charitable institutions, and army and navy cantonments.

Public utilities, telephone and telegraph plants.

Strictly Government enterprises, exceptting factories and plants working on Government contracts

Public buildings and necessary Government, State and municipal requirements.

Factories producing perishable foods and foods for immediate consumption.

HOW TO REDUCE

High Cost of Living During These War Times—What Every Woman Can Do.

Look over your old clothes. You can never appreciate how much you can brighten and freshen up your wardrobe until you use Dy-O-La Dye.

Take some of your discarded blouses and dresses, dye them with some of the sixteen different colors of Dy-O-La, change the trimmings a bit and you will be astonished at the result.

Dy-O-La is the modern dye made by skilled chemists who have removed all the difficulty from home dyeing in order that you may get perfect results. Old style dyes require a separate dye for each kind of goods. That makes trouble (as you probably know) for if you get a package for the wrong kind of material the goods are spoiled. You can't make such a mistake with Dy-O-La Dye.

Take some garment that you have grown tired of or that you desire to color the fashionable shade of the moment, look over Dy-O-La Dye color chart at your nearest druggist or storekeeper, select the one that pleases, and follow the printed directions. They will look as if they had just come from the dressmaker.

And remember —the colors will be just as fast and durable as they are beautiful. They won't rub off or bleach out.

Buy it of your nearest druggist or storekeeper, but if they have not the color you want we will send it to you on receipt of ten cents and at th esame time include direction book and color chart.

Dy-O-La Dye is made in **Black, Blue, Navy Blue, Brown, Seal Brown, Light Green, Dark Green Scarlet, Yellow, Orange, Cardinal Red, Pink, Purple, Dark Wine Old Gold, Turkey Red** and from these sixteen colors a great variety of other shades and colors can be made.

Dy-O-La Dye Company,
700 Sixth Ave., Des Moines, Iowa

Name Your Ailment

The descriptions are so clear, plain and simpe, that anyone can name their aiment by reading Dr. Humphreys' Manual, a compact little Medical Volume that fits the side pocket, mailed free on request, address; Humphreys' Homeopathic Medicine Co., 156 William St., New York.

Buy It Now

Buy it now because the money you spend will start the mills going full time; because it will save thousands of families from suffering; because it will speed up trade and bring back prosperity to the whole country; because you will gain if you buy necessaries, not luxuries; because circulation is the heart throb of trade.

When Your Child Cries

at night and tosses restlessly, you feel worried. Mother Gray's Sweet Powders for Children Break up Colds in 24 hours, Relieve Feverishness, Constipation, Teething disorders, and destroy worms. Used by Mothers for 30 years. All Druggists, 25c. Sample FREE. A. S. Olmsted, LeRoy, N. Y.

January 7 to Feb. 5 inclu.

SAYS FRYING PAN MUST GO

Domestic Science Expert Says This Method of Cooking Food Is Wasteful.

Eugene, Ore.—"The frying pan must go," said Miss Lillian Tingle, head of the household arts department of the University of Oregon, before her class on the conservation of food.

"It is a utensil of the pioneer, who had plenty of food to prepare in the quickest and simplest way. The people of this country always have been wasteful, and unless we reduce materially our consumption of meat we shall face a meat famine.

"French people cook in a casserole, thus saving every bit of the nourishment of the meat. We could well learn from them in this matter."

THE "BLOOD AND IRON" POLICY

Is important in peace as well as in war. Every man and woman who would be a winner and not a slacker should have the strength of iron in the blood.

The new iron tonic, Peptiron, combines this valuable metal in medicinal form so that it is easily digested and readily assimilated. Peptiron also includes pepsin, nux, celery, gentian and other tonics,—sedatives for the nerves, digestives and carminatives — a health-giving medicine in convenient pill form.

Take it for anemia or thin blood, paleness, nerve debility, brain-fag. One or two Peptiron after each meal will quickly tell a story of marvellous results. Get it today.

ENDS NERVOUSNESS WITH VIN HEPATICA

East Tennessee Lady Almost Total Wreck Reports Marvelous Results From Taking Great Nature Medicine.

Mrs. Mattie Lucas, R. F. D. No. 3, Haskells Tenn. who was almost a nervous wreck, all broken down weak and with scarcely any appetite on account of food souring on her stomach says:

"I could not get anything to do me any good. A friend of mine recommended that I take Vin Hepatica. I have taken three bottles and feel like an entirely different person. I am not the least bit nervous can eat anything I want, have gained in strength each day right along."

This great Nature medicine not only stops the nervousness, which is a result of stomach, liver and kidney trouble but builds you up, because it is a combination of eight of the finest herbal remedies known to medical science for that purpose, remedies that are being prescribed every day by the leading physicians the world over.

We strongly recommend Vin Hepatica. Come in, get a bottle and try it. It will do you good.

Shake Into Your Shoes

Allen's Foot-Ease(the antiseptic powder for painful, smarting tender, nervous feet. It takes the sting out of corns and bunions. Over 100,000 packages are being used by he American, French and British troops at the front. Sold everywhere 25c.

Chance to Get Away.

Tom's uncle asked him which he was going to join, the army or the navy. Tom said, "What's that?" and the uncle explained what they were. Tom thought a moment and said, "I think I'll join the army, 'cause I can run but I can't swim."

CENTRAL BUYING FOR CITY DEPARTMENTS

In the future promiscuous buying by the several city departments will be discontinued and purchases will be made by City Clerk William B. TThornley, upon requisitions.

FARMERS' INSTITUTE AT HENRYVILLE FEB. 5

The annual meeting of the Monroe township Farmers' Institute will be held in the High School building at Henryville, February 5. The instructors will be R. A. Ogg, of Greencastle and Mrs. Louis Taylor of Newburg.

GRAVEL ROAD OPENED BY PRVATE EFFORT

Ed Weidner and Balie L. Burtt opened the gravel road to traffic by use of a drag, doing the work freely for the benefit of the public. This and other roads were impassable on account of the snow which was drifted as much as six feet deep.

If Mothers Only Knew

Mother Gray's Sweet Powders for Children relieve Feverishness, Headache, Bad Stomach, Teething Disorders, move and regulate the Bowels and destroy worms. They break up colds in 24 hours. Used by mothers for 30 years. All Druggists, 25c. Sample Free. Address, Mother Gray Co., Le Roy, N. Y.

Corn Needs Little Cultivation.

In Illinois farmers found that once the corn roots were fully established in the soil, their attraction for the moisture was so great that very little moisture escaped. The only cultivation they found valuable was to keep down the weeds, which used up the moisture. Three-fourths of the corn roots do not go deep, but establish themselves in the cultivated soil, and the less they are disturbed at their means the better crop results are attained.

Buy It Now

Procrastination is the thief of time. It's also the thief of the pocketbook. Your own good judgment tells you not to put off until tomorrow what you can do today. Apply this simple but very sensible reasoning to your own needs. Act now. Buy now. You have the time. You have the money. Don't procrastinate.

RESCUED THREE WOMEN FROM DEATH

Railroad Men Happened Along In Nick Of Time

James Culp, engineer, and Harry Davis fireman on the Pennsylvania lines, both of this city were out last Saturday with an engine and caboose running north from Scottsburg when they saved three women from being frozen to death in the sonw.

The engine was about three miles north of Scottsburg and half way to Austin when they saw three women walking on the tracks but though they sounded the whistle continuously the latter did not pay any attention. Finally the locomotive ran up close to them slowing down all the time and Davis got out and accosted the women. They admitted they heard the worning but they were too numb with cold to raise the energy to get off the track. They became hysterical after being taken in the caboose and warmed up.

The crew took the women to their homes at Austin. They had been to the Scottsburg substation with government sewing and started to walk back because the interurban had quit running. They were so near exhaustion that in a little while they must have collapsed in the snow along the track and inevitably have preished.

The National Capital.

The site of Washington city as the national capital was selected in 1791, the corner stone of the capitol was laid in 1793 and congress met there for the first time in November, 1800. Prior to that congress had met at Philadelphia, New York, Baltimore, Lancaster, York, Princeton, Annapolis and Trenton.

SPAIN KEEPS ITS OLIVE OIL

Recent Royal Decree Forbids Export of This Product.

A recent royal decree forbids exports from Spain of olive oil, of which large quantities formerly were shipped both directly and via France and Italy to the United States and other foreign markets from Barcelona and Seville. In southern Spain and in Catalonia the olive oil industry has been an important source of revenue to the growers, who exported to foreign refineries, whence the oil was often shipped to the United States as of really non-Spanish production. Recently the direct exports from Spain to the United States have increased considerably.

Soldier Is Ill

Henry C. Carl, a member of Company H, 335th United States Infantry, Camp Zachary Taylor, who contracted pneumonia some time ago while home on a furlough still is in a serious condition and was operated upon yesterday by Dr. I. N. Ruddell.

Personals

Mrs. Lena Secarce has recovered from an attack of the grip.

Miss Madeline Pfau is confined to her home quite ill of tonsilitis.

Mrs. Charles W. Booth of Howard Park who is seriously ill is somewhat improved.

Miss Jessie Hendershot has entirely recovered from a severe attack of quinsey.

Howard Biggs has returned from a few days visit with relatives in Henryville, Ind.

Major Gregory of 120 Locust street is able to sit up following an attack of lumbago.

Mr. and Mrs. J. W. Radley are both confined to their home on Meigs avenue quite ill.

Misses Bess Voit and Nanella Coots are members o a New Albany Basket Ball team.

Miss Rose Rosenbaum of East Chestnut street, is seriously ill, suffering from gall stones.

Mrs. Eva Hobson of Indiana avenue who has been ill threatened with pneumonia is convalescent.

Mrs. George Knobloch will be hostess for the members of the Priscilla Embroidery Club at her home on East Court avenue.

Miss Dorothy Ambrasuis of Louisville, who has been the guest of Miss Merle Clark for a few days returned to her home yesterday evening.

Mrs. James Howard will entertain the members of the Presbyterian Guild Friday afternoon at her home on East Market street.

Miss Sue May Whiteside has returned to her home in Louisville after spending a week the guest of Miss Francis Williams in Howard Park.

Ben Streepy, David Kaehler and William Freeman will give a dance Friday night at Calumet Hall, New Albany to which a number of our young people are invited.

Miss Bess Voit was able to resum eher work in the office of the American Car & Foundry Company this morning after being out several days on account of being ill of lagrippe.

Mr. and Mrs. Dan T. Curd who have been the guests of Mrs. Curd's sister Mrs. W. T. Williams on Harrison avenue, Howard Park have returned to their home at Cave City, Ky.

The Busy Bees postponed their meeting from yesterday until next Wednesday on account of the severe weather when Mrs. Maude Bowyer on Meigs avenue will be the hostess.

The Tuesday Afternoon Bridge Club met with Mrs. M. Z. Stannard on East Market street on account of weather conditions they could not meet with Mrs. Fraser but will meet with her next Tuesday.

Arthur McNaughton of Trinidad, Colorado who has been the guest of relatives in this city and New Albany departed a few days ago for Chicago for a visit before returning to his home.

Mrs. Charles Dailey of Morris Heights, New York City, formerly Miss Lucy Chambers of this city who is now at Martinsville, [illegible], expects shortly to be the guest of Mrs. A. E. Dailey on Gravel road and other relatives in the city.

[illegible] C. Mc McDonald of [illegible] Miss Amy Mc- [illegible] of Miss Madeline Pfau on West Riverside arrived last night from Chicago. She and her daughter Miss Amy will go today to Louisville where they will be guests at the Seelbach Hotel for a few days.

James A. McKinght who nuderwent an operation at Norton Infirmary two weeks ago is making progress toward recovery but on account of weather conditions is still at the Hospital. If everything is favorable he will be brought to his home in the Marblehead Apartments today or tomorrow.

The F. F. S. Club held their regular weekly meeting last night at the home of Mrs. J. A. McLean on Wall street, they were entertained by mandolin and guitar solos, refreshments were served. Next Wednesday night an open meeting will be held at the home of Mrs. McDaniels on East Chestnut street in honor of her mother. All members and their gentlemen friends are requested to attend.

At a business meeting held by the Current Events Club Monday afternoon at the Chamber of Commerce they had a report from the committee who conferred with Col. W. S. Wood before his departure in regards to the young womans' building and decided to do everything in their power to help the cause along. They urged every member of the club to do more if possible to assist the Red Cross in their work. They are still hemming napkins, are in need of old linen for the work and urge the necessity of any one having such sending it to them.

KNIGHTS OF PYTHIAS MEETING POSTPONED

THE LOBBYIST.

A lobbyist is a quiet man who takes a legislator aside, out of the draught and gives him some eloquent arguments for or against a bill.

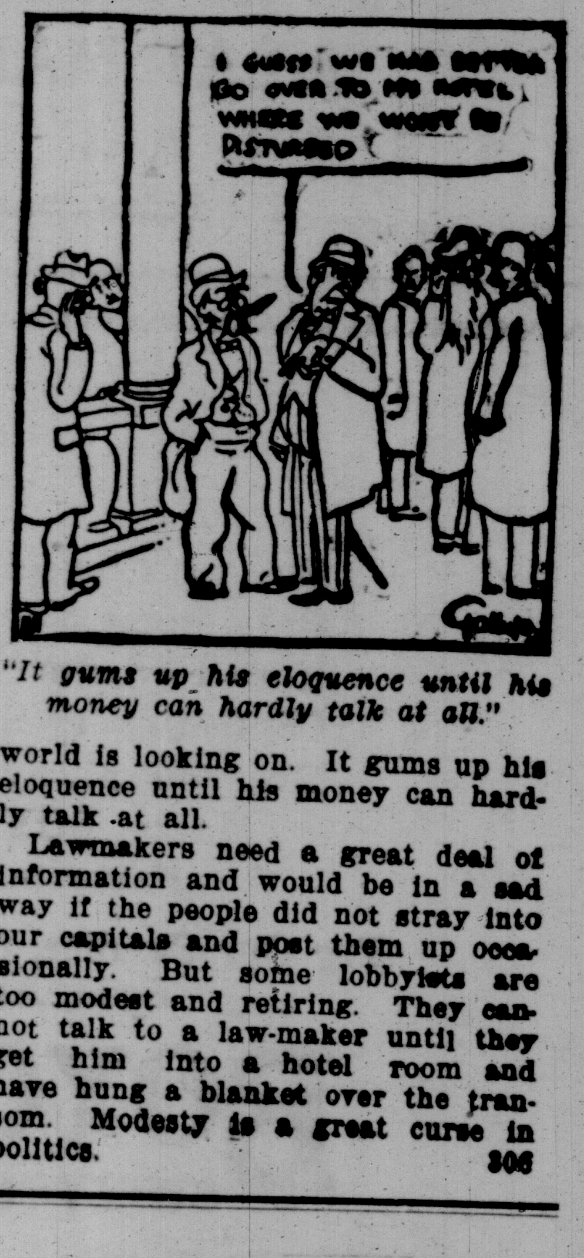
There are many kinds of lobbyists and they use many kinds of arguments. Some of them endeavor to enlighten the legislator; some try to frighten him, and some make every effort to remove his wife and children from the reach of want.

Strange to say, the latter is the most unpopular of the three with the people. Why should a great and generous nation frown upon a noblehearted lobbyist who is trying to crowd a wad of hundred dollar bills into the pocket of a legislator when he isn't looking? Think of the poor statesmen who have plodded wearily home at night, having had only eleven kinds of cigars for lunch and who find when taking off their overcoats, that some benefactor has stuffed the said pockets so full of bills that they can afford only to take two weeks off in a big city at the best hotel, but will have enough left for a can of beans for the children!

Is it any wonder that such legislators make every effort to discover the modest man who helped them in distress, and vote for any little bill that will make him happier?

And yet, an ill-natured nation frowns upon this gratitude and stuffs the legislator into a badly ventilated jail, while the benefactor fails to get his money back and has to eke out a living, lecturing on the sacrilege of legislating against business!

Some states are very severe with lobbyists. They make them wear red hats and green neckties, so that people will not mistake them for philanthropists or missionaries and forbid them to enter the State Capitol. It would be better if every lobbyist should be compelled to see legislators only in the rotunda of the State Capitol accompanied by a brass band. Nothing is so embarrassing to certain brands of lobbyists as to be compelled to do business while the world is looking on. It gums up his eloquence until his money can hardly talk at all.



I GUESS WE HAD BETTER GO OVER TO MY HOTEL WHERE WE WON'T BE DISTURBED

"It gums up his eloquence until his money can hardly talk at all."

Lawmakers need a great deal of information and would be in a sad way if the people did not stray into our capitals and post them up occasionally. But some lobbyists are too modest and retiring. They cannot talk to a law-maker until they get him into a hotel room and have hung a blanket over the transom. Modesty is a great curse in politics.

USING UP REDWOOD

Supply In the United States Will Be Gone in a Century.

Constantly increasing production of redwood lumber in Humboldt county, California, means that in less than a century the only commercial redwood forest in the world will be stripped bare, according to compilations made by George A. Kellogg, secretary of the Humboldt chamber of commerce. In 1895 it was estimated that the standing redwood timber in the county would be sufficient for 200 years, but since that time the capacity of the mills has been more than doubled, with prospects for a continuous increase in the future.

Out of 538,000 acres of redwood timber standing untouched before lumbering operations were begun in the country, 93,000 acres have been cut over. This cut represents some of the best timber of the county, for the bottom lands along the rivers where the best timber stands have been harvested first.

Redwood lumber thus far produced from the forests of the country has represented a value of $160,817,287 and has totaled 9,300,865,526 board feet.

Eighth of Hebrew Prophets.

Habakkuk was eighth in order of the minor Hebrew prophets. The strophical arrangement of the denunciation of the Chaldeans is a remarkable feature of his prophecy. The whole concludes with a magnificent psalm in chapter 3, a composition that has been considered unrivaled for boldness of conception, sublimity of thought and majesty of diction.

After such splendid results with "Seventy-seven" send for a free copy of Dr. Humphreys' Manual of all diseases and dip into its wealth of information on domestic practice, describing in simple language the maladies proper for a layman to treat. Humphreys' Homeo. Medicine Co., 156 William Street, New York.

Perfecting Fireproof Paper.

Documents written on paper made from asbestos fiber, with inks prepared from the nitrates o. iron and cobalt, have withstood a red heat for two hours without being damaged in any way. No damage resulted until the intensity of the heat was increased considerably and the document was exposed in it for ten hours. It is expected that further experimentation and study will result in the perfection of a paper and ink practically indestructible by fire.

Well Heeled.

The shipwrecked sailor sat disconsolate on a lonely raft in the middle of the trackless ocean. In his hands he held the last remnants of a pair of shoes. "Though reduced to the lowest extremities and completely surrounded by water," he croaked hoarsely, "I can still take to my heels." With these words he made his semiweekly meal and spent the remainder of the afternoon picking the nails out of his teeth.

Origin of the Word "Lady."

Why we call a woman a lady is known, probably, to few women. It came from a practice that obtained in the manor houses of England where, once a week, the lady of the manor distributed to her poor neighbors, with her own hands, loaves of bread. She came to be called "Laef day," the Saxon words for bread giver. These two words became one: "Lady."

Where You Are.

You need not say, "I want to get away from my daily business or from my domestic concerns in order to show my faith." No, no, stop where you are and show it.—D. L. Moody.

SAVING MONEY

Everytime thrift or saving money is mentioned some people get the idea that it means cutting down expenses to the very lowest notch to save every possible cent. at the expense of self-respect, comfort and health.

Not for an instant should you think it means anything like that.

Thrift means the elimination of UNNECESSARY WASTE — in food cothing, pleasure, business and everything that makes you spend more than is necessary for your convenience, comfort and happiness.

What you can save and put away for future emergencies or opportunities is deposited to advantage in a savings Account.

DROVE DUCKS AWAY

Fish Story as Related by South Dakota Game Warden.

Fish that were so hungry that they jumped out of the water in their efforts to obtain food and which, by continually picking at their feathers, drove all of the ducks off of Lake Alice, are the background of the stories brought to Michell, S. D., recently by Game Warden H. S. Hedrick.

Mr. Hedrick says that when he first "discovered" Lake Alice, the fish there, with which the lake was crowded, were entirely out of proportion, their bodies being of snakelike dimensions. The lake was cleaned of all growth and fish were starving. He immediately set men to transferring the fish to other bodies of water where they immediately improved as to health and size.

After four years of work the fish in the lake have returned to normal size and are now among the best in the state. In the four years 27 carloads of fish have been transferred to other bodies of water.

WARNING TO WATER CONSUMERS

During the extreme cold weather of the pat few days the conumption of water has increased to a point where it exceds the amount we can obtain from our wells, this is caused by consumers allowing water to run constantly to keep pipes from freezing.

We urge all consumers to keep faucets shupt off when not in use to the end that there will be sufficient water for fire and other purposes.

Water will be turned off from all consumers allowing water to run constantly.

AIR [illegible] TO CONSTANTINOPLE

British Airplane Makes 2,000-Mile Trip Without Accident.

DROPS BOMBS ON THE ENEMY

Amazing Story of Voyage of British Battle Airplane to Turkish Capital From London—German Headquarters and Turkish War Office Bombarded—Long Trip Made Without Engine Trouble of Any Kind.

For the first time the amazing story of a British battle airplane's flight to Constantinople from London, and its sequel in the bombardment of the German headquarters and the Turkish war office there was told by Mr. Handley Page and Mr. Basil Johnson of London, whose firm built the engines that flew the 2,000 miles without a hitch.

Loading up at Hendon, the machine, which with spares and luggage was more than six tons in weight, proceeded to Paris, Lyons, and, to avoid the Alps, continued by way of Marseilles. From Marseilles the journey was by way of Spezzia to Pisa, Rome, Naples and Otranto, which was the last point over friendly country. The next, and perhaps the most difficult stage of the journey, was over the Albanian Alps to Salonica, a trip of 250 miles across mountains varying from 8,000 to 10,000 feet, with no suitable place for landing in case of need.

Off for Constantinople.

Squadron Commander Savory, who was the chief pilot, told him, said Mr. Handley Page, that they could see wild Bulgarian horsemen below, who were running about in every direction, waiting for a chance to kill them if they came down.

From Salonica the adventurous party flew to their base, overhauled the machine, and prepared for a long-distance bombing expedition to Constantinople, a distance of about 320 miles.

On their attacking trip they set forth with 16 bombs, and on arriving at the Sea of Marmora throttled down from 2,000 feet to 1,600 feet, the Golden Horn and other points being clearly in view.

After a short survey of the lights of Constantinople, and in order to make sure of their objectives, they came down to 800 feet and dropped a salvo of four bombs, hoping to reach the Goeben, which was anchored just beneath them. Unfortunately they missed the vessel, but managed to hit one or two submarines that were lying alongside her.

Turning on their track, they made another attempt on the Goeben, and this time, in spite of the attentions of a number of Turkish and German anti-aircraft guns, managed to plant four bombs on the battleship.

Then they flew up to a ship called the General, which was the headquarters of the German staff, and dropped two bombs on her, to the great consternation of naval and military officers assembled in her saloons.

One more target, too tempting to be missed, attracted the intrepid aviators, and they next made their way to that part of the town where the Turkish war office was situated and dropped two more of their bombs on the building. The Turkish official report on the latter incident quaintly minimized matters by saying: "The war office was not destroyed."

Makes World Record.

After half an hour's bombing of Constantinople they turned round and started back to their base, Flight Commander McLellan relieving his chief in the steering. They had not escaped without damage, but even after one engine had been put out of action they were able to get away without serious damage from the "band accompaniment" of guns below, which had paid them a quite uncomfortable amount of attention.

On arriving back at the base no fewer than 26 bullet holes were found in the machine. The journey to Constantinople and back (640 miles) occupied seven hours.

Handley Page said Engineer Lieutenant Rawlings, who was one of the party, reported that they had no trouble at all with the engines, although the water in the radiator boiled on a very hot day. He thought the flight, which constituted a world record for British airplanes, engines and aviators, showed the great possibilities of aerial long distance bombing expeditions during the war, and also that there were great possibilities for mail and freight carrying in times of peace.

Girls Work In Saw Mill.

Dressed in dainty brown overall bloomers, eight young women of Washburn, Wis., started work at the Kenfield-Lamoreaux saw mill recently. The company intends to employ about 20 women in places formerly held by men and boys. The women work on machines where the work is light and work 45 hours a week. The company has made work conditions as pleasant as possible. A rest room has been fitted up on the upper floor for them, equipped with rockers, tables, chairs and lavatories.

Costs $37,000 to Kill One Soldier.

By figuring the total amount of property destroyed, money spent and lives taken in the present war, a Toledo (O.) editor has estimated that the average cost of killing a soldier is $37,000.

FARMERS OFFERED $15 FOR TOMATOES

Agents for packing houses are visiting the county contracting for the 1918 crop of tomatoes raised by farmers. The highest price s ofar offered is $15 per ton "run of the patch."

LONGEVITY

Company refused to continue the "dinkey" service which tided over the last few days. Workers at the depot from Charlestown and Utica were still cut off from work but the opening of interurban service on the Indianapolis line has given a wey for men at Sellersburg and out that way to get in to the city.

The ferry boat has resumed running but was laid up for a time again Thursday following an early run from this side to Louisville. The boat was held up on that side for some time before resuming service. The ice in the river is very heavy, there being more and heavier floating ice than for some time. The gorges above are locked tight and this is practically all new ice.

Roadways are being cut in the snow and are making the movement of wheel traffic easier, and sidewalks, roofs, etc. are being cleared by private energy. The street department is cleaning out the gutters and entrances to sewers o be ready to take advantage of every bit of thaw as soon as it comes.

MRS. MARY GOUDY SICK TWO DAYS

Died Wednesday Night; Funeral Waits On Sons

Mrs. Mary Goudy, widow of Robert Goudy, whose home was at 1135 Missouri avenue died Wednesday evening at 8 o'clock after a couple of days of illness of bronchial pneumonia. Mrs. Goudy was born in Pennsylvania October 6, 1853, the daughter of Mr. and Mrs. Eugene Lesheur. She was brought to Jeffersonville as a child by her mother after her father had died and she was married here forty-four years ago to Robert Goudy who died about nine years later. Mrs. Goudy is survived by two sons and two daughters: William Goudy, president of the National Roll & Foundry Company, Avonmore, Pa.; Robert Goudy who runs a garage at Canton, Ohio; Miss Lillie Goudy, teacher in the city public schools and Miss Mary Goudy both at home.

Funeral arrangements will not be made until the sons arrive. The services will be at the residence and private and will be conducted by the Rev. Dilworth Lupton, pastor of the First Unitarian church, Louisville, of which Mrs. Goudy was an adherent. Interment will be at Walnut Ridge cemetery and it is particuarly requested that no flowers be sent.

CAPTURED THREE SLOT MACHINES

Raid By Police On Jacob Patrick's Saloon

A raid was made by Capt. James N. Masters and Ellsworth W. Summers Thursday morning on Jacob Patrick's saloon, Forest Park, at Tenth and Walnut streets, and three slot machines were seized. One is said to have been in the saloon and two in a room behind. They were carted to the police station and are apparently well charged with cash. Patrick was notified to appear in city court Friday to answer a charge of exhibiting a gaming device.

IN THIS WE MAY ALL AID OUR COUNTRY

New Calendar Of Food Conservation; Patriotism Says, 'Obey'

PROGRAM EXPLAINED

Wheat, Meat, Fat Should Saved; Suggetions To Aid Public

THE NEW CALENDAR

Monday is Wheatless.
Tuesday is Meatless.
Wednesday is Wheatless.
Thursday is Fat Saving Day.
Friday is Meatless.
Saturday is Porkless.
Sunday is Wheat Saving Day.

Breakfast, every day, is baconless; one meal wholly without wheat. Every meal, every day, is the time to save wheat, beef; pork butter and sugar.

Herbert Hoover, looked to for the salvation of the cause of America and the allies in the war against Germany, has so decreed.

He appeals to the patriotism of the American people to help him. If this appeal is not sufficient, or if the patriotism is lacking, the regulations will positively be enforced by legislation which he says he is assured from the present Congress.

Dr. Harry E. Barnard, federal food administrator for Indiana, following the proclamation of President Wilson, issued a fiat to all county food administrators, that they see to it, that popular habits conform to the modified food regulations. They are directed, with greater emphasis to report immediately the names of all s lackers.

The program and its explanation, given with the authority of Mr. Hoover, himself for the information of the people follows: Have TWO WHEATESS DAYS (Monday and Wednesday) in every week, and ONE WHEATLESS MEAL in every day.

Explanation—On "Wheatless" days and in "Wheatless', meals of other days use no crackers, pastry macaroni, breakfast food or other cereal food containing wheat and use no wheat flour in any form except the small amount that may be needed for thickening soups or gravies, or for a binder in corn bread and other cereal breads. As to bread, if you bake it at home, use other cereals than wheat, and if you buy it buy only war bread. Our object is, that we should buy and consume one-third less wheat products than we did last year.

Have ONE MEATLESS DAY (Tuesday) in every week and ONE MEATLESS MEAL in every day. Have TWO PORKLESS DAYS (Tuesday and Saturday) in every week.

Explantation — "Meatless" means without any cattle, hog or sheep products. On the other days use mutton and lamb in preference to beef or pork. "Porkless" means without pork, bacon ham, lard or pork products, fresh or preserved. Use fish, poultry and eggs. As a nation we eat and waste nearly twice as much meat as we need.

Make every day a FAT-SAVING DAY (Butter, lard, lard-substitutes, etc.)

Explanation —Fry less; bake, broil, boil or stew foods instead. Save meat drippings; use these and vegetable oils for cooking instead of butter. Butter has food values vital to children; therefore give it to them. Use it only on the table. Waste no soap; it is made from fat. Be careful of all fats. We use and waste two and a half times as much fat as we need.

Make every day a SUGAR-SAVING DAY.

Explanation—Use less sugar, Less sweet drinks and candy containing sugar should be used in war time. As a nation we have used twice as much sugar as we need.

Use FRUITS, VEGETABLES and POTATOES abundantly.

Explanation —These foods are healthful and plentiful, and at the same time, partly take the place of other foods which we must save. Raise all you can for home use.

Use MILK wisely.

Explanation —Use all of the milk; waste no part of it. The children must have whole milk. Use sour and skim milk in cooking and for cottage cheese.

HOARDING FOOD. Any one buying and holding a larger supply of food now than in peace time, except foods canned, dried or preserved in the home, is helping to defeat the Food Administration in its attempt to secure a just distribution of food and the establishment of fair prices. The food hoarder is working against the common good and even against the very safety of the country. Hoarding food in households is both selfish and unnecessary; the Government is protecting the food supply of its people.

Loyalty in little things is the foundation of the national strength. DISOYALTY IN LITTLE THINGS GIVES AID TO THE ENEMY. KEEP THE PLEDGE.

Do not limit the food of growing children. Eat sufficient food to maintain health; the nation needs strong people. Co-operate with your local and federal food administrators. Take their advice. Preach and practice the "gospel of the clean plate." Housekeepers should help the stores to cut down deliveries. Use local supplies; this saves railroad transportation.

Report to the nearest food administration officer the name and address of any person discouraging the production or saving of food.

FUNERAL OF AGED SELLERSBURG WOMAN

The funeral of Mrs. Nancy Lister Walker, widow of George W. Walker, who died at her home at Sellersburg age eighty was held Tuehday and the body was placed in a vault at New Albany until the weather permits of burial in the Silver Creek cemetery. Will Beck, of Sellersburg; Edward Beck, of Bloomington, and Mrs. Ed Bottorff of Charlestown nephews and niece, are her nearest survivors. She is the last of an old Clark county family.

SELLING LIQUOR TO SOLDIERS

Dennis Fletcher Faces Serious Charge

A charge of selling liquor to soldiers has been preferred against Dennis Fletcher in city court and the case was continued until Monday by Mayor Newton H. Myers. The arrest was made Saturday night by Sergt. Robert E. Gleason and Patrolman P. L. dgerton at the instance of Lieut. G. Ray Ford, of the quartermaster's corps, and as the result of a careful watch kept for several days during which two soldiers from Camp Zachary Taylor were assigned to act as military police. These assert they purchased a bottle of whisky for sixty-five cents from Fletcher at the livery barn at 122 East Court avenue kept by George Schoen. It is said that many soldiers have been getting whisky in Jeffersonville and a number have been held here for intoxication but released without any proceedings being taken against them.

NOTICE OF REGISTERING OF ALIENS

German Born Men, Not Naturalized, Required To Present Themselves

FEBRUARY 4 TO 10

Police Chief Masters Director Of Registration In City Of Jeffersonville

NOTICE

All Natives, Citizens, Denizens, or subjects of a Foreign Nation or Government, with which war has been declared, being Males of the age of 14 years and upward, who shall be within the United States and not actually naturalized as American Citizens as defined by Statute (U. S. Rev. Stat. 4067), are hereby notified that all such persons being in or a resident of the City of Jeffersonville, Clark County, Indiana, are required to appear at the office of the Superintendent of Police of said City on or between the 4th and 10th day of February 1918 to register as Alien Enemies. All others living or being in Clark County outside of the City of Jeffersonville will be required to appear before the Post Master from whose office they receive mail on the above dates for registration. All persons who have secured their first papers in naturalization are placed in the above class and must register.

WARNING is hereby given that any person classed as above who fails to comply with this order will immediately after the last day for registering be arrested and subjected to the penalties prescribed.

JAMES N. MASTERS,
Superintendent of Police for the City of Jeffersonville, Indiana.

* * * *

The above notice practically covers the information necessary for those to whom it applies and who by complying with the requirements will be able to show their friendly disposition to the country of their residence. Most of those to whom the order will apply in Jeffersonville and Clark county will prove to be those who have lived here a long time but have ailed to become citizens. Most of them will be found to have taken out their first papers and to have voted here for a number of years but this does not constitute full citizenship although the omission has usually been merely a case of neglect to complete a job begun in good faith.

Capt. Masters will have a supply of the blanks in a few days, sufficient for the registration of fifty men though it is believed this will be probably double the number required. Those affected by the order must apply or the blasks which they may fill up at their leisure is triplicate and take with their photograph, also in triplicate, to the police station where they will swear to their statement and will have their finger prints taken.

DIVORCE SUITS FILED IN COURT

Administrators Granted Letters By Clerk

Suit for divorce was filed Saturday afternoon in the Clark Circuit court by Mrs. Charlotte Carlin against Elmer Carlin on charges of abandonment and failure to [illegible]. They were married June 21, 1902, and separated in July 1908. It is charged by Mrs. Carlin that her husband abandoned her and their infant child and she was compelled to go to the home of her parents. She asks custody of her son, Walter Carlin and demands judgment for $1,000 alimony.

Louis W. Koch filed suit against Anna Koch for divorce alleging cruel treatment and that they were married September 12, 1915 and separated October 26, 1915. On November 24, 1915 she sued him for support and during four months of 1916 he paid $65.50 to the clerk on her account. On December 3, 1915, he sued her or divorce but the suit was dismissed May 13, 1916.

Mary E. Kuntz filed two bonds of $2,000 each with Charles Bonifer and William J. Kuntz sureties, to qualify as administratrix of the estate of Mrs. Elizabeth Kuntz, her mother, who died a ew days ago and as administratrix de bonis non with the will annexed of the estate of George Kuntz, her father, who died a year ago. The will of George Kuntz left everything to the widow with remainder to the four children. Its estimated value is $8,000 in real estate and $1,000 in personal property. Mrs. Kuntz was executor of her husband's will.

Mrs. Victoria Eckert filed bond of $1,600 in the office of Clerk Ernest Jacobs, with George Yochem and Frank X. Renn sureties, to qualify as executrix of the will of George Eckert.

Ada Smith filed suit against W. T. Rawlings for the collection of a note for $258.3. and attorney's fees. Judgment is demanded for $500.

William Hewitt filed a claim against the estate of Mary Saffells for $125 based on a rate of $50 a month from September 22, 1917, to December 8, 1917 for services, including caring for, attending and providing fuel and food for decedent.

MORTGAGES AND DEEDS RECORDED

Recorder Allhands Summarizes Work Of 1917

Clifford Allhands, county recorder, has completed a statement of the work of his office for 1917 for the State Bureau of statistics. There were filed 618 warranty and quit claim deeds for a total consideration of $421,587, of which number 257 deeds gave a consideration of one dollar; eight sheriff's deeds, consideration of $19,434; eleven auditor's deeds, consideration $878; total number of instruments, 637 consideration $441,899. There were also fifty-eight miscellaneous instruments filed and the following mortgages and releases:

On farms, 109 filed, consideration $89,744; released 148 consideration $98,452; on lots, 113 filed consideration $91,737; released 116, consideration $73,915; school fund mortgages, 18 filed consideration $9,455; released 14, consideration $9,425; chattel mortgages and liens, filed 24, consideration $11,844; released 23, consideration $8,425; total filed 320 consideration $239,876; released 325, consideration $199,092.

RAUTH ROAD TRANSCRIPT APPROVED BY ATTORNEYS

Attorneys or the two local banks have approved the transcript of the Rauth road and the bonds have been ordered and will probably be received in time for the Board of County Commissioners to sign them at their next regular meeting Monday. The issue is for $30,000 in $500 bonds to run in series from one to ten years and tdhe road is needed for the benefit of the quartermaster's depot.

POURING TROOPS INTO EUROPE

Secretary Baker Shows Accomplishment Greater Than Supposed

1,500,000 THIS YEAR

Statment Before Senate Committee Makes Great Impression

Washington, Jan. 29—America will have an army of half a million men in France early this year with a million more trained and equipped ready to follow as quockly as ships can be provided to carry them—and the outlook for ships is not unpromising.

Secretary Baker gave this information to the nation and to the world Monday in a statement before the enate Military Committee, baring much that until now has been carefully guarded with the army's military secrets, in answering charges that the Government has broken down preparing for war.

From early morning until late afternoon the Secretary addressed the committee and a crowd including many members of both Houses of Congress gathered in a big hearing room of the Senate office building. He spoke extemporaneously, beginning with details of the mammoth task of building an army of a million and a half, answering such complaints of inefficiency as were cited by Senator Chamberlain in his recent speech and declaring that such instances were isolated and not general. Some questions were asked, and Mr. Baker from time to time had assistants go to the telephone for reports on specific questions.

Then, toward the close of the day the Secretary delivered a dramatic general statemnt of the American war plan, telling of the coming of the allied missions, of the day and night conferences with men from the scene of battle in which the plans now being executed were adopted, and of success beyond the most sanguine expectations in building the army, and its industrial supports at home, transporting men across the ocean, constructing railroads in France and preparing to strike the enemy with every resource at the country's command.

When Mr. Baker colsed it was apparent he had created a profound impression. Chairman Chamberlain said so before he left the stand. There was no attempt at croses-examination. The chairman proposed that the Secretary be given a rest, and it virtually was agreed to recall him for further examination later aftr committee has completed its hearing of officers of the Medical Corps, Aviation Section and other branches of the service.

While many things disclosed impressed, the committee was frankly amazed when told that the men of thirty-two National Guard and National Divisional camps are ready to go at need. When members wanted to know why such things had not ben given publicity before, Mr. Baker spoke of the reluctance of military men to reveal their war plans and quoted German remarks about America's advertisement of her preparations.

In closing a general statment of the war aims of this country Secretary Baker said:

"Insofar as I am personally concerned, I know what is ahead of us. I know what the American feeling about this war is. Everybody is impatient to do as much as he can. There will be no division of counsel; there will be all the crticism there ought to be upon shortcomings and failures there will be so far as the War Department is concerned, a continuing effort at self-improvement and an hospitality toward every suggestion for improvement that can come from the outside. When the victory is won over there, Mr. Chairman, the credit which will come to American enterprises and to American determination and to American courage will be an honor to us, as the tenacity of purpose and splendid acheivements of the British and French already shed great lustre on the names of the great people."

REAL ESTATE

John H. McClellan and Anno E. McClellan have conveyed to Charles Hauer and Grace Hauser ten acres of land in Carr township for a consideration of $275.

PROBATE GRANTED TO WILL

Testament Of Mrs. Mayme E. Woolley, Executed After Dr. Flynn's Death

BROTHER GETS $500

Remainder Of Estate Goes To Edward Cottrell, Under Will

The will of Mrs. Mayme E. Woolley was probated Tueday in the office of Ernest E. Jacobs, clerk of the Clark Circuit court, and Edward Cottrell, named executor, qualified by filing bond of $15,000, twice the estimated value of the personal estate, with a surety company on the obligation.

The will was executed July 18, 1916, a few days after the death of Mrs. Woolley's brother, Dr. E. N. Flynn, whose will was probated July 13. Mrs. Woolley provides for payment of debts and funeral expenses, leaves $500 to her brother, Charles L. Flynn of Kansas City, Mo., and leaves the remainder to Edward Cottrell who was the chief beneficiary under the will of the late Dr. Flynn subject to life interest in the property at 119 West Court avenue which was left to Mrs. Woolley and now reverts to Mr. Cottrell.

HOW TO REDUCE High Cost of Living During These War Times—What Every Woman Can Do.

Look over your old clothes. You can never appreciate how much you can brighten and freshen up your wardrobe until you use Dy-O-La Dye.

Take some of your discarded blouses and dresses, dye them with some of the sixteen different colors of Dy-O-La, change the trimmings a bit and you will be astonished at the result.

Dy-O-La is the modern dye made by skilled chemists who have removed all the difficulty from home dyeing in order that you may get perfect results. Old style dyes require a separate dye for each kind of goods. That makes trouble (as you probably know) for if you get a package for the wrong kind of material the goods are spoiled. You can't make such a mistake with Dy-O-La Dye.

Take some garment that you have grown tired of or that you desire to color the fashionable shade of the moment, look over Dy-O-La Dye color chart at your nearest druggist or storekeeper, select the one that pleases, and follow the printed directions. They will look as if they had just come from the dressmaker.

And remember—the colors will be just as fast and durable as they are beautiful. They won't rub off or bleach out.

Buy it of your nearest druggist or storekeeper, but if they have not the color you want we will send it to you on receipt of ten cents and at the same time include direction book and color chart.

Dy-O-La Dye is made in **Black, Blue, Navy Blue, Brown, Seal Brown, Light Green, Dark Green Scarlet, Yellow, Orange, Cardinal Red, Pink, Purple, Dark Wine Old Gold, Turkey Red** and from these sixteen colors a great variety of other shades and colors can be made.

Dy-O-La Dye Company,
700 Sixth Ave., Des Moines, Iowa

Name Your Ailment

The descriptions are so clear, plain and simpe, that anyone can name their aiment by reading Dr. Humphreys' Manual, a compact little Medical Volume that fits the side pocket, mailed free on request, address: Humphreys' Homeopathic Medicine Co., 156 William St., New York.

GAVE COMMAND FOR FIRST SHOT AT KAISER

Roodhouse, Ill.—Central Illinois has the distinction of giving to Uncle Sam the man who ordered the first American shell fired against the Germans in France. He is Maj. John R. Starkey of this city. And it was an Irish "Sammie" from Indiana who fired the first shot. Major Starkey designated the gun and the gunner who sent the first historic shrapnel at the kaiser.

Word to this effect has been received here by relatives in a letter from the hero. When the war broke out the major was detailed to Gen. John J. Pershing's command and is now serving with "Black Jack" "over there."

NAIL CRACKS GLASS EYE

Carpenter Asks Damages From Construction Company Because of Accident.

Camp Funston, Kan.—If a one-eyed man is driving a nail and the head flies off and hits him in his glass eye, breaking it, is he entitled to damages for "injuries?"

That is the question that is bothering the Fuller Construction company, camp officials and Louis Scudder, a carpenter of Topeka. Scudder worked for the Fuller Construction company, building the Funston cantonment.

Scudder went to the company doctor, who examined the eye, took out the broken glass, but found no cuts.

"Don't I get damages for injuries?" demanded Scudder.

"I'll take it up with the company," the doctor answered.

"Well, I'll go down to Topeka and get another glass eye before I go back to work," said Scudder.

SUFFERERS

The mucous membrane lines all passages and cavities communicating with the exterior.

Catarrh is an excessive secretion, accompanied with chronic inflammation, from the mucous membrane.

Hood's Sarsaparilla acts on the mucous membrane through the blood, reduces inflammation, establishes healthy action and radically cures all cases of catarrh.

Adv No. 3

AN AIRPLANE CAMERA

This type of camera which no doubt will be used by American aviation corps men for reconnaissance work is attached to the airplane and is operated by the pulling of strings or the pressing of buttons. The camera is almost automatic, as everything can be set in advance and the entire operation of taking the picture is the pressing of the button or the pulling of the strings. The camera makes an almost perfect view of the terrain and will be invaluable in the reconnaissance work of the army. The camera is loaded with plates and a number of pictures can be taken successively without additional work. A British royal flying corps man is in the machine.

MARS AND STORK COMBINE

Male Predominate in Denver Since the United States Entered the War.

Denver, Colo.—That old man Mars, the god of war and destruction, has a working agreement with that humble and beloved bird, the stork, to leave boy babies instead of little sisters on his visits to Denver homes since the United States entered the struggle against Germany, is claimed by those who dote on vital statistics in this city.

John W. Flintham, deputy health commissioner of Denver, has compiled figures showing that of the 1,861 children born here from January 1 to August 1, of this year, 1,141 were boys.

Several physicians maintain that male children are more numerous during war times than at any other period, and say that during the past six months five out of every eight children born have been boys.

And, despite the fact that she would prefer to see suffragists increasing, Dr. Alice T. Moore reports that of the last 54 babies she has ushered into the world, 48 have been boys.

LAST OF HORSE CAR LINES

Electricity Displaces Horse Drawn Vehicle on Line Between Kansas Towns.

Cottonwood Falls, Kan.—The last horse car line in Kansas, and one of the last in the West, has quit business. It has been in operation for thirty years, between this city and Strong City, Kan.

The horse car line will be replaced with a single electric car, and while the track is being relaid to accommodate the heavier equipment, a hack is taking care of the business.

WOMEN OF PRINCETON ADOPT ENTIRE VILLAGE

Princeton, N. J.—The committee of women in charge of the Rose Cottage tea house annex, which provides lodging and meals at very reasonable rates, have "adopted" the little village of St. Paul-aux-Bois in the Aisne region of France.

In the great drive on Paris in 1914 the Germans swept through the little village, which was held in the grasp of the invaders until the retreat after the battle of the Somme. The 575 inhabitants were left destitute.

Through the operation of the annex, the committee regularly realizes a neat sum, which is being steadily forwarded to the French villagers.

$45,000 PEARLS ARE SOUGHT

Package Containing 535 Gems Stolen From Vessel Which Recently Arrived at New York.

New York.—A search of New York city pawnshops is being made by Pinkerton detectives for $45,000 worth of pearls which were stolen from a French ship that arrived on November 26. There were 535 pearls in the missing package, of which the three largest weighed between 25 and 28 grains each. The others weighed from one to three grains each.

It is said that the pearls were sent by a Paris dealer to one here; that to avoid an extra rate the shipper did not reveal to the company the character of the shipment, and that it was not placed in the ship's strong room.

REHABILITATING MAIMED SOLDIERS

Canada Is Making Skilled Men of the Wounded.

HAS IDEAL PLANT FOR WORK

Only 3,514 Out of 13,826 Who Have Come Back Are Classed as Wounded—Men Are Re-Educated to Fill Positions Paying Higher Wages Than They Received Before Going Into Army.

Out of 13,826 soldiers that have returned to Canada from her overseas forces, only 3,514 are classified as wounded in a report of the Canadian military hospitals commission. The report is especially interesting to Americans because Canada's war problem is in many ways similar to our own.

"Over age" brought home 1,286; under age, 580; tuberculosis, 670; insane, 180; "other causes," 7,066. A total of 9,134 of the 13,826 were sent to hospitals or convalescent homes.

About half—7,418—are either uninjured or only 25 per cent disabled. Those disabled from 26 to 50 per cent number 2,923; disabled 51 to 75 per cent total 927; 75 to 100 per cent, 1,975.

Only 5,233 were native Canadians; 7,418 were born in the British isles.

They Rehabilitate the Wounded.

In the Guelph Military Convalescent [illegible] government has [illegible] for the rehabilitation of wounded and sick soldiers. This establishment was formerly a reformatory. It has a farm of 800 acres, which is capable of diligent development, and has also a woolen mill, machine shop, broom shop, tailor shop, woodwork shop, creamery, lime kiln and equipment for many other industries. The Ontario Agricultural college adjoins this hospital, and its teaching staff will help in the work of re-educating the men. An institution such as this may take a man who is wounded and who has never been anything but a day laborer and send him out well and trained to work at a trade or a profession—whatever he has the brains to learn. Our own government is now building and commandeering similar institutions for the care of wounded Americans.

One young man who has a severe scalp wound was a farmer, teamster and general laborer earning wages averaging $60 a month. He has now a commencing salary of $70 and is engaged at a much more agreeable occupation. Another was a lumberman and accustomed to earn $3.50 a day, but on returning to the woods he took charge of an engine at $4 a day. Another man who formerly made $35 now gets $65. All of these men were very badly wounded.

Private Henry Gerrish, who was a teamster when he enlisted, lost his entire left arm. He studied hard in the convalescent hospital, passed the civil service examination, and got an appointment as a postmaster at $125 a month. In addition he persuaded one of the nurses in the convalescent hospital to become his wife.

A Few More Examples.

A metal polisher who made $60 a month took a course in commercial work and is now earning $87.50 a month as a bookkeeper. A private, who was a blacksmith's assistant, took a course in oxyacetylene welding and now makes $90 a month. A general laborer has become a wood carver and is paid $70 a month by the Alaska Bedding company.

"I always had a liking for drawing and felt that if I ever had the chance I would take up mechanical drawing," wrote a wounded prisoner who had been a milk wagon driver for some years at $12 a week. "This opportunity was afforded me at the Gray Nuns Convalescent home at Montreal, where, after six weeks, I am in a position to accept an appointment with an initial salary of $75 a month."

Another man admits that he learned more while in the hospital than he did in 30 years of experience as a mechanic.

"The fact is," he writes, "that at the outbreak of the war I was earning about $3 a day at my trade. I am now able to hold a job as foreman in a machine shop at more than twice the salary I was getting before."

In this way Canada is making out of her wounded skilled men to take the place of those who are lost.

A MODEL HUSBAND

This husband never roams about
The village street at night
This husband never scolds his wife
Or starts domestic fight.
He never twits her of her folks,
Nor makes fun of her hats,
Nor criticises things she cooks,
Nor loves those household spats

He never lies to her about
A single blessed thing
He does not raise derisive shout
When she gets us to sing—
He doesn't question her about
The money she has spent;
He doesn't force her to account
For every last red cent.

This husband doesn't howl hard times
Or deal in poorhouse talk.
He does not act the martinet
And make her walk the chalk.
He does not tell her what she was
Before they two were wed,
No wonder he behaves himself—
This husband he is dead.

Supply Of Wool Arrives

One hundred pounds of yarn arrived Monday at local Red Cross headquarters, fifty pounds for knitting sweaters and fifty for socks and other articles made for the soldiers. A large quantity was distributed the same day among the ward captains who are busy getting it to the volunteer workers. Many new workers are enlisting and the mysteries of "purl and plain" are being imparted by the captains and others to many who desire to "do thtir bit" in this manner. The yarn was delayed on the way and several have been anxiously awaiting a supply to be able to get on with their knitting.

At Reformatory Hospital

C. Virgil Orem, an officer at the Indiana Reformatory, who was assaulted by convicts and beaten about the head, has been brought home from Norton Memorial Infirmary, Louisville. He is now at the Reformatory hospital and is receiving treatment there.

Entertained With Patriotic Party

Miss Mintie Huncilman entertained a few friends last evening at her home on East Chestnut street at a Patriotic Party in honor of her friend Miss Amelia Best of New Albany who is her guest this week. The home was very attractively decorated in Red, White and Blue. The same colors being carried out in the refreshments. The floral decorations which were the same colors were beautiful. Miss Huncilman's guests included Misses Amelia Best, Bess Hensel and Clara Veasey, Lieut. Crandall, Lieut. Shaffer, Lieut. Drummond and Mr. Walter Eaken.

Conservation Meeting

The Current Events Club held a very interesting meeting yesterday afternoon with Miss Clara Eaken at her home on East Maple street when they had their first programme on Conservation of Food as laid down by the Federation of Clubs of the State. Each member in answer to Roll Call had an article on Conservation of Food or a recipe for conserving meat and flour and making war time Bread. Miss Esther Price, Home Demonstration Agent gave a very instructive and interesting talk along this line, which was very much appreciated.

Personals

Major D. C. Peyton who has been quite ill is reported as better.

Mrs. Matilda Kaelin will be hostess Wednesday evening at her home on Woerner avenue to the Fidelity and Friendship Club.

[illegible] L. O'Bannon, former Auditor of Harrison county and who is candidate for Congress, has [illegible] in Corydon and New Albany. Mr. O'Bannon is connected with R. H. Humphrey Lumber Company, which recently moved from Corydon to New Albany, Ind.

The two children of Mr. and Mrs. William Rapp on West Riverside have just recovered from an attack of scarletina.

Clarence Cole, son of Mr. John Cole, sr., of this city who is in the Navy Yards in New Orleans writes he is delighted with the city and the work.

Mrs. J. A. Ballard, living on the Gravel road, in the McCulloch neighborhood, who has been seriously ill, is slowly improving.

Earl Biggs who has been confined to his home on East Seventh street a victim of tonsilitis is able to be out.

Mrs. Frank Nagle will be hostess Wednesday afternoon at her home on Ohio avenue for her sewing club.

Mrs. Mary Billings of Indiana avenue who fell last week and broke her arm is still suffering great pain from it.

Lent begins this year February 13th and Easter Sunday will fall on March 31st. Early this year which perhaps will mean early Spring.

Mrs. Carrie Merriwether who has been ill of lagrippe at her home on Ohio avenue is slowly improving.

Mrs. C. W. Brashear of West Riverside has again been called to Rising Sun on account of the serious illness of her mother Mrs. E. R. Hunt.

Mrs. Amerson Bennett left Sunday for Scottsburg, Ind., to visit her brother whom she has not seen for several years.

The Calumet Club will hold their meeting Wednesday afternoon with Mrs. Lee Carl in Avondale, postponed from last week on account of weather conditions.

Mr. and Mrs. Albert White entertained at a family dinner and house party Sunday at their home on West Market street.

Jack Driscoll of this city and Ellsworth Schan of New Albany both students of Indiana University are home on a few days vacation.

Capt. Kelly of Camp Shelby, Hattiesburg, Miss., who is here on a furlough, returned Sunday from a few days visit with his parents at Warsaw, Ind.

Mr. and Mrs. W. R. Cheney and Mrs. Cheney's mother Mrs. McMahon, who have bebn spending a few months here departed yesterday for their home at Redlands, California.

UNIMPEACHABLE

If you were to see the unequaled volume of unimpeachable testimony in favor of Hood's Sarsaparilla, you would upbraid yourself for so long delaying to take this effective alterative and tonic medicine for that blood disease from which you are suffering.

It eradicates scrofula and all other humors and cures all their inward and outward effects.

Take Hood's.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over over 30 years, has borne the signature of Chas. H. Fletcher. and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of
Chas. H. Fletcher.

In Use For Over 30 Years
The Kind You Have Always Bought

THE CENTAUR COMPANY, NEW YORK CITY.

AMERICA SPELLS GERMAN DEFEAT

Entry Into War Means Victory for Allies, Says British Writer.

CONTROL OF FOOD WILL WIN

Now a Case in Which "the Dog Has Begun to Bite the Pig," Says Writer—Something Rotten in Germany.

London.—How America's entry into the war has hurt Germany is the subject of an interesting article in the Birmingham Post by Edgar Wallace, author and military correspondent. It is now a case in which "the dog has begun to bite the pig," he says.

"It is as well," Mr. Wallace writes, "to separate the causes of the present German offensives from the circumstances which have made them possible. We know that the stagnation of the Russian front allows the Germans to employ in the west troops which, were the Russian army an active factor in the war, could not have been employed; we know that the Italian has lost nearly 300,000 men in the course of the fighting of the last month; but neither of these facts explains the German offensive plan. For example, the push against the Isonzo was obviously uninfluenced by Italian losses—because they had not occurred. The push against Italy was and is part of the great scheme which would certainly have been carried out even if Russia had remained loyal to the alliance.

"Reason Is 'America'"

"The reason is summed up in the word 'America.' I do not particularly refer to the forces which America will put into the field. The German general staff, I am certain, has no particular fear that sufficient American troops will be put into the field next year to secure a decision against Germany. I doubt very much whether the German is worrying at all about what will happen in the field in the summer of 1918. But he is tremendously concerned over what will happen in Germany between May and August of that year unless he can break the fighting spirit of the entente during the forthcoming months of the winter.

"It is no secret that Germany had been drawing large supplies of food, and necessary raw material from America, via neutral countries. America supplied these articles in the way of business, just as she supplied Britain with material in the way of business, and strictly in the way of business the neutral countries had been passing on their imports to Germany.

"And so this jolly war might have gone on whilst Germany's credit abroad held—only America came in. She declared war, she called millions of men, she reorganized her industries to meet the demands of war—and then she sat down to take a good look at the neutrals. And they seemed unnecessarily bloated. They did their best to engage her sympathy. And they had little bread and potato riots just to show there was no deception.

"But America understood. She said very simply, 'Feed yourselves, you big stiffs!' (if the picturesque vulgarity be allowed).

"In the old nursery rhyme, when the stick began to beat the dog, the dog began to bite the pig. If the neutral has no food to spare and cannot buy any in America, the German cannot buy food from the neutral. In fact, the dog has begun to bite the pig. The neutrals have no right to complain.

Something Rotten in Germany.

"So many millions of tons of foodstuffs which came to Germany once in the dear dead days are not coming any more. She is that much shorter of food. We do not know for certain the conditions of Germany's food reserves. That there is something rotten there we know from the curious attitude of Bulgaria.

"But if the German, with all the supplies he was securing from the neutral, was short in the spring of 1917, what will be his position in the spring of 1918, when the new American embargo becomes fully operative? We think it will be fairly bad. The German crops were poor—as were all the world's.

"Nobody but a perfectly insane person or a statistician—who will believe anything—imagines that the world shortage of food does not affect Germany. It does affect her very seriously. It will affect her worse this year than it did last.

"Food is going to decide this war. The fact that the German censor has closed down all reference to food difficulties and coal shortages is significant. The things that Germans do not talk about are the things that matter. If we are witnessing the beginning of a series of offensives in the west and the opening of a new campaign, that campaign, as I have said before, is a hunger offensive, and the plan dates from that day when America decided that it was a good idea to ration the neutrals, but they would have to find the rations themselves.

HUMPHREYS

Humphreys' Homeopathic Remedies are designed to meet the needs of families or invalids—something that mother, father, nurse or invalid can take or give to meet the need of the moment. Have been in use for over SIXTY YEARS.

TRIES TO LASSO BEAR

West Virginia Man Has Thrilling Experience on Mountain.

James S. Ware had a thrilling experience when he encountered a bear and her cub on Cheat mountain, near Elkins, W. Va., recently.

According to Ware, the bears climbed a tree, and, being unarmed, he secured some grapevine and followed, with the intention of lassoing them. The mother bear climbed down over Ware "slobbering in his face," he said, but making no attempt to attack him, and fled into the woods, abandoning the cub. Ware hurried home and returned with a dog and gun, but both of the animals had disappeared.

Divorces Increase in England.

Statistics show that divorces have increased in England since the war began.

After such splendid results with "Seventy-seven" send for a free copy of Dr. Humphreys' Manual of all diseases and dip into its wealth of information on domestic practice, describing in simple language the maladies proper for a layman to treat. USES OVERCOAT AS BANK

Negro Proves Ownership to Garment by Disclosing Location of Savings.

New York.—Monroe Smith, a negro, insisted in the court of special sessions that he had not stolen the overcoat of Leslie Davis while he entertained Davis in his home. Smith said the coat was his own property and he had a right to pawn it.

"I can prove I own the coat," said Davis. "There is nine dollars sewed in the lining."

Promptly the justice ordered the lining ripped open and the money was found.

HEAVY BUSINESS IN CITY COAL

Dealers Still Short; Many Get Supplied From City Pile

There was again a heavy run of orders Tuesday morning for the coal being sold by the City of Jeffersonville to relieve the present shortage and apparently, judging from the fact that the local dealers are continually sold out of coal and unable to get all they need, the city pie has filled a definite lack. There were about sixty orders for something like forty or fifty tons of coal Monday and practically all of it was delivered.

The second heatess Manday appears to have been well observed and it is thought there will be no trouble in regard to this observance from now on. Without qquetion considerable coal has been saved thereby and at this time there is no indication of relief from the shortage except in the return of warmer weather which is hoped for without being too definitely expected.

PROPHESYING ONCE MORE

Local Writer Who Predicted Hard Winter At It Again

After predicting the nearly past, terrible winter, Herman Rave has set himself another mark as weather-prophet and thinks, that there will be an early spring and a genial one, and a summer of unusual fruitfulness.

In talking about it, Mr. Rave bases his prediction for the coming season on the phenomena of the winter, as he argued the hard winter from the signs of the preceding summer and fall.

It will be remembered, that he had run across the story of the "Winter of the Big Snow" which was preceded by almost exactly the same phenomena as was this winter. The Winter of the Big Snow, 88 years ago, was preceded during the summer by remarkable displays of sundogs, moon rainbows, etc., just as was our present winter. The summers also corresponded in their unusual coolness and othr weather features, including tornadoes.

That historic winter of 88 years ago, (1830) was followed by a wonderfully prosperous summer nor was there any great flood. That came three years later. Our present winter is the only winter isnce then, so far as records show, which approximates that pioneer time winter in severity, and there is probably not an "Old Residenter" who can unpack the experiences of his boyhood days and tell us about how it felt about that time. He's backed clean off the boards. Rave says, he wasn't there either, but being an old settler, he heard it from elder settlers.

By the way, its **almost Ground Hog Day** and we had our first snow on October 23 and the twenty-four snow on December 12, and its been snow pretty much ever since, nor will Ground Hog Day see it gone.

NUX, IRON, PEPSIN AND SARSAPARILLA

The combination of two great medicines, Hood's Sarsaparilla and Peptiron, by taking them in conjunction, one before eating and the other after, brings into co-operation the above-named substances, best for the blood, nerves and digestive organs.

This combination is especially recommended in cases that are scrofulous, or rheumatic, anemic and nervous, or where the blood is both impure and pale, deficient in iron—one of the most common disease conditions of the present day.

In cases where a laxative is needed Hood's Pills should be taken. They work in perfect harmony with Hood's Sarsaparilla and Peptiron, mild and efficient.

There are also [illegible]thers and a sister, Robert [illegible]arles Akers and Mrs.

READY TO BEGIN SEASON

Big Fertilizer Plant Soon To Begin; Still Growing In Size

WILL EMPLOY 150 MEN

Enlargements To Continue; Finest And Best Equipped In United States

Once before, during the summer of 1917, the News had occasion to point to the installation of a very large fertilibzer plant on the ground adjoining the old Levy Pond, by the Louisville Fertilizer Company, which is understood to be a subsidiary of the Armour Company.

This plant is not one of those old-fashioned, ill-smelling concerns, which used to make the river front hideous during the summer months with its smells, but is more in the nature of a vast assembling plant for the chemicals, and other ingredients which form the present day commercial fertilizer. Phosphates, potashes ammonia, etc., with the garbage bases deodorized are assembled here and mixed into a tremendous pile of fruitfulness and stimulus for the fields and gardens.

An enormous stack of potential values in corn and beans, wheat and all the other things necessary to keep hunger from man and beast is already piled up there, some eight thousand tons at least and if you want to know what that means, ask some farmer, what a ton of good fertilizer will do to this field.

This has accumulated during the fall and winter, but as soon as the weather relaxes its rigors sufficiently, more intensive work will be resumed and the big concern will employ some 150 men, may be more and add that much more to the prosperity of this city, if it knows how to take advantage of it.

This big factory will be one of the numerous distributing centers for fertilizers, maintained and operated throughout the United States by the Armours. There are plants of this kind in the most available places in North, South, East and West, something like at least a score.

The Jeffersonville plant will supply Southern Indiana and part of Kentucky. Its main offices are located in Louisville.

The building is, or will be 340 feet long by about 100 feet deep an addition of 40 feet having been erected only recently at the eastern end of it. Inside are vast spaces for the storage of the valuable chemicals and the resultant combination, which makes the fertilizers fit and ready for the field in just the right proportions to feed the growing gold of the wheat and corn and the lush growth of the meadows. These chemicals are stacked in tremendous bins with "bookshelf" openings whence they can readily be taken and loaded into electric trucks, many of which are used in the plant, and taken to be mixed.

The process is in charge of a competent chemist, who also has general supervisio n Mr. Heilmann, who was kind enough to show the NEWS man over this fine plant.

The machinery used is electrically driven and there are powerful dynamos and motors installed at various points. Electric light in abundance provides for the possibility of night work. The electric trucks used move for the most part on tracks laid throughout the building and even in the third story such trucks are provided.

Provisions for the comforts of the men employed are made and a separate building contains a rest room, shower baths and lavatory, also lockers where clothing can be kept during the working hours. This, and a small office building are located at the east end of the property.

The company owns land enough around its plant to extend it indefinitely and it is estimated that enlargements will continue. In its class it is one of the finest and best equipped places in the United States. It has fine transportation facilities, being located between the Pennsylvania, B. & O. S. W. and Big Four roads in such a manner, that their spurs can be laid right to the loading platforms of the plant.

PHYSICAL EXAMINATION RESUMED

Forty-Eight Registrants In Class One Before Exemption Board

MORE ARE CLASSIFIED

Medical Advisory Board Meets; To Pass On Physical Appeals

The physical examination of registrants placed in class one by the Clark County Exemption Board, under the operation of the selective draft system, was begun Wednesday at the courthouse. Dr. Davis L. Field, president, Dr. I. N. Ruddell and Dr. J. M. Meloy. Forty-eight had been summoned for Wednesday and forty-six Thursday. At present no additional notices have been sent out. Many of these were examined and rejected in selecting the county's first quota some time ago.

The Advisory Board, which will examine registrants who appeal from the finding of the doctors named above, held a meeting Tuesday afternoon at the office of the board. There were present Dr. D. C. Peyton, president of the Advisory Board and Dr. Harry K. Smith and Dr. F. W. Davis. The two latter are dentists and the first named a physician. Dr. J. M. Meloy, another physician on the board, was not present.

The Exemption Board continues to work on the classification of registrants and acted on forty-two cases Tuesday, placing twenty-three in class one, five in class three, eleven in class four and three in class five. Those placed in the first class were the following:

John W. Kenney, 808 Watt street; William W. King, Charlestown avenue, Port Fulton; Joseph M. Kline, Floyd Knob; Hugh V. Rout, R. F. D. 1, Charlestown; William John Kahle, Charlestown; William Kaiser, R. F. D. 1, Jeffersonville; Graham R. Foster 502 West Front street; Rudolph L. Hochstrasseh, 822 Front street; Joseph Hollkamp, R. F. D. 2, Sellersburg; Hugh E. Goben, Marysville; Louis B. Harris, Nabb; Joseph Heid R. F. D. 1, New Albany; John F. Schmidt, Floyd Knob; Earl Robertson Martin, Borden; J. A. Mathews, Bethlehem; Eugene Edgar Lentz, Utica; Share Knight, 115 Park place Port Fulton; Thomas Heywood, Borden; John R. Johnson, Carwood; Arthur M. Fouts, R. F. D. 2, Nabb; E. C. Deark 826 Walnut street; Samuel B. Dodge, Memphis; William F. Schubnell Bennettsville.

BREAK UP OF ICE GORGE EXPECTED

Rising River Forecasts An Early Flow Of Great Ice Floes Above

BOATS SEEK SAFETY

Much Damage Already At Some Points; Flood Is Next Fear

Cincinnati, Jan. 30 —The ice gorge at this point broke at 10:10 o'clock this morning and began slowly moving downstream. The first boat to be taken with it was the large packet City of Louisville. It swung loose from its moorings and crashed into the Government boat Ottawa. The Ottawa, however, did not break loose. The Louisville soon sunk.

* * * *

Carrolton, Ky., Jan. 30 —Ice in the Kentucky river between Lock No. 1 and the mouth, a distance of about four miles gave away this morning at 3 o'clock.

The excursion steamer Princess was struck by the Island Queen and sunk to her second deck at the mouth of the river.

* * * *

The local harbor is still clear of ice which is heavily gorged for many miles above the city. The belief prevails along the river that there will be a break by evening and the movement of the ice is anticipated with apprehension. The river was rising Tuesday evening for a time as much as an inch an hour and has risen in all a foot or two within the last day or two. It is the rise of the river that is moving the ice and will carry it away but if experience elsehwree is repeated here it may cause considerable damage.

The ferry boat and dock and the landing and barges of the Diamond Coal Company at the foot of Watt street are the chief river interests threatened here as there is very little in the river at the shipyards and the extensive holdings of the coal combine are here no more.

Apprehension is felt that floods may follow the break up of the river ice and the melting of the snow all along the Ohio river valley.

With the reports that all rivers above Louisville have risen to record stages, local rivermen have doubled their energies in an effort to prevent as much as possible the damage that is sure to follow. All vessels in the river near Louisville a re ready most of them with steam up.

In the shelter of the canal about sixty barges, empty, and about twelve steamers are moored.

The Louisville and Evansville wharfboat, below the coast guard station, was released from its moorings and preparations made to take it to the canal. The steamer Exporter, the most powerful boat in the local harbor, in working to make a passage for the wharfboat to the canal, broke down late yesterday afternoon.

For the first time the ferryboat experienced difficulty in landing at Jeffersonville. She had to go around the ice that had accumulated on the Indiana shore since she had left there fifteen minutes before. The ferry was still running Wednesday.

In the mouth of the Kentucky River some of the finest vessels in the Ohio River are reported to be in grave danger. The steamers Princess, Island Queen and the British ship Success have all taken shelter in the Kentucky rivr.

* * * *

Cincinnati, O., Jan. 30 —The great Ohio River ice gorge broke at Maysville, Ky., 62 miles above Cincinnati, at 10:15 o'clock Tuesday according to the Chesaptake & Ohio operator at that point.

* * * *

Paducah, Ky., Jan. 30 —More than a dozen steamboats, a number of smaller craft and at least two dry docks, variously estimated in value from $600,000 to $1,000,000 were torn from their moorings by ice gorges at Lower Ohio and Tennessee River points Tuesday and either have sunk or are floating in immense ice floes near the junction of the Ohio and Mississippi Rivers in imminent danger of destruction.

* * * *

Beattysville, Ky., Jan. 30 —Kentucky River Valley is today threatened with the greatest flood since February, 1890. The gauge registered thirty-two feet Tuseday, a rise of twenty-two feet in twenty-one hours. It continues to rise at the same rate. The mountains are covered with nearly a foot of snow.

BIG PLANT WILL HUM WITH WORK

American Car & Foundry Company Will Be Very Busy

CAR EQUIPMENT ALSO

Some Home Information By Way Of New York; Toward Prosperity

Go away from home to learn the news about home, is an old saying and in this case happens to be true about one of the biggest plants around the Falls Cities and which is more peculiarly a Jeffersonville institution, The Amercan Car and Foundry Company's works.

There is every indication that this big institution will soon be very busy with rush orders from the Government and from private concerns. It is now doing considerable work for the Government of the United States and for some of the allied governments, but the indications are that before many days there will be much more.

During the great rush at the Government depot and the dynamic activity there started by Colonel now General W. S. Woods, with its tremendous force of men and women, wonderful building activities all of them developed into a rush, which was nothing if not spectacular and little short of the work at Camp Zachary Taylor—a sort of constructive Arabian Nights' tale—, the other great industrial enterprise was temporarily forgotten, although it also employed an unusual number of men, in spite of the terrible strain of the winter weather of this season.

But it will soon show that it is very much alive if what the Industrial and Mining Age of New York has to say about the Corporation is true, and there is no doubt, that the New York writer is pretty well informed.

Spaeking of the Stock Exchange features of the Corporation, he goes on to state its excellent financial standing, as to working capital, improvements and extensions.

It is also stated, that the company has something over $100,000,000 in Government contracts at present, including unfinished orders.

He states, that during the latter part of 1917 such contracts

(Continued on Page 4)

THRIFT DAY IS ON SUNDAY THIS YEAR

Governor Proclaims Day; Religious Side Of Thrift To Be Urged

ECONOMIC SIDE ALSO

Sale Of Thrift Stamps To Be Pushed Monday, February Fourth

Indianapolis, Jan. 30 — Thrift Day, this year, is to be made a special occasion for the distribution of thrift certificates and war saving stamps among the young and among persons of small means.

February 3, celebrated annually as Thrift Day, falls this year on Sunday. In a proclamation just issued Governor James P. Goodrich of Indiana asks the people of the state to give February 3 to expounding the religious phase of true thrift and that Monday, February 4, be employed in the vigorous practie of the doctrine preached the previous day.

Every letter carrier is an authorized agent of the United States government in selling war thrift certificates and war ime savings stamps to the people. Under the plan it is expected the government will reaise a war loan of $2,000,000,000 and of this loan Indiana is to provide some $58,000,000.

J. D. Oliver of South Bend is at the head of the state organization which is pushing the sale of the thrift cerificaes and saving stamps. Certificates are offered in the $5 size. The small investor or the child seeking this high grade investment of small savings pays the postman $4.2 for a certificate which comes in the form of a stamp pasted on a sheet which will carry twenty such stamps in all. At maturity, in 1923, the $4.12 investment will bring $5. The stamps can be cashed at any time for the sum invested, plus interest accrued to date. Saving stamps are sold for 25 cents each and are pasted on a card holding sixteen stamps. When the card is filled, by adding a few cents the investor gets another $5 thrift certificate and starts a new card of saving stamps drawing 4 per cent interest and at the same time forming the habit of saving.

The Thrift Day proclamation of Governor Goodrich follows: "In an effort to encourage and promote savings and investments, particularly among the children and people with small incomes, the third day of February for two years has been generally observed throughout the nation as Thrift day.

"The idea has been advanced that Thrift day for 1918 be utilized in the patriotic distribution of war saving certificates and thrift stamps. As February 3 this pear falls on Sunday, I recommend that on this day in the Sunday schools and churches there be expounded the religious side of thrift, abundant authority for such teaching being found in the Holy Scriptures.

"I suggest, further, that the economic observance be made Monday, February 4, and the subject be taken up in the schools. Children and adults should make Monday a day for buying thrift stamps and war savings certificates. Bankers, merchants and employers of labor should devote special effort to awaken interest in and furnish opportunity for the purchasing of thrift stamps.

"Now, thereore, I James P. Goodrich, Governor of the State of Indiana do hereby proclaim and set apart Sunday, February 3, as official Thrift Day to promote the federal saving plan, and encourage thrift among the people of this state, and do recommend that there be an economic observance of the day on Monday, February 4."

BOY SCOUTS ON BOOSTING EXPEDITION

Start Work On Plan To Distribute Official Information On War

HOW PLAN IS WORKED

List Of Pamphlets Available Free To All Who Will Read Them

By the nation-wide plan of the Government Committee on Public Information, the Boy Scouts of America have been designated as dispatch bearers under the slogan of "Every Scout To Boost America."

The initial service is a distribution of President Wilson's remarkable Flag Day address as given at Independence Hall, June 14, 1917. This document has been pronounced one of the most effective publications in answering natural questions as to the causes which led to our Government entering the war. Local Scouts now have a large supply on hand for distribution.

These pamphlets are not to be distributed promiscuously, but only to those persons who desire to have first hand information from the government bureau of authentic information. These pamphlets embrace a vast variety of subjects relative to the war, etc.

Each Scout is furnished with a list of all of the publications available without charge from the Committee on Public Information and also a supply of franked postal cards so that the persons who care to avail themselves of this opportunity can select any or all of these publications that they wish to read and order the same direct from the printing offices.

"Boost America" by having up-to-date data on these government problems that are now before the public. Call a Boy Scout and he will gladly furnish you with this information and a copy of the President's Flag Day address, or notify one of the Scoutmasters, Rev. A. H. Keeney or Mr. Homer M. Frank, who will see that your wants are supplied.

Pamphlets now ready for Circulation are as follows:

How the War Came to America.
Conquest and Kultur.
War Message and Facts Behind It.
The Government of Germany.
The War of Self-Defense.
American Interest In Popular Government Abroad.
Home eading Course for Citizen Soldiers.
First Session of the War Congress.
President's Flag Day Address.
German War Practices.
The Nation In Arms.
The Great War.
American Loyalty.
Abroad.

RED MEN'S MEETING WILL BE HELD LATER

The district Red Men's meeting announced to be held at Salem has been postponed on account of weather conditions. It will be held some time in the spring, but the date has not yet been announced.

COUNTY COMMISSIONER

SAMUEL L. GRAY authorizes the News to announce his candidacy for the Democrat nomination for County Commissioner, Second District, subject to the approval of the Democratic primary, May 7, 1918.

HOW TO REDUCE
High Cost of Living During These War Times—What Every Woman Can Do.

Look over your old clothes. You can never appreciate how much you can brighten and freshen up your wardrobe until you use Dy-O-La Dye.

Take some of your discarded blouses and dresses, dye them with some of the sixteen different colors of Dy-O-La, change the trimmings a bit and you will be astonished at the result.

Dy-O-La is the modern dye made by skilled chemists who have removed all the difficulty from home dyeing in order that you may get perfect results. Old style dyes require a separate dye for each kind of goods. That makes trouble (as you probably know) for if you get a package for the wrong kind of material the goods are spoiled. You can't make such a mistake with Dy-O-La Dye.

Take some garment that you have grown tired of or that you desire to color the fashionable shade of the moment, look over Dy-O-La Dye color chart at your nearest druggist or storekeeper, select the one that pleases, and follow the printed directions. They will look as if they had just come from the dressmaker.

And remember—the colors will be just as fast and durable as they are beautiful. They won't rub off or bleach out.

Buy it of your nearest druggist or storekeeper, but if they have not the color you want we will send it to you on receipt of ten cents and at the same time include direction book and color chart.

Dy-O-La Dye is made in Black, Blue, Navy Blue, Brown, Seal Brown, Light Green, Dark Green Scarlet, Yellow, Orange, Cardinal Red, Pink, Purple, Dark Wine Old Gold, Turkey Red and from these sixteen colors a great variety of other shades and colors can be made.

Dy-O-La Dye Company,
700 Sixth Ave., Des Moines, Iowa

Name Your Ailment

The descriptions are so clear, plain and simpe, that anyone can name their aimen by reading Dr. Humphreys' Manual, a compact little Medical Volume that fits the side pocket, mailed free on request, address; Humphreys' Homeopathic Medicine Co., 156 William St., New York.

Duchess Mentioned for Red Cross Work

Mary, duchess of Hamilton, was "mentioned for her devoted work in the Auxiliary hospital" into which her Suffolk home, Easton Park, Wickham Market, was transformed. She has given up all her social duties to devote her entire time to the Red Cross work, and she is one of the most energetic and most faithful workers there is.

ACHES AND PAINS

You know by experience that the aches and pains of rheumatism are not permanently, but only temporarily relieved by external remedies.

Then why not use an internal remedy—Hood's Sarsaparilla, which corrects the acidity of the blood on which rheumatism depends and cures the disease.

This medicine has done more for the rheumatic than any other medicine in the world.

ITALY IS MAKING SLACKERS FIGHT

Minister of Treasury Routs Out 148 Officers and Sends Them to Front.

SEARCH IS ON FOR OTHERS

Great Disaster to Cadorna's Army May Be Blessing in Disguise—Volunteers in Minority—Deserters Are Shot.

By PHILIP R. MACKENZIE.

Rome.—On the eve of the great war, while General Cadorna was hard at work creating the Italian army destined to unite Trent and Trieste with the kingdom 148 officers of all ranks, from colonels to sub-lieutenants, were given special work. This work consisted in finding out how much money was wasted during the Tripoli war.

A corridor in the ministry of the treasury accordingly was set apart for these officers, who during the last three years have been auditing accounts and taking their time in doing it, while their comrades fought the Austrians and were wounded or killed in action.

There is every reason to believe that the great task of auditing the accounts of the Tripoli war would have been prolonged indefinitely, but the new minister of the treasury, Signor Nitti, discovered the 148 officers hidden in the corridor.

Royal Decree Is Issued.

Signor Nitti was disgusted at the sight of so many professional officers calmly working on the four simple rules of arithmetic, and in 24 hours he had the case brought before a cabinet council and a royal decree was issued postponing the work of the 148 officers, who were ordered without delay to the front.

No figures are available as to the number of men physically fit yet exempted from active military service. Cases of so-called "imboscamento," meaning literally "hiding in bushes" to evade military service, have been frequent in Italy.

The socialists, who oppose the war and whose peace propaganda contributed toward the recent military disaster, repeatedly told the masses that in Italy the war was being fought by the peasants. The rich people do not fight, said the socialists, as when one has money he can easily "hide in the bush."

The sons of well-to-do tradesmen and farmers as a rule, are drivers of motor lorries and ambulances, and those of upper middle classes and nobility, who should be officers, often prefer to drive staff officers' automobiles unless they succeed in getting clerical work in offices away from the front.

It is true that many young men volunteered for active service as officers in infantry regiments and sacrificed their lives for their country, but they were a minority.

It must be admitted that up to the present the mistaken impression prevailed that the hardest share of fighting was borne by the peasant and laboring classes, who suffered most of all from the war. This impression increased to such an extent that a great proportion of the men who returned on short leave from the front felt discouraged and dissatisfied when they realized that every city and town in the country was crowded with young men who evaded military service or who even if called to the colors succeeded in remaining away from the front and saw no actual fighting.

Shake Into Your Shoes

Allen's Foot-Ease (the antiseptic powder for painful, smarting tender, nervous feet. It takes the sting out of corns and bunions. Over 100,000 packages are being used by he American, French and British troops at the front. Sold everywhere 25c.
January 7 to Feb. 5 inclu.

LOOKED LIKE A SHADOW

And Was Weak And Nervous. Says Cardui Restored Her Health.

Leavenworth, Ind.—Mrs. Hattie Curts, of this place, writes: "Before the birth of my first child I was nervous and weakly, had been from the time of my marriage. I was so frail, I looked like a shadow, my skin was sallow, I didn't weigh but one hundred and nine pounds. All were uneasy about me and thought I would get down in bed.

I had heard what a wonderful help Cardui was to weak women and decided to try it. I took Cardui four months regular. I felt like a different woman. When my baby came I had a right hard time, but my strength seemed there to stay, for I was strong and healthy and have been ever since.

I now weigh 167 lbs., and people who knew me when I was so weakly often speak of it. And often people do not recognize me, I look so well."

Back of Card-u-i, the woman's tonic, stands the experience of thousands of people—women, who have been benefited by it; physicians, who have prescribed it in their practice, with good results.

If you suffer, as most women do at times, from female ailments, is not such a medicine worthy of a trial?
NCB-15

VICTIM OF GERMAN RAID ENLISTS IN RED CROSS

Chicago.—Miss Victorine Van Dyke, whose home was destroyed when the kaiser's army crushed Belgium and who escaped from German bondage and came to Chicago, is on her way back to her war broken country to aid the Red Cross.

Her mother is in Belgium and her two soldier brothers are prisoners in German prison camps.

If Mothers Only Knew

Mother Gray's Sweet Powders for Children relieve Feverishness, Headache, Bad Stomach, Teething Disorders, move and regulate the Bowels and destroy worms. They break up colds in 24 hours. Used by mothers for 30 years. All Druggists, 25c. Sample Free. Address, Mother Gray Co., Le Roy, N. Y.

Some Deserters Are Shot.

As a result, besides those men who returned to fight when their short leave expired, others felt justified in deserting. Some of the latter were arrested, court-martialed and shot, and their comrades were not impressed with such exemplary punishments, which, instead of serving as a warning, had the opposite effect of exciting pity and provoking dangerous comparisons between the fate of those who evaded military service and that of others who had done their bit and yet paid with their lives for a moment of weakness.

There were, no doubt, other concomitant causes that contributed to weaken resistance on the Italian front when the well planned Austro-German offensive was timely initiated. Thanks to their superior intelligence services at the front and their espionage system in this country the Austro-Germans knew where and when to attack with success. They resorted to propaganda among the Italian troops holding positions where no fighting had been going on for a long time.

It is known now that after the riots at Turin most of the munition workers who were socialists had been sent to the front and attached to the units holding these positions. It was among these men that the enemy propaganda was successful, and the deficient resistance, due to weakness or treachery, that rendered the invasion of Italy possible originated at a point which could be easily defended by a handful of men, as it was naturally strong and formidably fortified because it afforded the shortest way for invasion. Unfortunately the men who held this point gave way.

MAKING BARBER COATS NO EXEMPTION EXCUSE

New York.—Michael Feldstein, while filling out a government questionnaire, sought exemption from military duty on the ground he manufactured military uniforms. When the exemption board learned that Michael made "coats of military cut for barbers," recommendations were made that "Michael would look fine in a coat of military cut, but which is not worn by the barber shop brigade."

EAT MORE POTATOES

Increased Use Will Bring About Saving of Grain.

Agricultural Department Suggests Tubers Be Given More Prominent Place in Luncheons.

Washington.—The eating of more potatoes for supper, or for luncheon, if the family is accustomed to have dinner at night, is a suggestion of the United States department of agriculture, in order that the tremendous crop of tubers produced in the United States this year may be utilized as fully as possible and spoilage avoided. Such increased use should, at the same time, bring about a saving of grain, since one common result of eating more potatoes is the eating of less wheat bread, which is a reasonable suggestion when one remembers that both of them are used as a source of starch in the diet. This reduction in grain consumption is desirable, the department points out, and there is great need of grain for shipment to our soldiers and to the soldiers and civilians of other countries engaged with us in the war against Germany.

The use of more potatoes for luncheon should be a simple matter, in the opinion of specialists of the department of agriculture, since practically all Americans like potatoes and since there are numerous ways in which the tubers may be prepared to avoid a sameness in the diet. Potatoes, even in their simplest forms—baked and boiled—make good luncheon dishes. They may also be used for making a variety of dishes, such as creamed and escalloped potatoes, with or without cheese; stuffed potatoes, potato croquettes, and so on. Combination dishes, such as hash, stews, meat pies with potato crust, and so on, in which a considerable amount of potato is used with other foods, may constitute practically an entire luncheon, being hearty enough to serve for the purpose with a little salad or fruit or sweets.

Society In Jeffersonville

Leaves For Other Side

Eugene Levengood, son of Mr. and Mrs. Sam Levengood of Jeffersonville, telegraphed his parents that his ship was leaving Tuesday for European waters. His brother, Clarence Levengood, is already on the other side with his ship. Their brother, William Levengood is a first lieutenant at Camp Zachary Taylor.

Major Peyton Is Out

Major David C. Peyton, general suprintendent of the Indiana Reformatory, who was confined to his bed with a heavy cold, is again able to be out.

Calumet Gives Dance

The Calumet Club of New Albany gave another of their delightful dances Monday night at their Hall on Vincennes and Spring streets. Those from here who attended were Misses Madge Isaacs, Helen Mayfield, Jessie Hendershot, Virginia Reynolds Helen Pfau, Gladys Clark and Bess Voit; Messrs. George Dugan, Robert Robinson, Robert Walker, LeMerle Applegate, Mick Hedges, William Benner, Wilbur Schimpff, Richard Holmes Wilbur String and Richard Russell.

Off For England

Mrs. Sam Levengood is in receipt of a letter from her son Eugene who is in the Navy and whom she has been expecting home on a furloogh, telling her instead of getting a furlough he was dated to leave Brooklyn yesterday on the Battleship Texas for England. In this letter he gives a very graphic account of his ship The Texas and two other ships the Idaho and Michigan, being in a terrific storm on the Atlantic Ocean when two on the Idaho, three on the Texas and elven including the Captain on the Michigan lost their lives.

Personals

Howard Biggs of Indiana avenue is confined to his home suffering with lagrippe.

Clyde Howard, of Howards shipyards, is in New York on business.

Otto F. Voit is confined to his home on Meigs avenue threatened with typhoid pneumonia.

Frank Marsh, who holds a responsible position in the Government Depot is ill at his home, 417 East Fourth street, New Albany.

John Cole, jr., time keeper at the American Car & Foundry Company is suffering from an injury to his foot sustained in a fall on the ice covered pavement Saturday.

Charles L. Flynn returned last night to his home in Kansas City, Mo., having been called here on account of the death of his sister Mrs. Mayme Wooley.

Mrs. E. S. Miles of Miles Landing near Bethlehem is visiting her parents Mr. and Mrs. M. J. Kehoe. She expects to return to her home Thursday.

Mrs. E. M. Crandall who was called here by the death of her niece Mrs. Mayme Wooley returned to her home at New Salisbury, Ind., Sunday evening.

Mrs. Nannie Cox who is seriously ill at the home of her daughter Mrs. Duncan Kincaid on East Maple street is thought to be a little better.

Mrs. Gardnier and daughter [illegible] cille, wife and daughter of Dr. [illegible] rdnier of the Quartermaster's [illegible] pot have arrived from Michi[illegible] to join the doctor and locate [illegible]. They have taken the a[illegible] ment vacated by Capt. Cas[illegible] in the Marblehead.

[illegible] Helen Collins has returned [illegible] Cincinnati after a few days [illegible] her parents. She will [illegible] studies at the [illegible] Science, [illegible] ital and take up training for a Red Cross nurse.

Albert Drake who has been attending his mother who is quite ill at French Lick, Ind., returned Tuesday evening and reports his mother very much improved.

Miss Sue May Whiteside of Louisville was not able to be at the meeting of the Red Cross Chapter yesterday to instruct in their work on account of being indisposed.

Ben Streepy and David Koehler of New Albany will give a dance February 5th at Castle Hall, corner of Vincennes and Oak streets, New Albany.

Miss Mida Jones and Mrs. John Caron of Parkland, Ky., have returned to their homes after a short visit with Miss Georgia Malin on Locust street.

Capt. Henry Dugan a member of the County Council and veteran river man is much improved. The News is inclined to think the Captain is shying from the ice that is coming.

Mr. Clarence Howard who is located on his farm in Charlestown township was in the city yesterday. He predicted an early Spring, he said this is some winter for aew farmer.

Capt. Kelly who has been the guest of friends in the city departed last night for Camp Shelby, Miss., where he is now stationed.

When Your Child Cries

at night and tosses restlessly, you feel worried. Mother Gray's Sweet Powders for Children Break up Colds in 24 hours, Relieve Feverishness, Constipation, Teething disorders, and destroy worms. Used by Mothers for 30 years. All Druggists, 25c. Sample FREE. A. S. Olmsted, LeRoy, N. Y.

January 7 to Feb. 5 incl.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher.

Miss Juretta Bamber, daughter of Mr. and Mrs. Fred Bamber on East Market street has taken a stenographic position at the Government Depot.

Mrs. J. E. Howard will entertain the Presbyterian Guild tomorrow afternoon at a meeting postponed two weeks ago at her home on East Market street.

SPECTACULAR FIREWORKS SEEN

Fire Department Called To Interurban Car

The fire department was called about 5:30 Tuesday evening and a great throng of people gathered at Spring and Tenth streets when an interurban car for New Albany, packed with passengers, was the center of a lively display of fireworks that could be seen a mile away. A trolly wire broke and fell and set fire to the roof of the car. The electric discharge was marvelous and when the wire fell to the street it charred the bricks which appeared next morning, it is said, as though they had been through the furnace.

No one was injured but there was aelay of half an hour before the current could be shut off and repairs be made to permit the car to continue upon its way.

MAY OPEN QUARRY AT BIG EDDY

In connecton with the building of streets at the Government Depot and solely for traffic of that institution, he question of opening a rock quarry at the Big Eddy, is being considered.

Children Cry FOR FLETCHER'S CASTORIA

PETER KEHOE TRIAL PASSED TILL FEBRUARY 7

On motion of the State which desires to take some depositions, the case of Petes Kehoe, set for Thursday in the Floyd Circuit court at New Albany, has been passed until February 7. Kehoe is charged with murder for the death of Capt. Madison Dugan on the ferry boat here.

Mother, You Should Know

that the care of your little one's constitutional habits during childhood, is your first and greatest duty.

You should know that the prompt and proper breaking up of the costive tendency to which most children are prone, may save your child from after-years of digestive misery. That trusted remedy of many mothers,

Mother Gray's Sweet Powders for Children,

Used by mothers for 28 years, gives the little one exactly the digestive assistance needed.

These powders are pleasant to take and easy for parents to give. There is no harmful purgative action. When your child is feverish, with bad stomach, or fretful and constipated, or has symptoms of worms these powders never fail. Price 25c. at your Druggist.

Trade Mark. Don't accept any substitute.

You should ask for Mother Gray's Sweet Powders FOR CHILDREN.

CAPT. ISAAC HAYMAKER JURY COMMISSIONER

Judge James W. Fortune on Wednesday named Capt. Isaac N. Haymaker of Charlestown jury commissioner to succeed J. C. Lewman who died recently. The other jury commissioner is E. E. Morris of this city.

GREAT DIFFERENCE IN OPINION

As To The Amount Of Good Seed Corn In The County

There is a general feeling among the farmers of all communities that the condition of corn intended for seed is worse than it has been for many years. Exceptionally early frosts prevented its complete ripening. The fall was not favorable for curing the corn. The untimely low temperature of early December, found most of the corn sappy.

Many of the counties of this and other states are already aware that they have not near enough seed for their own use. Following are the names of some men who have tested their corn and the per cent of germination which they found.

Samuel Lentz	**99 per cent**
A. L. Crum	**97 per cent**
J. W. Morrow	**98 per cent**

These preliminary tests are valuable and serve to indicate that these particular men have seed corn of good quality. On the other hand some farmers have reported tests that showed a very low per cent of germination. The first class of farmers had their corn stored under conditions that prevented the extreme cold from effecting it, that is, the corn was either stored in a warm room or else it was so dry that the low temperature did not effect the germ. The latter class of farmers who reported their corn in poor condition, had their corn either cribbed in as appy condition, or else it had not been husked prior to the coming winter.

All seed corn should be carefully inspected. Conditions of the germ should be carefully noted, and if there is any doubt as to the quality of the seed, ear tests should be made.

Upon suggestion of the State Council of Defense, and by proclamation of the Governor, a Seed Stocks and Labor Survey is to be made the week of February 4. Every farm and farmer should be reached. This survey, should bring to light all corn of seed quality. It should also greatly facilitate the distribution of any surplus in a given area to the farmers of a less favored region.

Things every farmer should do:

1. At once conduct a preliminary test of his corn.
2. Co-operate in carrying on this survey.
3. Assist in distribution of any surplus.

J. B. GREEN,
County Leader

HEIRS SETTLE SERVICE CLAIM

Mrs. Anna Beyl McCory Gets Life Interest In Estate Of Geo. Beyl

Settlement of a claim against the estate of the late George Beyl of Clark county, brought by one of the children for several hundred dollars for services, is indicated in a deed filed in the office of Clifford Allhands, county recorder, one heir however having held back from the agreement.

The deed is from John L. Beyl and wife of Johnson county, Ind., and other heirs of George Beyl to Anna B. Beyl McCory, of Clark county, conveying to her their interest in 110 acres of land near Blue Lick for one dollar and other consideration. The conveyance is fir life only and at the death of the grantee the title reverts to the grantors in the same proportions as now exist. In consideration Mrs. McCory acknowledges satisfaction of her claim against George Beyl's estate, now pending in the Floyd Circuit court at New Albany, based on services, but reserves the right to prosecute the claim, and recover such part as may be due from Flora Crone, one of the heirs, who did not join in this conveyance.

REPORTS REGISTRANT DIDED LAST FALL

Dr. J. H. Baldwin, city health officer, had an inquiry from one of the exemption boards at Indianapolis asking concerning Berry Crabtree. The records showed he died last fall.

represented about two-thirds of the company's business and that this proportion is likely to be increased.

He hints very strongly, that the company will obtain large contract for equipments since the Government has taken over the control of the railroads and that its twenty-four plants will be kept busy with car equipment, which has run down on all the transportation lines. He says:

"Under these circumstances the company's output for the fiscal year ending April 30 next is likely to be increased, as under the present plan of transportation, materials for Government orders are included in the priority shipment schedules."

Since it is well known that all other plants are as busy as they can possibly be, the New York financial writer's dope can be accepted as meaning, that the year will be a very busy one at the plant in this city and that Jeffersonville may thank the carworks for another shove up the hill toward prosperity, and it is sincerely to be hoped, that it will be taken advantage of in a vigorous and right manner.

LT. COL. YOUNGMAN DIED AT HOME

Was Second In Command Of Second Indana Stationed Here Last Year

Crawfordsville, Ind., January 30—Lieutenant -Colonel Robert P. Youngman, of the 139th field artillery, died at his home in Crawfordsville Tuesday, after an illness of several months with lung trouble.

Lieutenant - Colonel Youngman was widely known in state military circles. His first military service was with Battery A. Indianapolis, in the Spanish-American war. His activity in the state military dates from that time. He became captain of the local company and was promoted to be major in the 2d infantry during the summer. He was advanced to lieutenant-colonel and became sick a few days before his regiment was transferred to Hattiesburg. Last week he received preliminary notice of honorable discharge for disability, but final notice had not reached him.

Lieutenant-Colonel Youngman formerly conducted one of the leading shoe stores of Crawfordsville. The widow, daughter of A. M. Smith, editor of the Crawfordsville Journal, survives him. Col. Youngman was a member of the Elks lodge and of the Patriotic Order of Sons of America.

Col. Youngman and Mrs. Youngman were located at Jeffersonville for a time while the 2d Indiana was stationed here last summer.

BIG CUT MADE IN DEEP SNOW ON ROADS

One of the deepest cuts in the snow around Jeffersonville exists on the Hamburg pike just beyond Walnut Ridge cemetery where the snow is piled up on each side and drifted so deep that a big Standard Oil wagon passing through the cut is entirely hidden Claude Allhands, county highway superintendent, whose men cleaned out the road said it was eleven feet deep at that point.

Mr. Allhands is preparing a report showing the cost of removing snow from various roads a large number of men having been employtd. It is estimated the cost will amount to more than $1,000.

GRAFT

To an unprejudiced observer it would seem that somebody is trying to create a condition for wholesale grafting, which would be sure to result from the bill proposed by Senator Chamberlain, of Oregon. There is bound to be more or less grafting, which is the inevitable accompaniment of all wars. But President Wilson has done a wonderful work in holding the grafters down so well. The notorious "embalmed beef scandal" on which our soldiers were fed in the Spanish American War, and which resulted in the death of so many of our American boys is still fresh in the public mind. All one has to do, is to observe the physical appearance of our soldiers in the present army and it can be seen at once that they are well fed and well cared for and are treated as well as possible under the circumstances.

It took George Washington more than five long years to win the War of Indepedence—it took Abraham Lincoln more than four long years to win the war of '61-5, and yet some people seem to think that President Wilson should conquer the most powerful war machine that was ever created in less than a year.

CONGRESS PROPOSES A WAR COMMITTEE

President Wilson is naturally opposedto the creation of a new committee for conducting the war or a war cabinet as some of the Senators have named it. The war in which we are engaged is the most colossal one in all history. President Wilson has not only made gigantic strides in creating a great army and navy, but he has been compelled to give tremendous aid and support to our allies at the same time. The proposed committee or War Cabinet would have the effect of dividing the power and authority of the President, which would be a great calamity. We are compelled to admit that Germany has made a wonderful fight and she has done so by concentrating all authority into a single unit, and if we are to win, President Wilson will have to continue as the single directing head of our great War Measures. Divide his authority or curtail it and we invite disaster.

Pennsylvania ToRun Trains During Two Hours Morning And Night

HELP Q. M. DEPOT

Traction Co. To Mass Cars In Louisville Service; Agreed Plan

At a conference held at Indianapolis Wednesday, on call of the Indiana Public Service Commission, plans were worked out whereby the interurban service between this city, New Albany and Louisville will be supplemented during rush hours by service on the Pennsylvania to New Albany and on the Big Four to Louisville. The conference was attended by representatives of the Pittsburg, Cincinnati, Chicago & St. Louis Railway, the Louisville & Southern Indiana Traction Company and the cities of Jeffersonville and New Albany. Mayor Newton H. Myers and City Attorney Wilmer T. Fox represented this city and Paul H. Haynes member of the Commission presided at the hearing. The Big Four Company was also represented informally.

The Pittsburg, Cincinnati, Chicago & St. Louis Railway Company will run a suburban train between Jeffersonville and New Albany between the hours of six and eight in the morning and between the hours of four and six in the afternoon. Coming up, the New Albany stops will be at State street, Fifth street, Ninth street and Vincennes street and the trains will run to Ninth street, Jeffersonville, which is about five short squares from the depot.

DDuring these hours the Louisville & Southern Indiana Traction Company will discontinle service between Jeffersonville and New Albany except that a car will be put on the line from Jeffersonville to Silver street or State street New Albany to accommodate dwellers in Howard Park, Midway Silverton and other settlements along the traction line. All the equipment thus set free will be concentrated on the Louisville-Jeffersonville service and the company undertakes to maintain a ten-minute service with doubleheaders.

The Big Four will be invited to submit a schedule of trains across their b ridge to the station near the Q. M. depot to supplement the service outlined above but exactly what they will be able to do is not certain at present. They will submit their schedule by February 4, it was agreed. Two or three trains will be run each way, morning and night.

The Pennsylvania Lines agreed further, if necessary, to put on a service between this city and Louisville though to do so would cost them an hour's work daily on the bridge. It was finally arranged not to ask for this service at present but to try out the plan as above outlined first.

The traction company cannot at this time, it seems to be recognized, obtain additional cars to increase its carrying capacity but it recently added four big trailers. A car and trailer every ten minutes will give twenty-six big cars in the two hours covered and will go far to relieve the situation, the Pennsylvania lines doing the rest.

There are at this time some 1,700 Louisville men working at the quartermaster's depot and in addition about seven hundred employed by the contractors there. This is in addition to the hundreds from New Albany, Jeffersonville and the surrounding country, making four thousand in all. The traffic problem of taking care of 2,400 wishing to travel between Louisville and Jeffersonville in a period of not more than two hours and prehaps nearer one hour, is a big one but it is believed it has practically been solved by this arrangement.

* * * *

The following is the schedule of trains on the Pennsylvania: Leaving New Albany—6:20, 7:10, 8:00 a. m; 2:00, 4:55, 5:45, 6:40 p. m.; arriving at Ninth street Jeffersonville, twenty minutes later; stopping at Vincennes, Fifth, Ninth, Silver streets, New Albany.

Leaving Jeffersonville for New Albany—6:45, 7:35, 11:55 a. m; 4:30, 5:30, 6:15 p. m. making the same stops.

Traction Company: Half hour service to New Albany but cars between 6 and 8 a. m. and 4 and 6 p. m. will run only to and from Vincennes street; starting at 6 a. m. and running until midnight.

Louisville to Jeffersoville, traction company—5:45 a. m.; ten minute service from 6:00 to 8:00 a. m.; 8:15 and half hourly service afterwards; Jeffersonville to Louisville—5:25 to 7:55 a. m.; every fifteen minutes, and every thirty minutes afterwards.

There was not given an evening schedule but it will follow similar lines.

Besides the representatives from this city there were present Mayor Robert Morris, of New Albany; H. E. Newcomet, P. C. C. & St. L.; Capt. James V. Biggert, quartermaster's depot; M. L. Akers, vice president L. & J. Bridge Co.; Hugh McVeagh and O. E. Brookmayer, Big Four.

TWO WILLS PROBATED IN COURT

Testaments Of Mrs. Mary Gruber And Mrs. Nancy M. Walker

FIRST HAS CODICIL

Mrs. Gruber Disposed Of Most Of Property Before Death

The will of Mrs. Mary Gruber who died at an advanced age last week, was probated in the office of Ernest E. Jacobs, clerk of the Clark Circuit court, as executed June 28, 1912 in the presence of John V. Franck, and Elmer M. Frank, together with a codicil executed August 25, 1917, and witnessed by H. R. Deibel and Emil Scheffer, sr. Under the will life interest in her residence property at 952 East Maple street was left jointly to two sons, John and William Gruber, with remainder to five daughters, Catherine Zaun Mary Clark, Lizzie Miller, Annie Cox and Louisa Hydron. A proviso was that John should permit his brother William to occupy a part of the house; otherwise the property was to go direct to the daughters. The seven children were to share the personal property.

Before executing the codicil a partial distribution of the estate had been made. It provided that William should have the house on condition of residing there but if he should rent it the property would go to John and four daughters to whom also the

(Continued on Page 4)

WILL BRING 110,000 LABORERS

From Porto Rico And Virgin Islands To Work In United States

TO BE IMPORTED SOON

Assistant Secretary Of Labor Tells Of Plans To Provide Workers

The Department of Labor authorizes the following:

Louis F. Post, Assistant Secretary of the Department of Labor, in a statment, criticized the present agitation for the importation of Chinese and Mexican labor for railroad maintenance, agriculture, and other unskilled work as "unnecessary and prejudicial." All requirements for common labor he declared can be met by the proper distribution of the domestic supply and by the use of American citizens from Porto Rico and the VVirgin Islands.

For outh and Southwest

Mr. Pot disclosed the fact that the Department of abor through the United States Employment Service, which has been made the national war labor mobilizing and distributing machine, is now arrangng to bring into the country approximately 110,000 common laborers from these two territories. Director General of Railroads McAdoo has asked the Federal Employment Service to assist in supplying the roads with labor for maintenanre and shop work, and the immediate needs of several roads were turned over to the employment service by Assistant Director A. H. Smith.

Mr. Post announied, 50,000 common laborers will be transported from Porto Rico, and F. C. Roberts, special agent of the Labor Department, will leave for the island this week to make the transportation arrangements.

Statement By Mr. Post

Mr. Post said:

"There is absolutely no necessity for the importation of common laborers from Mexica and China. The agitation for such action is perjudicial because it increases the false impression that threre is not a sufficient supply of domestic labor. The war problem will be solved just as soon as the country as a whole realizes that there is no general labor shortage and devotes all efforts to distribution of the available supply.

"Any additional demands for common labor can be met by bringing in American citizens from Porto Rico and the Virgin Islands. Porto Rico is an agricultural territory and yet has a density of population that is exceeded by but three of our States, and is eight times greater than that of the agricultural State of Iowa. Under perpetual conditions there, a considerable surplus of workers exists in the island, and by the transfer of these to continental United States an actual benefit would be conferred upon them.

Can Easily Be Spared

"Porto Rico easily can furnish us with 100,000 common laborers, and the Virgin Islands can send us 10,000 more. As soon as tonnage is made available, the Department of Labor, through the United States Employment Service, intends to bring over 50,000 men from Porto Rico.

The United States Employment Service is now making arrangements with the railways, particularly those in the South and South west, where the climate is adaptable to the islanders, whereby this labor will be employed in maintenance of way during the slack agricultural season, and released for formwork during the height of that season. Thus two seasonable needs will be met."

BAKERS TO GIVE LOYAL SUPPORT

Name Committee To Work With Dr. H. E. Barnard Food Director

RULES ARE ADOPTED

Agree To Restrictions; Public Ought To Be Not Less Willing

Indianapolis, Jan. 31—Indiana bakers and Dr. Harry E. Barnard, federal food administrator anticipate an agreement that will guarantee a complete and frictionless enforcement of the regulations of the federal food administration which pertains particularly to the business of baking. An executive committee has been appointed by the Bakers' Association to "iron out" all differences and work intimately with the food administrator.

Due to misunderstandings as to the purpose and authority of the food administration, bakers in some sections of the state have been slow to conform to the rules promulgated by Dr. Harry E. Barnard. Through the new committee an arrangement, at once effective and satisfactory is expected by leading bakers and Dr. Barnard. The committee includes the following: Frank Middleton, Marion; W. P. Walsh, Evansville; W. R. thomas, Auburn; H. C. Gove, Elkhart; J. F. Rugar, Lafayette; C. W. Miller, Terre Haute; C. P. Ehler and A. L. Taggart, Indianapolis. It has agreed to meet as occasion requires with Dr. Barwnard for a solution of any problem that may arise.

The suggestion that Dr. Barnard instruct each county food administrator to appoint a baker in his county to act as part of the food adminisration and to help in the compilation of the bakers has been carried out.

Among the main recommendations that have been made to the food administration by the bakers are the following:

That at the earliest possible date that does not conflict with orders from Washingon, the observance of a no-wheat meal every day and a less-wheat day every day be put into effect among the bakers in the manufacture of bread at the rate of 5 per cent added cereal the first week, 10 per cent the second week, and the rate of 5 per cent additional each week until 25 per cent is reached.

That on w heatless Wednesday no bread or rolls be sold not containing at least 25 per cent added cereal other than wheat.

That on wheatless Wednehday no cakes, c rackers or pastry be sold by the retail stores except they contain a substantial amount of added cereals other than wheat.

That all rye bread contain not less than 50 per cent rye flour and that local county food administrators see that the order is enforced.

"These recommendations show that the bakers themselves are willing to make the concessions the food administration asks," said Dr. Barnard.

"They are the ones who stand to lose the most. I can think of no excuse that will justify the failure of the people to go at least as far as the bakers in helping provide the wheat so much needed for the success of our country at war."

ELKS TAKE THIRTY EIGHT MEMBERS

Big Class Of Apollo Boys Unite; Ten More Next Meeting

BIG PLANS IN VIEW

Club Features And Athletics To Be Kept Well To Front

Thirty-eight members of the Apollo Athletic Association were on Wednesday night initiated into Jeffersonville lodge, No. 362, Benevolent and Protecive Order of Elks, and ten others will be initiated February 13, next meeting night. A rule of the order prevents the initiation of more than twenty-five without a special dispensation. This authority was sought and obtained but when it came it placed a limit on the number which prevented the entire class being taken in at this time.

There was a large crowd present; an interesting meeting, a fine presentation of the work by New Albany and Louisville Elks who came over in large numbers and several fine talks after which refreshments were served. The following served in the various chairs: ol. L. W. Gray, Louisville, exalted ruler; Benjamin Sachs, Louisville, esteemed leading Knight; S. L. Wrighy, New Albany esteemed loyal Knight; Andrew Connell, New Albany, esteemed leturing Knight; Col. George H. Barrett, of Louisville, esquire.

Talks were made by Col. Gray of Louisville; George H. Hester of New Albany and Judge James W. Fortune of this city, the first exalted ruler of the local lodge. A number of others spoke, among them Pinkney Varble of Louisville. A smoker was enjoyed.

A committee has been named for immediate repairs and improvements and a membership campaign will begin at once. Col. Gray congratulated the lodge on the influx of new blood and young blood and additional members of the same kind will be sought.

The Apollo Athletic Club ceases to exist but the club will be run on the old lines, all Elks being members. Minors may also become members with club privileges and join the Elks upon attainment of their majority. Athletics will be gone in for stronger than ever and all the characteristics of the Apollos and the spirit that made them famous will pesists in the combined organization.

A good many of the Apollo boys are living elsewhere, employed in other places. Arrangements are being made so that these may be initiated into the Elks wherever they happen to be.

The following is the class initiated Wednesday night: Chester Allen, Thomas B. Bohon, Foster Dewees; George Dugan, C. C. Eastman, Otto Eberts; E. M. Frank; William Freeman; Charles Grote; Frank Grote; Henry Grote; Gordon Gilmore; Lloyd Gaither; E. H. Heller; Roy Hobson; Jonas G. Howard; Chester Holzbog; Ford Humphrey; Warland Ingram; O. P. Kerr; Frank Lindley; William Levengood; F. M. Ogden; Homer Neeley; Albert Prinz; J. W. Pool; Clyde Sylvester; James W. Sweeney, jr.; Oliver Swartz; Rome Shrader; Dale Talkington; Alvin Voit; Charles A. Vawter; A. L. Voiers; Charles Wendel; Don Williams; Warren Weber; E. H. Young.

Those to be initiated at next meeting are: William Belden; E. W. Austerheide; L. V. Caste; Raymond Doherty; H. E. Hopkins, jr., Freeman Robinson; John Seitz; Harry K. Smith; Charles String; Wilbur String.

SUBSTITUES FOR WHEAT ORDERED

Purchase Of Flour To Be Accompanied By Purchase Of Other Grain

NEW RULE IN EFFECT

Coal Scarce; Much Coal Lost On Way; One Car Reported As Coming

Some misunderstanding and dissatisfaction is said to be apparent on account of the order now in effect that wheat flour sale must be conditioned on a sale at the same time of an equal amount of some other cereal. Bakers are required to use other grains in making their breads and while housewives may of cours make b read of white flour solely yet this restriction is placed upon them that they shall not buy more flour than of other cereals.

Don D. Williams, assistant food administrator for Clark county, said he thought the rule would be fully understood and effective in a day or two. Bakers are already putting five per cent of other grains with their wheat flour in bread making and will increase the proportion to twenty per cent in due course.

Twelve articles are listed which may be bought, or any combination of them, in making up an equivalent purchase in buying wheat. They are as follows:

Corn meal, corn starch, corn flour, hominy; corn grits; barley rice flour; oat meal; rolled oats; potato flour; sweet potato flour; buckwheat flour.

* * * *

ONE CAR OF COAL

Billed To Fuel Administrator; Others Are Slow

Fielding L. Wilson county fuel administrator, received a bill of lading for one car of Harland coal which was obtained through the good services of Miss Florence Whitham of this city who is employed in the office of a Louisville coal company.

Eleven cars requisitioned weeks ago have not arrived, but word was received that two of them have been appropriated by somebody else. This is against the rules but the coal has gone. One dealer reported yesterday that practically one-fourth of a car of coal he received had been pilfered on the way.

The city completed delivering the fourth car of the coal recently obtained by the mayor and no more orders are being taken at present. Local dealers are still very short of coal.

The Diamond Coal Company, which handles river coal and which has numerous empty barges at its local landing, appealed to the fuel administrator for some coal. I. E. Stidard in charge said he must have coal to operate his pumps and machinery to give him a chance to save the property when the ice comes down the river.

MRS. W. A. HILL DIED AT CEMENTVILLE

Mrs. Josephine Morgan Hill, age 39, wife of A. W. Hill died Thursday morning at her home at Cementville.

HOW TO REDUCE

High Cost of Living During These War Times—What Every Woman Can Do.

Look over your old clothes. You can never appreciate how much you can brighten and freshen up your wardrobe until you use Dy-O-La Dye.

Take some of your discarded blouses and dresses, dye them with some of the sixteen different colors of Dy-O-La, change the trimmings a bit and you will be astonished at the result.

Dy-O-La is the modern dye made by skilled chemists who have removed all the difficulty from home dyeing in order that you may get perfect results. Old style dyes require a separate dye for each kind of goods. That makes trouble (as you probably know) for if you get a package for the wrong kind of material the goods are spoiled. You can't make such a mistake with Dy-O-La Dye.

Take some garment that you have grown tired of or that you desire to color the fashionable shade of the moment, look over Dy-O-La Dye color chart at your nearest druggist or storekeeper, select the one that pleases, and follow the printed directions. They will look as if they had just come from the dressmaker.

And remember —the colors will be just as fast and durable as they are beautiful. They won't rub off or bleach out.

Buy it of your nearest druggist or storekeeper, but if they have not the color you want we will send it to you on receipt of ten cents and at th esame time include direction book and color chart.

Dy-O-La Dye is made in **Black, Blue, Navy Blue, Brown, Seal Brown, Light Green, Dark Green Scarlet, Yellow, Orange, Cardinal Red, Pink, Purple, Dark Wine Old Gold, Turkey Red** and from these sixteen colors a great variety of other shades and colors can be made.

Dy-O-La Dye Company,
700 Sixth Ave., Des Moines, Iowa

MORE AMERICAN MADE TOYS

War Conditions Develop Industry to Point Where Foreign Competition Is Broken Forever.

Washington.—America is now first in the toy making industry. Heretofore the United States has purchased the majority of its toys from Germany, Nuremburg being one of the chief manufacturing centers in former years.

Forced by war conditions to depend upon their own resources, the manufacturers of this country have been making toys and have been so successful that buyers for large stores claim the hold of other countries on this line of business has been broken forever. A few toys are still coming from France, England, Switzerland, and Japan, but the American toys have proved superior, as they are more educational.

WOMEN CUT OUT THE SWEETS

"Do Their Bit" in Conserving the Nation's Food Supplies at Ashland, Wis.

Ashland, Wis.—In order to "do their bit" in conserving the nation's food supplies the women's advisory committee of the Ashland defense council has adopted resolutions asking all women to abstain from the use of ice cream, candy, sweet drinks and confections in which beet or cane sugar is an ingredient. Women's societies, which have been accustomed to serving refreshments, are no longer doing so unless the refreshments have been made according to recipes approved by the advisory committee.

INWARD AND OUTWARD

The inward effects of humors are worse than the outward. They weaken all the organs, inflame the mucous membrane, cause catarrhal troubles, and endanger the whole system

Hood's Sarsaparilla eradicates all humors and cures all their effects.

It's the great alterative and tonic medicine whose merit has been everywhere established.

Accept no substitute.

Adv No. 5

ITALY TO SOLVE FOOD QUESTION

Mobilization of Agricultural Forces Planned as Emergency War Measure.

MEN TO BE FORCED TO WORK

Radical Action Rendered Imperative by the Necessity of Providing Larger Landowners With Labor Needed to Handle Crops.

Rome.—The first of a series of emergency war measures tending to improve as much as circumstances will permit the difficult food situation will be announced soon. The mobilization of all the agricultural forces of the country will be ordered and the new army sent to work wherever there exists a scarcity of farm labor.

According to the experts of the ministry of agriculture, the radical measure, for which there is no precedent, was rendered imperative by the necessity of supplying the large landowners and the organizations which have engaged in agricultural enterprises on a large scale with all the labor they need for sowing and taking in the crop. The scarcity of labor also has made imperative the co-ordination of work in farming operations.

Take Census of Farm Labor.

The mobilization will take place under the direction of Agricultural Minister Rainert, who will be assis[illegible] by a few of the officers of the Italia[illegible] general staff. The mayor of each town will be ordered to take the census of all the farm labor of both sexes in his district and state the approximate time needed for local farming work. The next step will be the compulsory enlistment of every man in a new army which will be under the command of regular petty officers.

Active operations will begin early in March. Thanks to different climatic conditions the harvesting season in the south of Italy and in the islands is a month in advance on that of the North. Consequently the authorities expect to move the different agricultural units from place to place till every crop has been taken in and then repeat the operation next year for the plowing and sowing season.

The general staff has promised its heartiest co-operation provided the military situation at the front improves or, at least, remains stationary. In this case two or three hundred thousand men will be temporarily released from the army and sent to work in the farming districts. The men and the women will be paid the prevailing rate of wages.

Expect No Hitch.

The authorities are confident the plan will work without a hitch, and if the results are as predicted, and if the prize and premium system fails, it is not improbable that compulsory farming will be among the after war measures with which the government expects to solve some of the most distressing problems connected with the resupplying and revictualing of the country.

In connection with the present food situation Premier Orlando announced in the chamber of deputies that it could not be improved even if hostilities ceased tomorrow, that the high cost of living and the scarcity of all the necessaries of life would continue for a long time after the conclusion of peace, and that the solution of the problem of supplies is that, today, the country must resupply itself or be contented with the little that can be imported from abroad.

At the same time the premier said that before long the people will be called upon to make additional sacrifices, and that in order to increase the ration of the men in the trenches new food restrictions would be imposed on the country at large.

Shake Into Your Shoes

FRENCH TAKE WHEAT

Seven Ounces of Bread Daily Limit Except to Hard Workers.

Sacrifice Accepted by French People Uncomplainingly on Government's Explanation of Necessity.

Washington.—Only the very poor, and men and women doing the hardest kind of manual labor, may have more than seven ounces of war bread a day in France from now on, the United States food administration has been advised by the French government. The entire French wheat crop has been requisitioned by the government.

This sacrifice has been accepted by the French people uncomplainingly on the government's explanation that only by such restriction can American reenforcements be transported in ships that otherwise would carry grain for their bread, and that, in addition, this grain for French bread can come from America only by virtue of the actual saving of this grain by reduced consumption of bread by the American people.

"These extremely severe measures," said the French statement, "especially the seven ounces a day, have deeply impressed public opinion."

Men who are very poor or who do hard manual labor get about 21 ounces of bread a day; women who are very poor or who are employed on hard work get about 17 ounces a day; everyone else gets seven ounces, which is less than half of a pound loaf, or not more than four or five slices.

This bread is made of flour comprising all the elements of wheat except bran, with a heavy admixture of flour from other cereal grains, which is obligatory.

The price of bread is fixed by various government agencies all along the line between producer and consumer.

Baking of pastry or biscuits from flour that is fit for bread is prohibited. Confectioneries and other such shops are closed two days a week. Eating pastries in public is forbidden.

If Mothers Only Knew

NOW IT'S "KNITTING NERVES"

New York Physical Director Says It's Due to Improper Handling of Needles.

New York.—Now it's "knitting nerves" caused by concentration of mind and hand on the needles. Thousands of women in New York are afflicted, according to Dr. Louis R. Welzmiller, physical director of the West Side Y. M. C. A., who adds that his only patients that show symptoms of the new war-time complaint have been women. Dr. Welzmiller says that there is liable to be an epidemic of "knitting nerves" unless knitters learn to knit properly.

Dr. C. P. Christenson, president of the Psychological Research society, said: "The women are overworking themselves. Knitting has become a craze. Nerves cannot stand this strain."

"If my theory is sound and well founded we should look to the collapse of the war in June or July. I do not say if the German does not break us in the field between now and August. He won't break us in the field or starve us in our homes."

DIDN'T WANT TO BOO PAPA

Why Sacha Guitry, the French Playwright, Abandoned His Big Success.

Paris.—Sacha Guitry, whose amusing play "L'Illusionniste," has been one of the big successes of the season, suddenly decided to bring its run to a close. His excuse was that he wanted to go to the Riviera for the winter. His manager, when told of the unexpected decision, remonstrated with him.

"What's the idea?" he said. "Your play is running to packed houses. Why are you closing it up?"

"I want to go away for family reasons," replied the author-actor.

"Would it be indiscreet for me to ask what these reasons are?" insisted the manager.

"My father is going to put on a new play in one of the Boulevard theaters."

"Well—and what of it?"

"You ask me what of it? Why, simply that I am a dutiful son and I don't want to boo papa."

THIS SOUNDS A LITTLE FISHY

Fish, Perch and Trout Fail to Find Sammon in Kansas City Hotel.

Kansas City, Mo.—"Call for Mr. S-a-m-m-o-n; call for Mr. S-a-m-m-o-n!" called a lusty bellhop at the Hotel Meihlebach.

An elderly man walked up to the boy and said:

"My name's Perch, and, though they often call me Fish, I've never been called Sammon. Maybe that's for me."

"That's one for me, too," said another man who overheard the conversation. "My name's Fish."

Fish and Perch walked over to the clerk's desk and explained their troubles, and just then a man walked up and registered:

"J. D. Trout—St. Louis, Mo."

The three men agreed it must be a new-found aquarium, as they walked to the bar, where they got on "swimmingly."

HAIL AND FAREWELL

By Anne Higginson Spicer of The Vigilantes.

Dogs barking, dust a-whirling,
And drumthrobs in the street,
The braggart pipes are skirling
An old tune, wild and sweet.

By fours the lads come trooping
With heads erect and high.
I watch with heart a-drooping
To see the kilties by

And one of them is glancing
Up to this window, this.
His brave blue eyes are dancing
He tosses me a kiss

I send him back another,
I fling my hand out free,
"God keep you safely, brother,
Who go to die for me."

Grandmas' daguerreotypes,
They sit and knit, these modern maids
(Those old dames prototypes),
Catching the stitch and casting the thread,
Making some man their debtor,
Working as long as the daylight lasts,
Knitting a sweetheart sweater.

The needles flash with an amber glint
In the soft yarn, silver gray,
While the eyes above shine with a dream
We call "some far, sweet day"—
Round and round with "ribbing" that's taut,
To tick of the midnight clock,
Tangled hearts in the unwound skein,
Knitting a sweetheart sock.

Widening for shoulder or for chest,
"Purling" and wiping a tear,
Kissing the stitches above the heart,
With a prayer that God be near—
While the needles fly in the olive yarn,
Forging a soldier's fetters,
For they knit and knit, these patriot dames,
Sweetheart socks and sweaters!

Old Ladies' Home

The Board of Directors of the Old Ladies' Home will meet at 7:30 Friday evening at the home of Miss Clara Loomis, East Market street, instead of at the Home as usual on account of the weather.

Married At Parsonage

Children Cry FOR FLETCHER'S CASTORIA

PLAN SPRING GARDEN NOW

Agricultural Department Says There Will Be Need for Large Production in 1918.

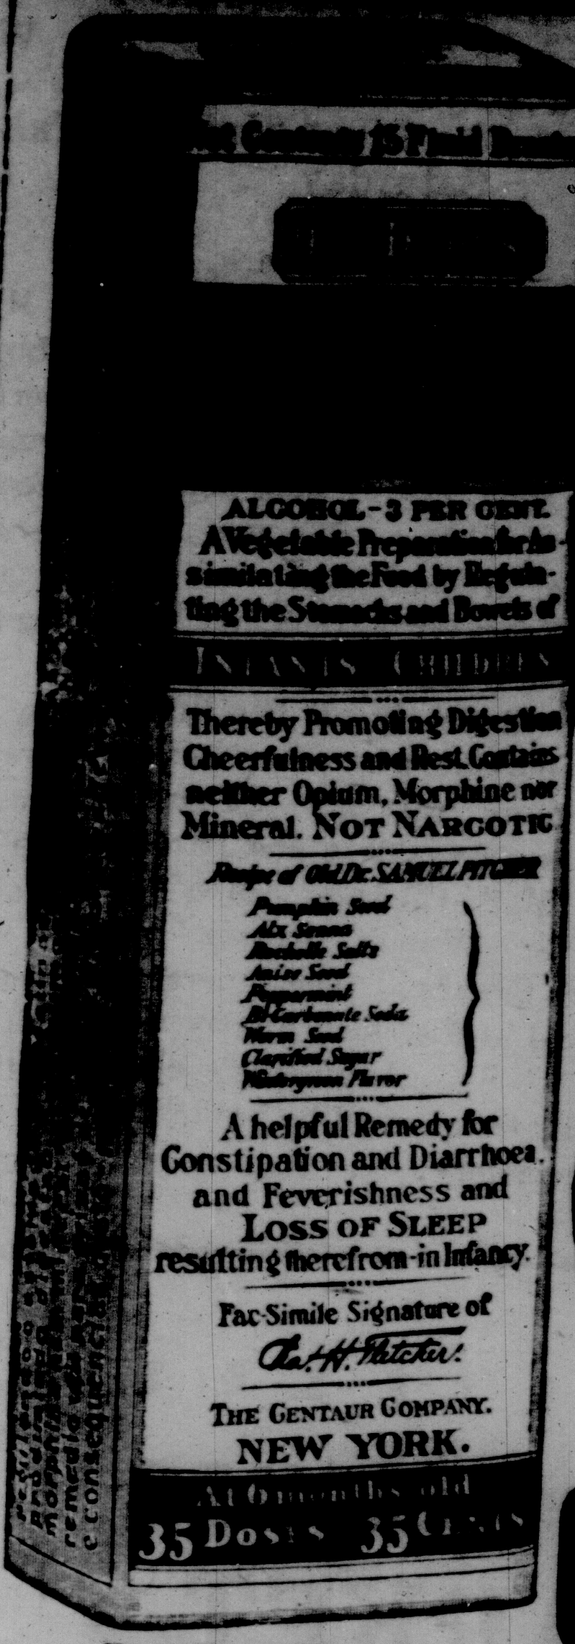
Washington.—Take thought of the spring garden now.

Notwithstanding the large production of vegetables last year and the great volume put into cans and jars for winter use, there is nothing to indicate that there will not be equal need for production and conservation in 1918, says the United States department of agriculture.

Many gardens failed last year because of poor soil or poor preparation or both.

This is the time in many sections to break and to fertilize. Then in the spring it will be easier to make the seedbed and the soil will contain plant food.

For the average householder it will be sufficient to prepare ground enough to produce the home supply for eating in the fresh state and for canning, drying or brining for use during the following winter. Producing vegetables for market should not be undertaken without full knowledge of horticulture and sufficient capital and equipment.



Exact Copy of Wrapper.

CHAIRMEN NAMED FOR SEED SURVEY

A. H. Stevens, county agricultural agent who has charge of the seed survey in four counties, has been organizing Scott county which has no county agent and a chairman has been named for each township: John W. Cooperider, Vienna township; Joel Chandler, exington township; N. E. Smith, Johnson township; Clinton Trulock, Jennings township; Thomas O. Murphy, Finley township.

ALIBI IS PROVED BY CARL ROBINETT

Carl Robinett, formerly of New Washington, who was arrested there recently while visiting relatives and was taken to Scottsburg to answer a charge of forgery, has been released. He offered an alibi which is said to have established that he was in Illinois at the time of the forgery. He was formerly a minister of the Methodist Episcopal Church and more recently of the Christian Church.

Thus far 1918 has sufferd from chilly feet.

Lets keep our hearts warm anyway.

HAPPINESS FOUND WITHIN

That happiness is found within this bank, not without, is attested by our happy and satisfied depositors and patrons. To this end we might submit an avalanche of facts attesting our superiority. A FIXED PURPOSE

To work, to plan, to manage well, and not lastly in importance —to save—this is thrift.

What shall it profit a man though he make good wages if he saves no part thereof? In this uncertain life of ours no one is assured of continued good health and prosperity. Thereore it behooves everyone to lay aside something even though that amount be ever so so small.

Hurrah for **THRIFT** in our land!

Get busy and **SAVE** ye sons of the brave

And have a few **DOLLARS ON HAND!**

Would Have Been Eighty Had She Lived Until Saturday

Mrs. Bridget Groark, who would have been eighty on Saturday, widow of John Groark, died at 7:30 Wednesday evening at the family residence at 802 Indiana avenue, having long been in failing health. She was a native of Ireland and was born there February 2, 1838, her maiden name being Bridget Needham. She lived nearly all her life in Jeffersonville where her husband died many years ago. There survive two daughters and two sons Mrs. Mary Clisham, Miss Anna Groark, Thomas Groark and James Groafk. The funeral will be held at 9 o'clock Friday morning at St. Augustine's church and interment will be in the Catholic cemetery.

[illegible] PAINS IN BACK WITH VIN HEPATICA

Takes Great Nature Medicine With Marvelous Results

Mr. E. W. English, of 111 E. Third avenue, fireman of Commerce Street Station, Knoxville, Tenn., says: "I can certainly recommend Vin epatica, the Universal System Purifier and Tonic to anyone suffering with pains in back as I did.

"I had terrible pains in both my back and side, hurting me dreadfully in stooping. Sometimes I thought I never could get up after I onee stooped over. Nothing would do me any good. I could not sleep well, had rheumatic pains in my joints and was all run down. I took Vin Hepatica on the recommendation of a friend and, after taking three bottles the pains have all gone. Have gained in weight and am doing fine.

The reason for this is that Vin Hepatica is not a patent nostrum, but a real medicine —a combination of eight of the finest herbal remedies known to medical science for just such troubles.

We strongly recommend Vin Hepatica. Come in, get a bottle and try it. It will do you good.

HOLD PHYSICAL EXAMINATIONS

Registrants In Class One Given Rating By Doctors

Dr. Davis L. Field, president of the Clark County Exemption Board, assisted by Dr. F. M. Wells and Dr. I. N. Ruddell, put in another busy day Thursday at the courthouse examining a number of registrants recently placed in class one. It was found possible to get through Wednesday the entire list of forty-eight summoned. These and the next list of forty-six were taken up Thursday. A thorough physical examination was made of every registrant even where there was a palpable physical defect, such as the loss of an arm.

Another list of tweny-one have been summoned for physical examination on February 5. These are some of those recently classified in class one and the entire number so placed will be called up for examination as quickly as possible. No further classifications were made yesterday.

GORGE WILL BREAK SOON

Starts Moving At Fern Grove; Stops Again

The gorge broke and began to move at Fern Grove at 10 o'clock Thursday morning but locked tight again. arlier reports told a similar story from Bethlehem and earlier still from Hanover. Rivermen believe the ice will be running out by night. The river has risen four feet in a little more than ewenty-four hours.

* * * *

Howards Are Lucky

James Howard, of Howards Shipyards, said his company has suffered only small loss at Cincinnati, to some cradles at the marine ways, a matter of a few hundred dollars. The company suffered no loss at Paducah or Mound City. They have nothing in the water here to be endangered.

CLARK COUNTY'S RANK IN TAX ASSESSMENTS

A table prepared by the State Board of Tax Commissioners shows that Clark county, with taxables assessed at $14,416,820 ranks sixty-second among the ninety-two counties of the state and is placed two notches higher than Floyd county which is assessed at only $13,548,995.

NOTICE

All Natives, Citizens, Denizens, or subjects of a Foreign Nation or Government, with which war has been declared, being Males of the age of 14 years and upward, who shall be within the United States and not actually naturalized as American Citizens as defined by Statute (U. S. Rev. Stat. 4067), are hereby notified that all such persons being in or a resident of the City of Jeffersonville, Clark County, Indiana, are required to appear at the office of the Superintendent of Police of said City on or between the 4th and 10th day of February 1918 to register as Alien Enemies. All others living or being in Clark County outside of the City of Jeffersonville will be required to appear before the Post Master from whose office they receive mail on the above dates for registration. All persons who have secured their first papers in naturalization are placed in the above class and must register.

WARNING is hereby given that any person classed as above who fails to comply with this order will immediately after the last day for registering be arrested and subjected to the penalties prescribed.

JAMES N. MASTERS,
Superintendent of Police for the City of Jeffersonville, Indiana.

TWO WILLS

Continued From Page 1

property goes at his death. Lizzie Miller, it is set forth, has had her share in provision made by her mother during her sickness. The other four daughters and William were given $150 each by their mother before this time and a mortgage against John Gruber was released, constituting his share of the estate. Mrs. Catherine Zaun was named executrix and qualified by filing bond of $700 with Elmer M. Frank and George C. Kopp sureties.

* * * *

Will Of Mrs. Walker

The will of Mrs. Nancy Walker, who died at her home at Sellersburg age eighty years, was probated in the office of Clerk Ernest E. Jacobs by James E. Taggart who on January 7, 1905, witnessed its execution with Moten Taylor. The will names William L. Beck executor and provides that Elizabeth Lister, a sister of the testatrix, should be full beneficiary. The sister died first bringing into effect a further provision that the six children of a brother, Charles Abraham Lister; the two children of Mrs. Sarah Kirkpatrick; the six children of Mrs. Martha Beck and the two children of Mrs. Susanna Nugent three sisters, should share equally in the property.

COUNTY COMMISSIONER

SAMUEL L. GRAY authorizes the News to announce his candidacy for the Democrat nomination for County Commissioner, Second District subject to the approval of the Democratic primary, May 7, 1918.

FIRST NAVEL ORANGE DYING

Parent Tree of California Citrus Orchards Planted 44 Years Ago, Seems Near End.

Riverside, Cal.—The original Washington navel orange tree, planted here forty-four years ago, producer of the first navel oranges grown in the United States and parent of millions of trees now growing in California, is believed to be dying.

Horticultural experts are studying the disease that threatens it in the hope of prolonging its life.

This tree came originally from some point inland from Bahia, Brazil. It was planted here in 1873 by Mrs. C. L. Tibbetts, who obtained it from the botanical gardens in Washington. Efforts to discover in Brazil other navel orange trees have so far failed.

NEW INVENTION OF MARINES

It's Called a "Bazooka" and Will Make You "Shake Your Feet" When in Operation.

Port Royal, S. C.—United States marines at this station have a new invention. It's called a "bazooka." No, it isn't a cannon, nor a flying machine, nor a machine gun, but when in operation it will make you "shake your feet." The "bazooka" is a simple contrivance consisting of but two pieces of gas pipe and a funnel, but its secret is the playing. It is said that the Marine Corps Jazz band is the only one in the world that boasts of a "bazooks."

About Constipation

Certain articles of diet tend to check movements of the bowels. The most common of thee are cheese, tea, and boiltd mik. On the other hand raw fruits, especially apples and bananas, also graham bread and whole wheat bread promote a movement of the bowels. When the bowels are badly constipated, however, the sure way is to take one or two of Chamberlain's Tablets immediately after supper.

Adv 1 month February

"But how could you, after all you've been through—how could you enlist? Why did you go in the navy?"

He looked at me for a second, with the slightly puzzled eyes of a child who is disappointed in a grown-up, and shamed me by the simplicity of his manner:

"Why, lady, we'se at war!"—New York Herald.

Not Too Old to Knit.

New York.—Mrs. Mary E. Capes, seventy-seven, who saw her country pass through the Civil war crisis, is knitting a sweater a week for Uncle Sam's boys now in service. Occasionally she adds a woolen helmet or two to her weekly task. "Merely my duty," she explained.

Name Your Ailment

The descriptions are so clear, plain and simpe, that anyone can name their aiment by reading Dr. Humphreys' Manual, a compact little Medical Volume that fits the side pocket, mailed free on request, address: Humphreys' Homeopathic Medicine Co., 156 William St., New York.

REFUGEES IN PARIS SHOW FINE SPIRIT

Help Themselves and Each Other Without Depending Upon Charity to Any Degree.

Paris finds itself pretty well crowded by the refugees from the North, especially the repatriated French from Alsace-Lorraine. Living is high in Paris at best, and conditions would be intolerable from the quantities of these unfortunates who continue to flock into the city, if they were all as helpless and needy as one would expect them to be. But such is the fine spirit in France now that even those who have had to flee from home and belongings are setting about to help themselves and each other without depending on charity any more than absolutely necessary.

The foreign news service of the woman's committee reports the existence of several co-operative kitchens in Paris, run entirely by refugees, where living expenses are reduced to a minimum by co-operative buying, management, etc. These kitchens are so run that one may either eat there, at the restaurant, or take the cooked food home.

At one of these kitchens, at 37 Rue d'Hauteville, a meeting of French and Belgians was held recently to consider the subject of lodgings, which is a very serious one. The majority of the refugees are women, and they give the most practical and meticulous care to these problems, and are very systematic about providing for themselves so that they will not be a burden upon the city to which they have fled.

DON'T

Don't think because you have taken many remedies in vain that your case is incurable.

You have not taken Hood's Sarsaparilla.

It has cured many seemingly hopeless cases of scrofula, catarrh rheumatism, kidney complaint, dyspepsia, and general debility—many cases that may have been worse than yours.

What this great medicine has done for others it can do for you.

Adv No. 6

BELGIANS EASILY OUTWIT GERMANS

Hugh Gibson Says Governor General Gets Suppressed Newspaper Regularly.

SPIRIT REMANS UNBROKEN

Stupid Proclamations of German Commanders Cause Much Amusement Among Belgians—Says Stories of Atrocities Are All True.

New York.—Up to the entrance of the United States in the war against Germany, approximately 85,000 Belgian civilians had been shot, taken into Germany as prisoners, or fined for offending the German authorities in Belgium in various ways, according to Hugh Gibson, former secretary of the American legation at Brussels and at present chief of the division of foreign intelligence of the state department, described with many poignant details the sufferings of the Belgians and the irrepressible and buoyant spirit of the people, which, he said, has not been quenched by the Teuton invaders.

The stupid proclamations of the German commandants posted daily and oftener on the buildings and boardings of the streets of Belgian cities caused the population considerable amusement at first, Mr. Gibson said, until it was announced from German headquarters that any one seen laughing around an official bulletin would be severely punished. Thereafter persons reading the bulletins would muffle themselves up in neckcloths that concealed half their faces and laugh to themselves.

All the Belgian newspapers were suppressed, and the population received its news from publications issued by the Germans, which told of their military victories, Mr. Gibson declared.

Papers Published Secretly.

"In spite of this fact, the Belgians, under the very nose of the governor general, published clandestine newspapers," he continued. "The governor general would get his copy regularly. Sometimes he found it under his plate, sometimes it came into his home with the vegetables, sometimes it was mailed to him in an official envelope of the German military headquarters itself, but, in spite of the fact that he offered 100,000 marks for information leading to the arrest of those concerned in publishing the paper, it availed him nothing, and when I left it was reported that every time he saw a copy of one of the Belgian secret newspapers he fell into a tantrum."

English and Dutch newspapers were smuggled into Belgium, Mr. Gibson continued, though a copy of a London paper sold as high as $30 at a time when the German authorities were doing their utmost to stop the smuggling. The papers smuggled in were rented by the hour and the owner would sit on a man's doorstep until he had finished it, when he would pass it on to receive another fee from the next customer. Mr. Gibson referred to Cardinal Mercier as "the splendid old figure whose work has undone the labors of many German army corps."

The stories of arson, pillage, murder, torture, and mutilation committed by the German invaders are all too true, according to Mr. Gibson. The true story, he said, will not be told until the Germans have been driven out of Belgium and northern France, when the population of the invaded districts will show the world German atrocities.

German Spies Poorly Paid.

The hordes of spies hired by the Germans are for the most part poor and ill paid, according to Mr. Gibson, who said that he had the honor of having one assigned to follow him constantly. The man would stand in front of Gibson's house in all sorts of weather and would scan the visitors. Frequently Mr. Gibson would inform the spy that he might leave, as he was not expecting any more visitors. Members of the secretary's staff would use the spy as a messenger, and would bestow liberal tips on him in return for fetching cigarettes and other articles.

10,000 GERMAN WAR FOODS

"Substitutes" Take Place of Butter, Eggs, Oil, Sugar, Fish, Sausage and Other Articles.

Amsterdam.—Ten thousand substitute food articles have been introduces into Germany since the war, according to a statement made in the Berlin newspapers by Professor Juckenack, a prominent German food expert.

He mentions as the most striking examples of successful substitution the following: Artificial butter, eggs, salad oil, honey, milk, coffee, tea, sugar, tobacco, fish, sausage, cheese and caviar.

Some of the substitutes are directly harmful, but others are so good that they will outlive the war and become regular articles of consumption, he asserts.

Chicks Hatched Below Zero.

Findlay, O.—Carl Smith, a farmer residing near Rawson, has a biddy that is no slacker. Recently the hen stole a nest, laid sufficient eggs to cover and then began her three weeks' setting period. In due time six little chicks were hatched out when the thermometer was 18 degrees below zero.

PERILS OF BIRD SLAUGHTER

National Association of Audubon Societies Points Out Danger of Relaxed Game Laws.

New York.—Grave perils threaten the agriculture of the United States through the indiscriminate slaughter of birds and of wild life, according to a statement issued by the directors of the National Association of Audubon Societies.

Mr. T. Gilbert Pearson, the secretary of the association, in making public resolutions adopted by the board of directors, said that unless every effort is made to enforce all game protection laws, the resulting unrestrained activities of gunners and pot-hunters would soon destroy the natural foes of insects and of rodent pests and of weeds.

"The crops will save the nation," says the official statement, "and the birds will help to save the crops." In this national crisis, America is looked upon by our allies as the granary of the world and the source of food which must sustain the fighters in the months of struggle yet to come. Therefore every effort should be made to increase the yield of our fields.

"This association points to the grave peril which attends the relaxing of the wise statutes enacted for conserving the wild life of this country, which is more and more recognized as an important economic factor."

Just now the lion is unable to find a lamb to lie down with.

HELP! SEND FUEL! PET CANARY HAS YOUNG ONES

(By International News Service.)

Detroit.—"Please, sir, oh, please, if you are humane, send coal to my home at once."

This was the agonized appeal of a woman over the telephone to the fuel administrator's office. The coal was produced and when pressed for explanation, the woman added:

"My pet canary is hatching young ones."

GETS HIS FURLOUGH

Private Rambo Sets Fine Example in Contentedness.

Letter to Parents Pleases Camp Commander and Private Is Given Leave of Absence.

Camp Meade, Md.—Private D. E. Rambo, Three Hundred Fifteenth infantry, was scared for the first time since he left his home to fight when he was ordered to appear before the "old man," as Brig. Gen. William J. Nicholson is known throughout the brigade.

"Private Rambo!" the General suddenly barked forth. "Did you write this letter?"

Private Rambo looked, cleared his voice of some of its huskiness and admitted he had. It read:

"Dear Mother and Father:

"Am writing you a letter to let you know I received your letter and also the box (Christmas box). You sent the box by express. Why don't you send them things by parcel post? Everything was fine; but the honey got warm and ran through the box. The cake was good, too. There's a fellow here I knew up in the city. He thinks your cake can't be beat. We had a fine time yesterday, entertainments and turkey dinner. Now all I want is to get home for a week and then I'm ready to go anywhere. Maw, I never felt better in all my life than I do now. This is sure a healthy life. Plenty of work and all you can eat. Now don't forget to send a cake once in a while, for a box of things like you sent makes life better. You can write and let me know when you send some more cake. With love for all, your son, D. E. Rambo."

"Well, Private Rambo," the general boomed again, "you can have that week's holiday home. I like boys who don't grumble all the time."

Red Cross Chapter

The Red Cross Chapter of this city are certainly doing things; Miss Sue May Whiteside and Miss Frances Williams who have charge of the work on surgical dressings yesterday shipped to the District warehouse in Indianapolis 2,820 surgical gauze dressings; from there they are sent direct to France. This represents only one months work and is the third shipment since October. At the same time Mrs. Ed Weber, superintendent of Hospital supplies shipped a box containing 569 pieces composed of traycloths, pillow cases, etc. They also sent to Norman Howard one of our boys, the first from our city to enlist who is now in Philadelphia socks and a sweater and to Ollie James another boy from our city the same. On Monday the Chapter sent to our boys at Camp Taylor, Louisville, socks and sweaters. The members of the Chapter keep open house Monday Tuesday, Wednesday and Thursday in the Postoffice building and solicit the help of every woman in Jeffersonville. It should be your p leasure to go and certainly your duty.

Entertains Twleve Needles

Mrs. Charles Rose entertained the members of the Twelve Needles Club yesterday afternoon at her home on East Maple street. This Club like so many other Clubs in the city are doing Red Cross work. Each lady had her knitting bag and was making either socks or sweaters for our boys in the National Army. Those present were Mesdames Weston W. Crooker, Frank Ellis, George Dunham, Will Morris; Dallas Lawrence; Albert Keller; Lawrence Zimmer; Margaret Wilson; Bert Willey; and Miss Minnie Bird.

Fidelity And Friendship

Mrs. Carroll Briscoe was hostess Wednesday evening at her home on Spring street for the Fidelity and Friendship Society at their regular meeting when the attendance was good considering the weather. During the evening a plate lunch was enjoyed. The raffle of the Red, White and Blue sofa pillow has been postponed for an indefinite time on account of weather conditions. A full attendance is urged at the meeting next week, the place to be decided later.

Personals

Mrs. Henry Peoples is quite ill of a complication of diseases at her home in Ohio Falls.

Mrs. Dora Aigner of Ohio Falls is on the sick list.

Lieut. Graham Frank who has been the guest of his parents Mr. and Mrs. H. Monroe Frank on East Chestnut street for the past fe wdays left today at noon for San Antonio, Texas where he is in the Aviation Corps.

Little Alice Mary Vaughn, six year old daughter of Mr. and Mrs Forest E. Vaughn, 617 East Chestnut street, remains very ill of typhoid fever.

Mrs. Homer Matthews and daughter Lucille of Huntington, West Virginia are spending the winter with Mr. and Mrs. Stephen Cutter at Lexington, Ky. They are all former Jeffersonville people. Mrs. Cutter was Mrs. James K. Marsh of West Riverside.

Members of the Christian Endeavor of St. Luke's church, this city attended a social entertainment giaen Wednesday night at the German Reformed church, Louisville for soldiers of the Reormed church stationed at Camp Taylor. On the programme was a saxaphone quartette from the 335 Infantry.

Mrs. Charles Scheer entertained the members of the EnSemble [illegible]day afternoon at [illegible] Chestnut street at a sewing party, when they made pillow cases and Hospital socks and knitted for the Red Cross Chapter.

Lieut. Longfellow is able to resume his duties at the Quartermaster's Depot after being confined to his rooms on East Front street with an attack of the grip.

Miss Janibel Spraks entertained he members of the Py-Kotte Club yesterday at six o'clock dinner at her home on East Maple street. On account of weather conditions only three members were present, Misses Annita Diefenbach of New Albany and Misses Eugenia Glossbrenner and Inez LeClare of this city.

The Board of Directors of the Orphans Home postponed their meeting which was to have taken place this week until next week.

Mrs. I. F. Whiteside and two daughters Misses Sue May and Katherine and Mrs. Whiteside's sister Miss Sue May Beatty who have been stopping for some time at the Seelbach Hotel, Louisville, move next week to the home of Dr. Henry E. Tuley which they have leased.

Little Madeline Hendrickson of Ohio Falls is suffering from an attack of rheumatism.

The Standard Bearers Missionary Society of Wall street M. E. church will meet Tuesday evening with Miss Clara Fawcett at her home on Wall street.

Dr. Ernest Buckley is very ill with an attack of appendicitis at his rooms in the Switow block.

Miss Helen Hydron will be hostess Friday evening at her home on East Chestnut street to her sewing club.

Charles E. Sweeney who is a member of the Navy is here from Brooklyn, N. Y. the guests of relatives. He is on a months furlough and today he will go to Elwood, Ind., for a visit with his parents.

Lieut. U. B. rawford of the Quartermaster's Depot is confined to his room on East Market street suffering with lagrippe.

Mrs. Joseph Veasey of East Maple street is able to be out after being confined to her home for three weeks on account of a fall on the ice covered pavement.

Mr. Henry Hendrickson a grocer in Ohio Falls has returned from Indianapolis where he attended the State Grocers onference.

Miss Irene Gillhooley returned Tuesday from a three weeks visit with Miss Margaret Leonard at Madison, Ind.

Not only does the winter wheat like lots of snow, but it is getting what it likes. Look out for the Billion Bushel Crop in 1918.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher.

In Use For Over 30 Years

The Kind You Have Always Bought

THE CENTAUR COMPANY, NEW YORK CITY.

If Great Britian, which with its colonies has put 7,000,000 men into the war, can find 450,000 more without crippling essential industries, this country, out of more than twice the population, can find 250,000 for shipbuilding—not to speak of a few to shovel coal.

Buy It Now

If you spend your money now for things you will use soon you benefit yourself. First, you put the money into circulation. Second, you get a better selection now. Third, you help the consumer later to buy more of your own product. Buy now for your own future benefit; buy now for the town's present benefit.

Children Cry FOR FLETCHER'S CASTORIA

ALL OF FAMILY SERVE

Father, Two Sons and Daughter Are Over Seas.

The family of William Piggott of Negaunee, Mich., probably can boast of being the only entire family in the United States in the service of the nation.

All members, including the father, two sons and a daughter, are now overseas in the service of Uncle Sam. William Piggott, the father, being an expert railroad man, is now in France with the railroad corps. His youngest son joined the regulars and was one of the first men to set foot on French soil.

The daughter then joined the American hospital service and is over in France now with the unit endowed by Miss Hill, daughter of the late James J. Hill.

The other son joined the National Guard and has reached France as a part of the Rainbow division.

To Build Orphan Home.

John F. Andrus, drug manufacturer and multimillionaire, of Yonkers, N. Y., has incorporated the Surdna company (Surdna is Andrus spelled backwards) for the purpose of erecting and maintaining a $500,000 orphans' home in Yonkers.

No one will grudge the army supply ships the first supply of coal. Fires for the fires.

Trotsky denounces the Kaiser but he shows little disposition so far o renounce him.

It is announced that, with proper conservation the fuel shortage will last all winter.

A German's word is juss as good as his pedge and no better.

The Germans are finding that they picked up a tar baby in the Russian Trotsky and can't let go.

ENLIGHTENED GERMANY

Soldiers Think They Are Fighting Against Napoleon.

Declaring that the ordinary Prussian soldier is educationally unfit for democratic government, Prof. Ulrich Kahrstedt contributes to the Amsterdam Kreuz Zeitung an article on his studies of the mentality of Teuton troops at the front.

"I have for months interrogated soldiers on all four fronts," he says, "and have found that among the Rhinelanders, Bavarians and Silesians 10 per cent of the men do not even know the correct title of the German emperor. In the summer of 1915, 5 per cent of our men did not know what powers were at war, while to this day 3 per cent are ignorant of the fact that we are at war with Japan.

"In practically every regiment I have found noncommissioned officers who thought we were fighting against the French Emperor Napoleon. Sixty per cent of our men do not know the name of their chief of staff, and 40 per cent are unable to answer the question whether the Carpathians lie on our eastern or western front."

After such splendid results with "Seventy-seven" send for a free copy of Dr. Humphreys' Manual of all diseases and dip in to its wealth of information on domestic practice, describing in simple language the maladies proper for a layman to treat. Humphreys' Homeo. Medicine Co., 156 William Street, New York.

Beautiful Bust and Shoulders

are possible if you will wear a scientifically constructed Bien Jolie Brassiere.

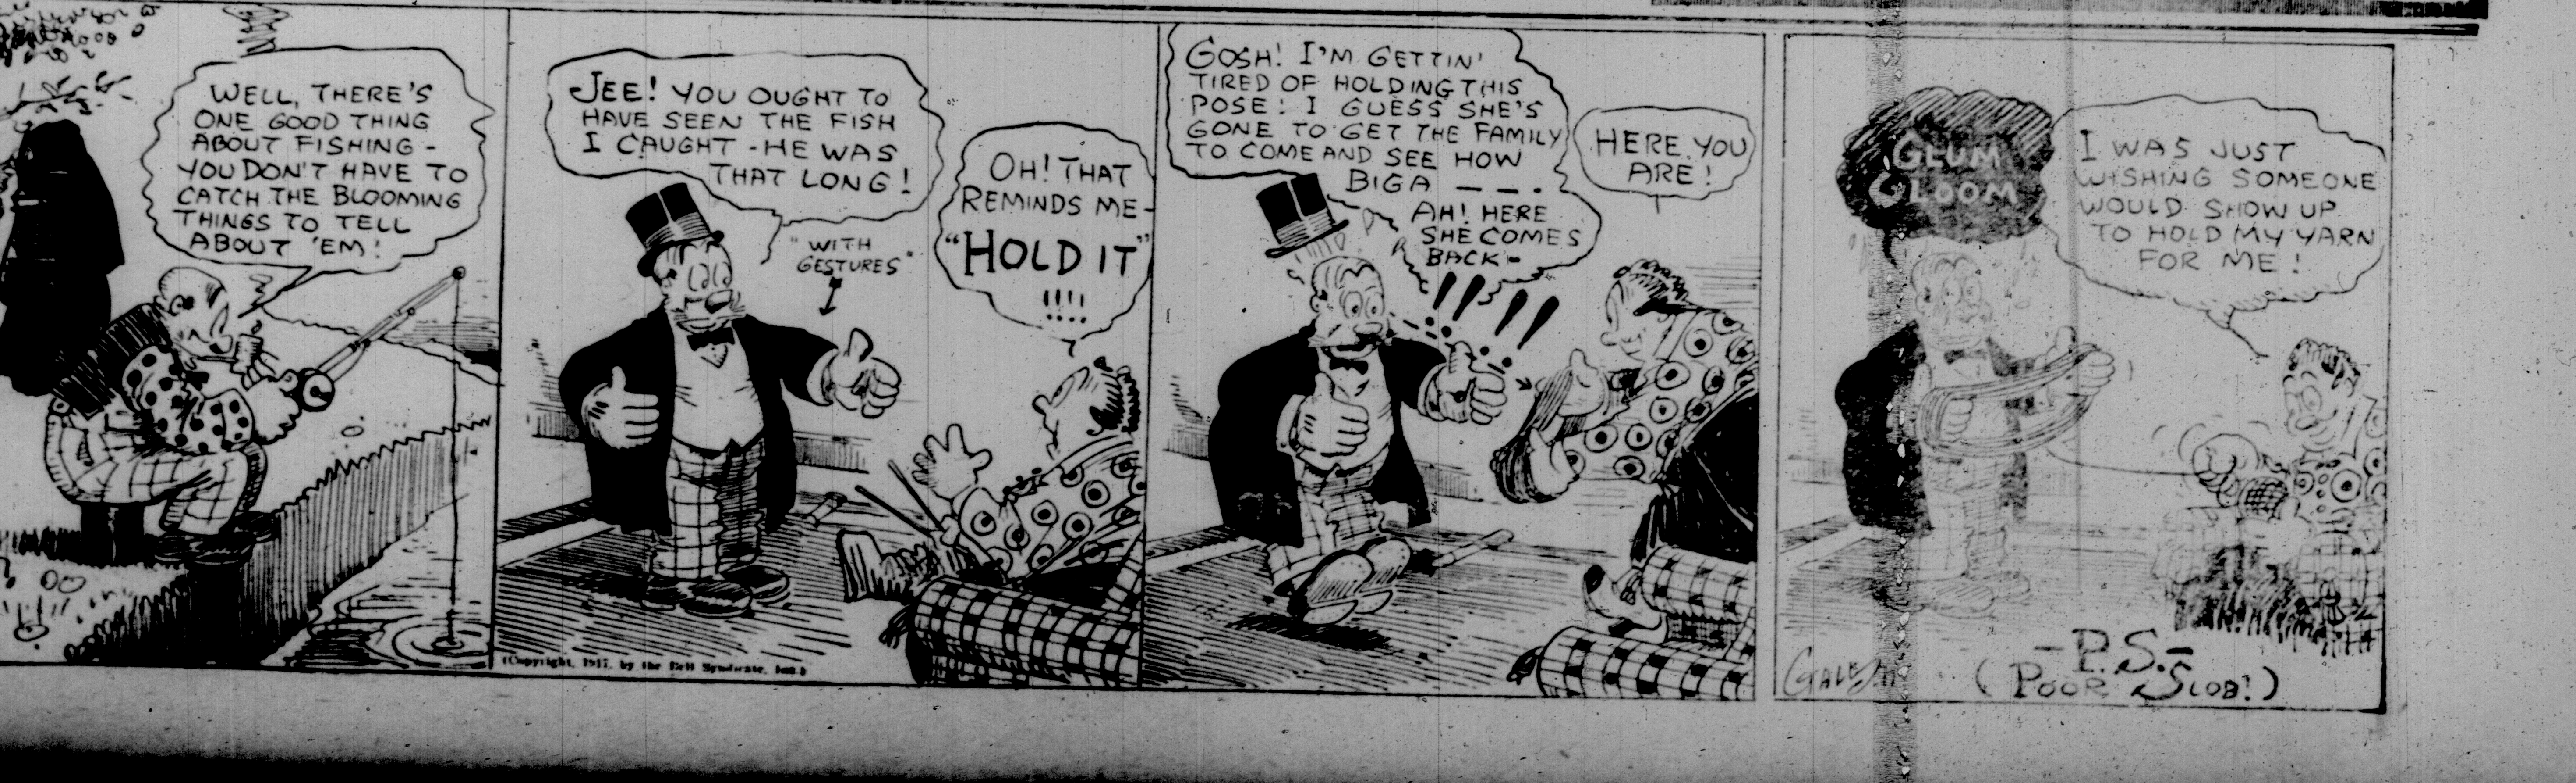
The dragging weight of an unconfined bust so stretches the supporting muscles that the contour of the figure is spoiled.

BIEN JOLIE (BE-AN JO-LEE) BRASSIERES put the bust back where it belongs, prevent the full bust from having the appearance of flabbiness, eliminate the danger of dragging muscles and confine the flesh of the shoulder giving a graceful line to the entire upper body.

They are the daintiest and most serviceable garments imaginable—come in all materials and styles: Cross Back, Hook Front, Surplice, Bandeau, etc. Boned with "Walohn," the rustless boning—permitting washing without removal.

Have your dealer show you Bien Jolie Brassieres, if not stocked, we will gladly send him, prepaid, samples to show you.

BENJAMIN & JOHNES, 51 Warren Street, Newark, N. J.



WELL, THERE'S ONE GOOD THING ABOUT FISHING - YOU DON'T HAVE TO CATCH THE BLOOMING THINGS TO TELL ABOUT 'EM!
JEE! YOU OUGHT TO HAVE SEEN THE FISH I CAUGHT - HE WAS THAT LONG!
"WITH GESTURES"
OH! THAT REMINDS ME - "HOLD IT" !!!!
(Copyright, 1917, by the Bell Syndicate, Inc.)
GOSH! I'M GETTIN' TIRED OF HOLDING THIS POSE! I GUESS SHE'S GONE TO GET THE FAMILY TO COME AND SEE HOW BIG A — —.
AH! HERE SHE COMES BACK -
!!! !!!
HERE YOU ARE!
GLUM GLOOM
I WAS JUST WISHING SOMEONE WOULD SHOW UP TO HOLD MY YARN FOR ME!
GALE
-P.S.- (POOR SLOB!)
